1 · Welcome — who this manual is for

This manual is for people outside PMC who use the platform: suppliers, buyers, partners and escrow institutions. Each part shows the screens you will use, with sample (DEMO) data.

Which part is for me?

You are	Sign in with	Read
A company that sells or bids on tenders	Supplier	Public website, Supplier portal, Marketplace
An organisation or person that buys	Buyer organisation	Buyer portal, Marketplace
A partner who refers suppliers	Partner	Partner portal
A bank holding deposits	Escrow institution	Escrow institutions (below)

Signing in, passwords and help

1. Open the site and click **Sign in**. Choose your card (Supplier, Buyer organisation, Partner, Escrow) and enter your email and password.
2. New? Use the register link under your card: **Register as a supplier** (about 15 minutes, KYC checked by PMC) or **Register as a buyer — free**.
3. Forgot your password? Click **Forgot password**, choose the same card and follow the emailed link.
4. Every screen has **Help** in the top bar with guides and videos; questions go to tenders@pmcmanagers.com.

Escrow institutions

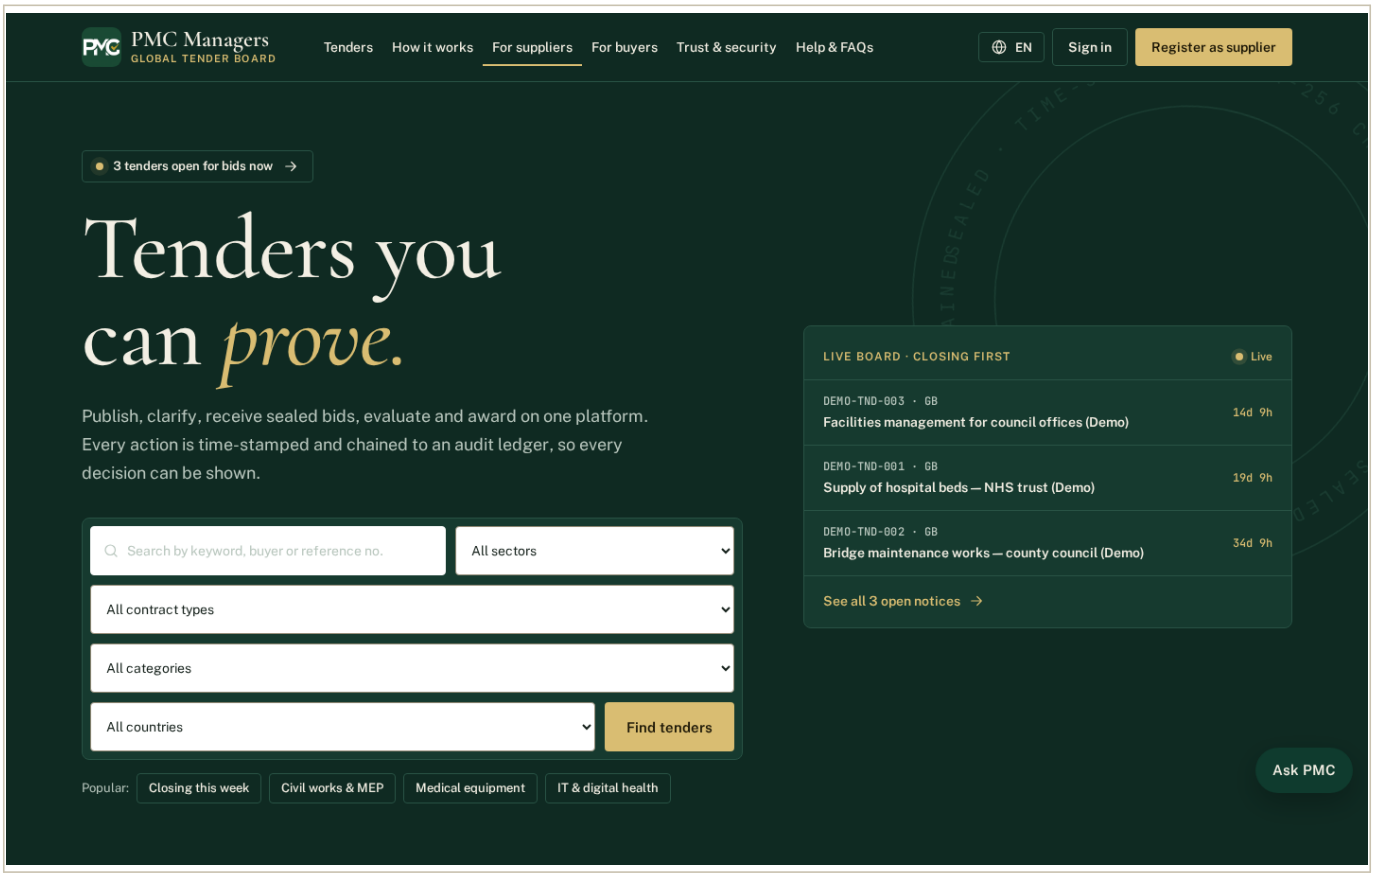

1. PMC invites the bank; the escrow officer signs in with the **Escrow institution** card.
2. Confirm earnest money deposits (EMD) held against bids.
3. Releases and payouts need two signatures; every action is recorded in the audit ledger.

Your data is private: other users never see your bids, orders, documents or team. Sealed tender bids are encrypted until the committee opens them.

2 · Public website — screen tour

Home page

Screen: /

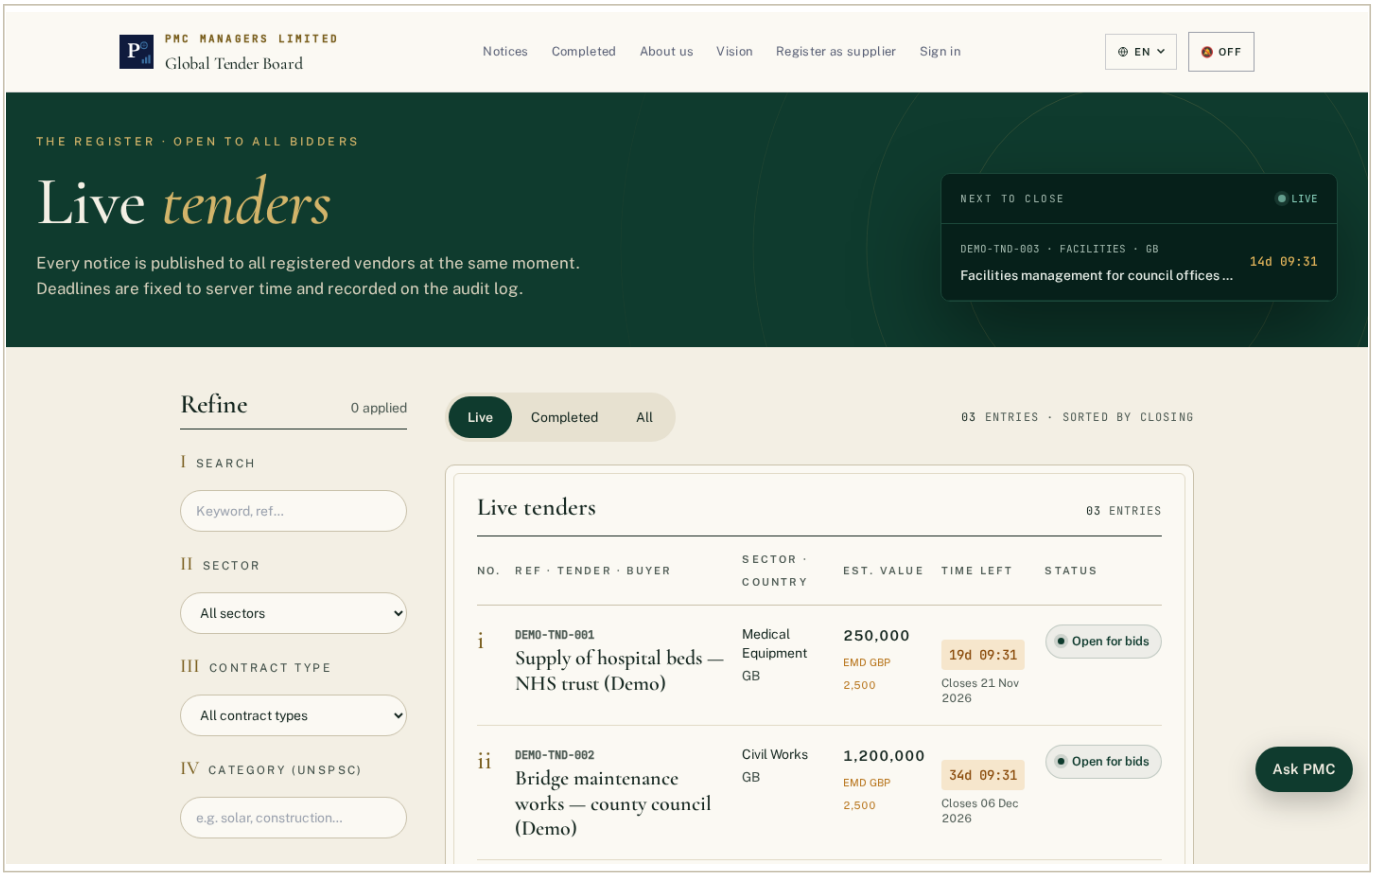

The public front door of PMC Managers. Visitors see what the platform does, the latest live tenders and the main ways in: Find tenders, Register as a supplier and Sign in.

Main actions

- Browse live tenders
- Register as a supplier
- Sign in to your portal

Public tender board

Screen: `/tenders`

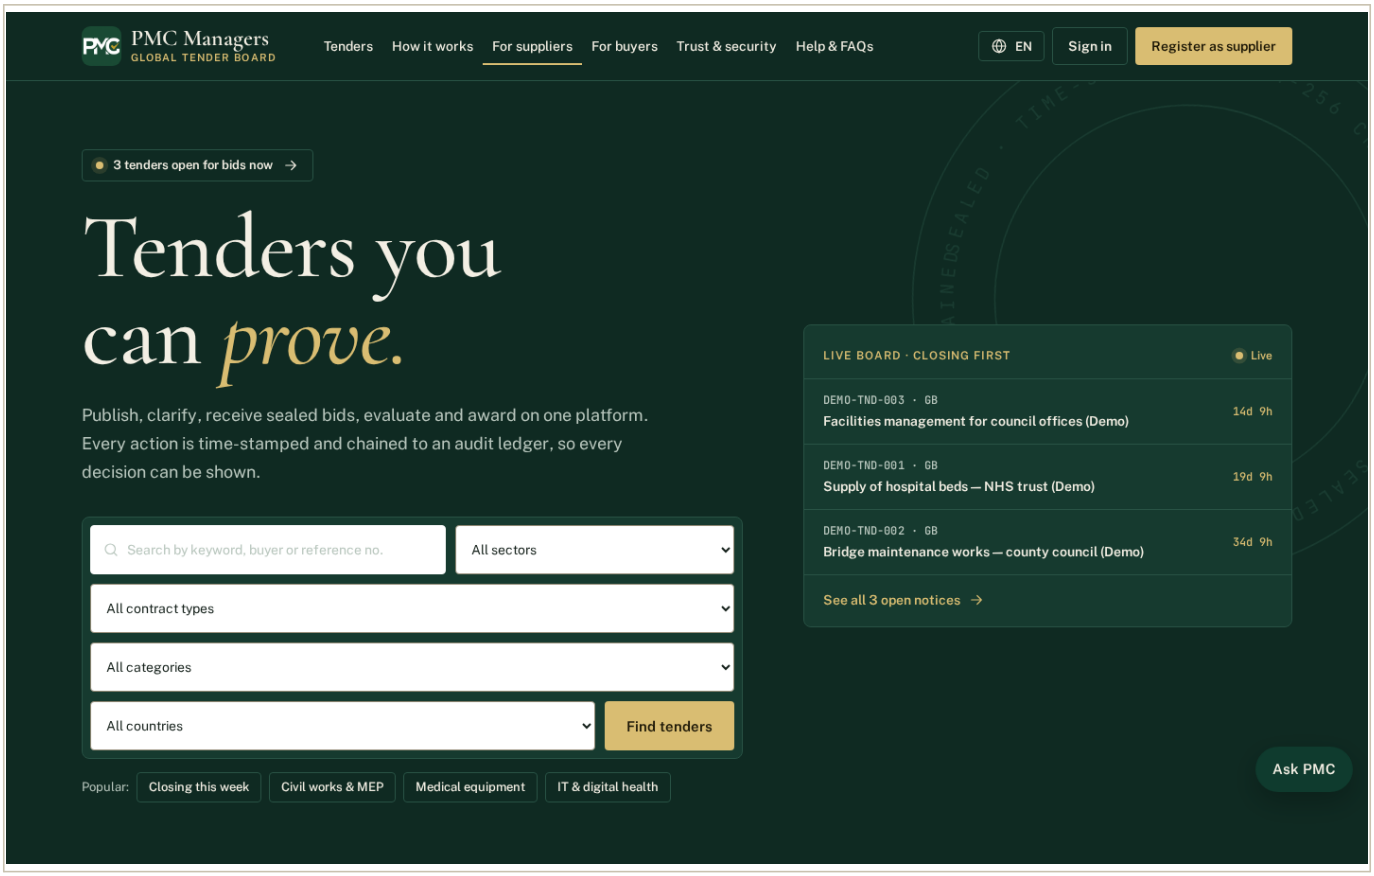

Every published tender with its reference, buyer, category, country and closing date. Anyone can search and filter; bidding needs a verified supplier account.

Main actions

- Search by keyword or reference
- Filter by category, country and closing date
- Open a tender to read the documents

Notice board

Screen: `/notices`

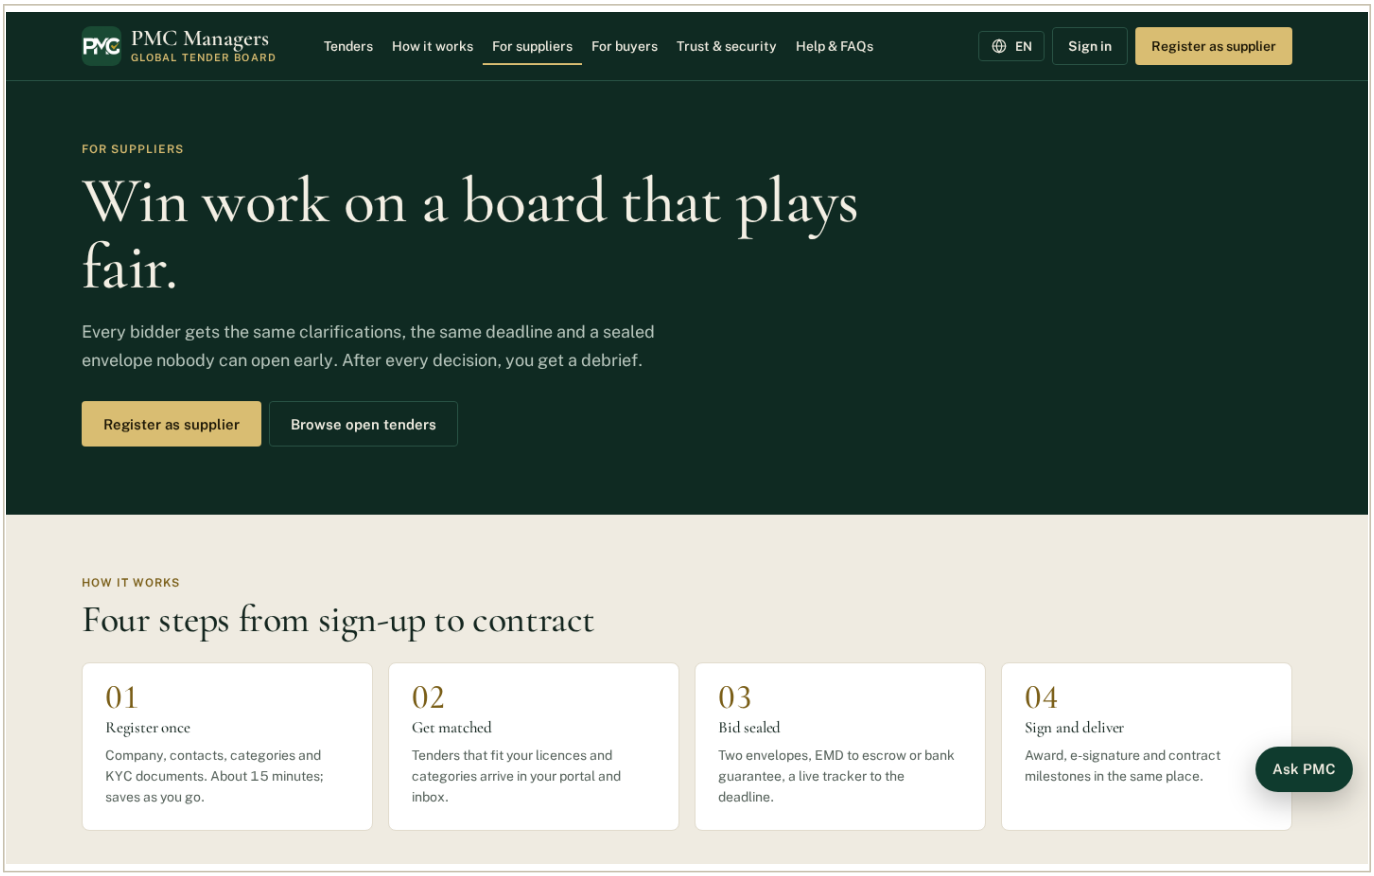

Published notices and corrigenda in date order, so suppliers can see changes to live tenders.

Main actions

- Read a notice
- See corrigenda issued against a tender

For suppliers

Screen: `/suppliers`

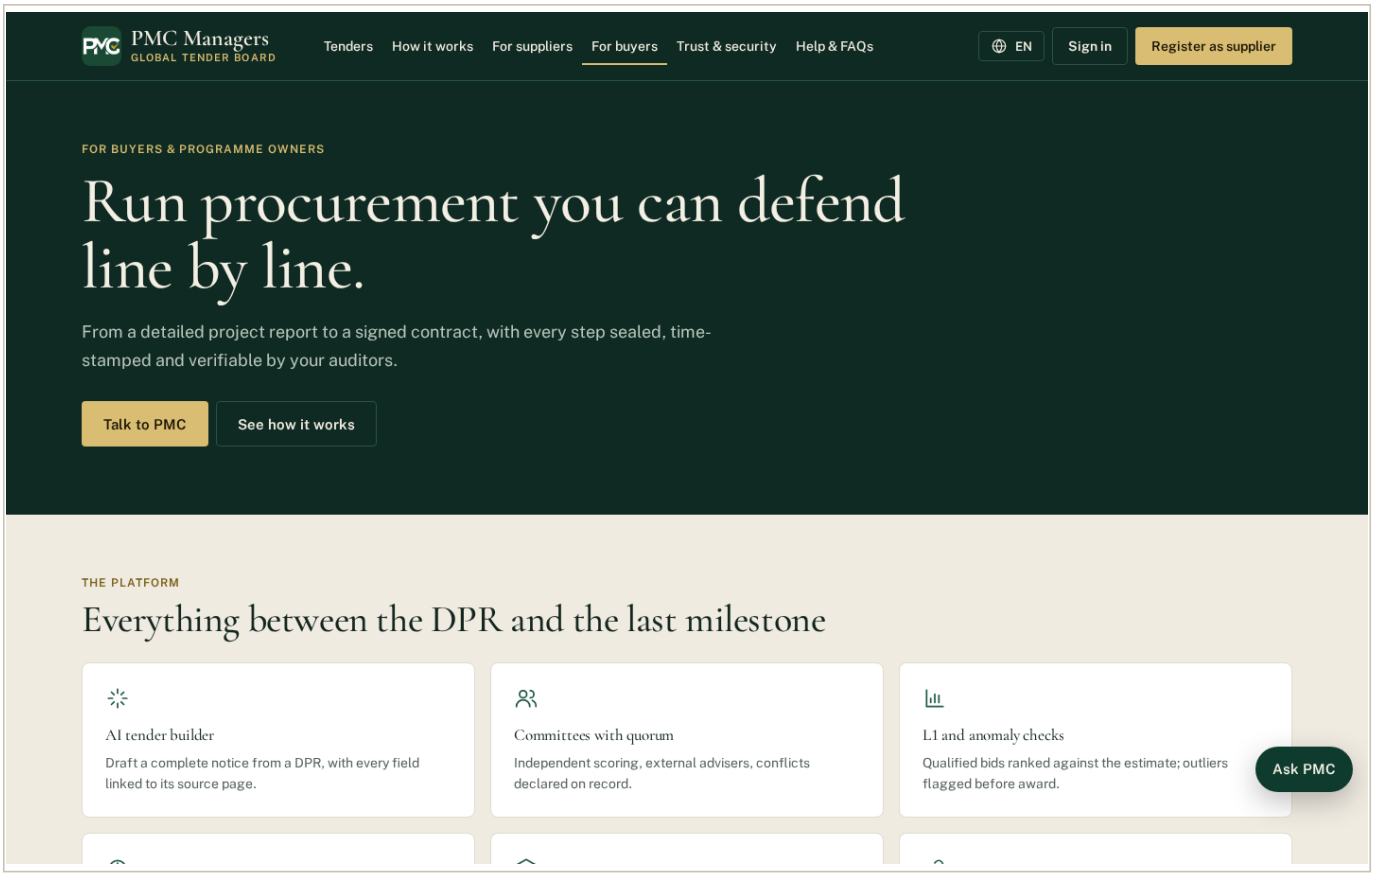

Explains how suppliers register, get verified, find tenders, bid with sealed envelopes and get paid through escrow.

Main actions

• Start supplier registration

For buyers

Screen: `/buyers`

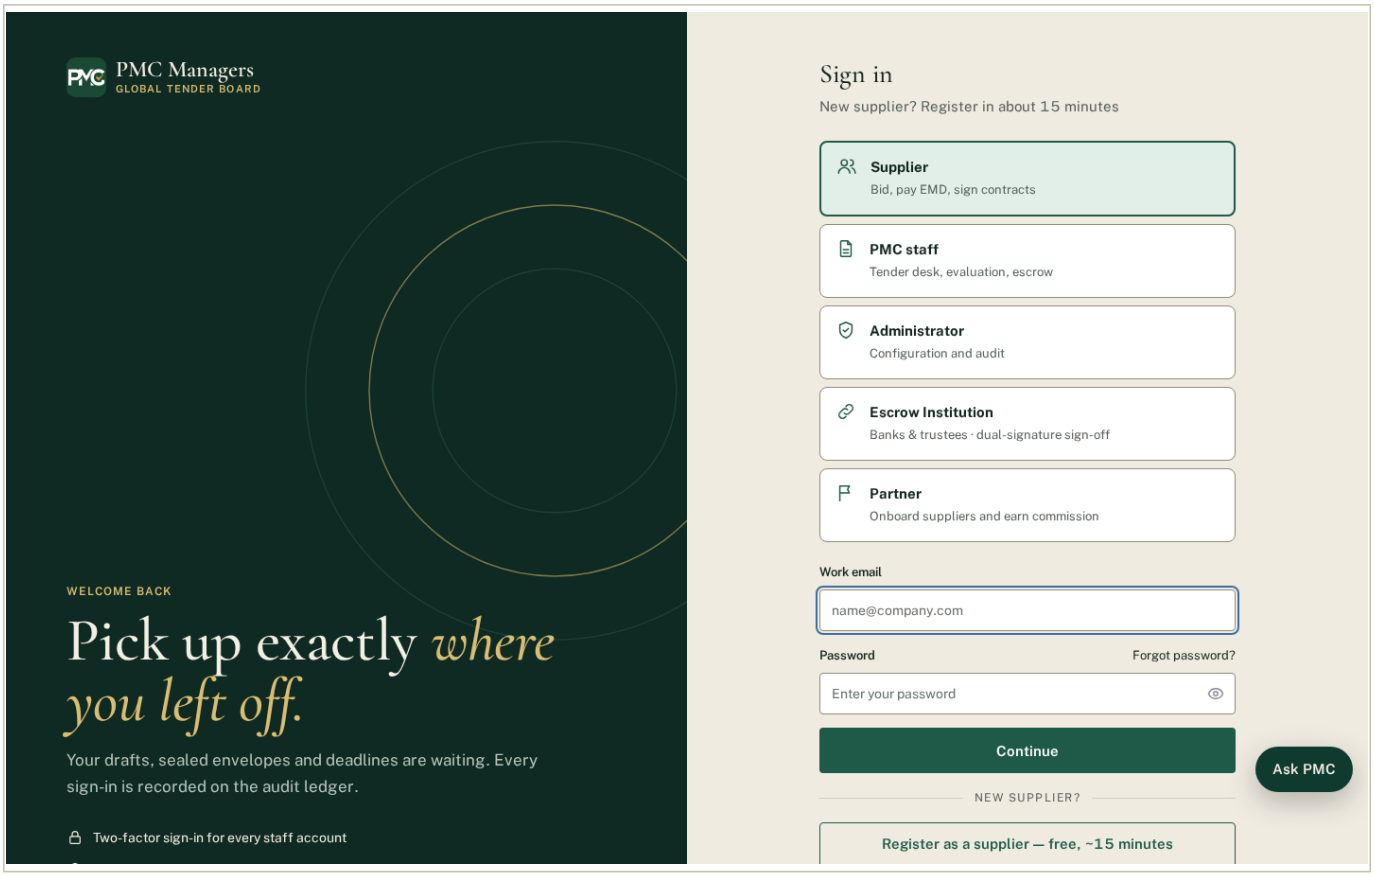

Explains how buyers publish tenders, set criteria, run sealed openings and award with a full audit trail.

Main actions

- Contact PMC to start buying

Sign in

Screen: `/login`

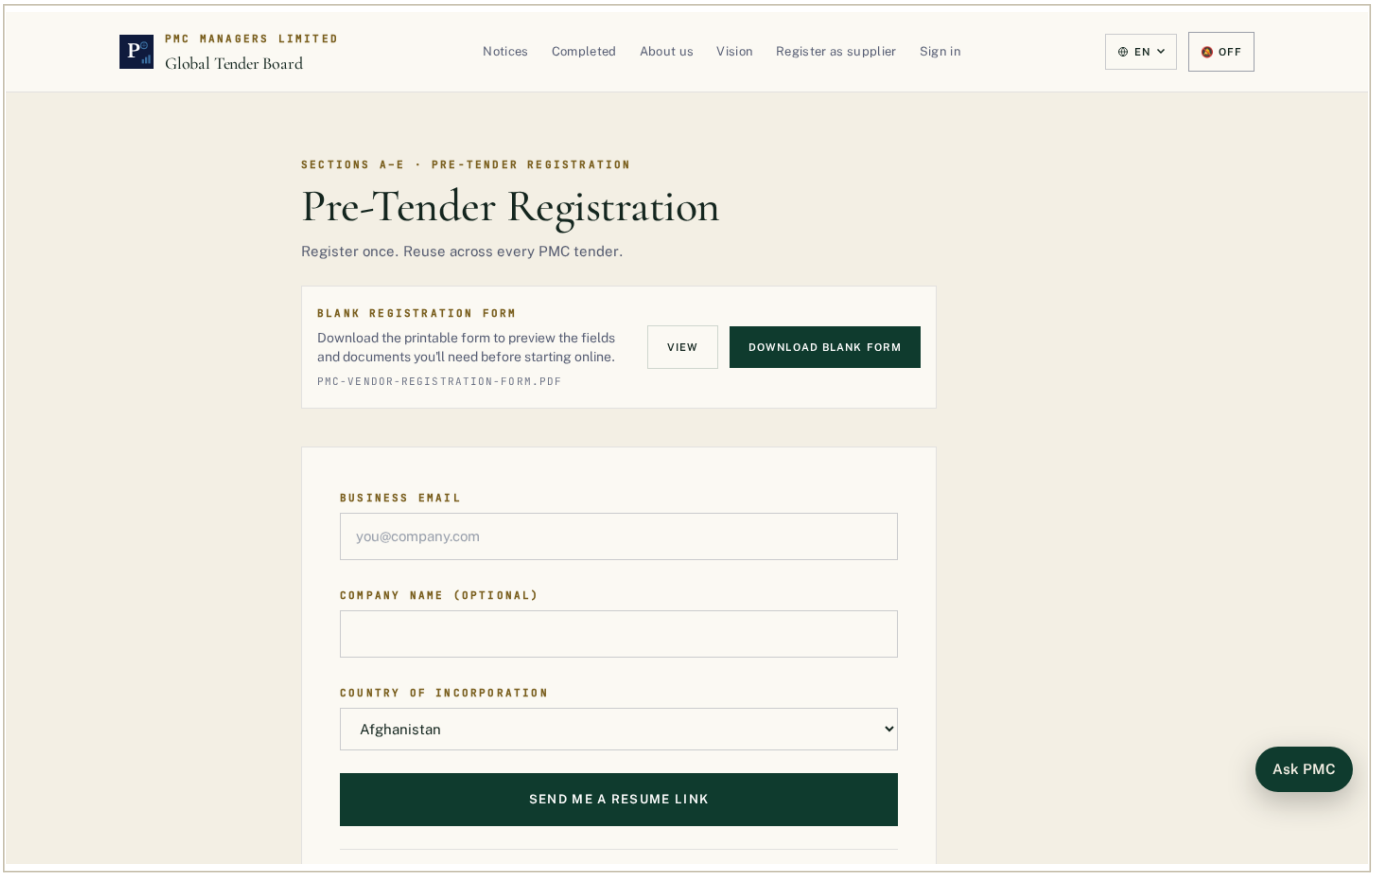

One sign-in page for every user. Choose your role first: Supplier, PMC staff, Admin, Escrow institution or Partner. Each role opens its own portal.

Main actions

- Choose your role
- Enter email and password
- Use Forgot password if needed

Supplier registration

Screen: `/register`

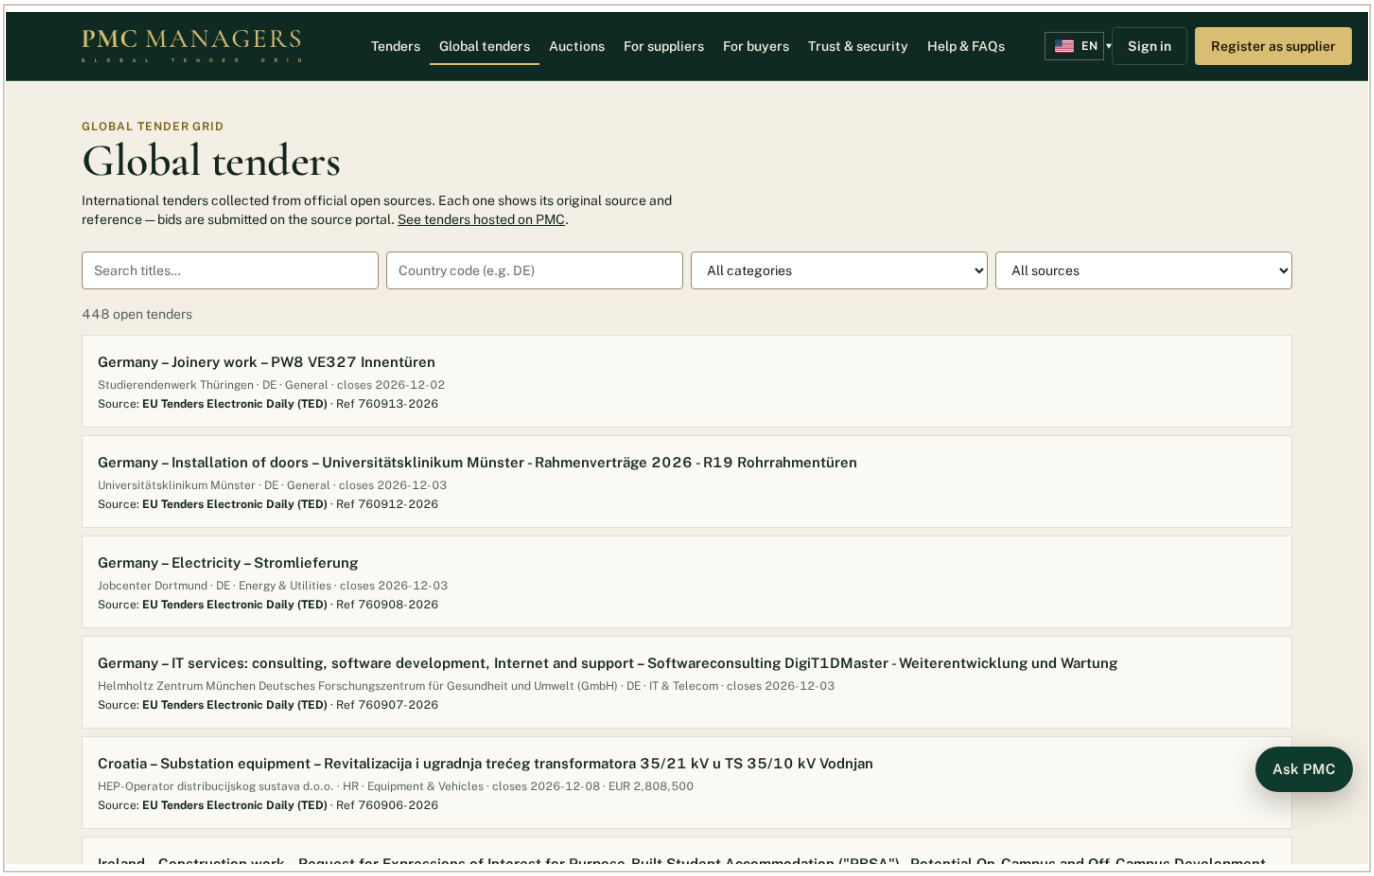

New suppliers create an account with company details. After email verification they complete KYC; PMC checks it before the supplier can bid.

Main actions

- Enter company and contact details
- Verify email
- Complete KYC in the supplier portal

Global tenders

Screen: `/tenders/global`

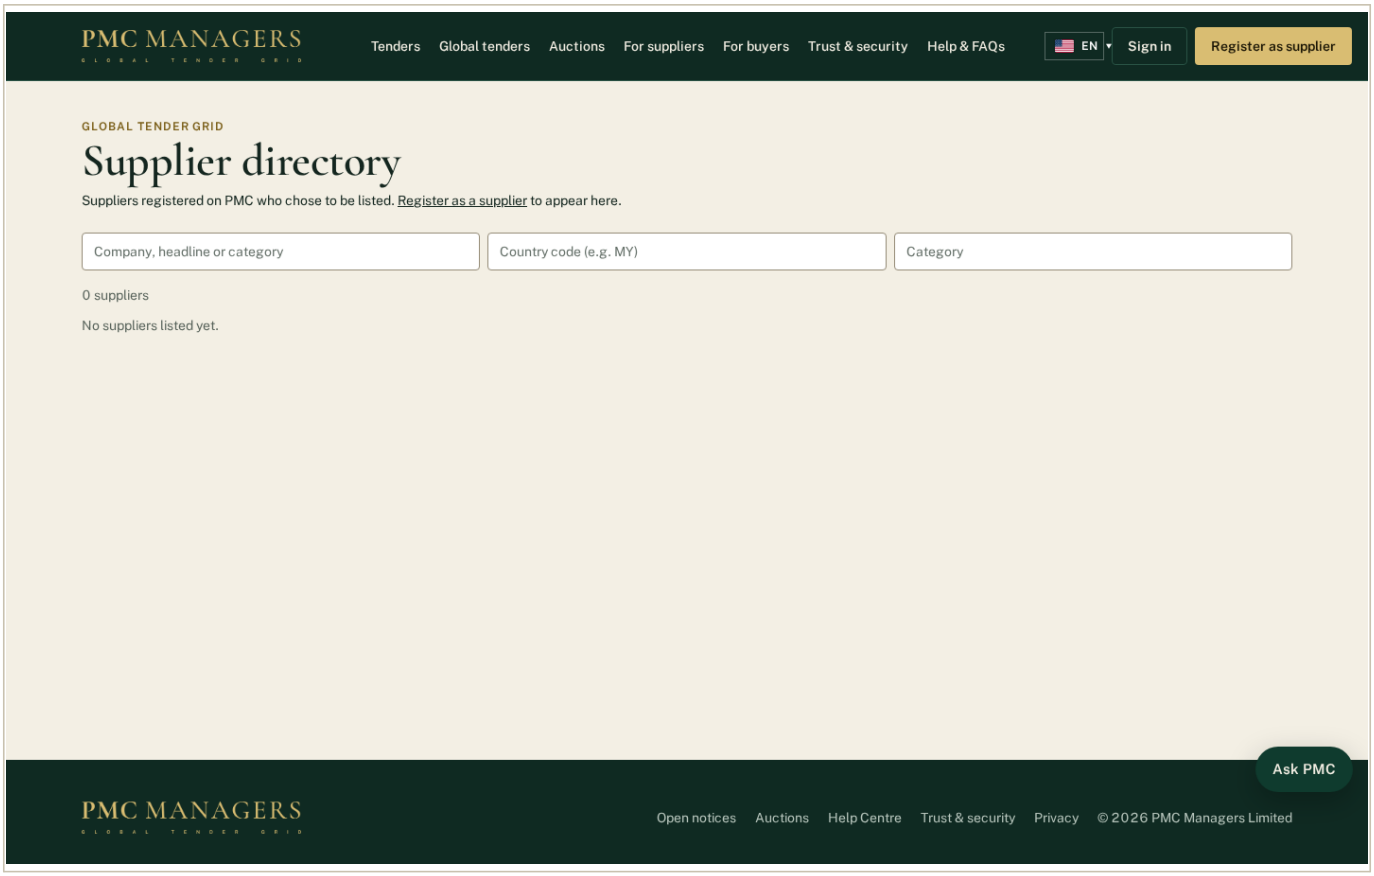

Tenders collected from official public sources (World Bank, EU TED) and licensed providers, with the original source and reference shown on each one.

Main actions

- Search by keyword, country or value
- Open the original source

Supplier directory

Screen: `/suppliers/directory`

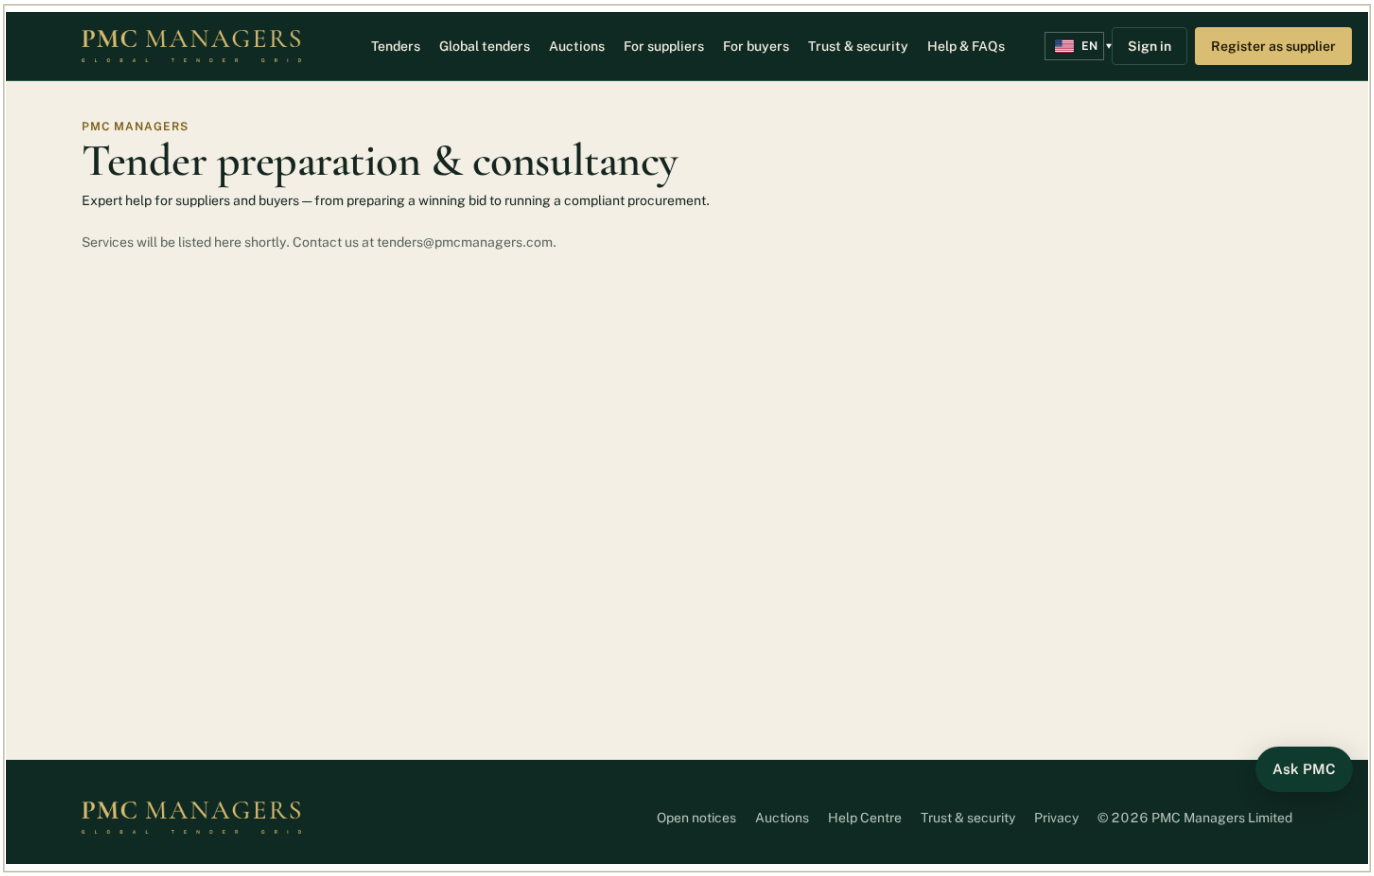

Public list of suppliers who chose to be listed. Featured suppliers appear first.

Main actions

- Search suppliers by category or country
- Open a supplier profile

Consultancy services

Screen: `/consultancy`

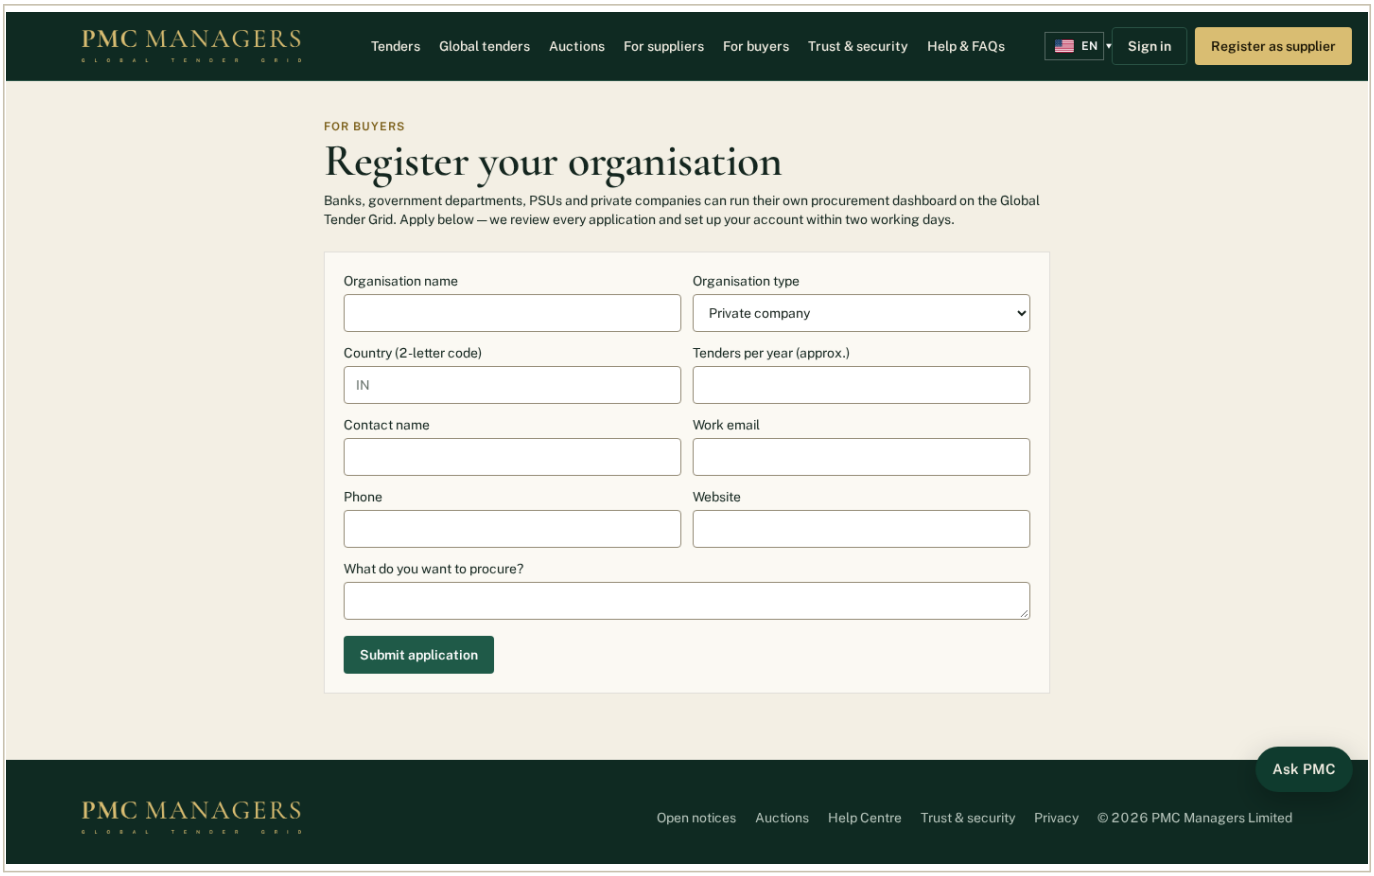

Tender preparation and consultancy services sold by PMC Managers.

Main actions

- Read the services
- Send a request

Buyer application

Screen: `/buyers/apply`

Banks, government departments, PSUs and companies apply to publish their own tenders.

Main actions

- Fill in the organisation details
- Submit the application for PMC approval

Language pages

Screen: `/fr`

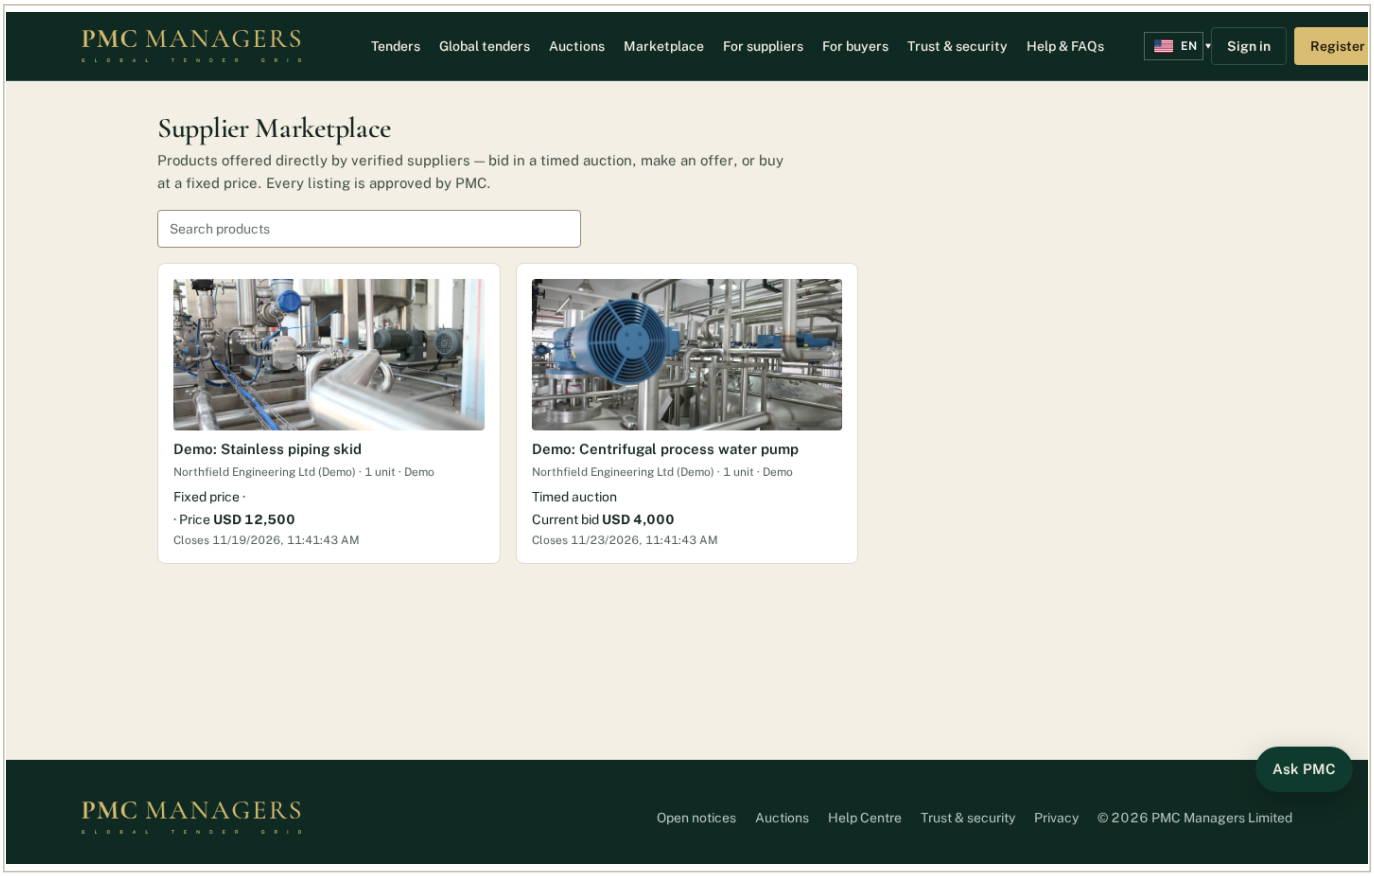

Every public page has its own address in each of the 14 languages, for example /fr for French. The flag button changes the language on any page.

Main actions

- Pick a language from the flag button
- Share a link in that language

Marketplace

Screen: `/market`

Products offered directly by approved suppliers and checked by PMC, sold by timed auction, best offer or fixed price. Verified buyers bid, offer or buy; each product shows its photos and spec sheets.

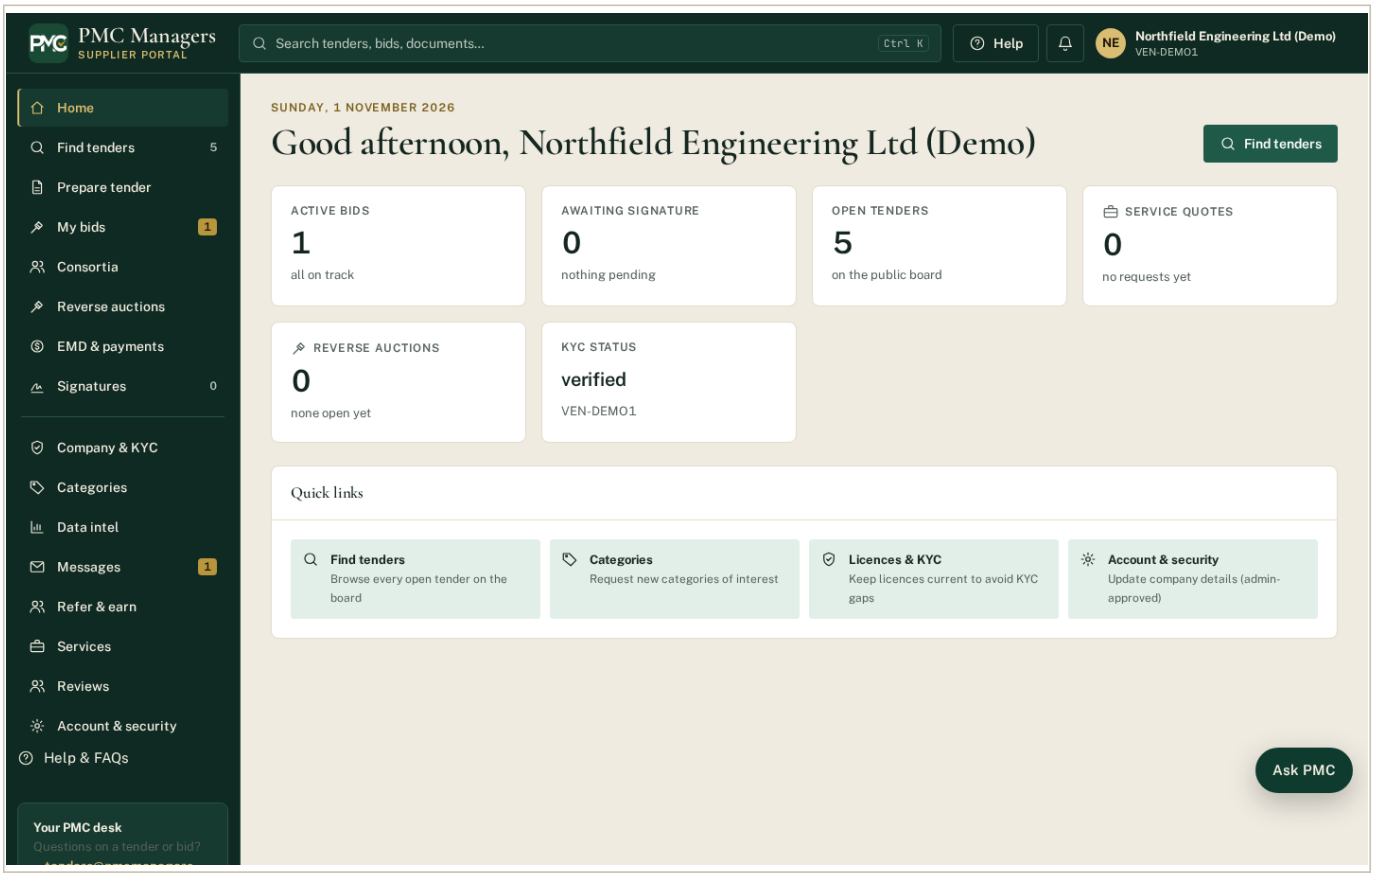

Main actions

- Search and open a product
- Bid, make an offer or buy now
- Pay from My bids & purchases

3 · Supplier portal — screen tour

Supplier dashboard

Screen: `/vendor`

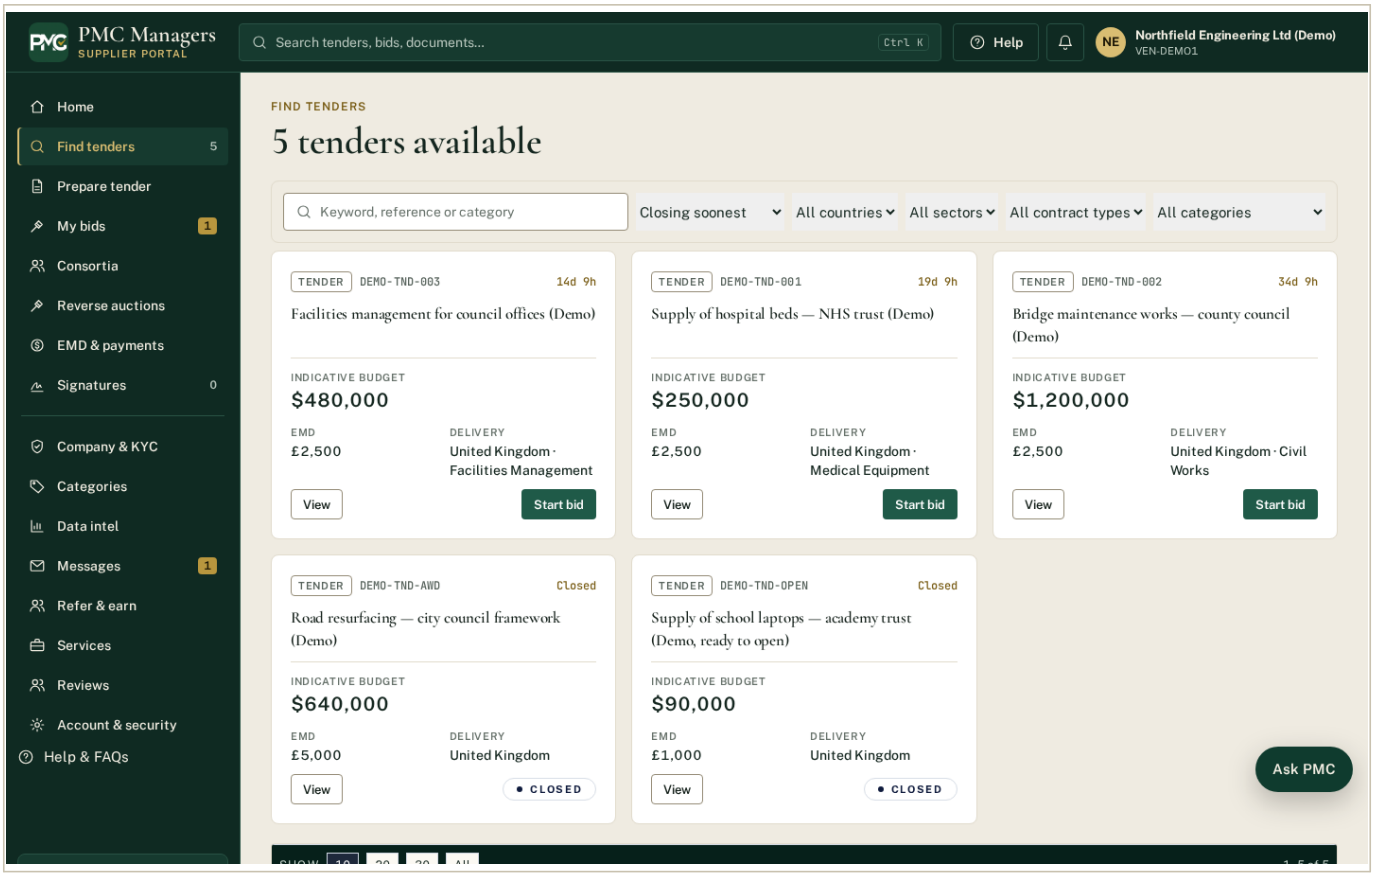

The supplier's home: matching tenders, open bids, notices and messages.

Main actions

- Find tenders
- Continue a bid

Tenders for you

Screen: `/vendor/tenders`

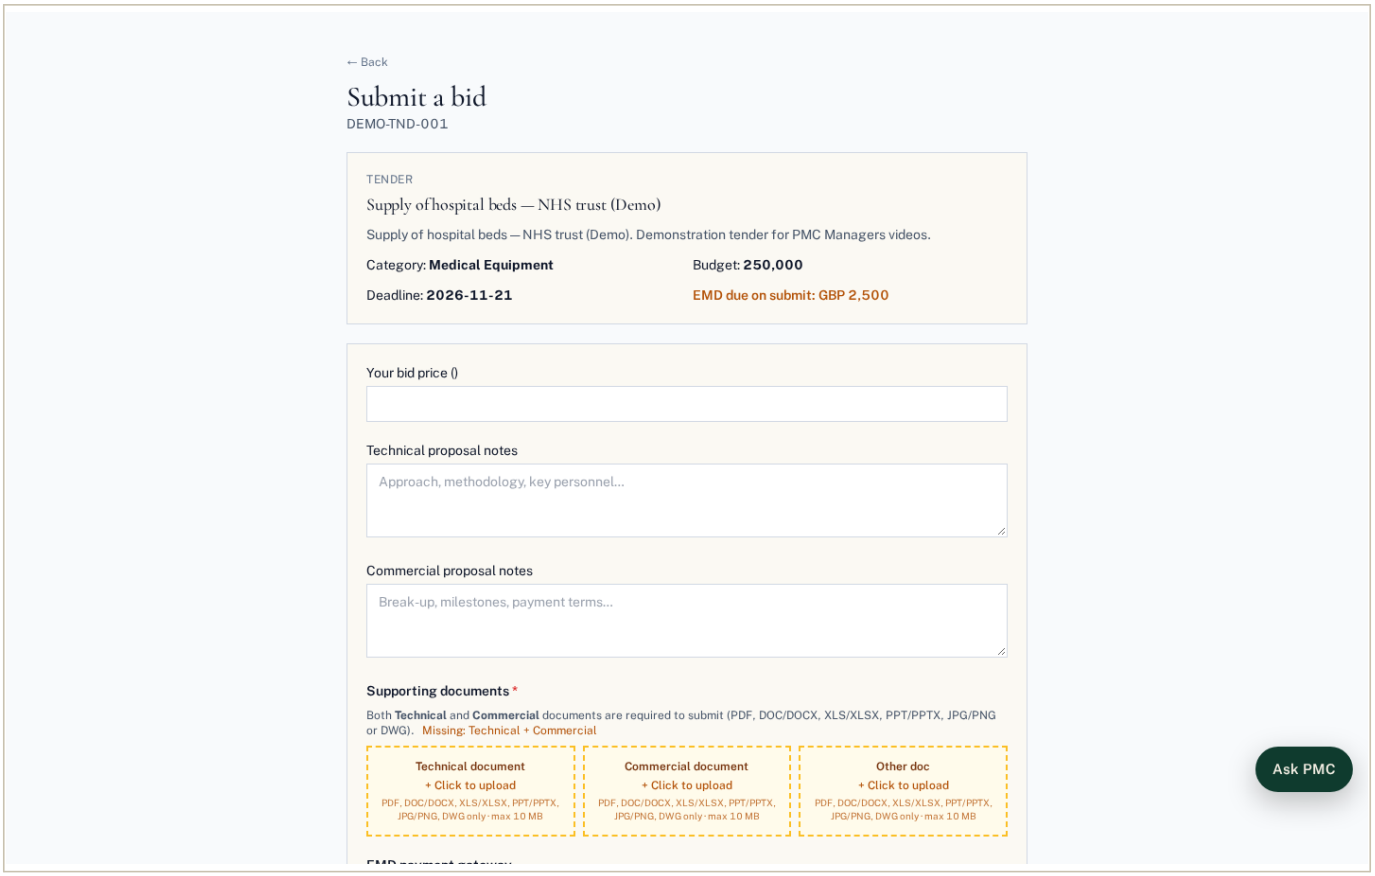

Tenders matching the supplier's categories, with closing dates.

Main actions

- Open a tender
- Start a bid

Prepare a bid

Screen: `/vendor/bid/new/DEMO-TND-001`

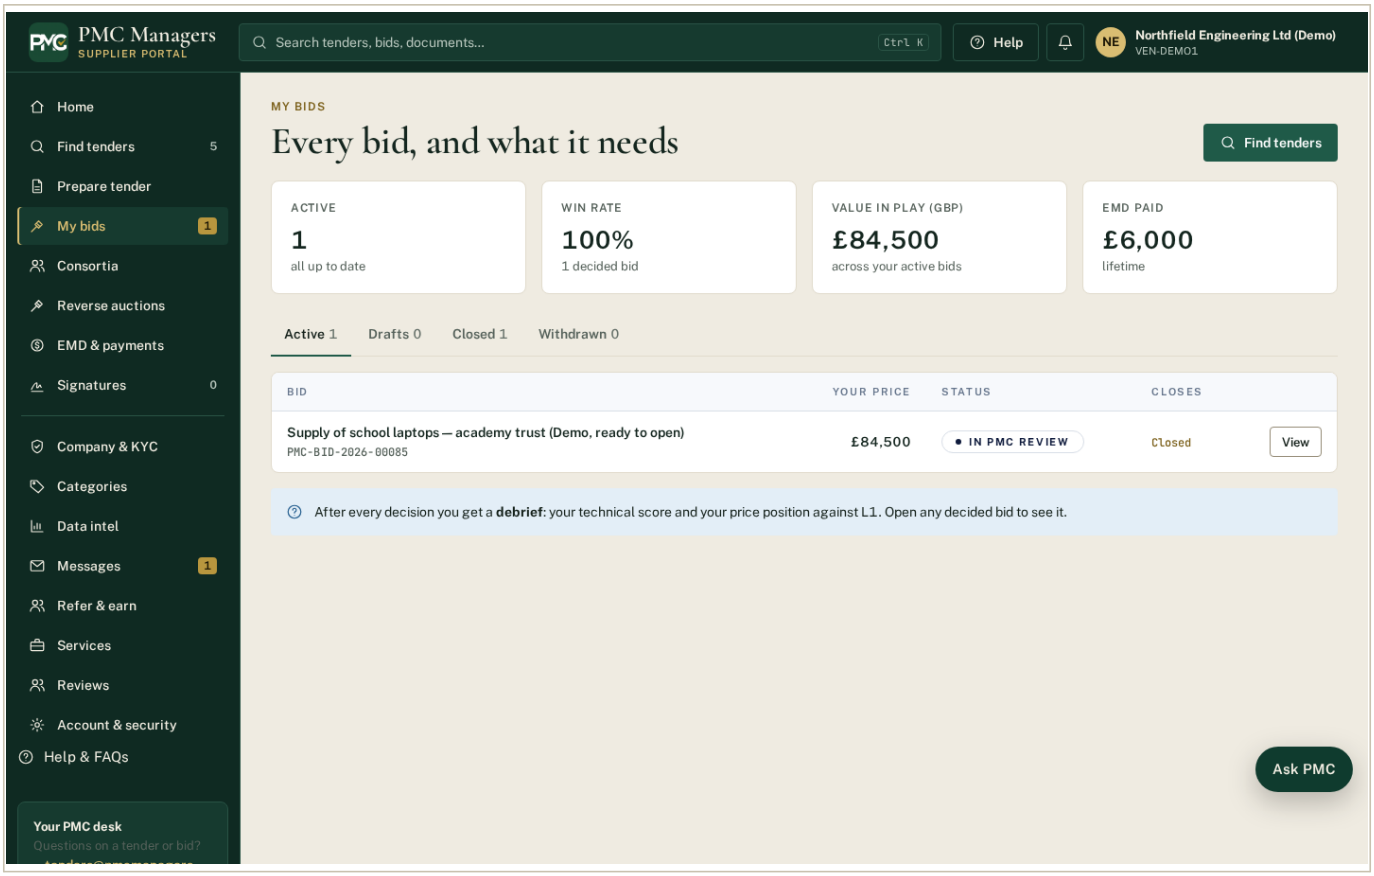

The bid form: technical documents, the Criteria section (each item marked Mandatory or Optional, with the rule for optional criteria), proofs, price and EMD. Everything is sealed when submitted.

Main actions

- Answer every mandatory criterion and attach proofs
- Enter price
- Submit (sealed)

My bids

Screen: `/vendor/mybids`

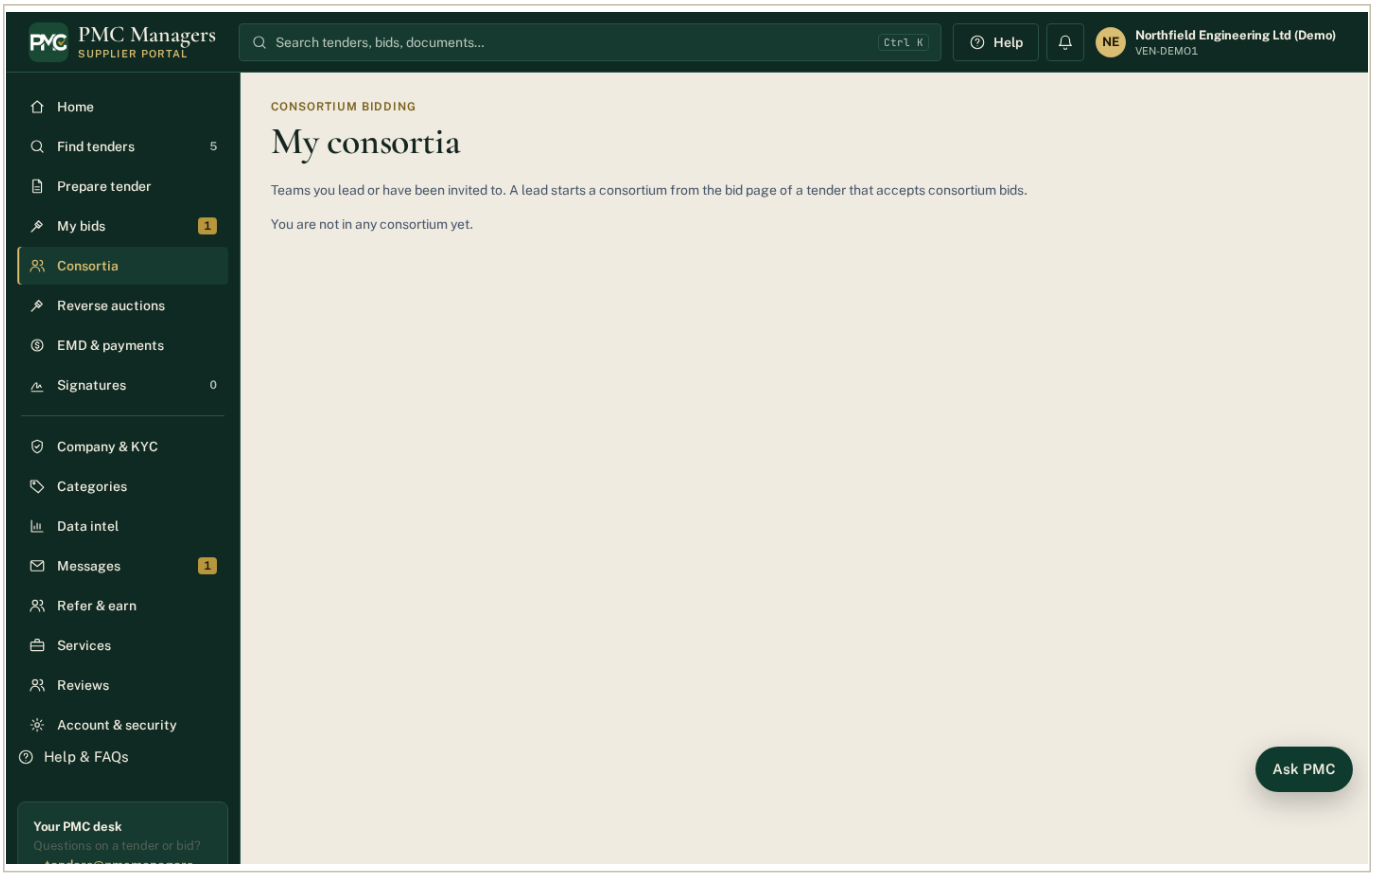

All of the supplier's bids with status, criteria result notices and award documents.

Main actions

- Open a bid workspace
- Read your result notice

Consortia

Screen: `/vendor/consortia`

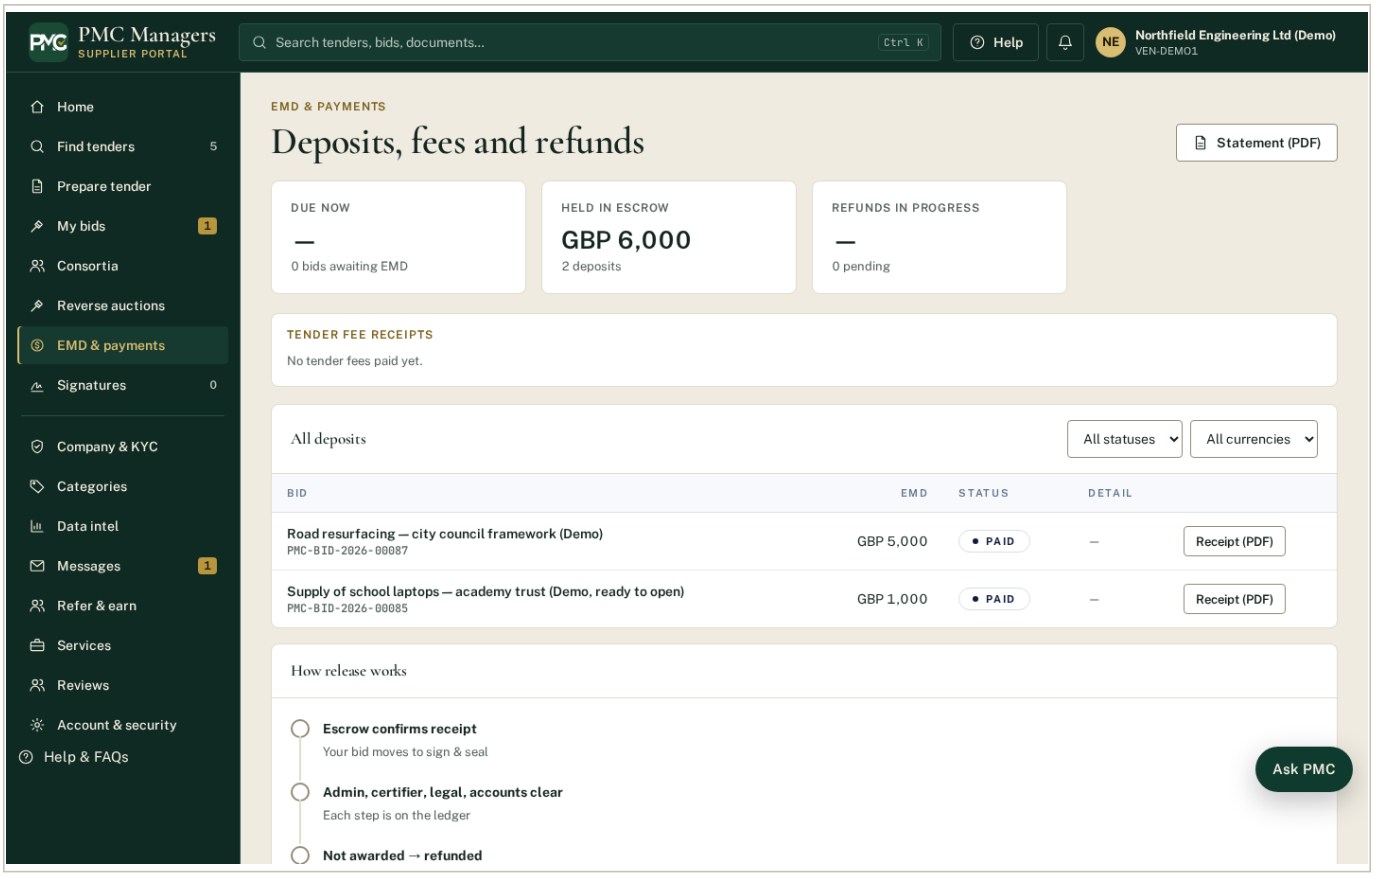

Consortium invitations, teams, shares, agreement signatures and member payouts.

Main actions

- Accept / decline an invitation
- Sign the agreement
- See your payout and bank reference

EMD & payments

Screen: `/vendor/emd`

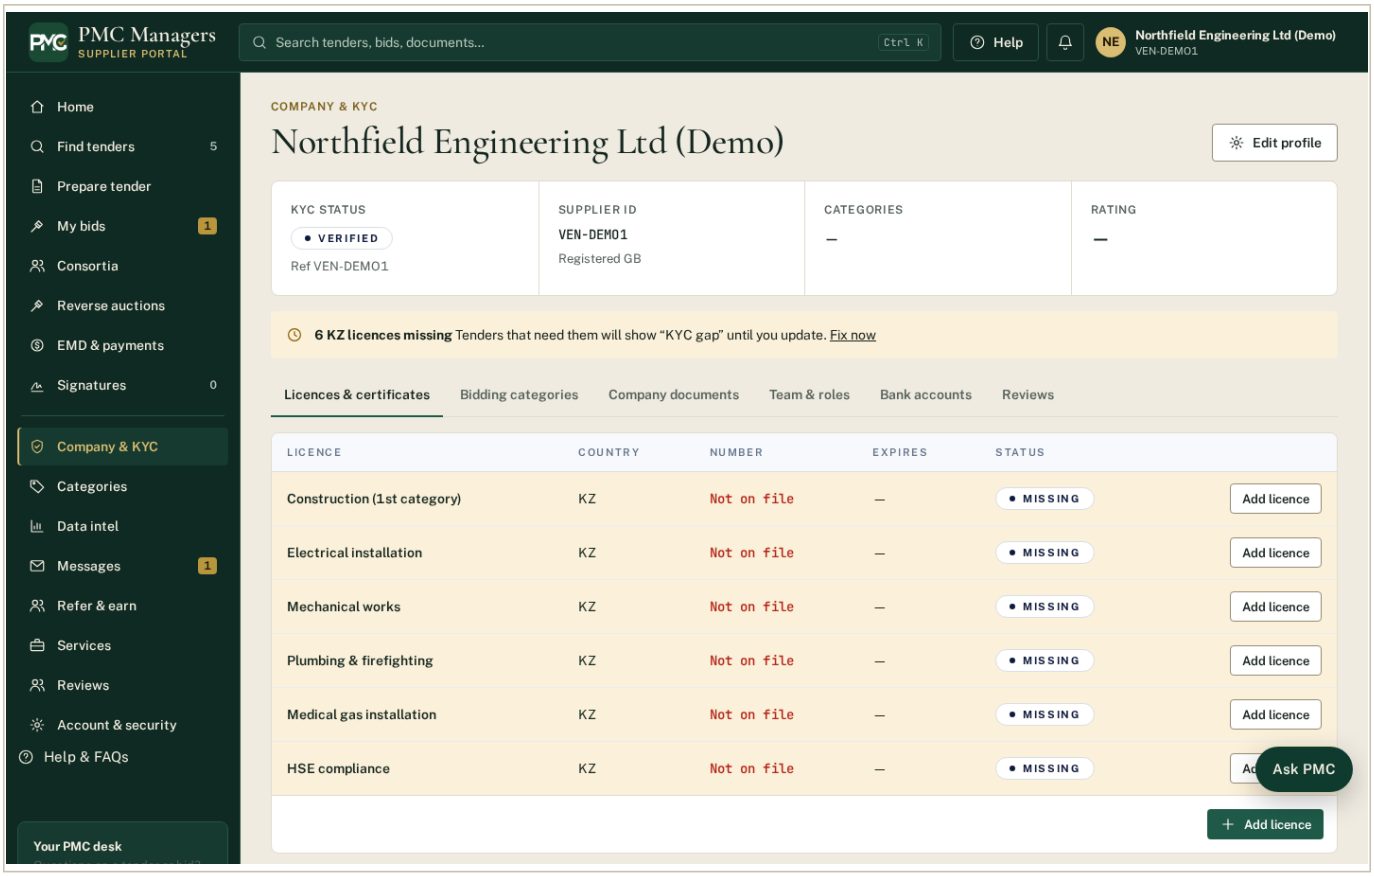

Bid deposits paid into escrow and refunds.

Main actions

- Pay EMD
- Track refunds

Company profile & KYC

Screen: `/vendor/company`

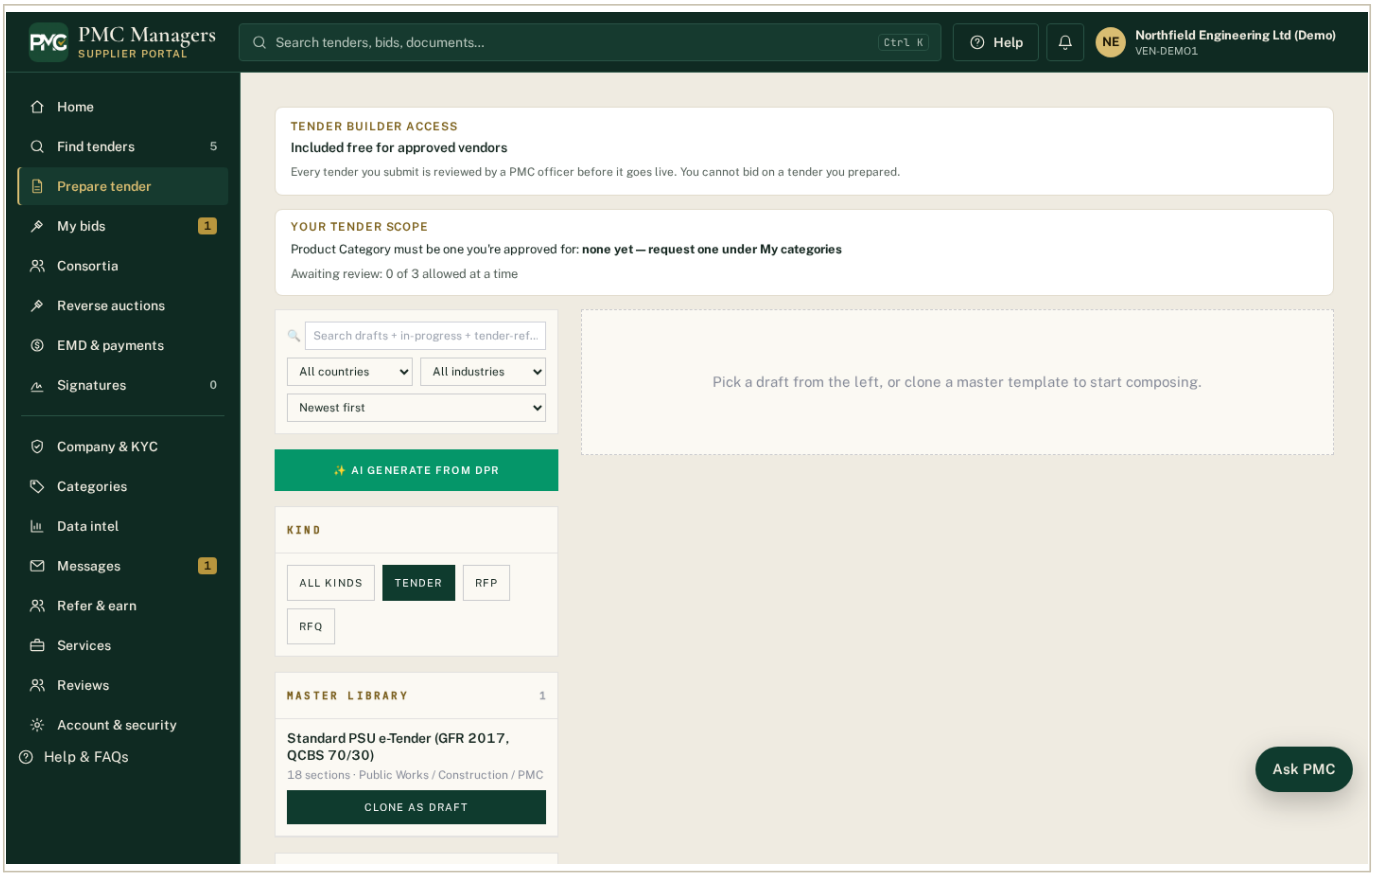

Company details, documents and KYC. Some figures here (like turnover) pre-fill criteria answers.

Main actions

- Update details (changes are reviewed)
- Upload KYC documents

Prepare tender (supplier)

Screen: `/vendor/tender-builder`

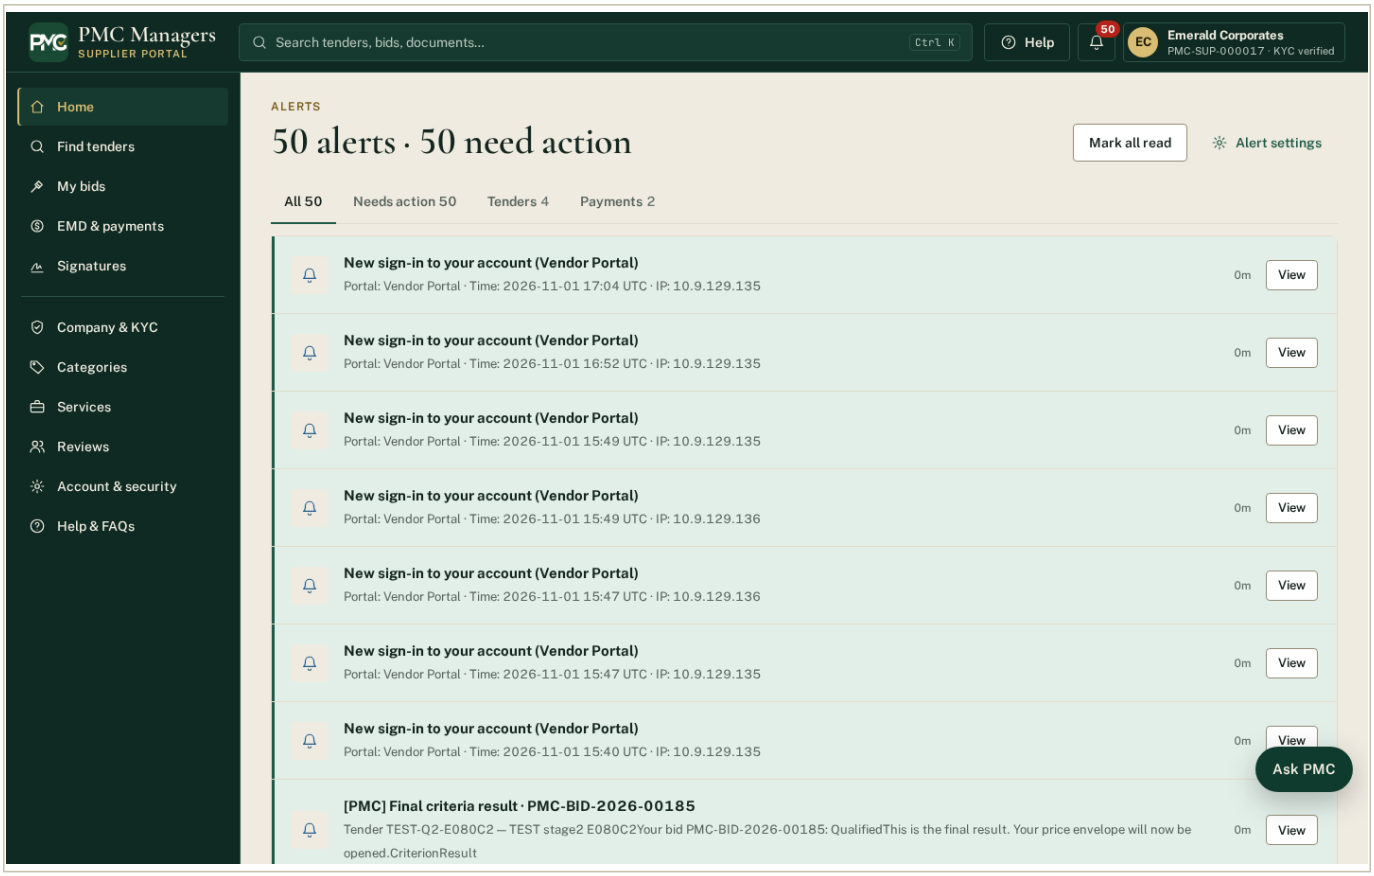

Verified suppliers can prepare tenders for buyers; they go to PMC review before publishing.

Main actions

- Build a tender
- Set criteria
- Submit for review

Alerts

Screen: `/vendor/alerts`

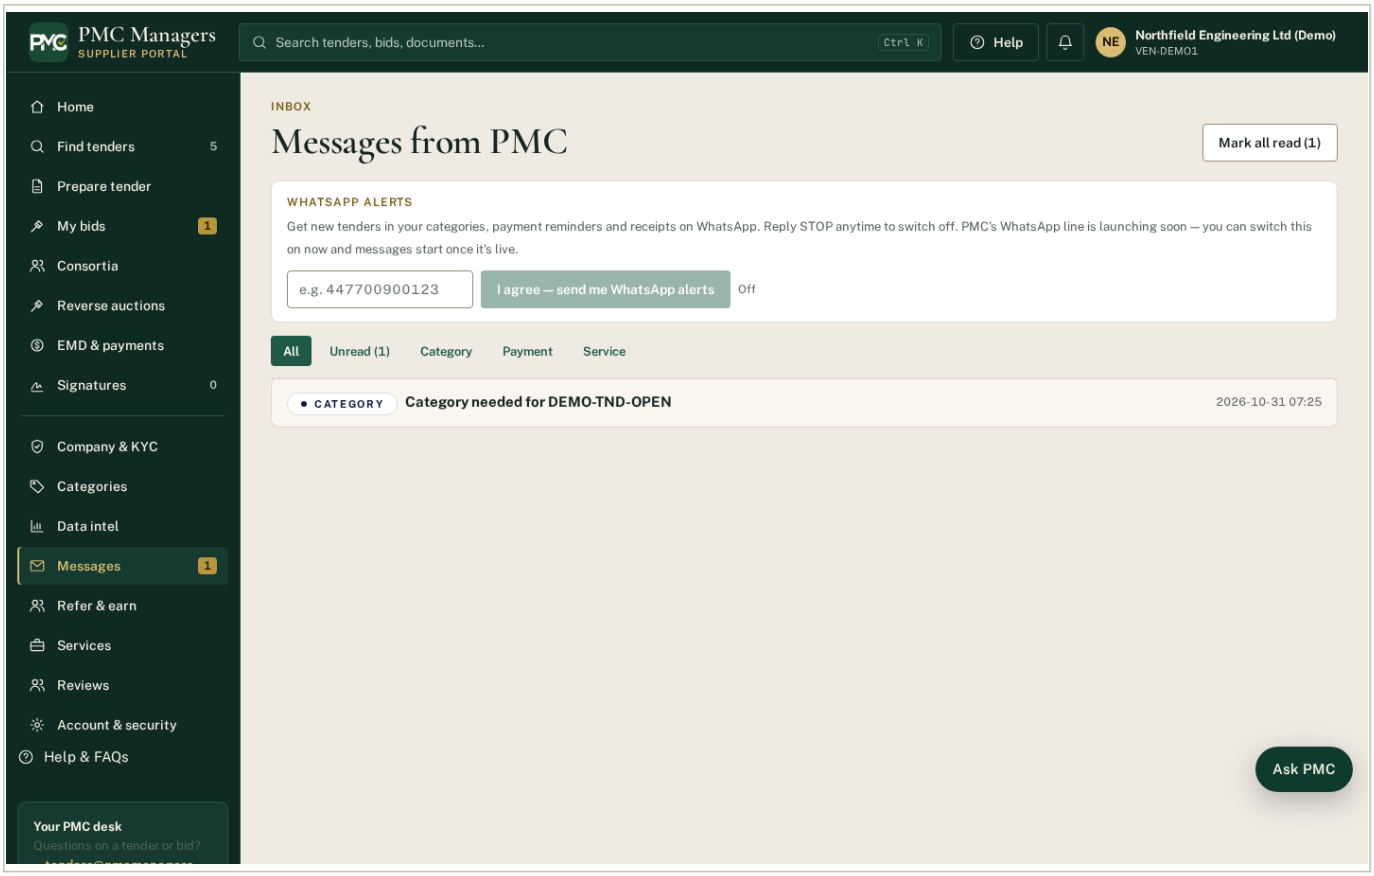

Tender alerts and notifications for the supplier's categories.

Main actions

- Mark as read
- Open the tender

Messages

Screen: `/vendor/messages`

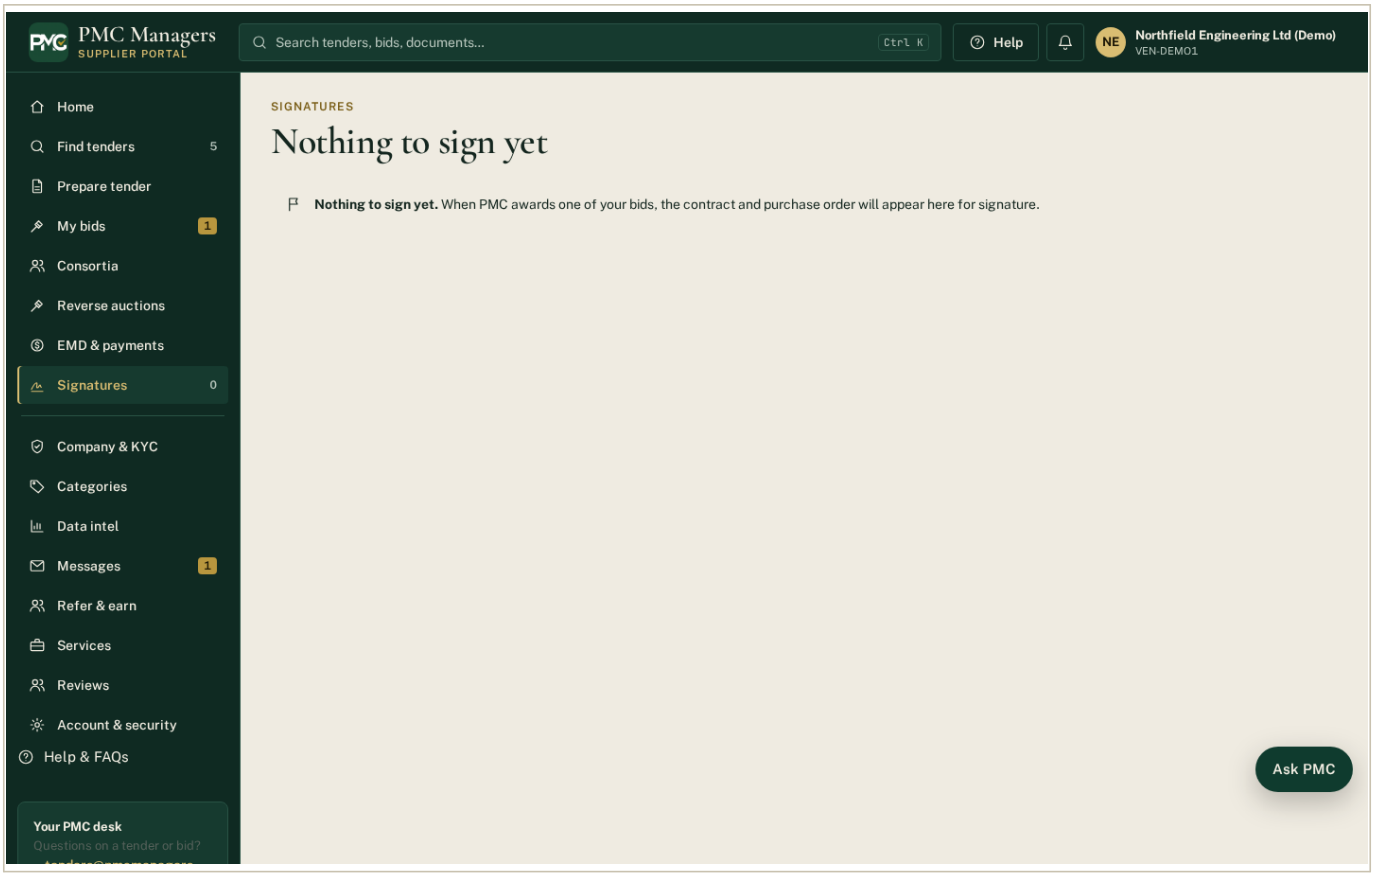

Messages with PMC and buyers, including clarifications.

Main actions

- Reply to a message

Signatures

Screen: `/vendor/signatures`

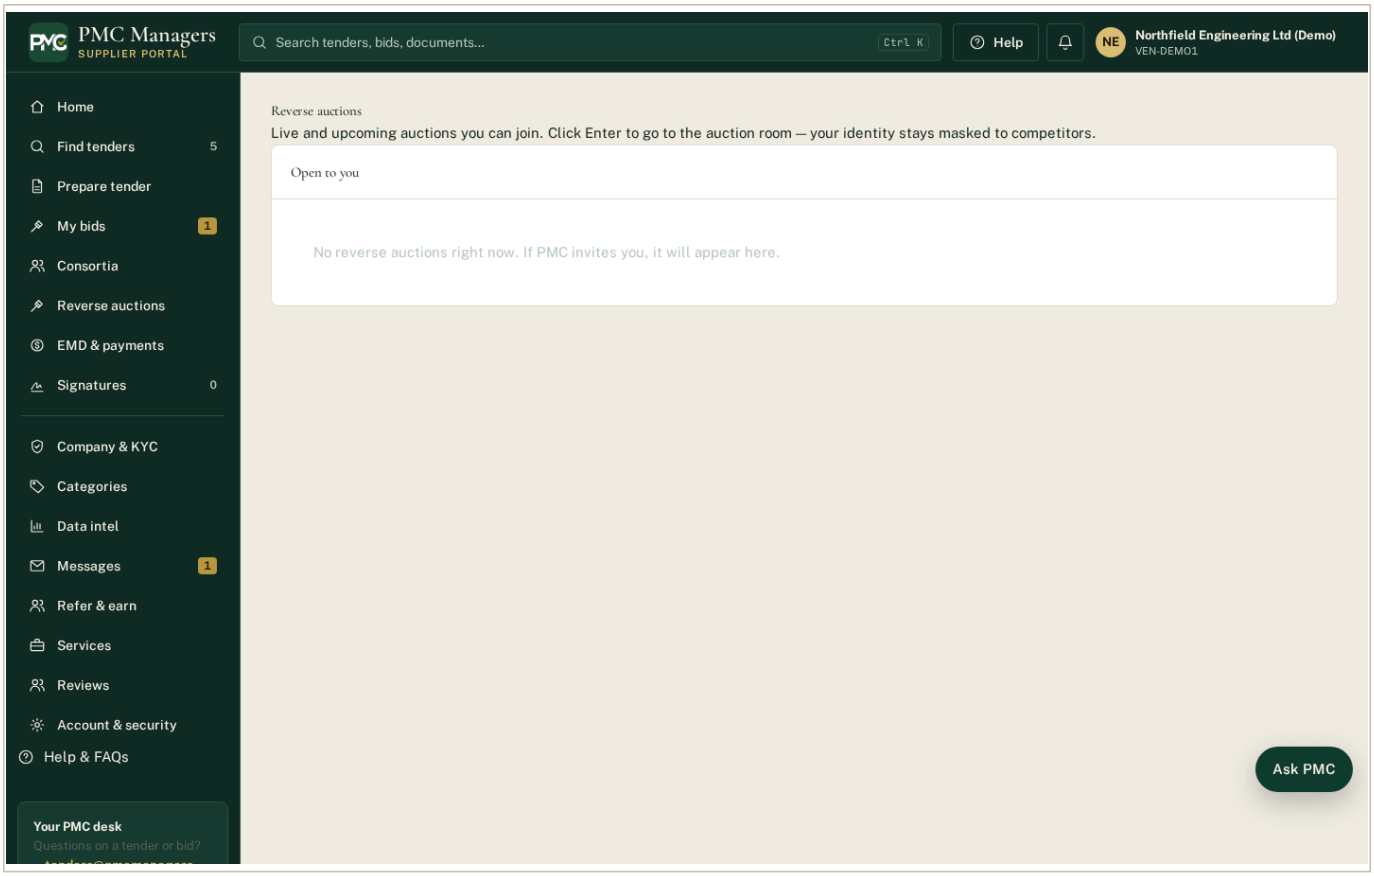

Documents waiting for the supplier's e-signature (agreements, contracts).

Main actions

- Sign a document

Reverse auctions

Screen: `/vendor/auctions`

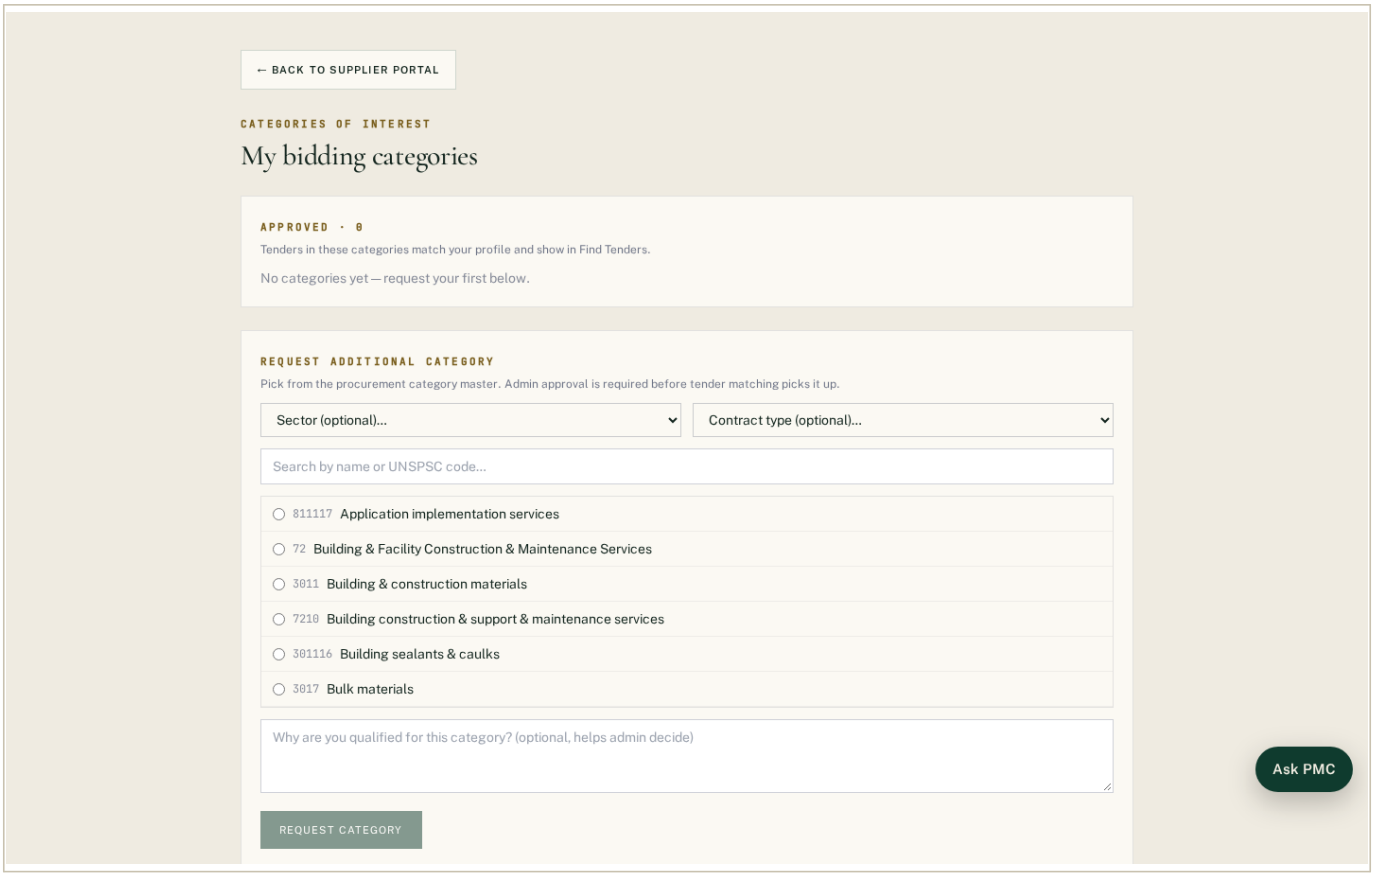

Auctions the supplier is invited to, with live bidding.

Main actions

- Join an auction
- Place a lower bid

Categories

Screen: `/vendor/categories`

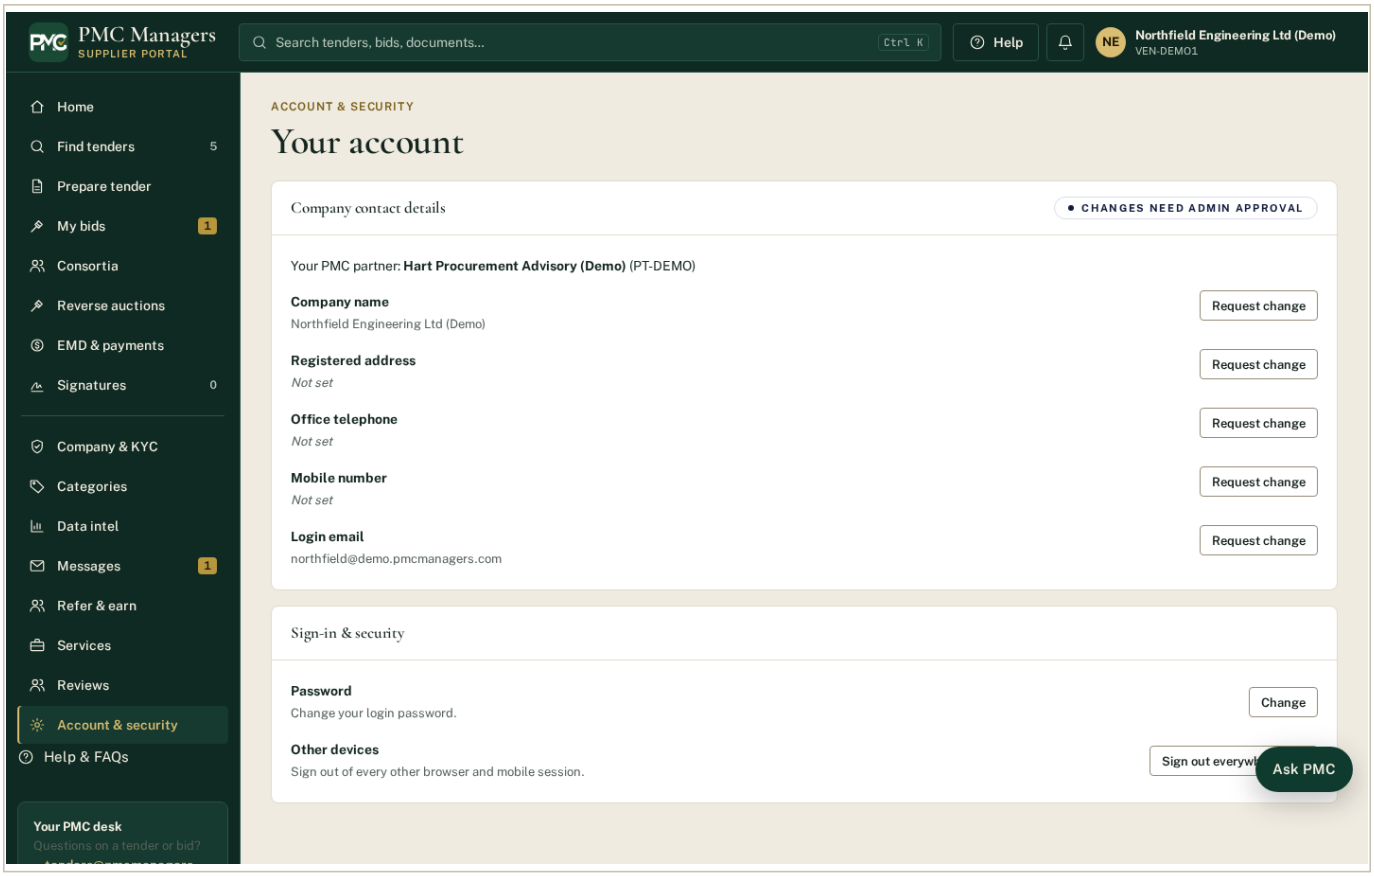

The categories the supplier works in; drives tender matching and alerts.

Main actions

• Request a new category

Account & security

Screen: `/vendor/account`

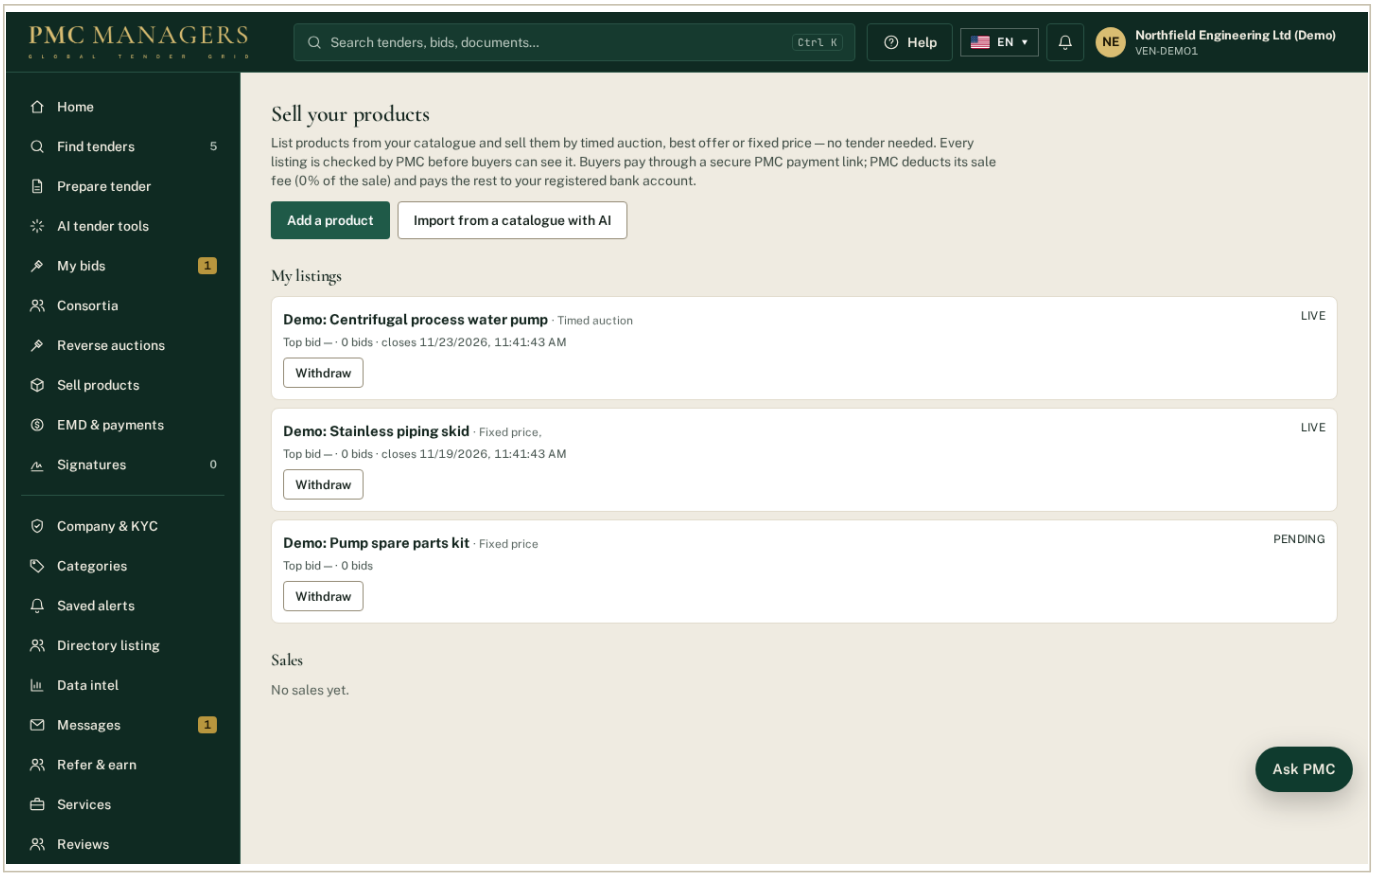

Login email, password, phone and security settings.

Main actions

- Change password
- Update contact details

Sell products

Screen: `/vendor/market`

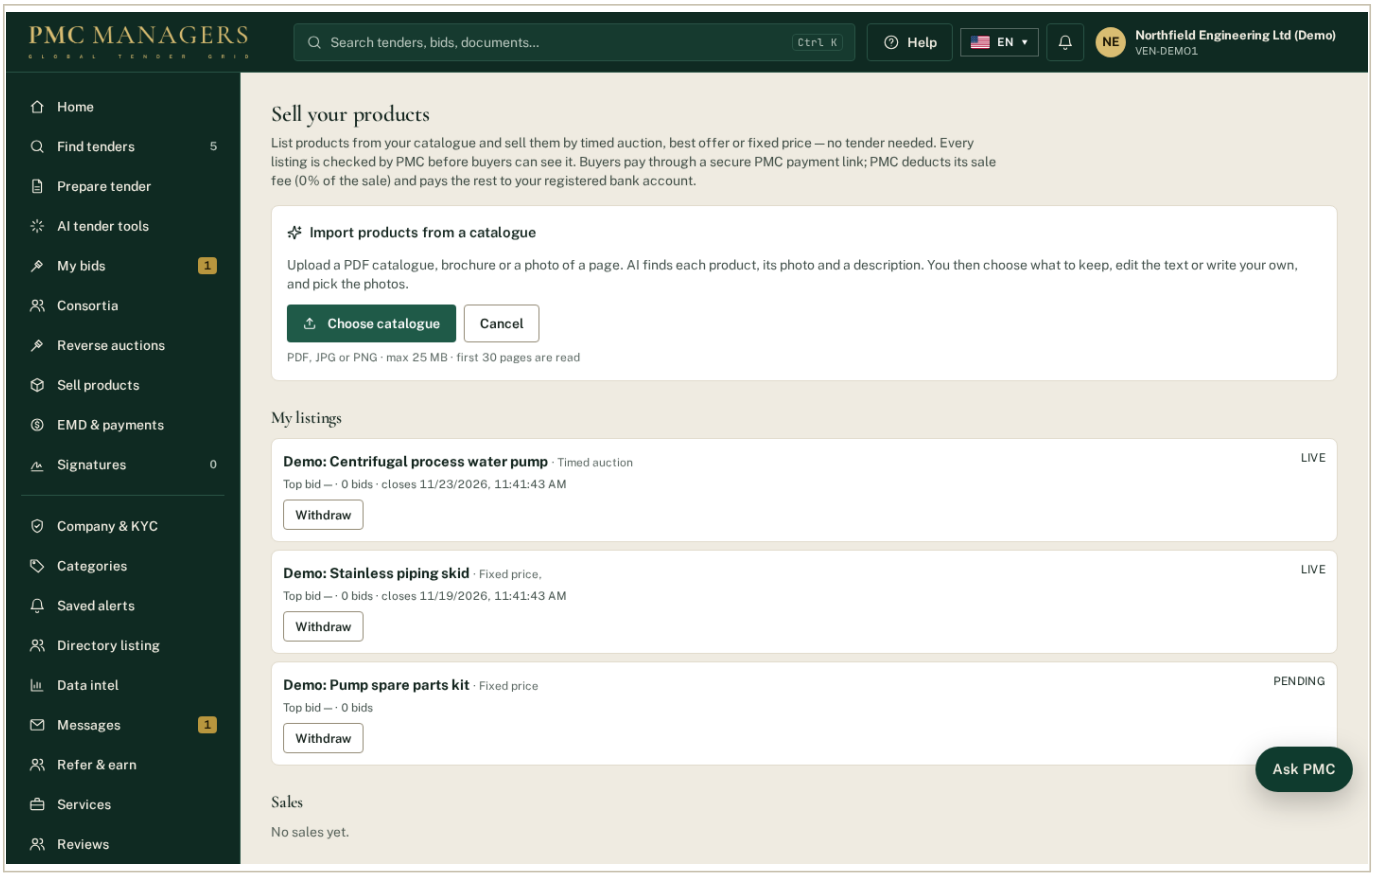

Suppliers add products with photos and PDF spec sheets, choose how to sell each one and submit it for PMC approval.

Main actions

- Add a product
- Upload photos and spec sheets
- Submit for approval

Import from a catalogue with AI

Screen: `/vendor/market`

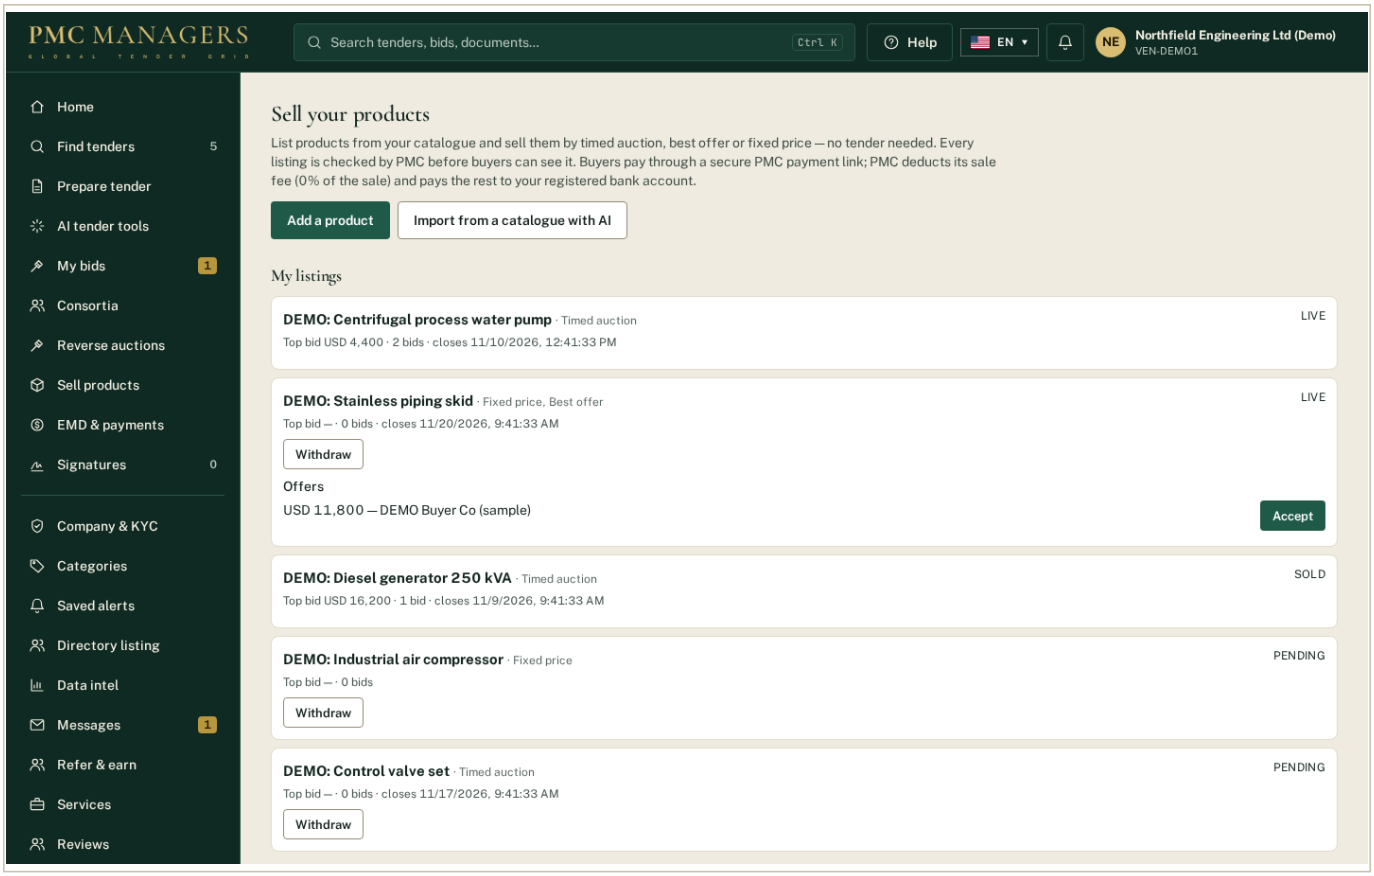

Upload a PDF catalogue, brochure or photo of a page. AI lists each product with its photo, description and specifications; the supplier picks what to keep, edits or writes the text and chooses the photos.

Main actions

- Choose catalogue
- Keep or untick products
- Create draft listings

Sell products — sales & delivery

Screen: `/vendor/market`

Sold items show the buyer, amount, PMC fee, your net amount, payment and payout status. For paid orders mark Dispatched and Delivered (with a tracking note); the buyer is notified.

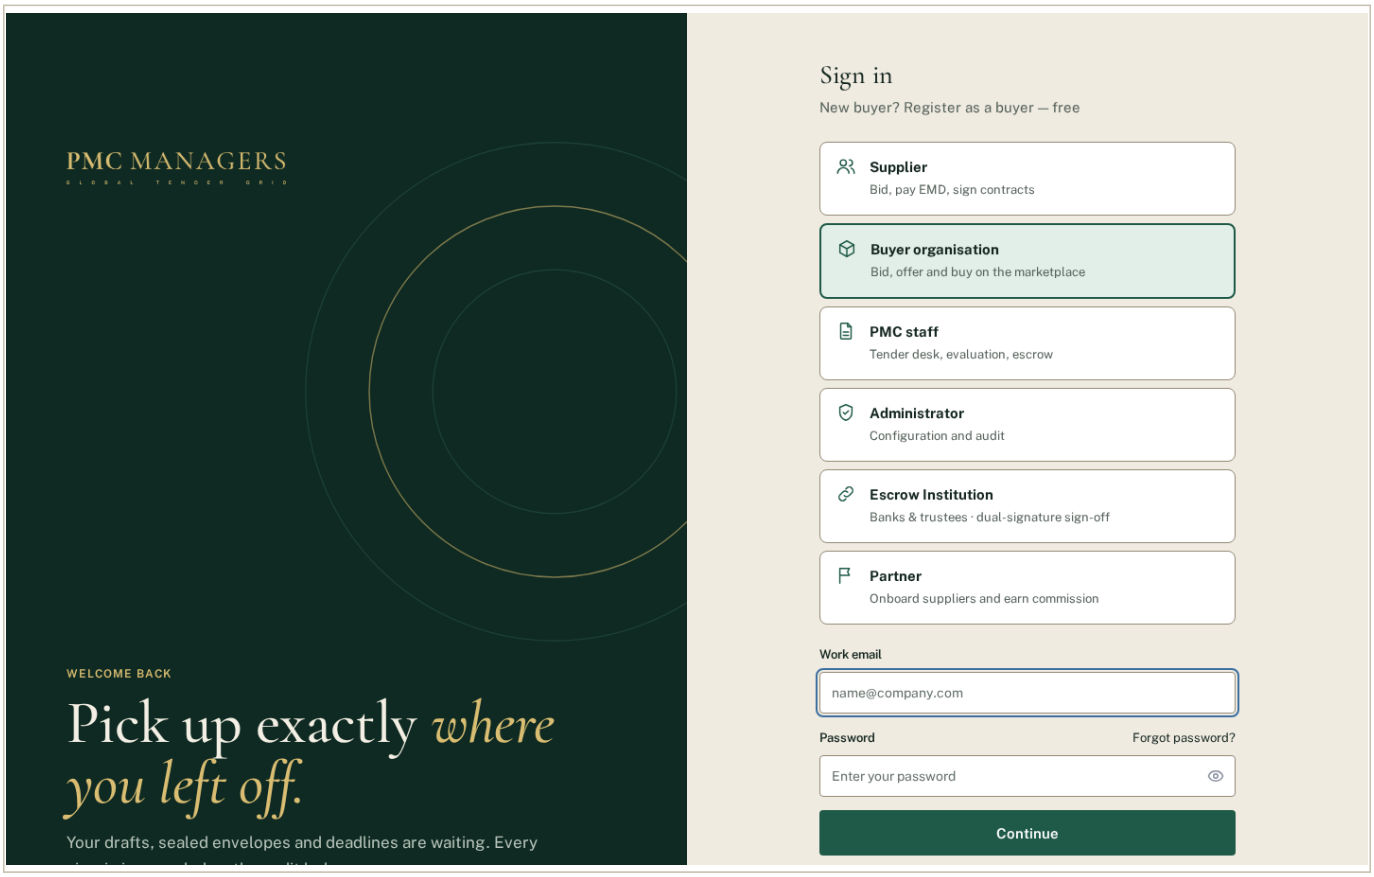

Main actions

- Mark dispatched
- Mark delivered

4 · Buyer portal — screen tour

Sign in as a buyer

Screen: `/login?role=buyer`

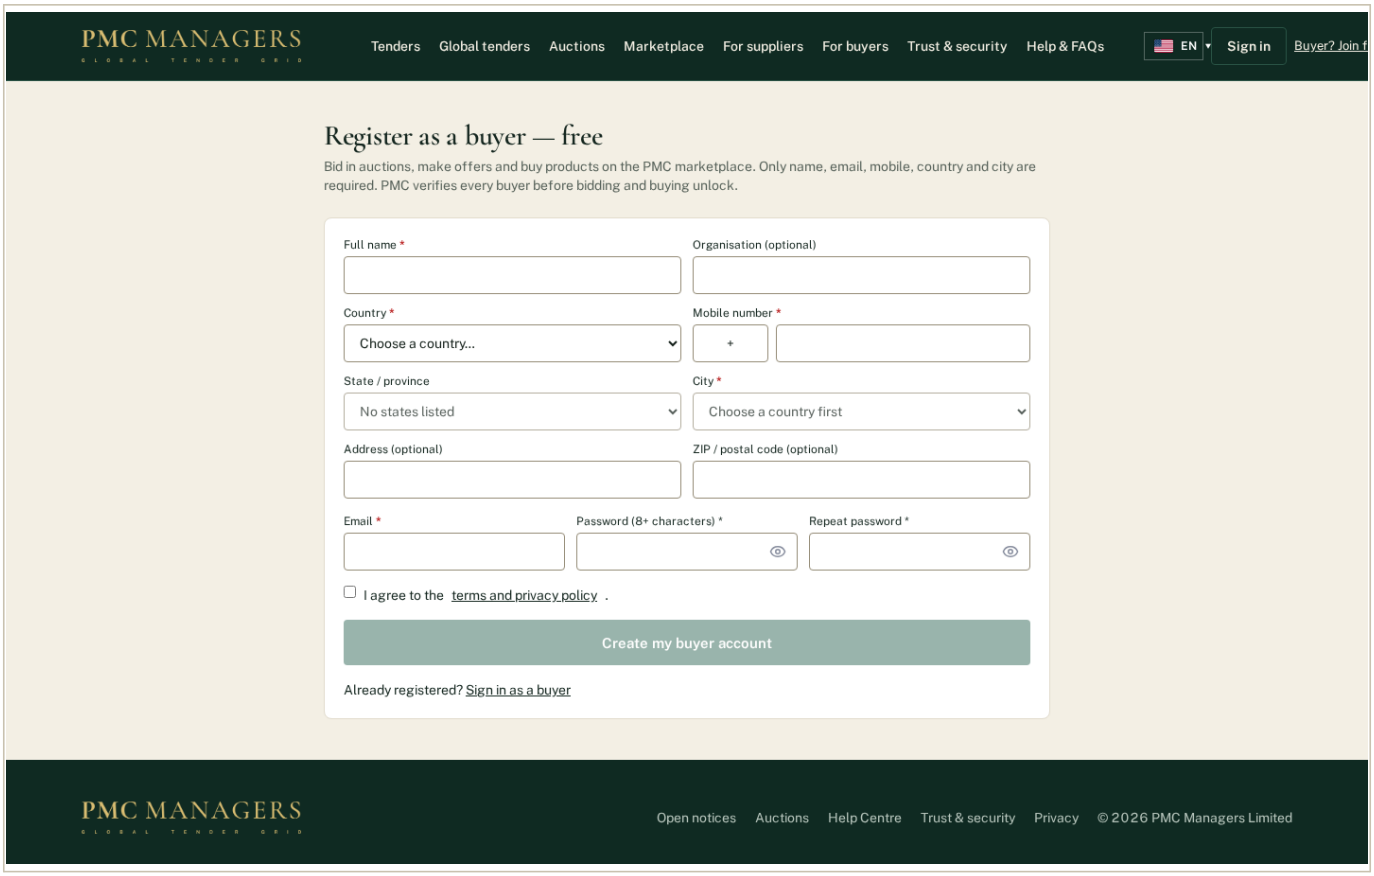

Buyers sign in with the Buyer organisation card. New buyers use 'Register as a buyer — free'. Forgot password also has a Buyer option.

Main actions

- Sign in
- Register as a buyer — free
- Forgot password

Register as a buyer — free

Screen: `/buyers/register`

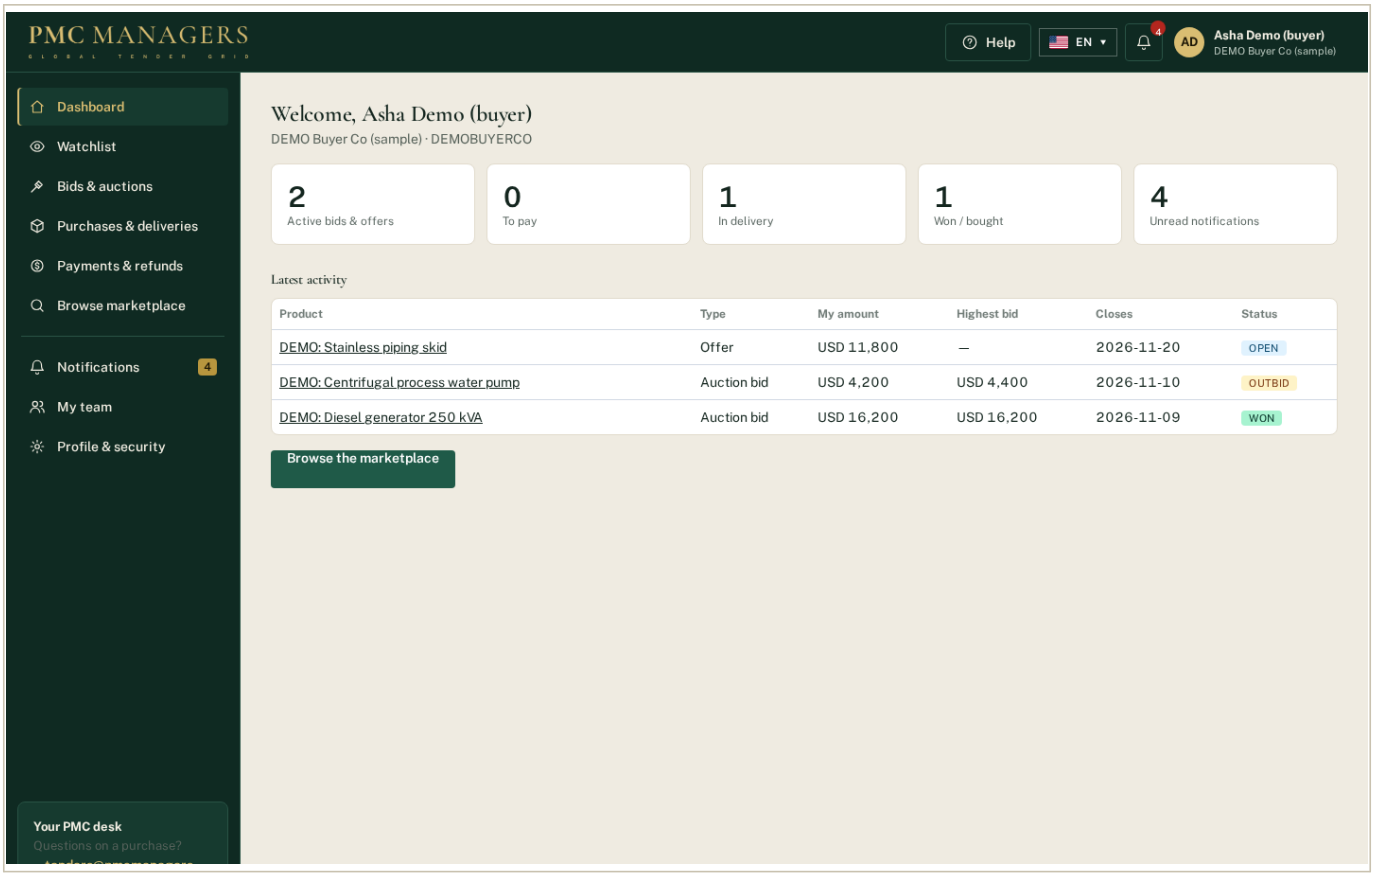

Name, email, mobile, country and city are required; state, address, ZIP and organisation are optional. Country, state, city and phone code come from the PMC masters. The buyer confirms their email, then PMC verifies the account before bidding and buying unlock.

Main actions

- Fill the required fields
- Create my buyer account
- Confirm the email link

Buyer dashboard

Screen: `/buyer`

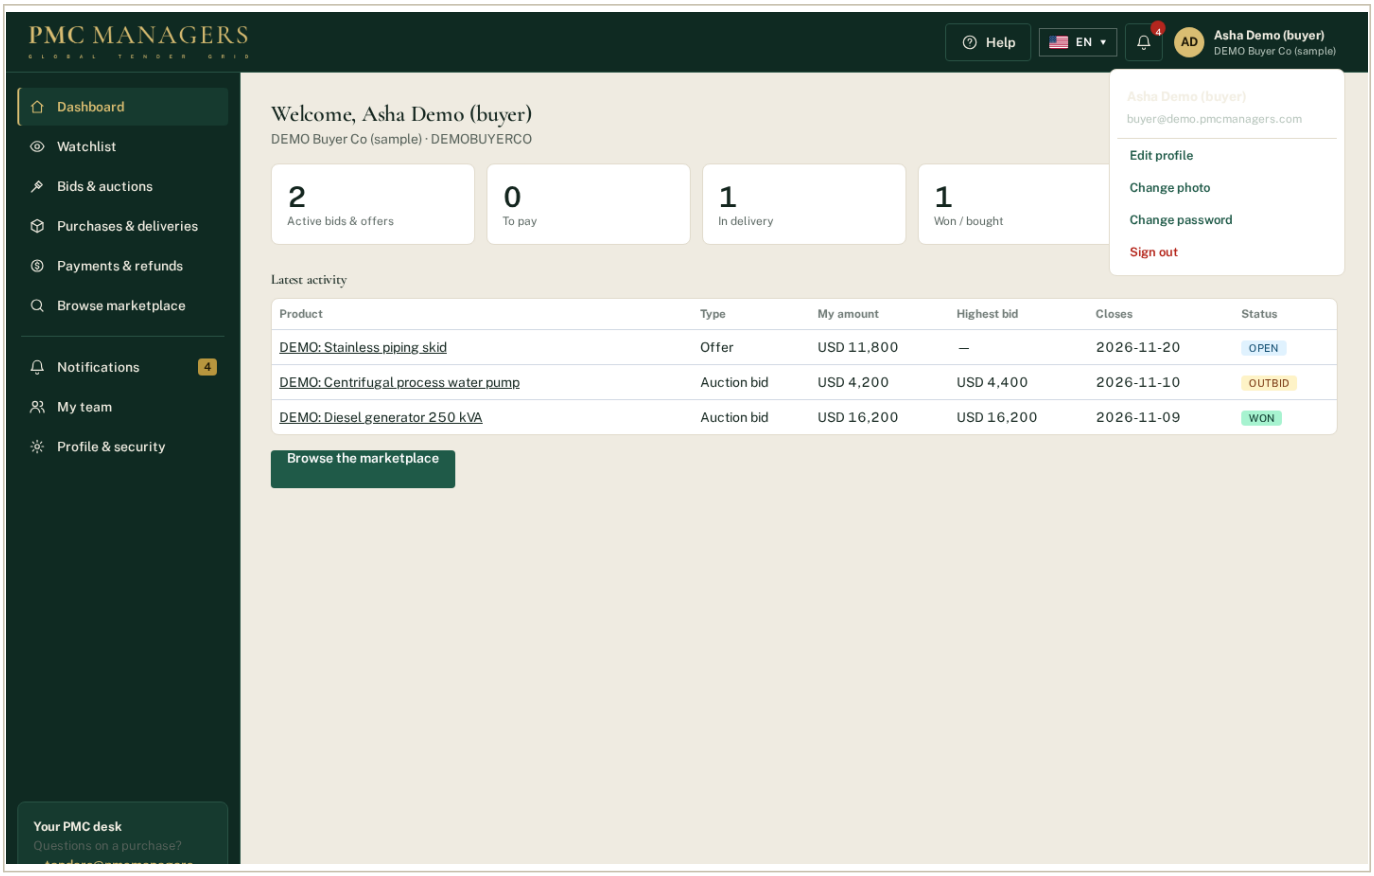

Left sidebar, top header with notification bell and avatar menu, and footer. Tiles show active bids and offers, orders to pay, orders in delivery, wins and unread notifications.

Main actions

- Open a tile
- Browse the marketplace
- Open the avatar menu

Avatar menu

Screen: `/buyer`

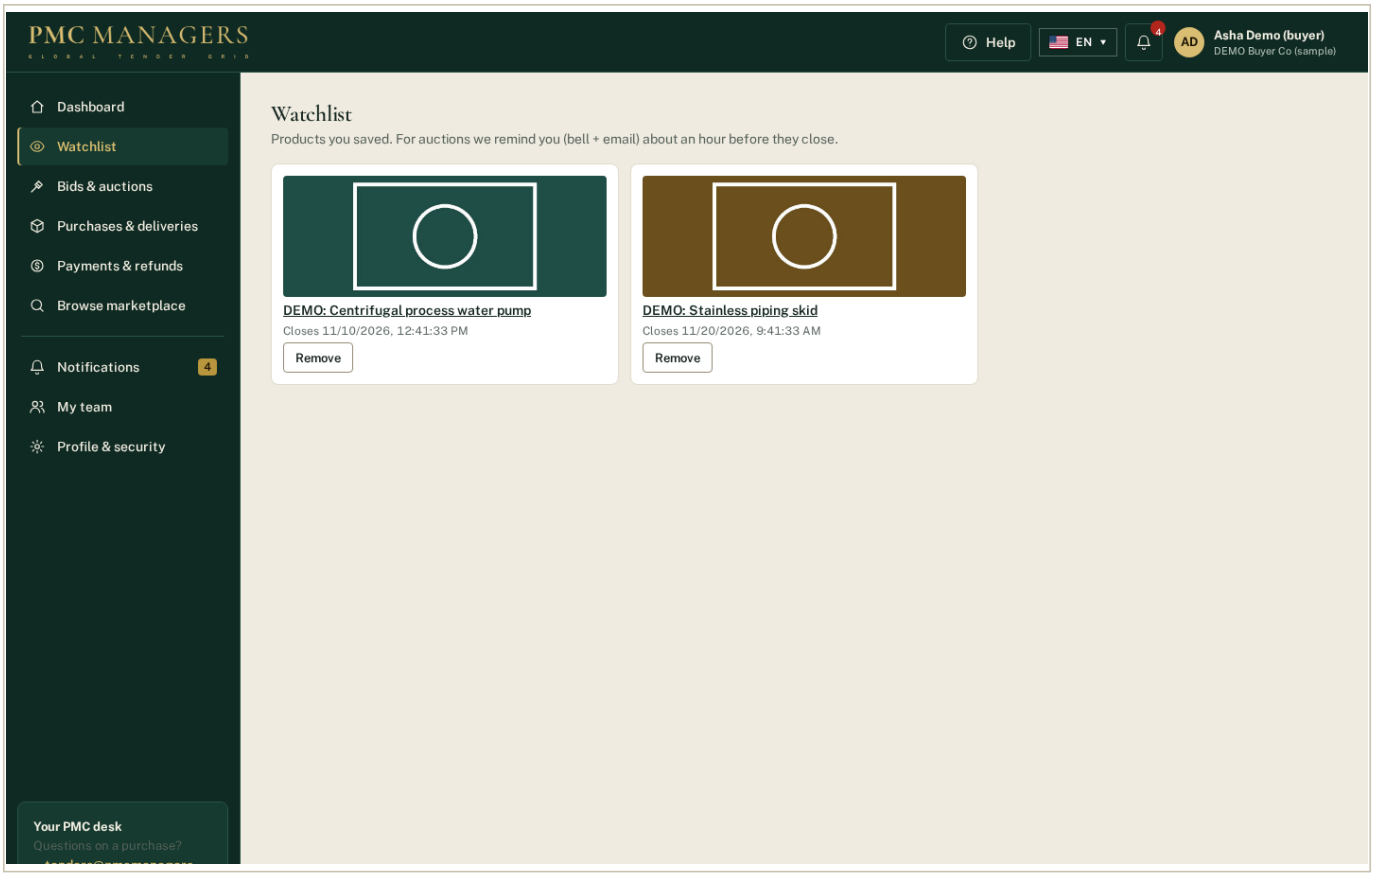

Edit profile, change the profile photo, change password and sign out.

Main actions

- Edit profile
- Change photo
- Change password
- Sign out

Watchlist

Screen: `/buyer/watchlist`

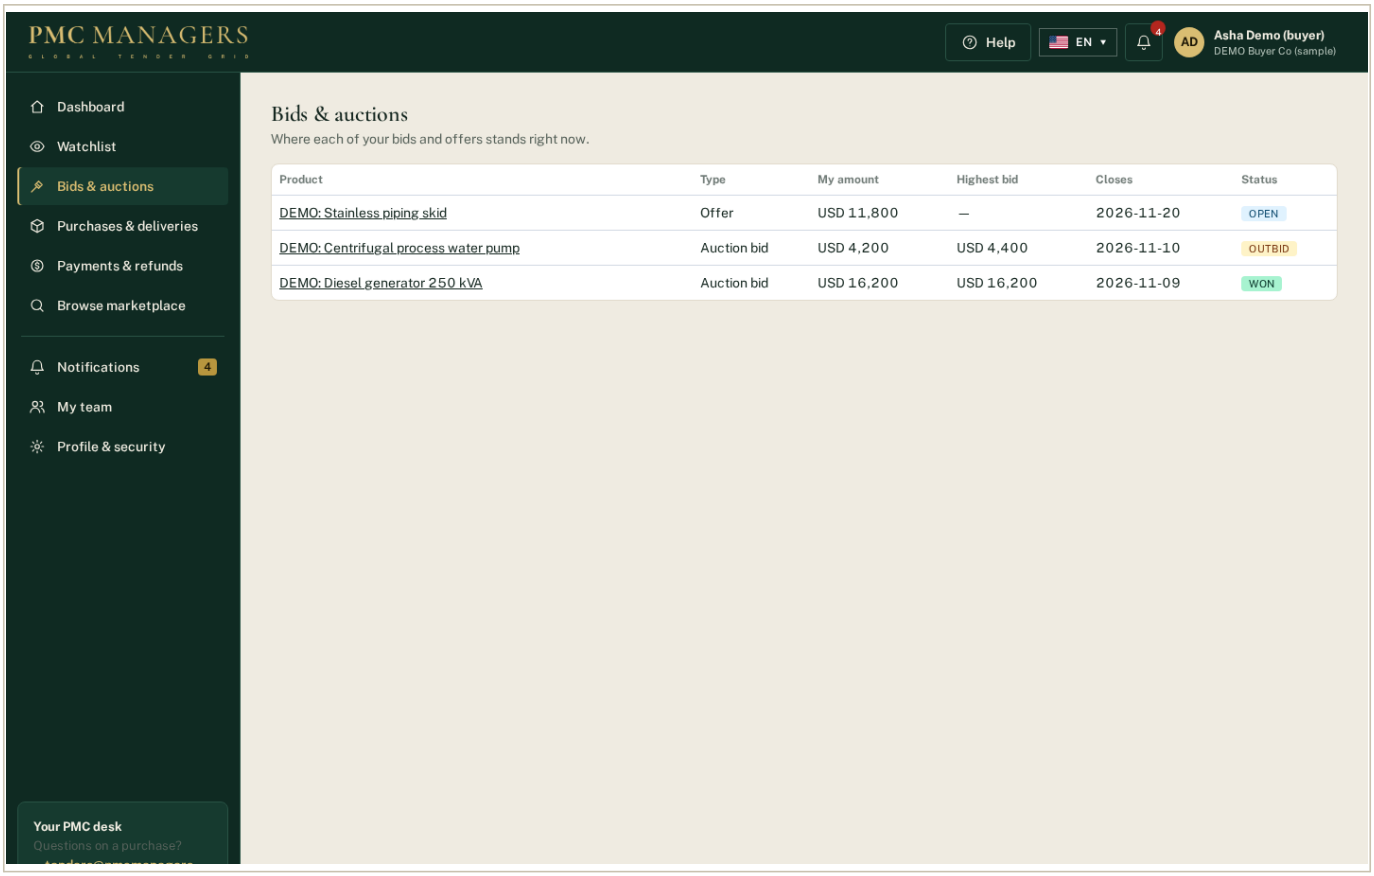

Products the buyer saved with the ■ Save button. For auctions a reminder (bell + email) is sent about an hour before closing.

Main actions

- Open a product
- Remove from watchlist

Bids & auctions

Screen: `/buyer/bids`

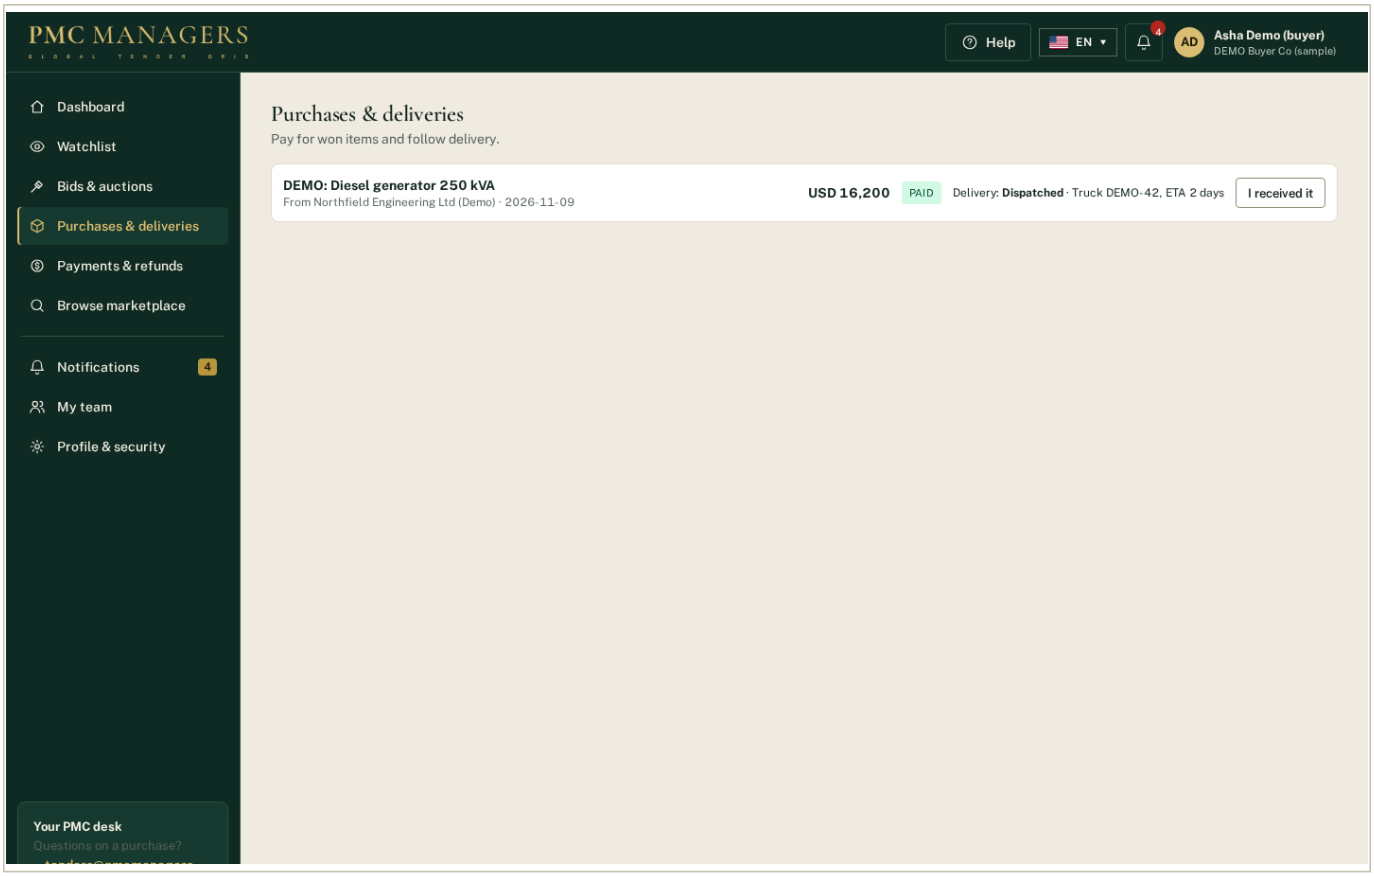

Every bid and offer with its live status: Leading, Outbid, Won, Lost; offers show Open, Accepted or Declined.

Main actions

- Open the product to raise a bid

Purchases & deliveries

Screen: `/buyer/orders`

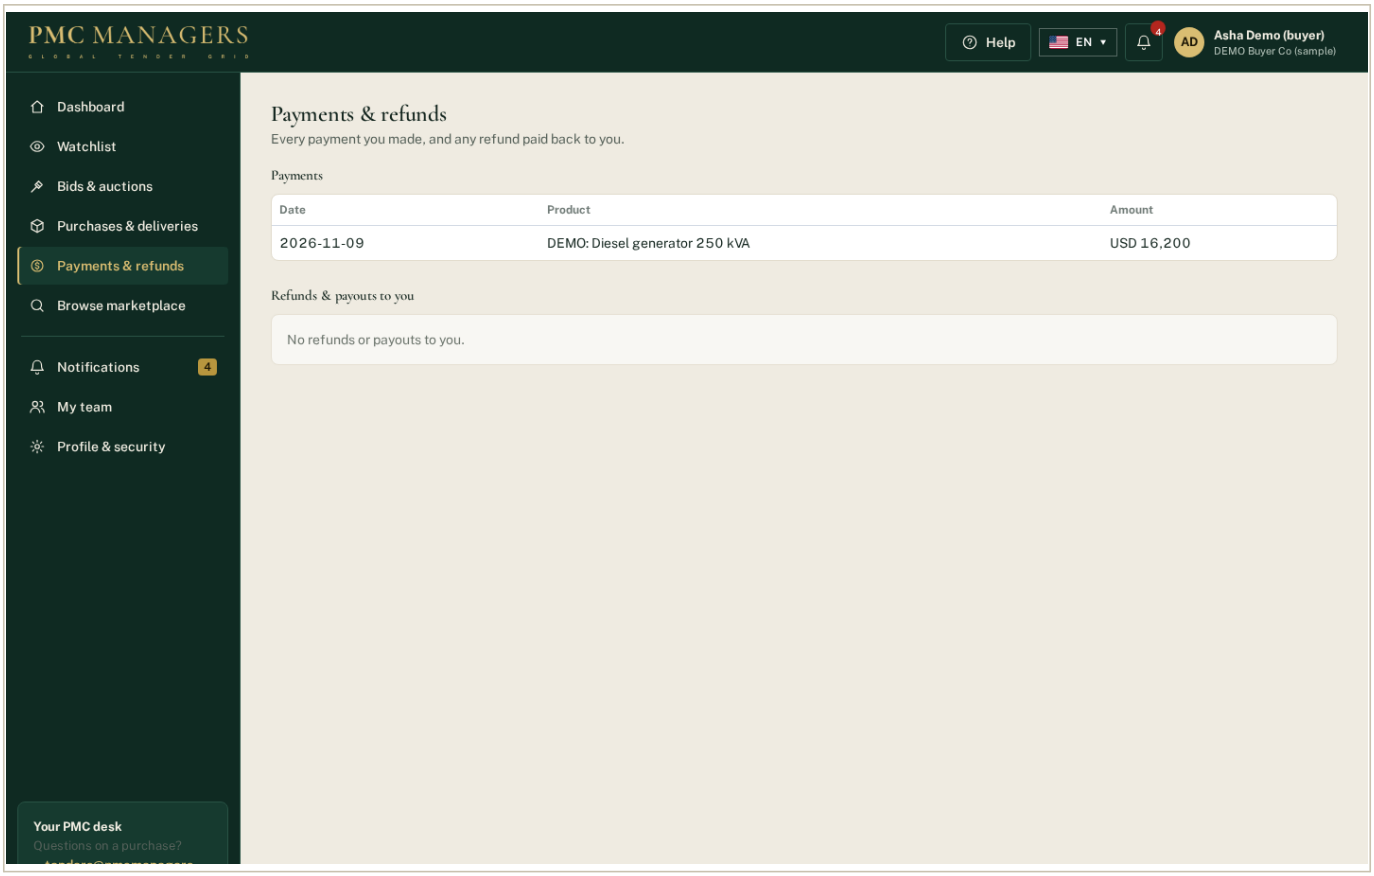

Won and bought items. Pay securely for items awaiting payment, follow the delivery status set by the seller and confirm 'I received it'.

Main actions

- Pay securely
- I received it

Payments & refunds

Screen: `/buyer/payments`

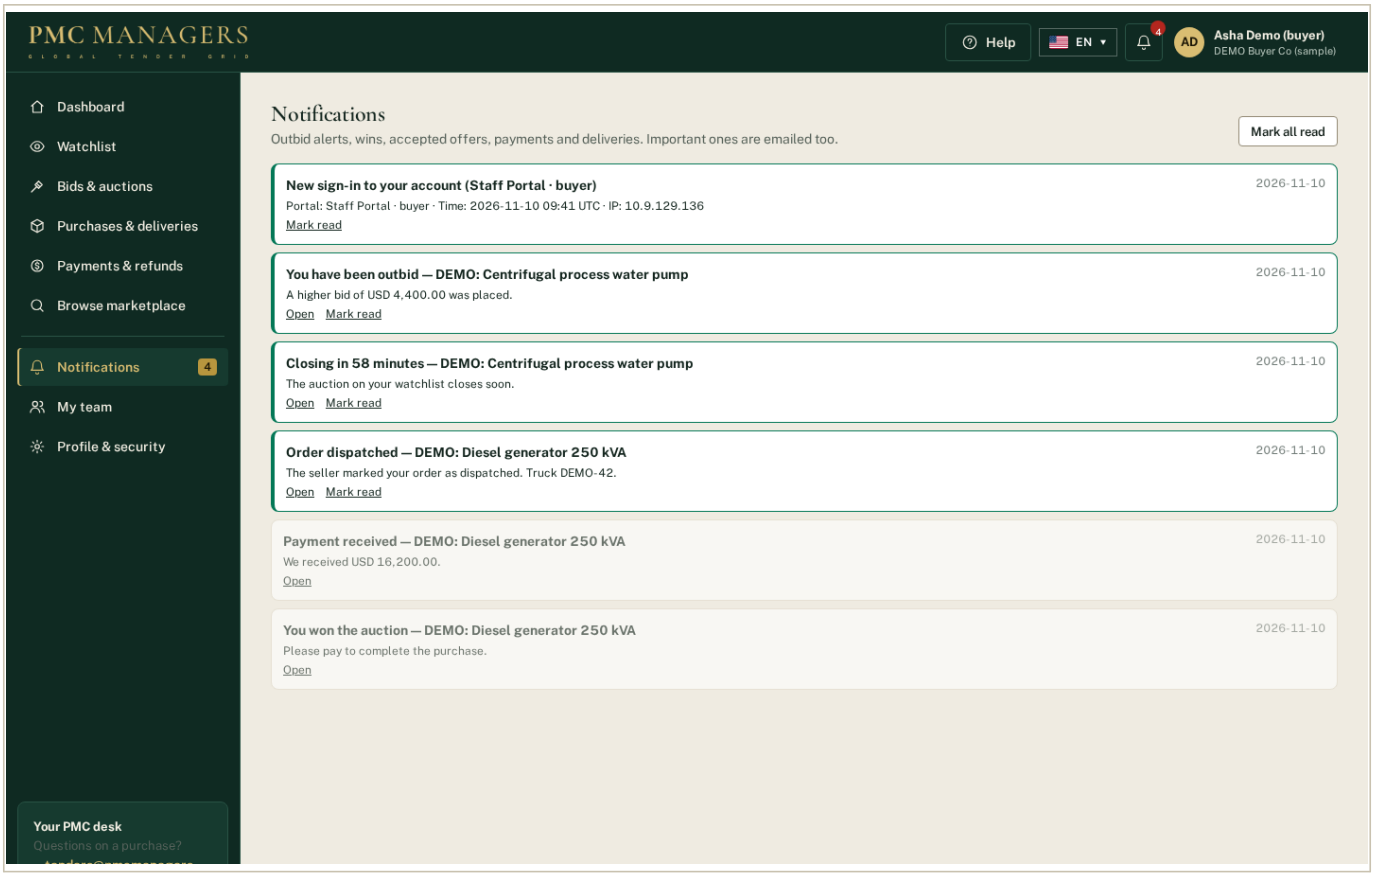

Every payment made and any refund or payout back to the buyer.

Main actions

- Review payments

Notifications

Screen: `/buyer/notifications`

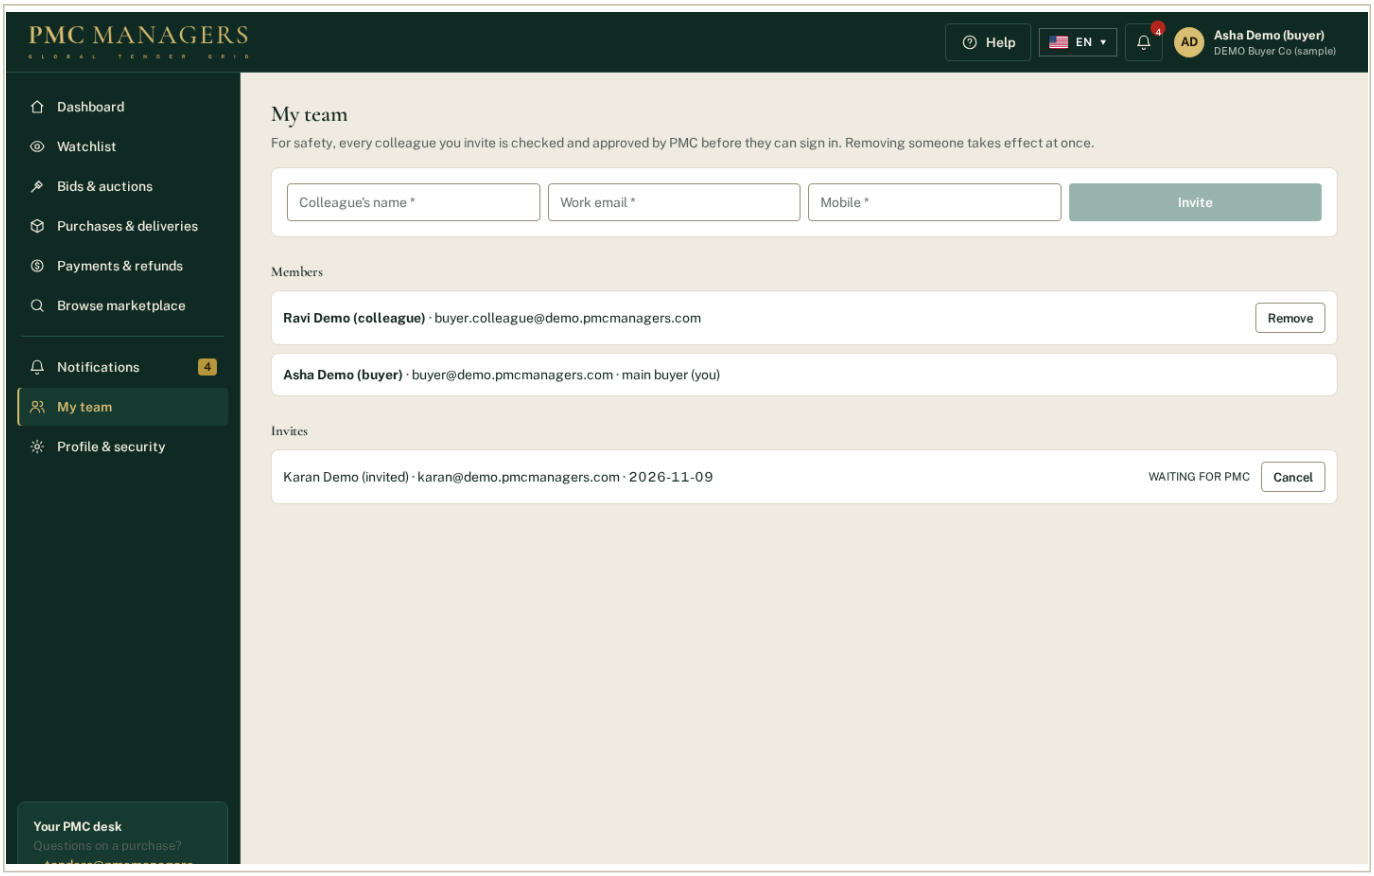

Outbid alerts, closing reminders, wins, accepted offers, payments and deliveries. Important ones are also emailed.

Main actions

- Open
- Mark read
- Mark all read

My team

Screen: `/buyer/team`

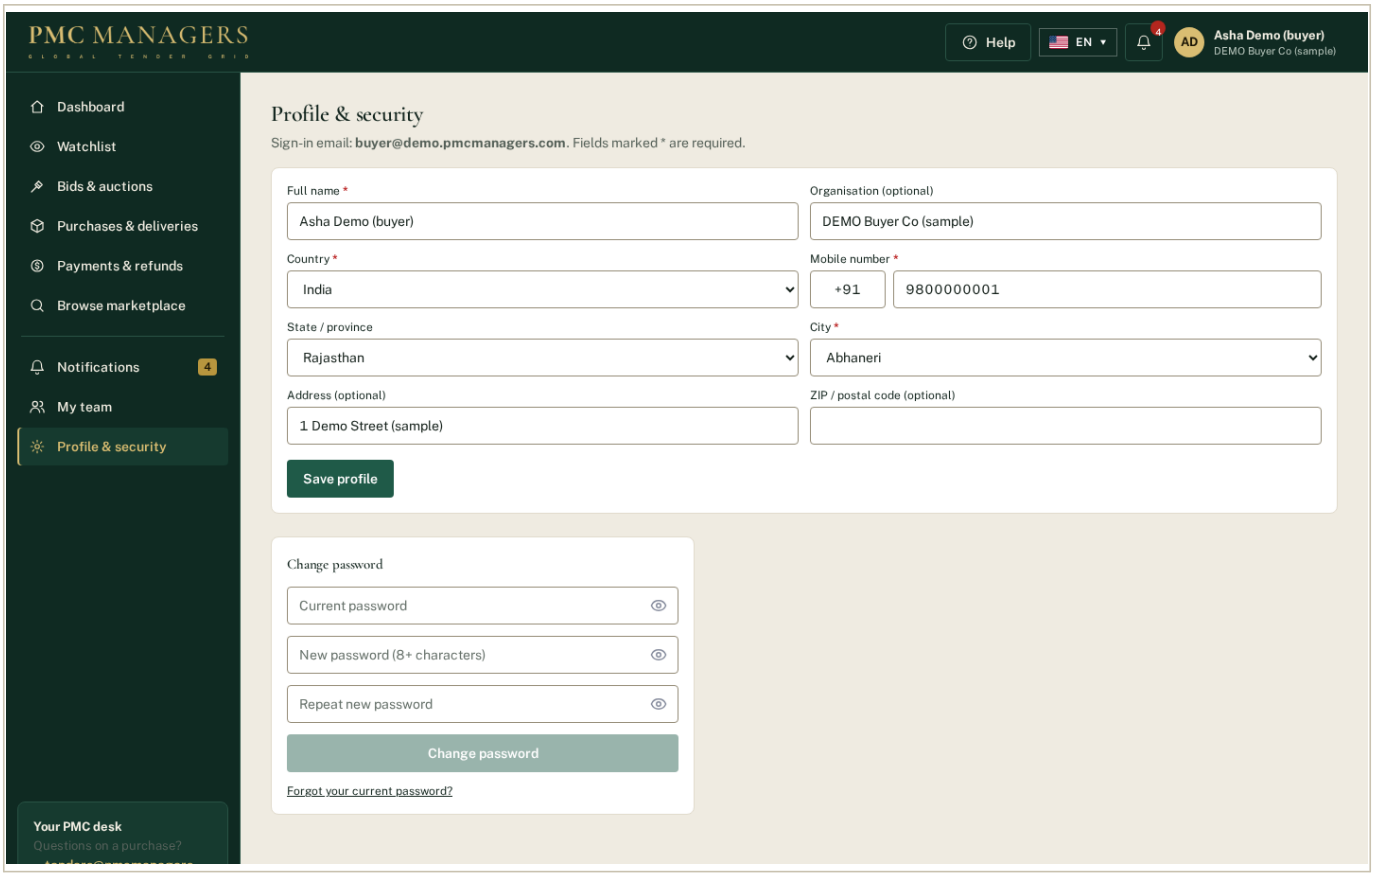

The organisation's main buyer invites colleagues; every invite is approved by PMC before the colleague can sign in. Removing a colleague stops access at once.

Main actions

- Invite a colleague
- Remove a colleague
- Cancel an invite

Profile & security

Screen: `/buyer/profile`

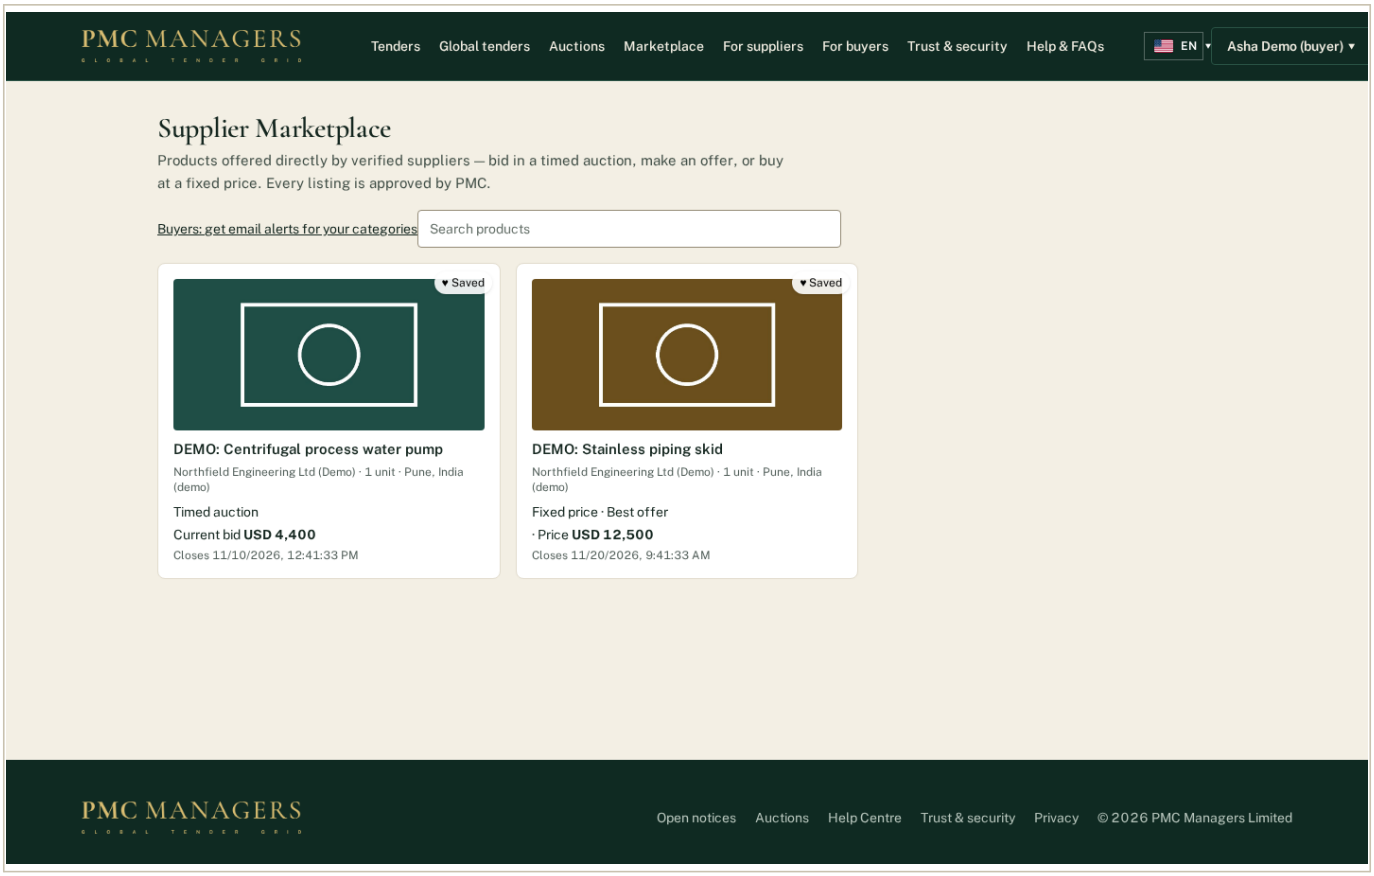

Masters-backed profile (country, state, city, phone code) and password change.

Main actions

- Save profile
- Change password

Marketplace with Save buttons

Screen: `/market`

Signed-in buyers see ■ Save on every product card and their name menu in the site header.

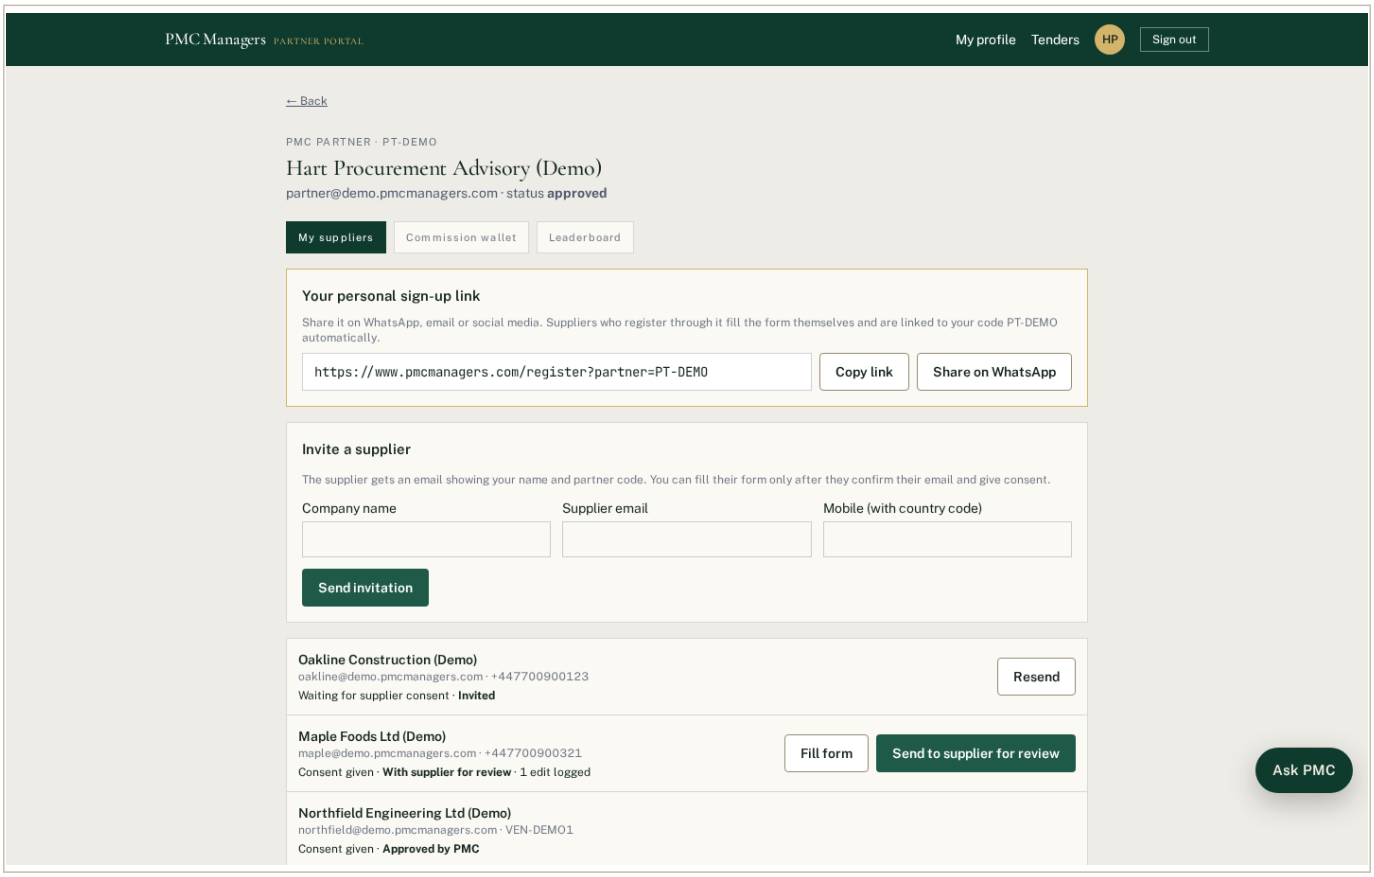

Main actions

- Save a product
- Open a product to bid, offer or buy

5 · Partner portal — screen tour

Partner profile

Screen: `/partner/me`

Partners complete four sections (profile, banking, documents, agreement) with a progress bar; the form opens where they left off. After approval they onboard suppliers and see commission.

Main actions

- Complete each section
- Sign the agreement
- Submit for approval

6 · What's new: Supplier Marketplace & AI catalogue import

Suppliers can now sell products directly to verified buyers without running a tender. Every listing is approved by PMC first. Each part below also has a help guide and a video in the Help Centre.

Ways to sell

Sale method	How it works
Timed auction	Starting price, optional hidden reserve, minimum bid step and closing time. The highest bid at closing wins.
Best offer	Buyers send offers until a deadline; the supplier accepts the one they want.
Fixed price	Buy now at the price the supplier sets.

A supplier can switch on any mix of the three for each product and chooses whether only verified buyer organisations, or any verified account, may take part.

Supplier: add products (Sell products)

1. Open **Sell products** and click **Add a product**. Enter the details, click **Upload photos** (up to 12) and **Attach spec sheet** for PDF datasheets (up to 6).
2. Tick the sale methods and prices, check what you will receive after the PMC fee, then click **Submit for approval**.

Supplier: import a catalogue with AI

1. Click **Import from a catalogue with AI** and choose a PDF catalogue, brochure or a JPG/PNG photo of a page (up to 25 MB; the first 30 pages are read).
2. AI reads the file in 1 to 3 minutes and lists every product with its photo, a description, category, unit and specifications. Photos are taken from the PDF, or cut out of the page when the page is a scan or photo.
3. For each product the supplier decides: keep it or untick it; use the AI description (and edit it) or **Write my own**; add the specifications or not; which photos to keep, add or upload; and whether to attach the catalogue PDF as a spec sheet.
4. **Create draft listing(s)** saves the chosen products as drafts marked *set price & how to sell*. A draft cannot be submitted until the supplier opens **Edit** and sets the sale method and price.
5. AI only uses facts in the document; it never adds prices or certifications. Reading a catalogue is free unless an admin sets a fee for **AI catalogue reading** in Pricing; a failed reading is never charged.

Admin: approvals, fees and payouts (Marketplace)

1. Every listing waits in **Admin** → **Marketplace**. Check the photos, spec sheets and prices, then **Approve** or **Reject** with a note.
2. The PMC **sale fee** is a percentage or a fixed amount, or switched off. It can be waived for one listing when approving it. The listing fee is set in **Pricing** → **fee rules** → **Marketplace product listing**.
3. The buyer pays PMC through a secure Stripe link from **My bids & purchases**. The order shows the PMC fee and the seller's bank details; the admin pays the balance and clicks **Mark seller paid** with the transfer reference. Automatic split payouts are not switched on.

Buyers: the public Marketplace

1. **Marketplace** in the top menu lists approved products with photos, spec sheets, price or current bid and closing time.
2. Verified buyers bid, send an offer or click **Buy now**; purchases are paid from **My bids & purchases** by **Pay securely**.
3. In the iPhone app the buy and pay buttons are hidden; buyers pay on the website.

7 · What's new: Buyer portal, watchlist & buyer teams

Buyers now have their own portal at **/buyer**, laid out like the supplier portal: left sidebar, top header with a notification bell and avatar menu, and a footer. Only verified buyers can bid or buy.

Becoming a buyer

Route	Steps	Who approves
Register free	Sign in page → Buyer organisation → Register as a buyer — free. Name, email, mobile, country and city are required (from the masters); state, address, ZIP and organisation are optional. Confirm the email link (3 days).	PMC admin in Growth → Buyer applications (only after the email is confirmed)
Apply as an organisation	/buyers/apply form for tender-issuing organisations.	PMC admin; approval emails a 7-day set-password link
Added by PMC	Admin → Growth → Buyer applications → + Add a buyer directly.	Approved at once; sign-in emailed

Buyer portal pages

Page	What the buyer sees
Dashboard	Tiles: active bids & offers, to pay, in delivery, won, unread notifications; latest activity
Watchlist	Products saved with ■ Save; reminder about an hour before a watched auction closes
Bids & auctions	Status of every bid (Leading, Outbid, Won, Lost) and offer (Open, Accepted, Declined)
Purchases & deliveries	Pay securely, delivery status set by the seller, I received it
Payments & refunds	Payments made and any refunds or payouts back to the buyer
Notifications	Bell list; important events are also emailed
My team	Main buyer invites colleagues (PMC approves each) and removes them (immediate)
Profile & security	Masters-backed profile, photo, change password; forgot password via the sign-in page

Notifications sent to buyers

1. Outbid on an auction.
2. About an hour before a watched auction closes (scheduler every 15 minutes).
3. Auction won, offer accepted or order placed — pay now.
4. Payment received.
5. Order dispatched / delivered (supplier marks it in Sell products → sales).
6. Account verified by PMC.

Security rules

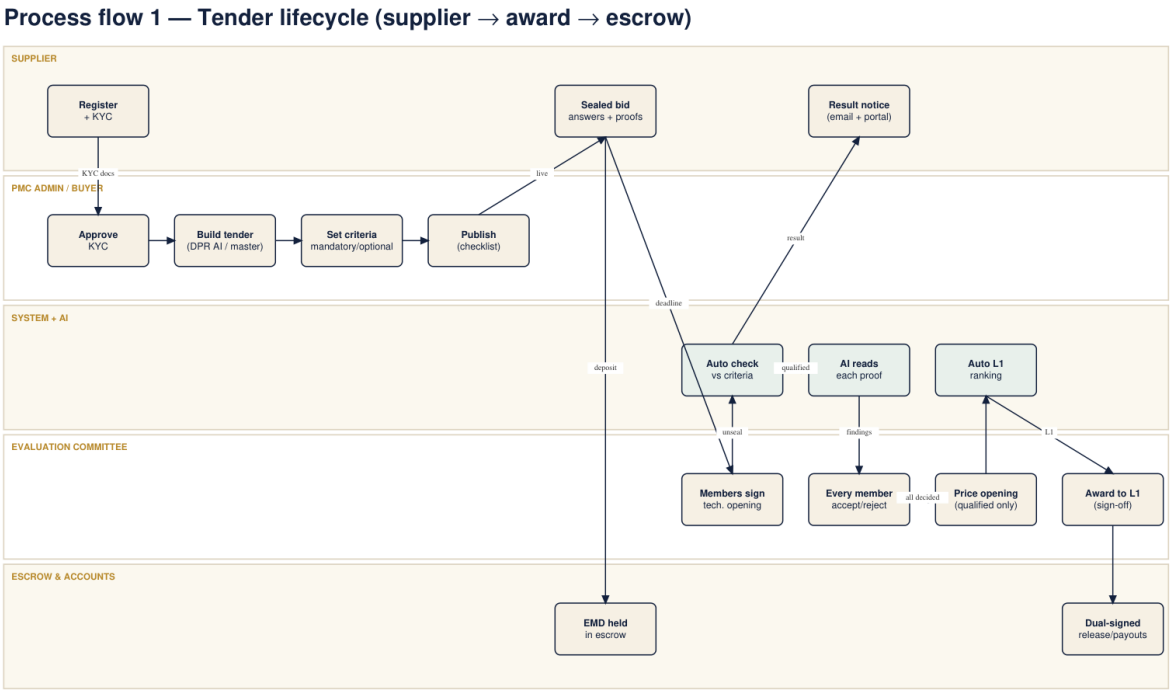

1. Buyer sign-ins can never open PMC admin or staff pages; buyer-organisation admins are not PMC staff.
2. A colleague only gets access after PMC approves the invite; removing a colleague ends every open session.
3. A buyer sees only their own bids, orders, notifications and organisation members.
4. Unconfirmed emails cannot sign in; unverified buyers can browse but not bid or buy.

Sample data in the screenshots is labelled DEMO and is not real business data.

8 · Process flow & data flow diagrams

The same diagrams are in the separate **PMC Process & Data Flow Diagrams** PDF. Process flows show who acts and in which order; data flows show what information moves between people, processes and data stores (grey).

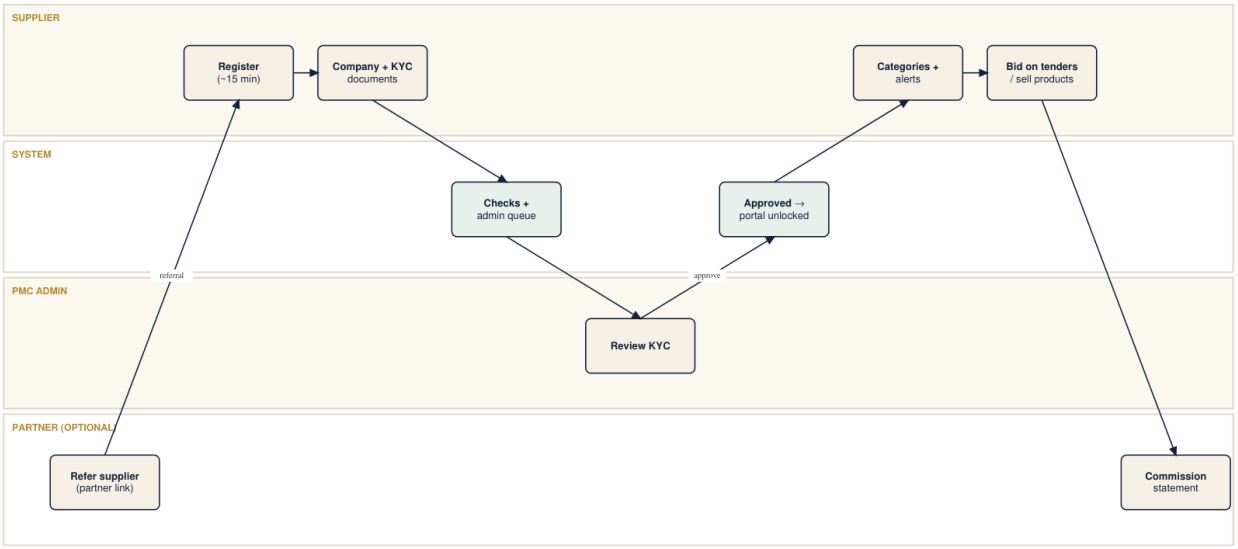

Process flow 1 — Tender lifecycle

- Lanes show who acts. Green boxes are automatic (system or AI). Bids stay sealed until the committee signs each opening.
- A bid qualifies if it meets every mandatory criterion and the minimum number of optional ones; AI only flags proofs, the committee decides.
- Price opening waits until every proof is decided; L1 runs automatically; award needs certifier, legal and accounting clearance.

Process flow 2 — Supplier onboarding

Process flow 2 — Supplier onboarding

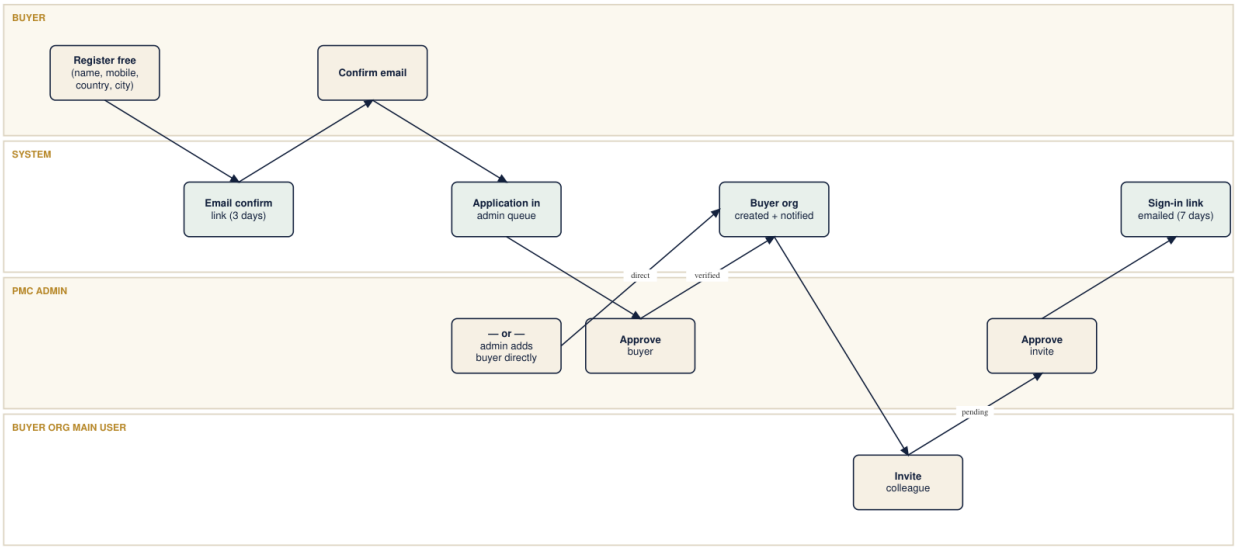

• Suppliers register free in about 15 minutes; KYC is reviewed by PMC before bidding or selling unlocks.

• Partners earn commission on suppliers they refer.

Process flow 3 — Buyer onboarding & team

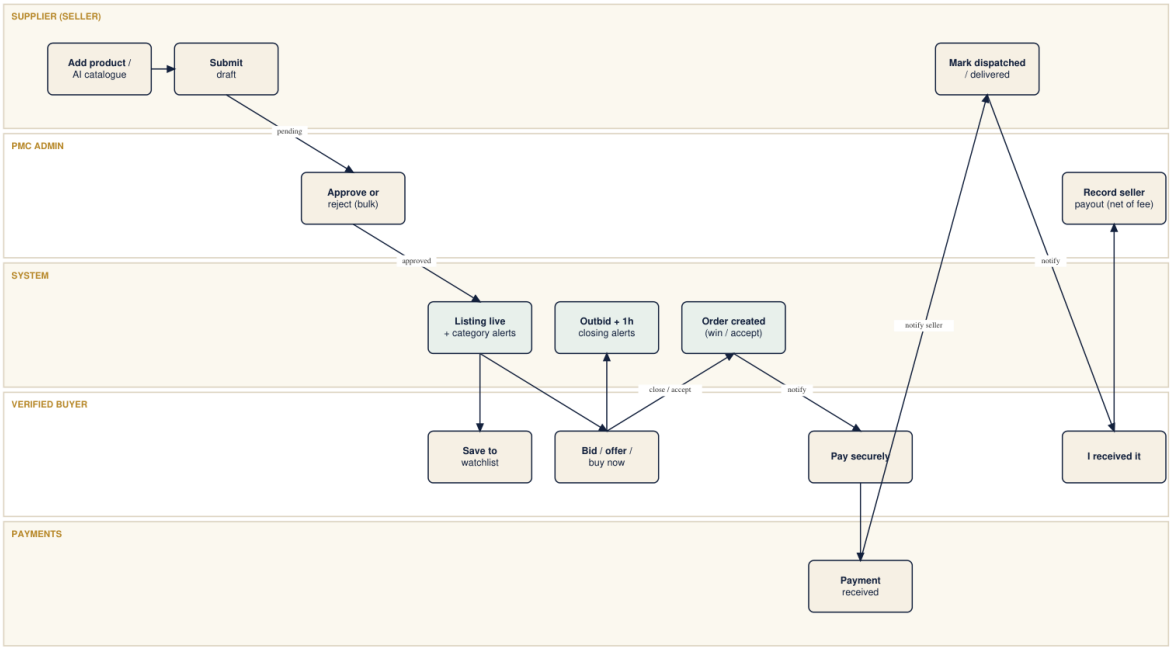

Process flow 3 — Buyer onboarding & team

- Self-registered buyers confirm their email, then PMC approves; only verified buyers can bid or buy.
- PMC can also add a buyer directly (sign-in emailed). Colleagues invited by the main buyer need PMC approval; removal is immediate.

Process flow 4 — Supplier marketplace

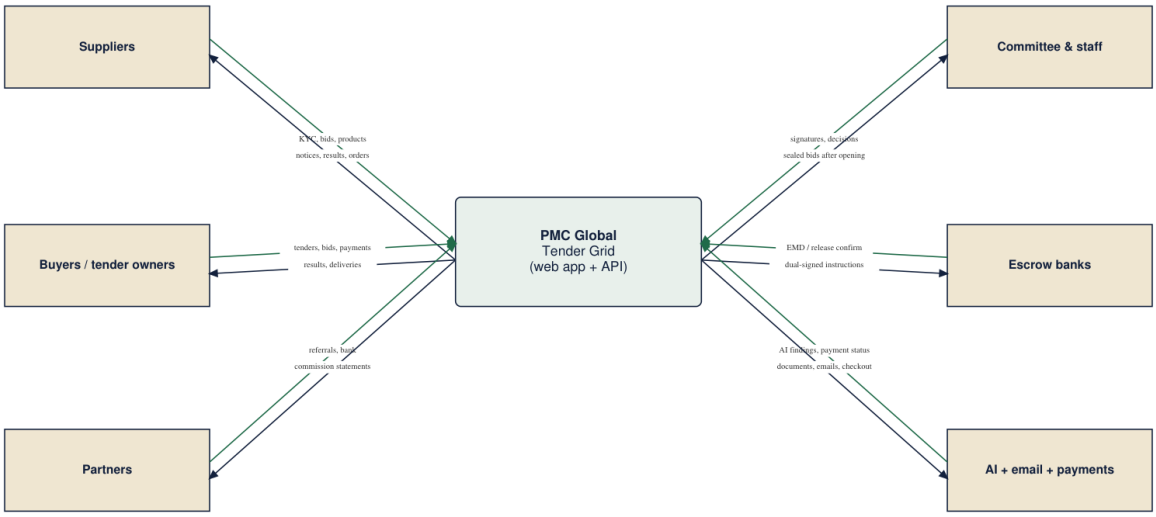

Process flow 4 — Supplier marketplace (list → approve → sell → deliver → payout)

- Every listing is approved by PMC (one by one or in bulk). Sale modes: timed auction, best offer by deadline, fixed price.
- Buyers get outbid alerts and a reminder about an hour before a watched auction closes. PMC pays the seller net of the sale fee.

Data flow — Level 0 (context)

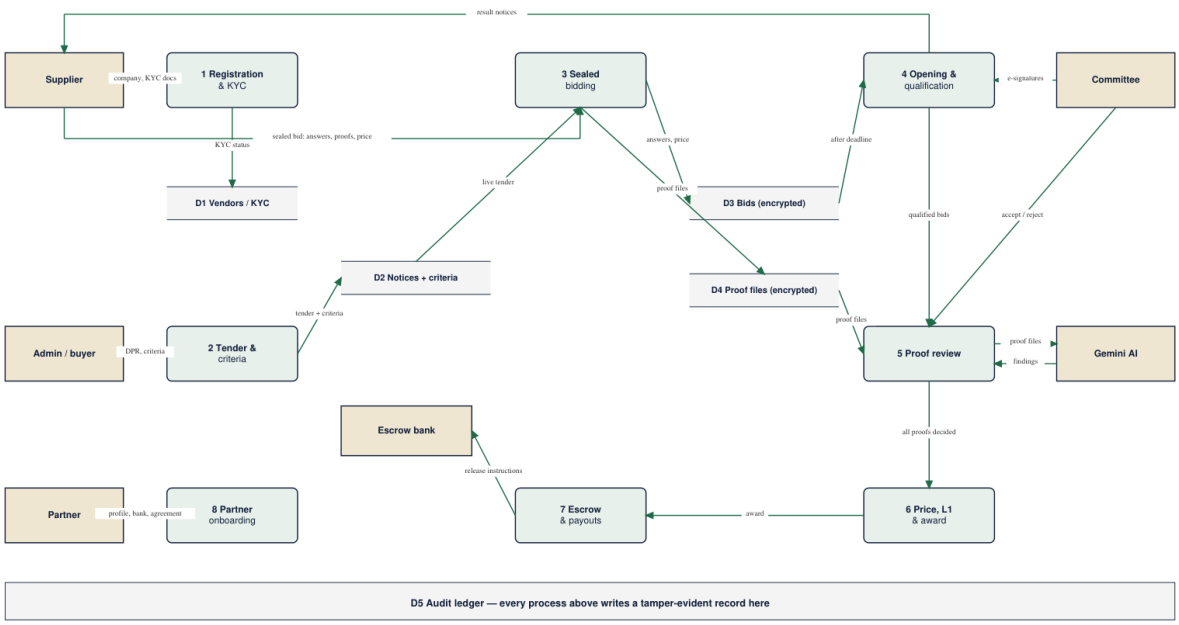

Data flow — Level 0 (context)

• One system, six groups of outside parties. Green arrows: data in; navy arrows: data out.

Data flow — Level 1: tendering

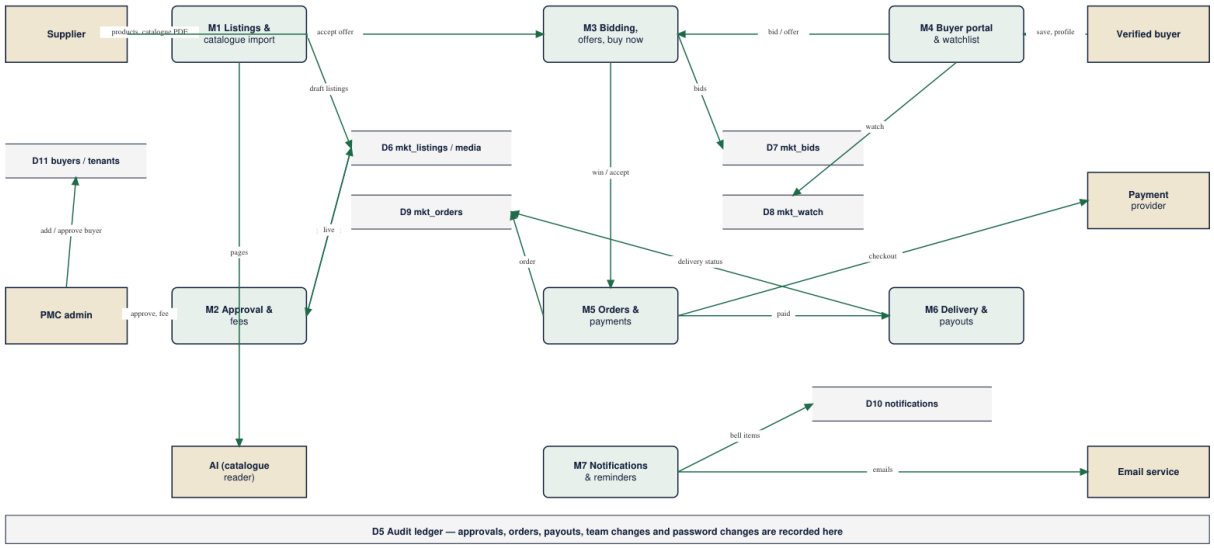

Data flow — Level 1: tendering

- External entities (beige), processes (green), data stores (grey).
- Proof files go to the AI only after the technical opening, for qualified bids only.

Data flow — Level 1: marketplace & buyer portal

Data flow — Level 1: marketplace & buyer portal

- Catalogue pages go to the AI only to propose product drafts; the supplier chooses what to keep.
- Card details are handled by the payment provider; PMC stores only the order and payment status.

9 · Glossary

Term	Meaning
DPR	Detailed project report used to draft a tender
EMD	Earnest money deposit held in escrow with a bid
L1	Lowest compliant price among qualified bids
Mandatory criterion	Must be met by every bidder
Optional criterion	Counts toward the minimum number the tender sets
Proof review	AI finding + unanimous committee decision on each proof
Corrigendum	Formal change to a live tender sent to every bidder
Consortium	Registered suppliers bidding together
Sealed bid	Encrypted until the committee signs the opening
