PMC MANAGERS v2

# Master Training Manual

v5 · Novice edition

Every screen · Every field · Every action

Generated October 05, 2026

www.pmcmanagers.com

PREFACE

# How to use this manual

This manual is written for the reader who has never seen the PMC Managers portal before. It assumes zero domain knowledge — every term is defined in the glossary, every acronym in the acronym index, and every screen is captured full-page so you can recognise the UI before you touch it.

Read the front matter cover-to-cover once. After that, use the manual as a reference: jump to the chapter that matches the screen you are looking at, follow the numbered steps, and consult the API table only if you are integrating or debugging.

### READING PATHS

- New master admin — read every chapter in order. This is the deepest role.
- New reviewer / sub-admin — read Ch 1–3 (login, dashboard, notices) then jump to Bidding / Evaluation.
- New vendor — read Ch 1, then the Vendor Portal chapters.
- New staff (escrow / certifier / legal / accounting) — Ch 1, then the Staff Portal chapters and the module tied to your role (Escrow / Evaluation / Awards).
- QA engineer — every chapter includes an 'API reference' table and 'Error states' list — those are your test hooks.

PREFACE

# Glossary of terms

Every non-obvious term used in this manual is defined here. If you meet an unfamiliar term in a chapter, flip here first.

| | |
|---|---|
| **Approval Matrix** | Ordered list of role stamps required to publish a notice / award. Editable per tenant in Masters. |
| **BOQ** | Bill Of Quantities — line-item cost sheet attached to a tender or contract. |
| **Bid** | A vendor's response to a published notice — includes technical + commercial envelopes. |
| **Corrigendum** | Formal amendment to an already-published notice. Auto-numbered PMC-COR-YYYY-####. |
| **Committee** | Group of reviewers assigned to a notice — chair + members with quorum rules. |
| **COI** | Conflict of Interest declaration — mandatory for evaluators. |
| **Council** | Governing body. Owner tenant that authors master rules for sub-tenants. |
| **EMD** | Earnest Money Deposit — refundable amount held in joint-signature escrow. |
| **Envelope (DocuSign)** | A DocuSign package of documents sent for signature. Authoritative flag marks the legal version. |
| **Escrow** | Neutral holding account. In PMC, always joint-signature: two officers must sign to move money. |
| **G2 Access** | Merged view combining Permissions Matrix + Hierarchy Level — the effective access map. |
| **Hierarchy Level** | 0 = Admin (root), 1 = Reviewer, 2 = Committee/Staff, 3 = Support/Auditor (read-only). |
| **KYC** | Know-Your-Customer — country-scoped identity + doc verification bundle. |
| **L1** | 'Lowest 1' — the lowest-priced compliant bid, i.e. the price winner. |
| **Notice** | The umbrella object for a Tender / RFP / RFQ. Every notice has a unique PMC-NOT-YYYY-####. |
| **PO** | Purchase Order — issued to a vendor after award. |
| **QCBS** | Quality-Cost Based Selection — hybrid technical + commercial score, e.g. 70/30. |
| **Reverse Auction** | Timed downward-bid event held after technical qualification. |
| **RFP** | Request For Proposal — structured tender with technical + commercial envelopes. |
| **RFQ** | Request For Quotation — simple price-only quote |

| | |
|---|---|
| | request. |
| **Sub-tenant** | Child tenant under an owner. Inherits masters and theme. |
| **Tender** | The most formal procurement — full technical + commercial + legal cycle. |
| **Tender Builder** | In-app template designer for tender / RFP / RFQ. Sections + annexures + AI drafter. |
| **Tenant** | A branded portal. PMC is multi-tenant: same DB, tenant-scoped data + skin. |
| **Vendor Intel** | Blacklist / whitelist / grey-list registry + KPI scoring. |

PREFACE

# Acronym & jargon index

| | |
|---|---|
| **BOT** | Build-Operate-Transfer (infra concession model) |
| **BOQ** | Bill Of Quantities |
| **COI** | Conflict Of Interest |
| **EMD** | Earnest Money Deposit |
| **GFR** | General Financial Rules (India) |
| **KPI** | Key Performance Indicator |
| **KYC** | Know Your Customer |
| **L1** | Lowest Compliant Bid (Level 1) |
| **PO** | Purchase Order |
| **QCBS** | Quality-Cost Based Selection |
| **RFP** | Request For Proposal |
| **RFQ** | Request For Quotation |
| **RBAC** | Role-Based Access Control |
| **SLA** | Service Level Agreement |
| **SME** | Small / Medium Enterprise |
| **TOTP** | Time-based One-Time Password (2FA) |

PREFACE

# Day-1 quick-start

This is the shortest possible path from 'never seen the portal' to 'first productive action'. Even if you skip everything else, do these seven steps before you close the manual.

### STEP 1 · OPEN YOUR WELCOME EMAIL

Your admin or IT team will send you a welcome email from noreply@pmcmanagers.com. It contains the portal URL (usually https://www.pmcmanagers.com or your tenant-specific sub-domain), your email login, and a one-time password.

### STEP 2 · REACH THE SIGN-IN PAGE

Paste the URL into any modern browser (Chrome/Edge/Safari/Firefox). You will land on the public home page. In the top-right, click 'Sign in'. On the /login card, pick the tile that matches your role — 'I'm an admin', 'I'm a vendor', or 'I'm staff'. If you are the master admin, you may also open /admin/login directly.

### STEP 3 · SIGN IN

Type your email → your password → Sign in. On success you will be redirected to your dashboard within one second. If you see a red toast, the message will tell you exactly why (wrong password, account locked, wrong role tab).

### STEP 4 · CHANGE THE TEMPORARY PASSWORD

As soon as you land, click the avatar circle top-right → 'Change password'. Enter the temp password and a new one that is at least 12 characters, has an upper-case, a digit, and a symbol. Save. You are now signed in with your permanent password.

### STEP 5 · TAKE THE TOUR

Read the 'Portal Anatomy' chapter next. It explains the top-bar buttons, the tab strip, and the drawer/modal patterns that repeat across every screen. Once you have those three concepts, every panel in this manual will feel familiar.

### STEP 6 · DO YOUR FIRST ACTION

The fastest way to feel comfortable is to complete one real task on Day 1. For admins, that is publishing a draft notice in the Notices tab. For vendors, that is completing Section A of registration. For staff, that is opening the first task assigned to your role. Each chapter of this manual walks you through that first task with screenshots.

### STEP 7 · SIGN OUT SAFELY

Every day, close your session by clicking the avatar top-right → 'Sign out'. The button clears your session cookie so nobody can resume it on a shared machine. If you close the tab without signing out, your cookie is still valid for 12 hours.

PREFACE

# Portal anatomy — the ten UI patterns

The portal repeats the same ten UI patterns everywhere. Learn them once, and every chapter of this manual will feel familiar.

### TOP BAR

Every logged-in screen shows the same top bar. Left: PMC brand + tenant chip (which portal you are inside). Right: notification bell (counts unread alerts), Audit Copilot (opens an AI Q&A drawer), Security button (opens the MFA setup modal), avatar (your account menu), Sign out.

### TAB STRIP

Directly under the top bar, admins see a chip-style tab strip with 26 tabs. On mobile (<768 px) the strip collapses into a single dropdown. Tabs never navigate — they swap the panel below without leaving the /admin URL. The URL query updates to ?tab=<key> so refresh keeps you in place.

### PANEL HEADER

Each panel starts with a small navy label (the panel kicker) and a big display heading. The kicker is the module family, the heading is the specific screen. Underneath, a filter/action bar carries the primary CTA + filters. Always look here first.

### LIST ROWS

Every listing panel uses a slim horizontal row per record. Rows expose a right-side chevron or a drawer button. Click the row (not the buttons) to open the drawer with full details.

### MODALS & DRAWERS

Modals slide in from the centre (dim overlay). Drawers slide in from the right (no overlay). Both close on ESC. Both use the same three-button footer: Cancel · Secondary · Primary.

### TOASTS

Every backend action shows a toast in the bottom-right for 4s. Green = success, amber = warning, red = error. Errors always name the field + the reason (e.g. 'notice.budget_amount must be ≥ 0').

### EMPTY STATES

A panel with no rows never shows a spinner forever. Instead it prints a friendly empty state with the exact next action. E.g. 'No committees yet — click New committee to seed one.'

### LOADING STATES

Skeleton bars (grey rectangles pulsing) while data is fetched. If a fetch exceeds 8s, a retry banner appears. Never a blank screen.

### LANGUAGE SWITCHER

In the public top-bar and inside the admin profile modal you can flip EN / RU / KK. The choice is stored in localStorage and applied on next paint.

### KEYBOARD SHORTCUTS

ESC closes any open modal/drawer. Enter submits the currently-focused form. Tab moves between fields. Shift+Tab reverses. No mouse required for any core flow.

BODY

# The portal · screen by screen

Every subsequent chapter is one screen: what it does, every field on it, how to complete the primary action, the API endpoints it calls, common pitfalls and error states.

CHAPTER 1 · PUBLIC

# Public landing page

Audience: All

First view a visitor lands on. Presents brand, service lanes, sign-in / register CTAs.

HOW IT WORKS

## From draft to signed contract, on one sealed record.

Seven stages, one platform. Pick a stage to see what happens there and what proof it leaves behind.

| I | II | III | IV | V | VI | VII |
|---|---|---|---|---|---|---|
| Draft | Publish | Clarify | Bid | Evaluate | Compare | Award |
| Author the notice | Go live to suppliers | Answer questions | Sealed submissions | Score technically | Open commercial | Sign & contract |

STAGE IV · BID

### Sealed two-envelope bids

Technical and commercial envelopes are sealed until the deadline. EMD is paid to escrow or lodged as a bank guarantee inside the bid.

Written to the ledger as `bid.seal · #1891`

BID PMC-BID-2026-00020

- Eligibility — Done
- Technical envelope sealed — Done
- Commercial envelope sealed — Done
- IV EMD in escrow — Awaiting escrow

Figure 1.1 — Public landing page (captured live).

## ANATOMY · EVERY ELEMENT ON THIS SCREEN

| | |
|---|---|
| **Top-bar brand** | Portal logo + name. Clickable — always returns to '/'. |
| **Notices nav** | Public list of open tenders. No login required. |
| **Register nav** | Vendor self-registration entry (Section A of the wizard). |
| **Sign in nav** | Unified login card — pick admin / vendor / staff. |
| **Language switcher** | EN · RU · KK. Persists in localStorage. |
| **Hero band** | Tenant-configured value proposition + primary CTA. |

## STEP-BY-STEP TUTORIAL

### STEP 1 · OPEN THE PORTAL

Navigate to https://www.pmcmanagers.com/ in any modern browser.

### STEP 2 · SWITCH LANGUAGE

Click the EN pill top-right → RU or KK. Text re-flows instantly.

### STEP 3 · READ A TENDER

Click 'Notices' → any card opens the detail view.

### STEP 4 · REGISTER AS VENDOR

Click 'Register' → land on Section A of the wizard.

## API REFERENCE

| Verb | Path | Notes |
|---|---|---|
| `GET` | `/api/v1/notices?public=1` | Returns published notices only. |

## ERROR STATES YOU MAY SEE

- If the language pill only shows English, the i18n bundle failed — hard-refresh (Ctrl+F5).

## COMMON PITFALLS

- Draft notices never appear here — only status=published are visible.

CHAPTER 2 · PUBLIC

# Public notice board

Audience: All

Browsable directory of every published tender / RFP / RFQ across all tenants.

| | |
|---|---|
| **URL** | /notices |
| **Role** | public |

## ANATOMY · EVERY ELEMENT ON THIS SCREEN

| | |
|---|---|
| **Search bar** | Full-text search over title + description. |
| **Country filter** | ISO-2 country code. |
| **Category filter** | Free-text tag — Construction, IT, Consulting… |
| **Notice card** | Title · closing date · budget · country · CTA 'View'. |
| **Empty state** | 'No open tenders match your filters' — friendly copy with a Reset button. |

## STEP-BY-STEP TUTORIAL

### STEP 1 · FILTER TO INDIA

Country → IN → list refreshes without page reload.

### STEP 2 · OPEN A NOTICE

Click any card → detail page opens with description + downloads + QA thread.

## API REFERENCE

| Verb | Path | Notes |
|---|---|---|
| `GET` | `/api/v1/notices?public=1&country=IN` | Filters by country. |

## COMMON PITFALLS

- Closed tenders still show but with a 'CLOSED' pill — participation buttons are disabled.

CHAPTER 3 · PUBLIC

### Sealed two-envelope bids

Technical and commercial envelopes are sealed until the deadline. EMD is paid to escrow or lodged as a bank guarantee inside the bid.

Written to the ledger as `bid.seal · #1891`

BID PMC-BID-2026-00020

| | |
|---|---|
| ✓ Eligibility | Done |
| ✓ Technical envelope sealed | Done |
| ✓ Commercial envelope sealed | Done |
| IV EMD in escrow | Awaiting escrow |

Figure 3.1 — Public notice detail (captured live).

## ANATOMY · EVERY ELEMENT ON THIS SCREEN

| | |
|---|---|
| **Title bar** | Notice ref (PMC-NOT-YYYY-####) + title. |
| **Deadline banner** | Countdown timer to submission_deadline (UTC). |
| **Description** | Full HTML body composed via Tender Builder. |
| **Downloads** | Primary document + attachments (PDF / DOCX / XLSX). |
| **QA thread** | Public question/answer log — answers appear only after admin publishes them. |
| **Bid now CTA** | Redirects to /vendor/bid/new/:ref (requires vendor login). |

## STEP-BY-STEP TUTORIAL

### STEP 1 · DOWNLOAD THE TENDER DOCUMENT

Click 'Primary document' → PDF downloads immediately.

### STEP 2 · ASK A PUBLIC QUESTION

QA thread → 'Ask a question' → type ≥ 10 chars → Submit. Admin will publish the answer.

## API REFERENCE

| Verb | Path | Notes |
|---|---|---|
| `GET` | `/api/v1/notices/{notice_ref}` | Public if is_published=true. |
| `POST` | `/api/v1/notice-qa/{notice_ref}` | Post a QA thread question. |

## COMMON PITFALLS

- Corrigenda (amendments) are shown under a 'History' expander — always read them before bidding.

CHAPTER 4 · PUBLIC

# Vendor registration · Section A — Identity

Audience: Vendor · Ops

Entry point of the 5-section KYC wizard. Section A captures identity + primary contact.

| | |
|---|---|
| **URL** | /register |
| **Role** | public |

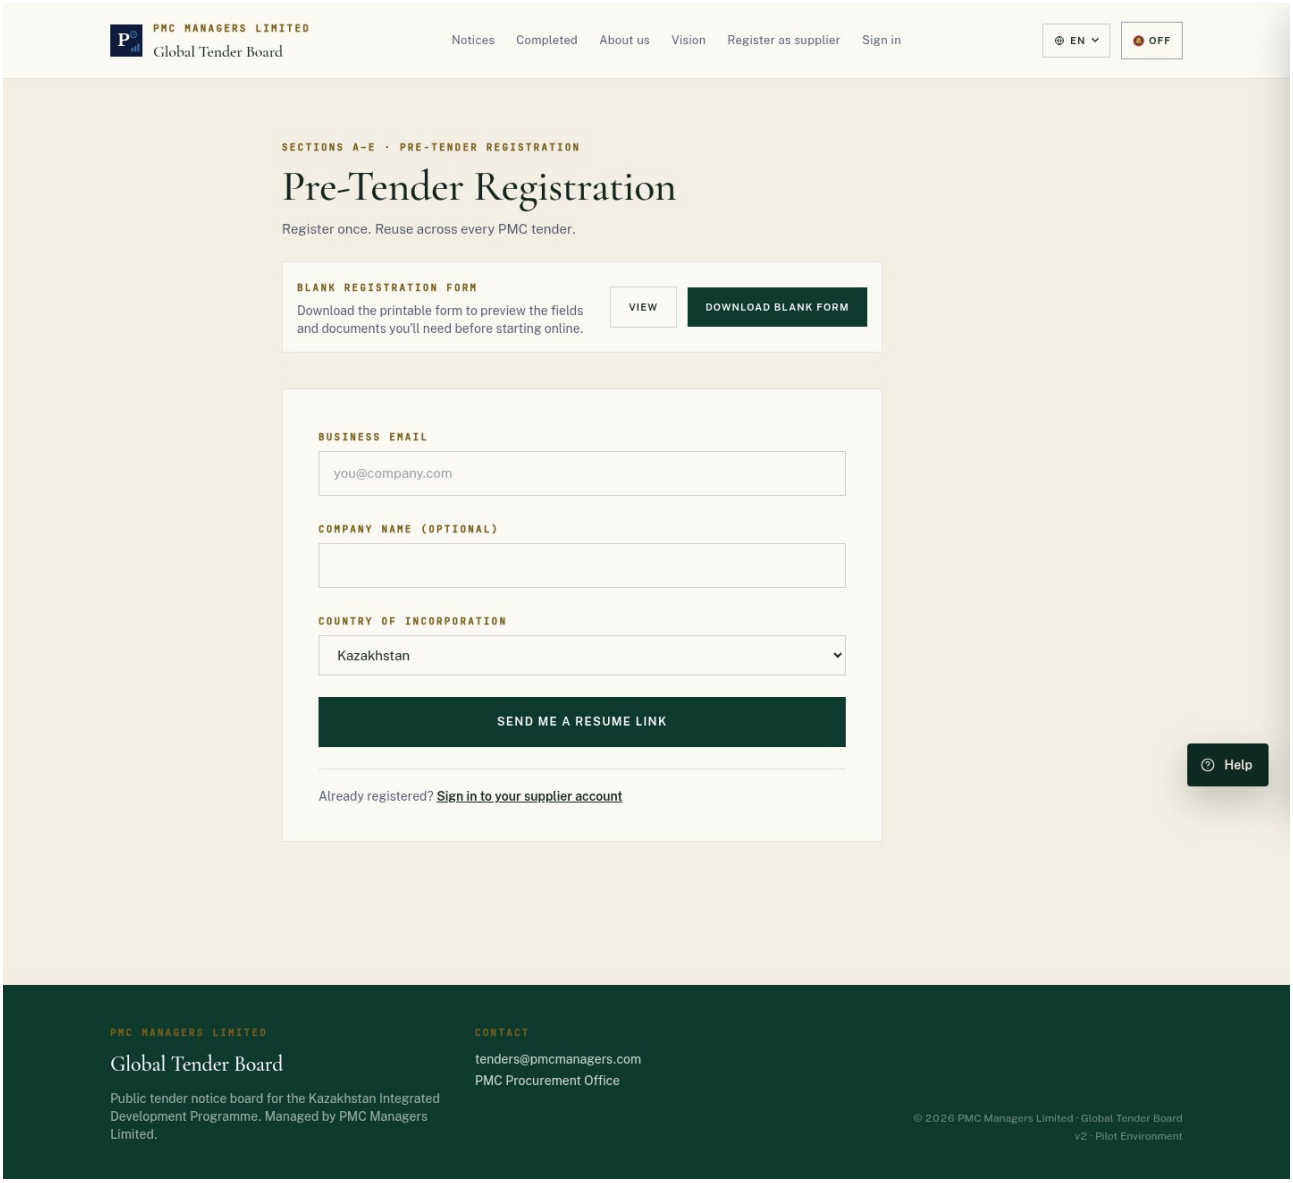

Figure 4.1 — Vendor registration · Section A — Identity (captured live).

## ANATOMY · EVERY ELEMENT ON THIS SCREEN

| | |
|---|---|
| **Company name** | Legal name as per registration certificate. Required. |
| **Contact person** | First + last name of primary contact. |
| **Email** | Primary email — must be unique per tenant. |
| **Phone** | E.164 with country code (e.g. +91-98765-43210). |

| | |
|---|---|
| **Country** | ISO-2. Determines the KYC doc catalog in Section D. |
| **Save & continue** | Creates a silent draft and emails a resume-token. |

## STEP-BY-STEP TUTORIAL

### STEP 1 · FILL SECTION A

Enter all fields → Save & continue. Draft is created.

### STEP 2 · SAVE THE RESUME EMAIL

Backend mails a resume-token URL to the primary email.

## API REFERENCE

| Verb | Path | Notes |
|---|---|---|
| `POST` | `/api/v1/registrations/draft` | Creates draft + returns resume_token. |
| `GET` | `/api/v1/registrations/resume/{token}` | Loads a draft by token. |

## COMMON PITFALLS

- Losing the resume email = start over. Admin can re-issue via Registrations panel.
- Country change mid-flow re-loads the Section D doc catalog and clears prior D uploads.

CHAPTER 5 · PUBLIC

# Vendor registration · Status check

Audience: Vendor · Ops

Any vendor with the emailed resume-token can check status without logging in.

| | |
|---|---|
| **URL** | /register/status |
| **Role** | public |

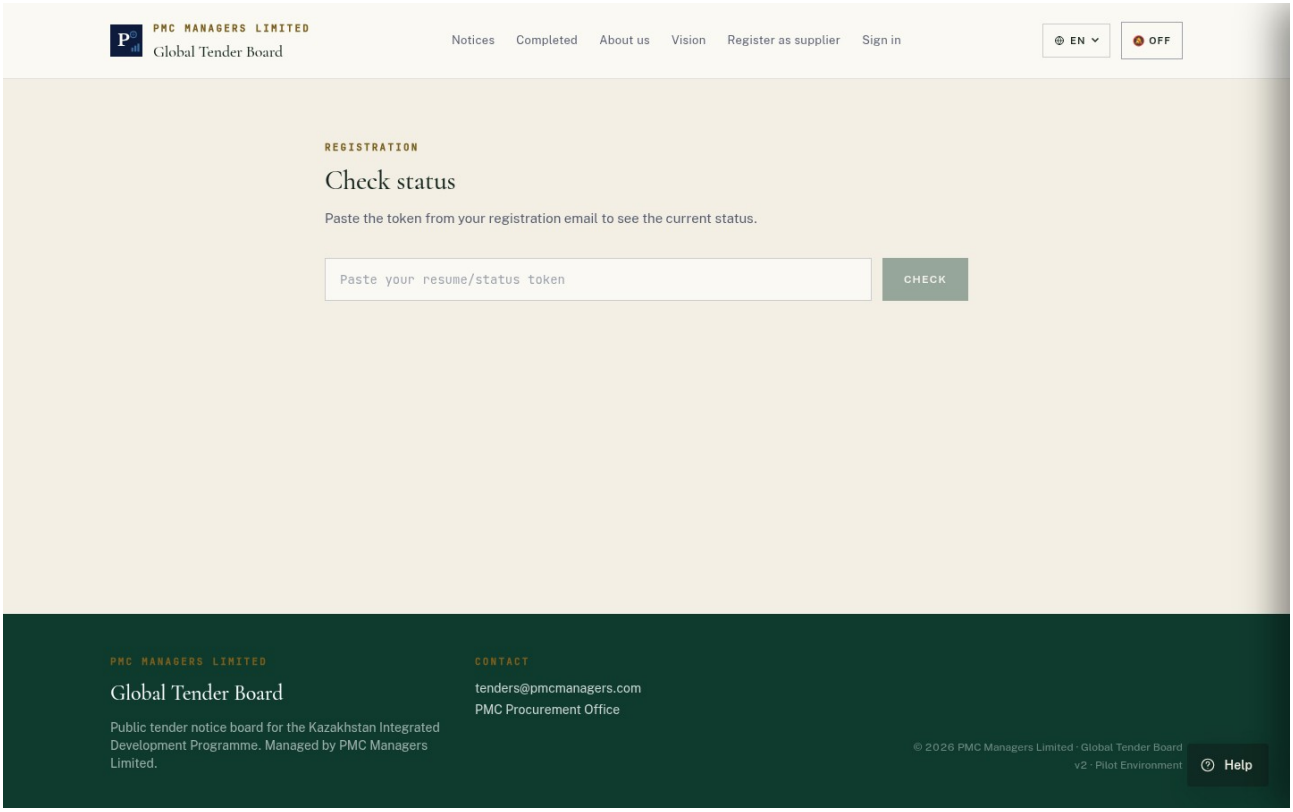

Figure 5.1 — Vendor registration · Status check (captured live).

## ANATOMY · EVERY ELEMENT ON THIS SCREEN

| | |
|---|---|
| **Token input** | Paste the 24-char URL-safe token from the email. |
| **Check button** | Fetches current stage + reviewer notes. |
| **Status card** | Stage · updated_at · reviewer comments (if any). |

## STEP-BY-STEP TUTORIAL

### STEP 1 · PASTE AN INVALID TOKEN

Toast surfaces 'Token invalid or expired' (Bug 7 fix).

### STEP 2 · PASTE A VALID TOKEN

Result card renders stage banner + latest reviewer note.

## API REFERENCE

| Verb | Path | Notes |
|---|---|---|
| GET | `/api/v1/registrations/` | Public read. |

status?token=…

CHAPTER 6 · PUBLIC

# Public product roadmap

Audience: Client · Investor

Client-visible feature roadmap. Fed from the admin roadmap module.

| | |
|---|---|
| **URL** | /roadmap |
| **Role** | public |

LIVE ROADMAP

# What's built vs what's coming

A live view of every scope item on the platform. Delivered = shipped and audit-logged. Partial = waiting on external credentials. Planned = roadmap. This page updates the moment the team ships a new wave.

| DELIVERED | PARTIAL | PLANNED |
|---|---|---|
| 50 | 1 | 6 |
| of 57 tracked | of 57 tracked | of 57 tracked |

## AUTH & ACCESS

| ASKED | DELIVERED | |
|---|---|---|
| Multi-role staff + vendor authentication with MFA<br>*Waves 1-14 · MFA verified via TOTP* | HTTPOnly cookie auth + CSRF, TOTP MFA, Unified Two-Card Login Hub, staff/vendor/admin flows | DELIVERED |
| Role-based permissions across staff (Escrow, Certifier, Legal, Accounting…)<br>*PermissionsPanel + `security.require_role`* | Dynamic Permissions Matrix panel, per-endpoint role decorators, audit logs on every action | DELIVERED |

## MULTI-TENANT

| ASKED | DELIVERED | |
|---|---|---|
| Portal skinning per tenant, CNAME-based routing<br>*Wave 22 · `tenants.by-host` + `useTenantSkin`* | CNAME multi-tenant subdomains, tenant chip on admin bar, per-tenant branding colour + logo | DELIVERED |

## I18N

| ASKED | DELIVERED | |
|---|---|---|
| Trilingual UI (English, Russian, Kazakh)<br>*Wave 19 · `i18n-strings.js`* | Full EN/RU/KK dictionary, live switcher, localised country dropdown | DELIVERED |
| Trilingual coverage across every admin panel (not just public + login)<br>*Wave 42a* | Added `panels` namespace to `i18n-strings.js` — ~450 EN/RU/KK strings covering headings, buttons, filter chips, table headers, empty states and toasts for 15 admin panels (Analytics, Audit, Awards, BOQ, Bidding, Corrigenda, Engagements, Evaluation, LiveAuctions, MFA, Masters, Permissions, Reports, TenderBuilder, VendorIntel). 21 of 22 admin panels now use `usel18n` | DELIVERED |

## NOTICE BOARD

| ASKED | DELIVERED | |
|---|---|---|
| Public tender board with document downloads<br>*`notices` router + `NoticeDetail.jsx`* | Public notice list + detail pages, primary document, attachments, deadline | DELIVERED |

## VENDOR REGISTRATION

| ASKED | DELIVERED | |
|---|---|---|
| 5-section vendor registration (A-E) with KYC document slots<br>*Wave 14 · `RegistrationResume` + `DocSlot`* | Sections A-E form, magic-link resume, per-slot document upload, admin "add & fill on behalf" | DELIVERED |
| Silent draft creation so admins can upload docs without an extra click<br>*Wave 27* | `ensureDraft()` auto-saves the record the moment an admin picks a file | DELIVERED |

## TENDER BUILDER

| ASKED | DELIVERED | |
|---|---|---|
| Template builder mirroring a real 39/75-page PSU tender | 18-section master template (Sections 1-4, Annexures I-VIII, Forms A-F), clone-to-draft | DELIVERED |

Help

Figure 6.1 — Public product roadmap (captured live).

| ANATOMY · EVERY ELEMENT ON THIS SCREEN | |
|---|---|
| **Column · Shipped** | Delivered features by quarter. |
| **Column · In progress** | Active WIP. |
| **Column · Planned** | Committed backlog. |

|---|---|---|
| **Verb** | **Path** | **Notes** |
| `GET` | `/api/v1/roadmap` | Public feed. |

CHAPTER 7 · PUBLIC

# Unified login card

Audience: All

Single entry point offering Admin / Vendor / Staff login lanes.

| | |
|---|---|
| **URL** | /login |
| **Role** | public |

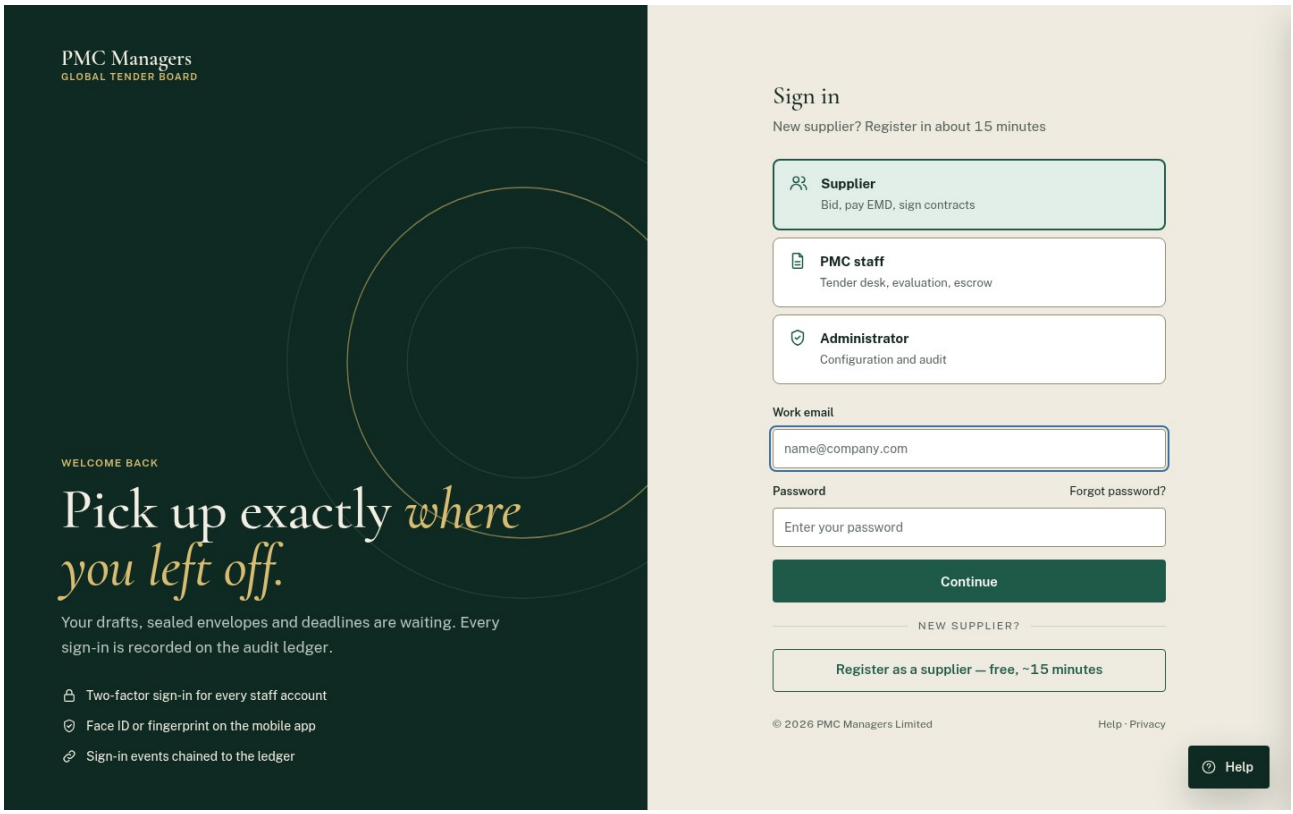

Figure 7.1 — Unified login card (captured live).

## ANATOMY · EVERY ELEMENT ON THIS SCREEN

| | |
|---|---|
| **Admin card** | Redirects to /admin/login. |
| **Vendor card** | Redirects to /vendor/login. |
| **Staff card** | Redirects to /staff/login (auditor, escrow, certifier…). |

## STEP-BY-STEP TUTORIAL

### STEP 1 · PICK YOUR ROLE

Click the card matching the account you were issued.

### STEP 2 · BOOKMARK IT

Once picked, the choice is remembered in localStorage for next visit.

CHAPTER 8 · PUBLIC

# Admin login page

Audience: Ops · Mgmt

Master admin + reviewer credential login. HTTPOnly cookie + CSRF double-submit.

| | |
|---|---|
| **URL** | /admin/login |
| **Role** | public |

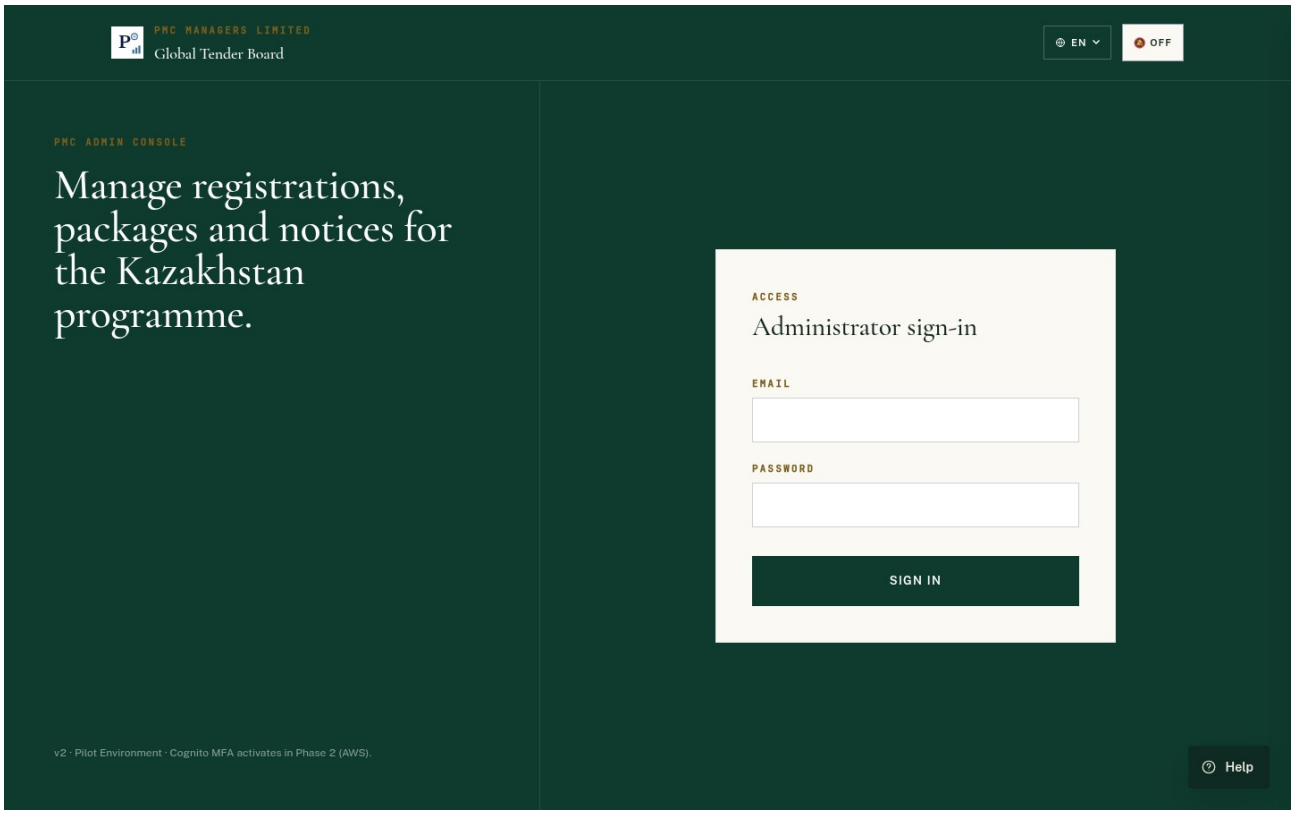

Figure 8.1 — Admin login page (captured live).

## ANATOMY · EVERY ELEMENT ON THIS SCREEN

| | |
|---|---|
| **Email** | Admin or reviewer email. |
| **Password** | Min 12 chars, 1 upper, 1 digit, 1 symbol. |
| **Sign in** | POST /api/v1/admin/auth/login. |
| **Forgot password** | Sends recover-token email; token TTL 30 min. |

## STEP-BY-STEP TUTORIAL

### STEP 1 · LOG IN

Email + password → Sign in → redirect to /admin within ~1s.

### STEP 2 · WRONG PASSWORD

Toast shows backend error. 5 fails → 15-min lockout.

## API REFERENCE

| Verb | Path | Notes |
|---|---|---|

| | | |
|---|---|---|
| POST | /api/v1/admin/auth/login | Returns {token,role}. Sets HTTPOnly cookie. |
| POST | /api/v1/admin/auth/logout | Clears cookie. |
| POST | /api/v1/admin/auth/change-password | Requires CSRF header. |

## ERROR STATES YOU MAY SEE

- 401 Invalid credentials · 429 Too many attempts (retry in 15 min) · 403 CSRF missing.

## COMMON PITFALLS

- Stale cookies from another tenant — log out first (avatar → Sign out).

CHAPTER 9 · PUBLIC

# Vendor login page

Audience: Vendor

Approved vendors sign in with email + password to reach the vendor portal.

| | |
|---|---|
| **URL** | /vendor/login |
| **Role** | public |

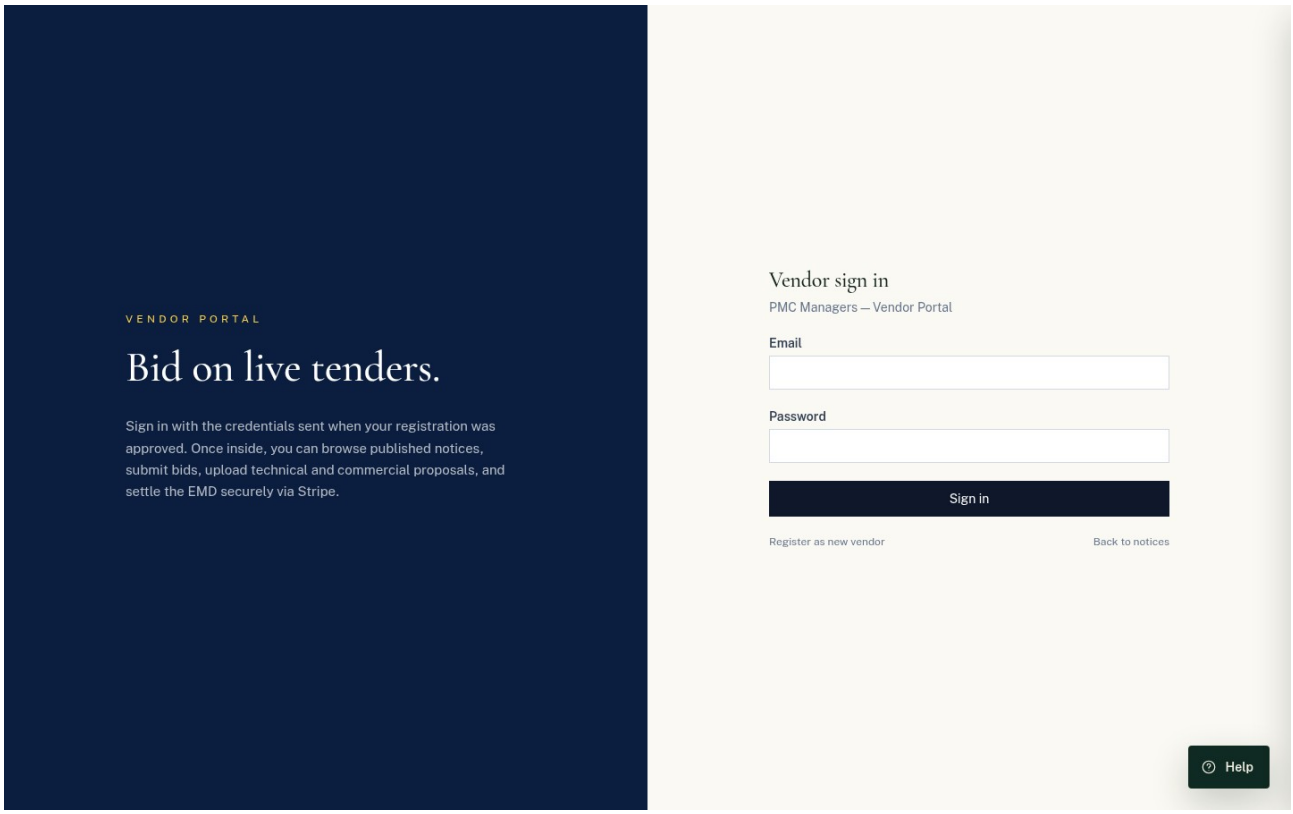

Figure 9.1 — Vendor login page (captured live).

## ANATOMY · EVERY ELEMENT ON THIS SCREEN

| | |
|---|---|
| **Email** | Vendor primary email (must match approved registration). |
| **Password** | Set via activation email after Registration is approved. |
| **Register link** | Bounces to /register for new vendors. |
| **Back to notices** | Public notice board link. |

## STEP-BY-STEP TUTORIAL

### STEP 1 · SIGN IN

Email + password → Sign in → land on /vendor within 1s.

### STEP 2 · FIRST-TIME LOGIN

If must_change_password=true, you are forced to /vendor/change-password before anything else.

## API REFERENCE

| Verb | Path | Notes |
|---|---|---|

| | | |
|---|---|---|
| POST | /api/v1/vendor/auth/login | Sets vendor session cookie + returns csrf_token. |

**ERROR STATES YOU MAY SEE**

- 401 Invalid email or password · 403 Vendor account disabled (contact admin).

CHAPTER 10 · PUBLIC

# Staff login page

Audience: Staff

Escrow · Certifier · Legal · Accounting · Committee · Support · Auditor login lane.

| | |
|---|---|
| **URL** | /staff/login |
| **Role** | public |

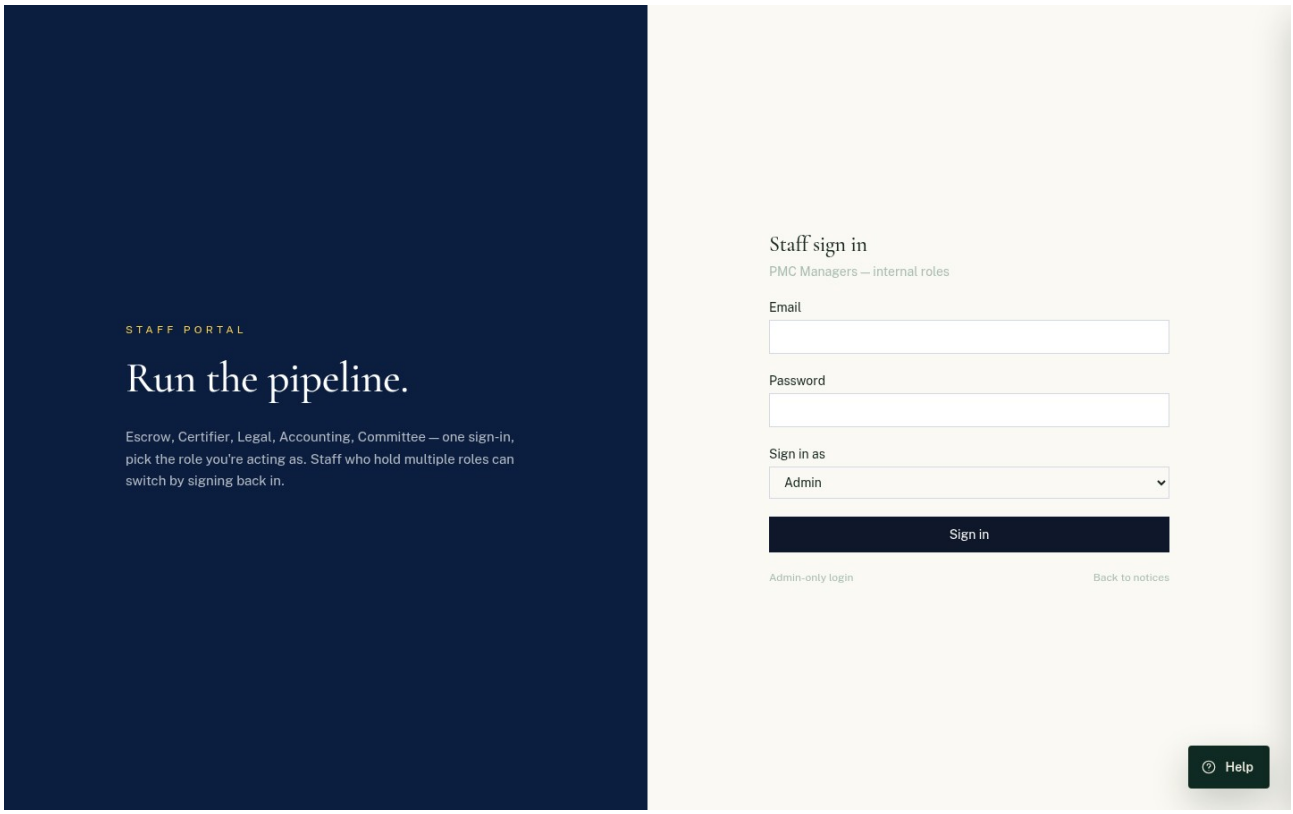

Figure 10.1 — Staff login page (captured live).

## ANATOMY · EVERY ELEMENT ON THIS SCREEN

| | |
|---|---|
| **Email** | Staff email seeded in Masters → Staff. |
| **Password** | Provided by admin at seeding. |
| **Role picker** | Select the role you are signing in as (multi-role staff). |
| **OTP (MFA)** | 6-digit TOTP if MFA is enabled for that account. |

## API REFERENCE

| Verb | Path | Notes |
|---|---|---|
| POST | `/api/v1/staff/auth/login` | Body {email, password, active_role, mfa_code?}. |

## ERROR STATES YOU MAY SEE

- 422 active_role invalid — must be one of: admin, reviewer, escrow_agent, certifier, legal_counsel, accounting, committee_member, auditor, support.

CHAPTER 11 · PUBLIC

# Mobile login

Audience: Mobile

Compact login card sized for narrow (<420 px) viewports. Same auth endpoints as desktop.

| | |
|---|---|
| **URL** | /m/login |
| **Role** | public |

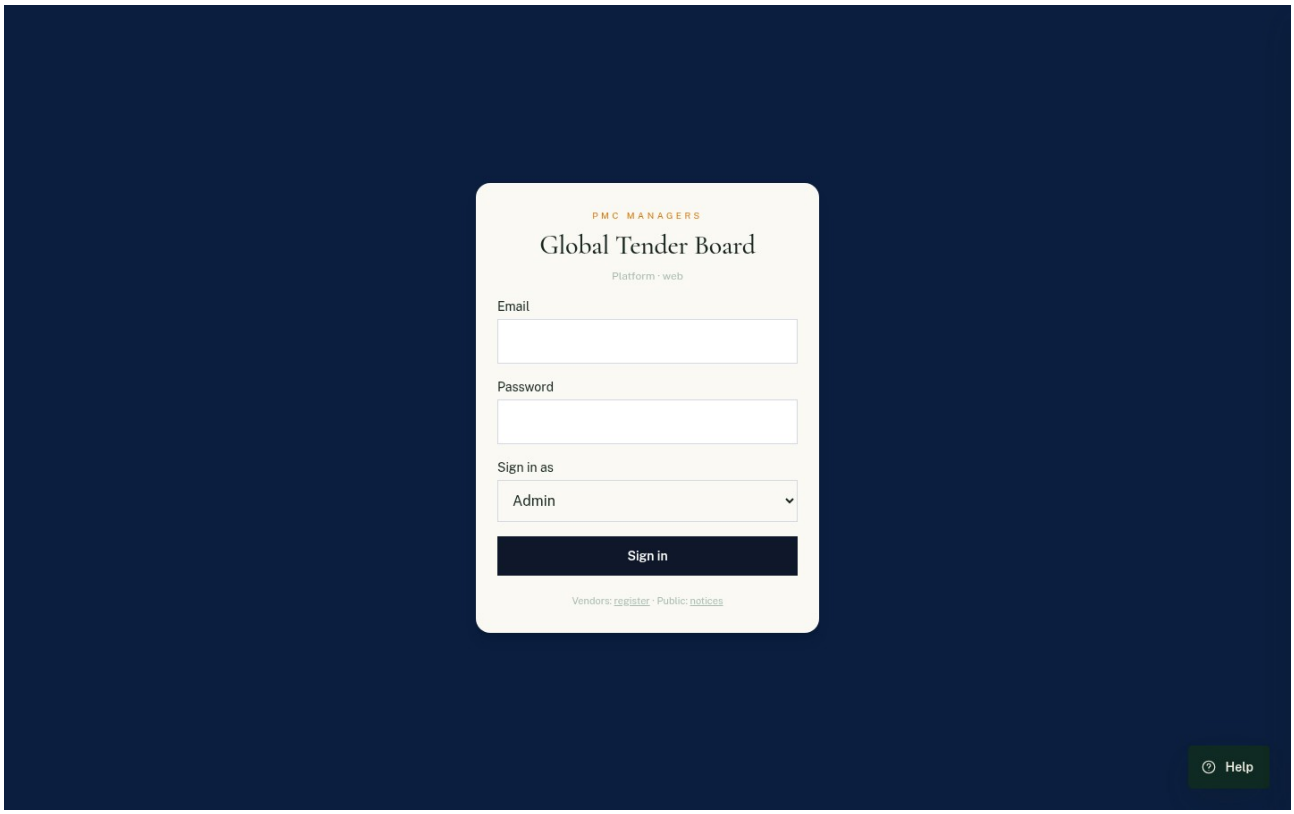

Figure 11.1 — Mobile login (captured live).

CHAPTER 12 · PUBLIC

# Vendor registration · Resume with token

Audience: Vendor · Ops

Any vendor can resume a draft by pasting the resume-token from the email. This capture uses a seeded draft that has sections A/B/C/D/E prefilled.

| | |
|---|---|
| **URL** | /register/resume?token=pYafyue0vvTaBAZMq9-2PqBm_Hq0aN-4 |
| **Role** | public |

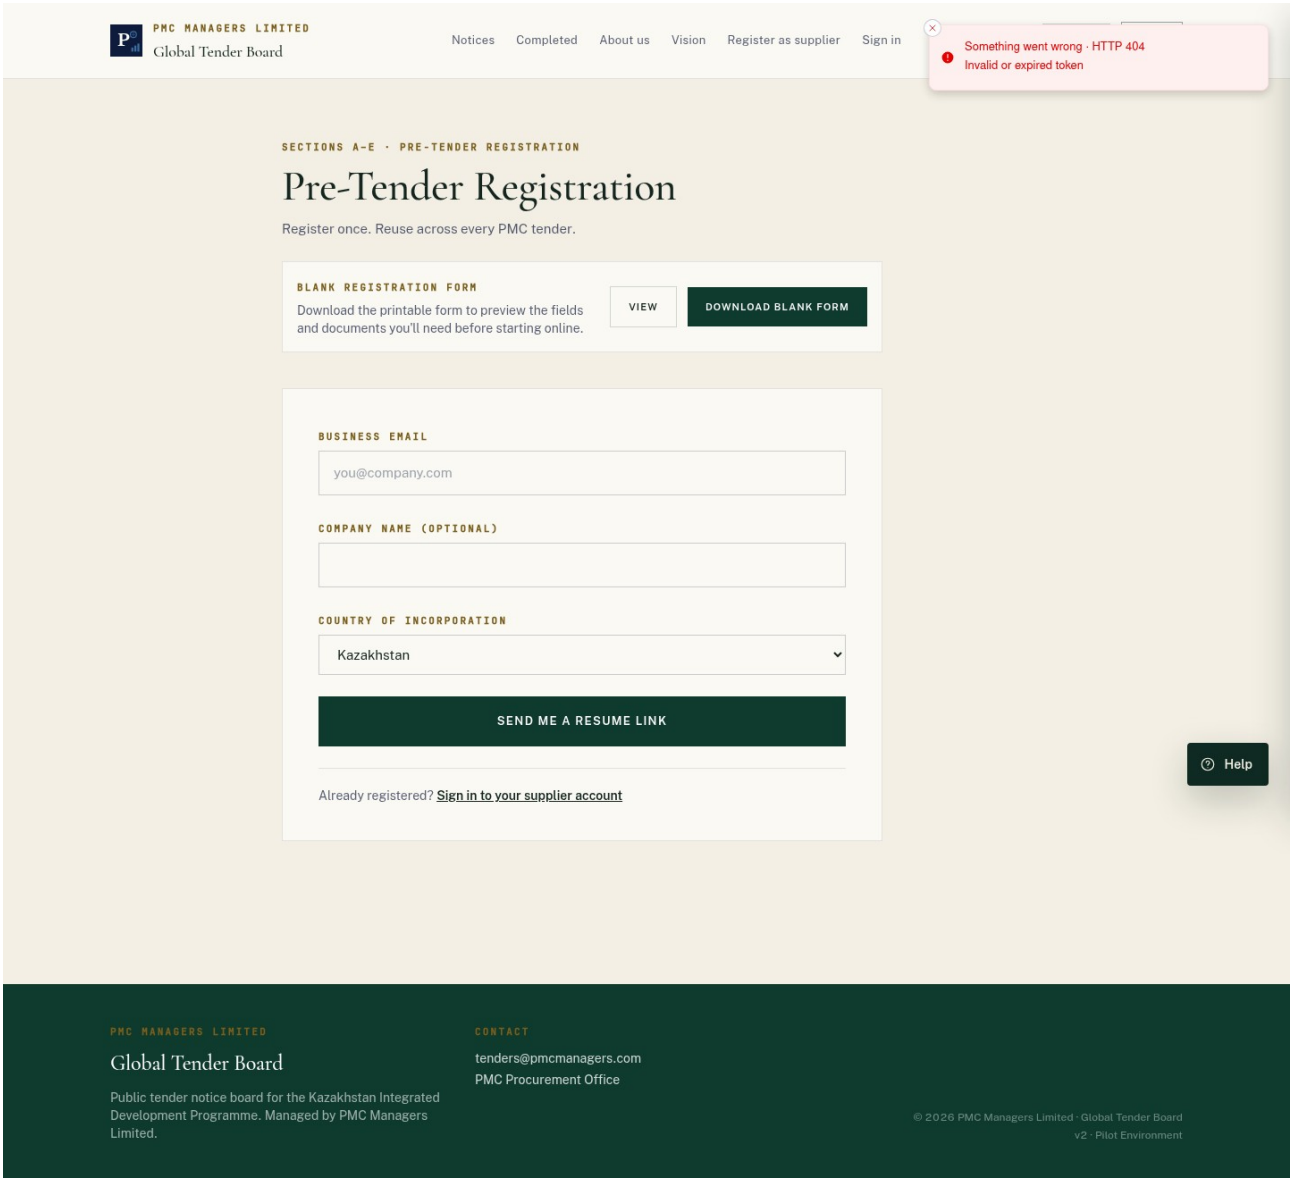

Figure 12.1 — Vendor registration · Resume with token (captured live).

## ANATOMY · EVERY ELEMENT ON THIS SCREEN

| | |
|---|---|
| **Section stepper** | A · Identity → B · Structure → C · Financials → D · Documents → E · References. |
| **Section panels** | Each panel shows the fields you filled last time — you |

| | |
|---|---|
| | can edit any. |
| **Submit for review** | Once all sections pass validation, submit for admin review. |

**API REFERENCE**

| Verb | Path | Notes |
|---|---|---|
| `GET` | `/api/v1/registrations/resume/{token}` | Loads the draft. |

CHAPTER 13 · PUBLIC

# Escrow officer · Magic-link signature

Audience: Escrow

Escrow institution officer signs a release/refund without logging into the portal — a magic-link token authorises exactly one signature.

| | |
|---|---|
| **URL** | /escrow/officer/s38VBcn6V6G7dcH0TnnfSgdC8S0dQadp |
| **Role** | public |

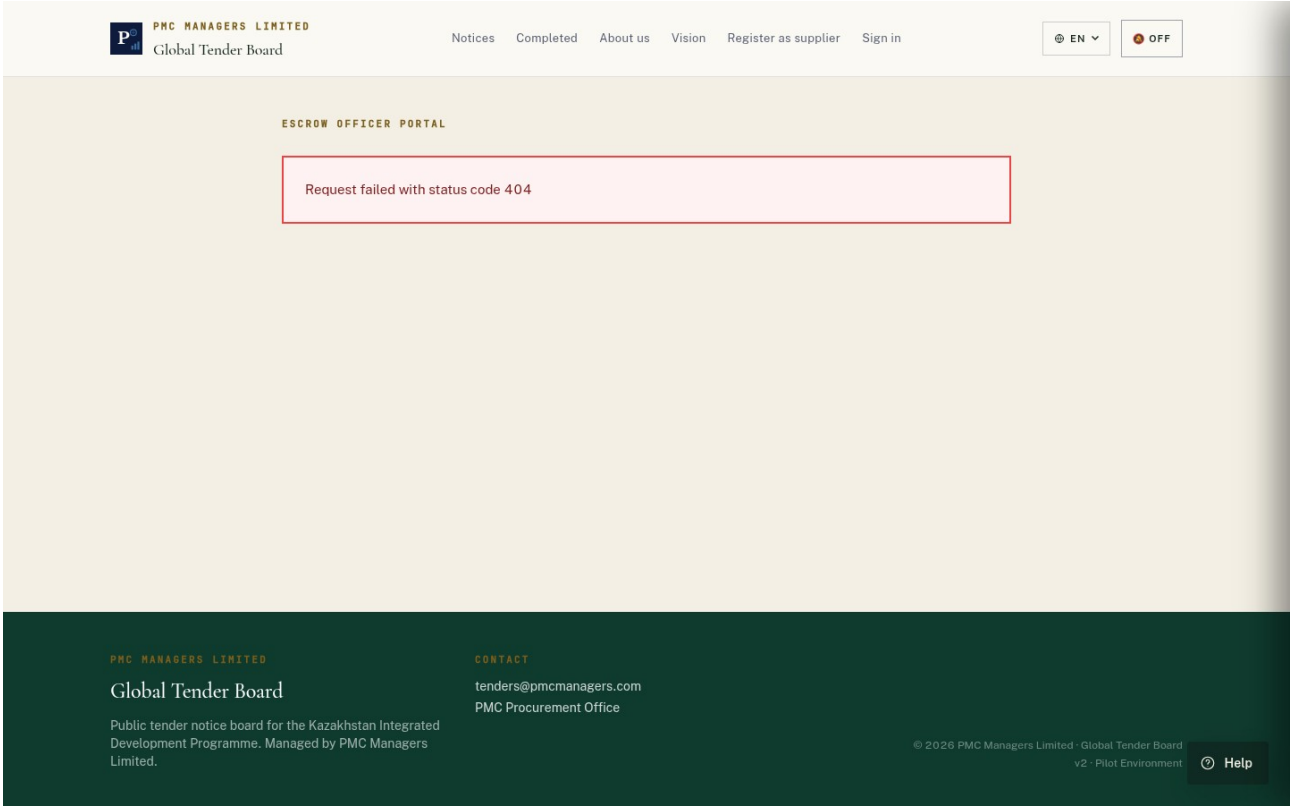

Figure 13.1 — Escrow officer · Magic-link signature (captured live).

## ANATOMY · EVERY ELEMENT ON THIS SCREEN

| | |
|---|---|
| **Amount** | The amount being signed for. |
| **Sign as officer** | Records the officer's signature. Token becomes single-use. |
| **Reason** | Free text for the ledger. |

## API REFERENCE

| Verb | Path | Notes |
|---|---|---|
| GET | `/api/v1/escrow/magic/{token}` | Load. |
| POST | `/api/v1/escrow/magic/{token}/sign` | Sign. |

CHAPTER 14 · PUBLIC

# Meeting room · Join by token

Audience: Attendee

Public join page for a scheduled meeting. Displays attendee list, Zoom link, and the Accept/Decline CTA.

| | |
|---|---|
| **URL** | /meet/c_pol_VUsWMi0RqhuuX9_-iTlc2en7W6 |
| **Role** | public |

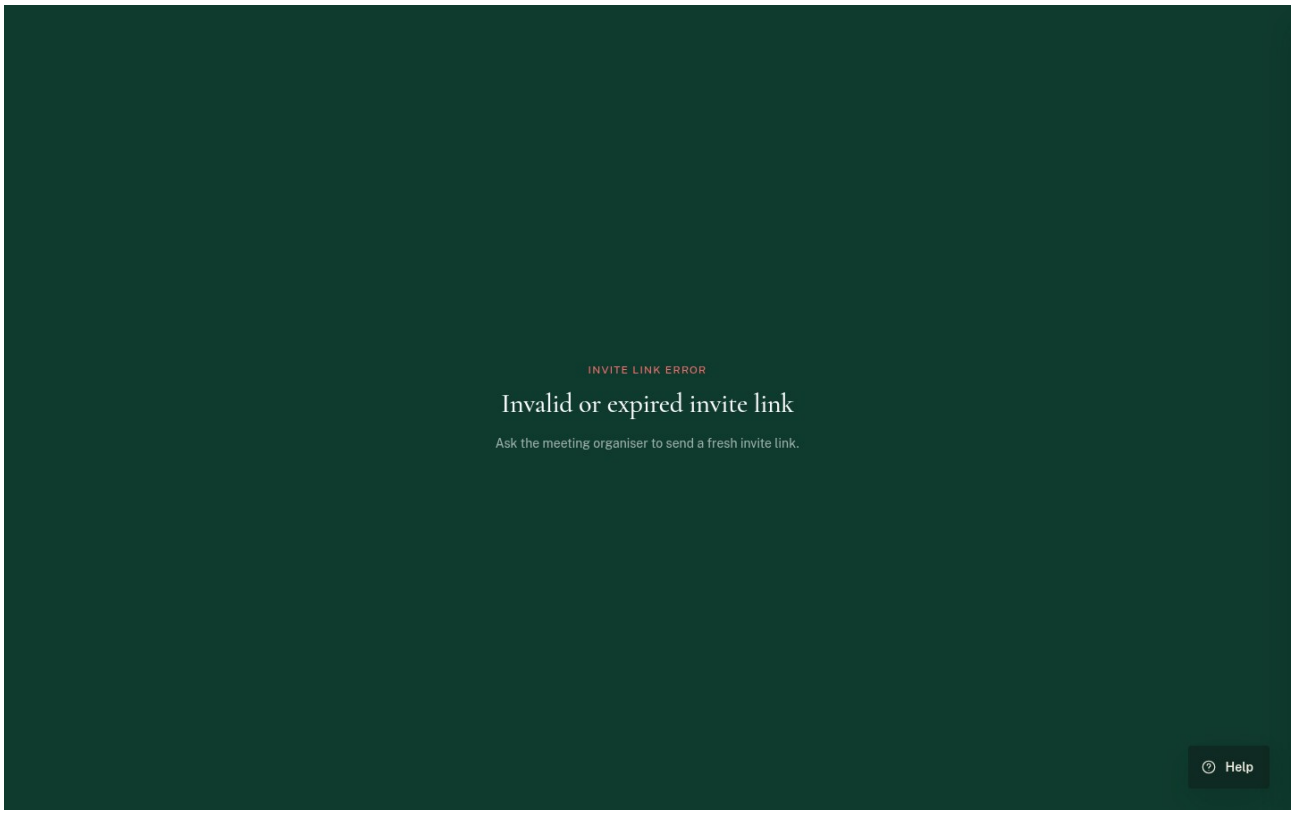

Figure 14.1 — Meeting room · Join by token (captured live).

| ANATOMY · EVERY ELEMENT ON THIS SCREEN | |
|---|---|
| **Meeting title** | As set by the organiser. |
| **Zoom URL** | One-click join. |
| **Attendees** | Current RSVP status per invitee. |
| **Accept** / **Decline** | Updates your RSVP. |

| API REFERENCE | | |
|---|---|---|
| **Verb** | **Path** | **Notes** |
| GET | `/api/v1/meetings/join/{token}` | Loads meeting. |

CHAPTER 15 · ADMIN

# Admin console · Analytics dashboard

Audience: Ops · Mgmt

The operations overview — KPI tiles, pipeline funnel, top-priced bids, AI anomaly copilot, drill-through cards.

| | |
|---|---|
| **URL** | /admin/e/dashboard |
| **Role** | admin |
| **Admin tab** | analytics |

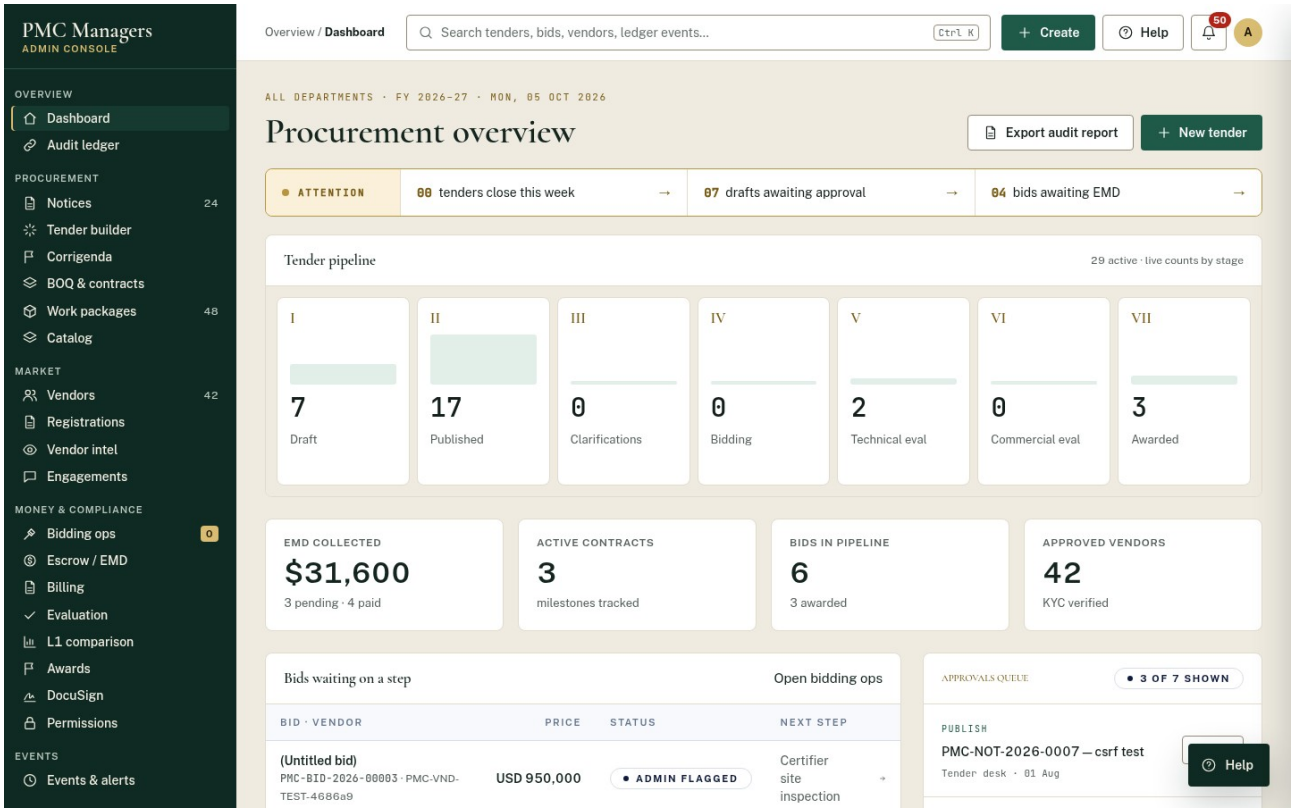

Figure 15.1 — Admin console · Analytics dashboard (captured live).

## ANATOMY · EVERY ELEMENT ON THIS SCREEN

| | |
|---|---|
| **KPI band** | Published notices · Vendors · Bids · Awarded · Pending EMD · EMD collected · Active contracts. |
| **AI Anomaly card** | Count of bids flagged by GPT anomaly scoring. Click to drill. |
| **Pipeline Funnel card** | Bids across every stage. Click to drill. |
| **Top-Priced Bids card** | Top-10 by price. Click to drill. |
| **Pipeline funnel table** | Per-stage counts: emd_pending → emd_paid → escrow_accepted → admin_flagged → certifier_cleared → legal_cleared → accounting_cleared → awarded. |
| **Top-priced bids table** | Bid ref · vendor · price · status. |
| **AI bid anomaly check** | Pick a bid → 'Run AI check' → GPT flags outliers. |

## STEP-BY-STEP TUTORIAL

### STEP 1 · READ THE KPI BAND

Every tile is clickable → drills into the underlying list.

### STEP 2 · RUN AN AI ANOMALY CHECK

Scroll to the AI bid anomaly check widget → pick a bid → 'Run AI check'. Result appears inline in ~4s.

### STEP 3 · DRILL THROUGH A KPI

Click any card in the top row (Anomaly / Pipeline / Top-Priced) → drill card table appears with each source record.

## API REFERENCE

| Verb | Path | Notes |
|---|---|---|
| GET | /api/v1/analytics/summary | Powers the KPI band. |
| GET | /api/v1/dashboard-drill/anomalies | AI-flagged bids. |
| GET | /api/v1/dashboard-drill/pipeline | Bids grouped by stage. |
| GET | /api/v1/dashboard-drill/top-priced | Top-10 by price. |
| POST | /api/v1/bids/{id}/ai-anomaly-check | Runs GPT anomaly check on a single bid. |

## COMMON PITFALLS

- The KPI numbers are tenant-scoped — if you switch tenant, refresh.
- AI check requires an admin-configured LLM API key server-side; if missing the endpoint returns 503.

CHAPTER 16 · ADMIN

# Analytics · Drill · AI anomalies

Drill card of AI-flagged anomalous bids with reason strings.

| | |
|---|---|
| **URL** | /admin/e/dashboard |
| **Role** | admin |
| **Admin tab** | analytics |

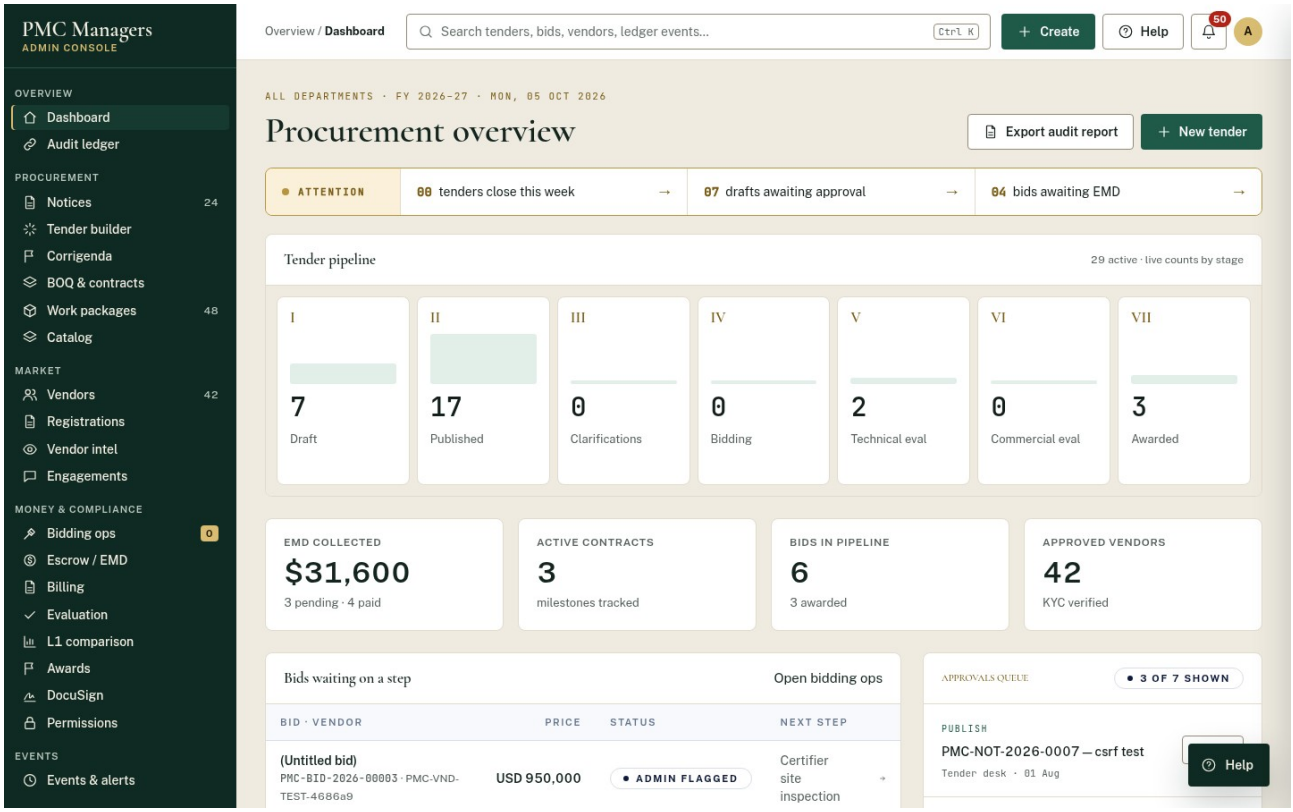

Figure 16.1 — Analytics · Drill · AI anomalies (captured live).

## ANATOMY · EVERY ELEMENT ON THIS SCREEN

| | |
|---|---|
| **Bid ref** | PMC-BID-YYYY-#### — click to open the bid drawer. |
| **Vendor** | Vendor name + ref. |
| **Reason** | GPT-generated one-liner e.g. 'price 60% below cluster median'. |

CHAPTER 17 · ADMIN

# Analytics · Drill · Pipeline aging

Drill card of every bid grouped by pipeline stage, sorted by dwell time.

| | |
|---|---|
| **URL** | /admin/e/dashboard |
| **Role** | admin |
| **Admin tab** | analytics |

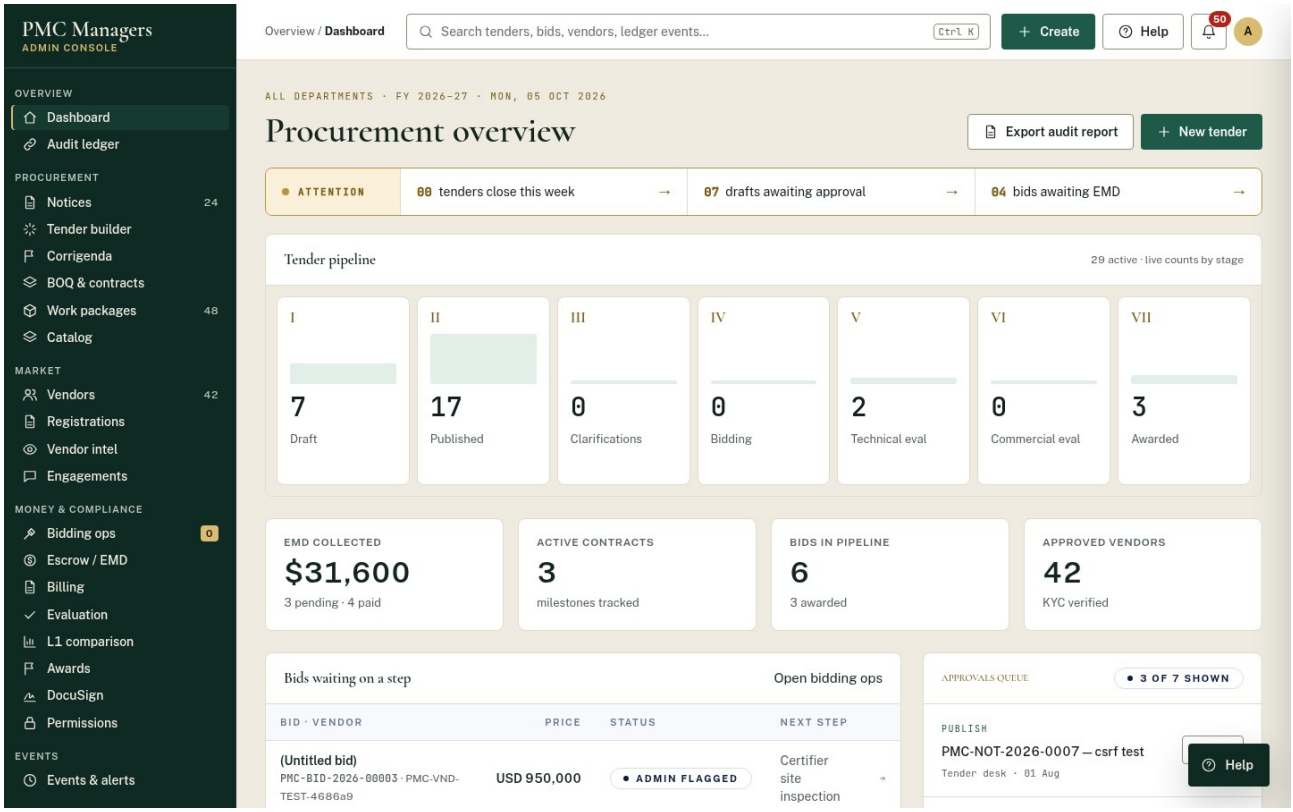

Figure 17.1 — Analytics · Drill · Pipeline aging (captured live).

## ANATOMY · EVERY ELEMENT ON THIS SCREEN

| | |
|---|---|
| **Stage** | One of the 8 pipeline stages. |
| **Bid ref** | Click to open drawer. |
| **Dwell time** | Days since last state change. |

CHAPTER 18 · ADMIN

# Analytics · Drill · Top vendors

Top-performing vendors by award count in the current period.

| | |
|---|---|
| **URL** | /admin/e/dashboard |
| **Role** | admin |
| **Admin tab** | analytics |

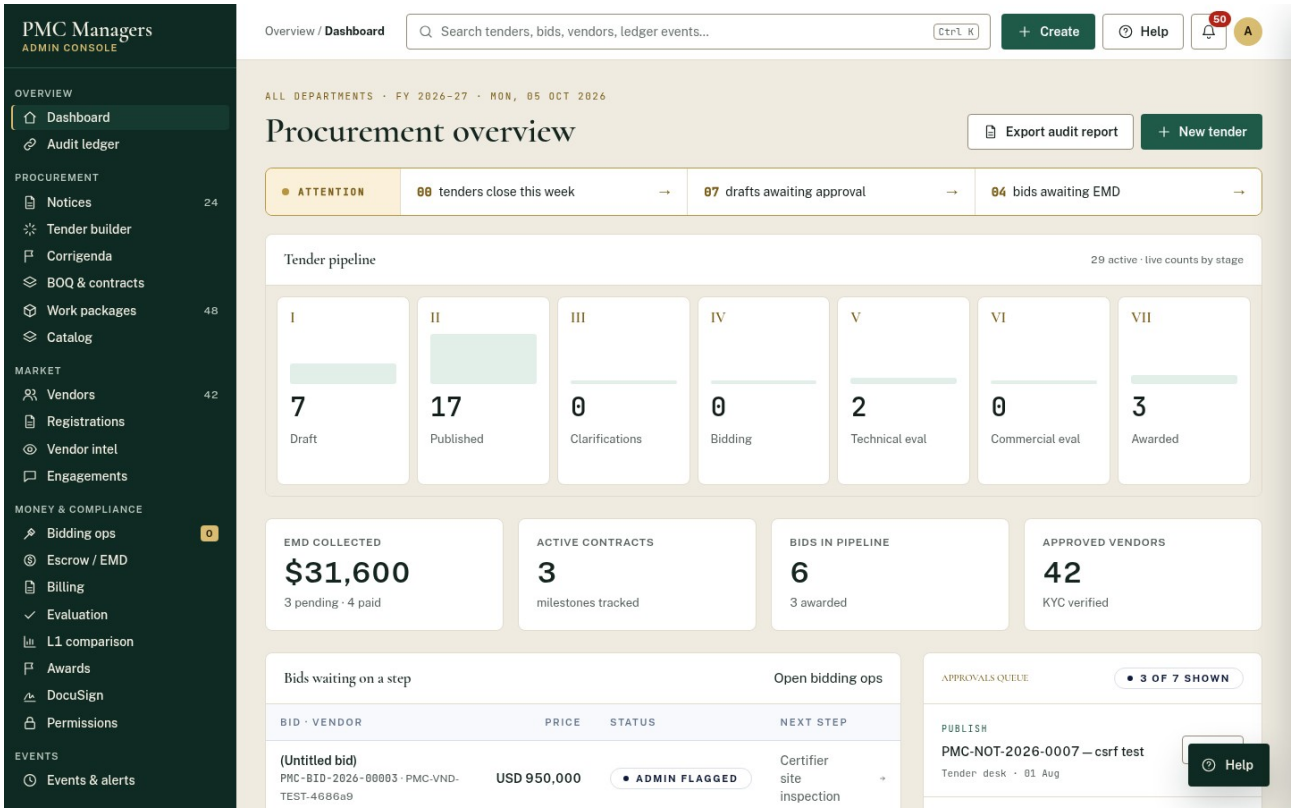

Figure 18.1 — Analytics · Drill · Top vendors (captured live).

## ANATOMY · EVERY ELEMENT ON THIS SCREEN

| | |
|---|---|
| **Vendor** | Vendor name + ref. |
| **Awards** | Count in the last 90d. |
| **Value** | Sum awarded value (tenant currency). |

CHAPTER 19 · ADMIN

# Admin console · Registrations pipeline

Audience: Ops

Every vendor registration in every stage — Draft / Submitted / Approved / Rejected / Clarification.

| | |
|---|---|
| **URL** | /admin/e/registrations |
| **Role** | admin |
| **Admin tab** | registrations |

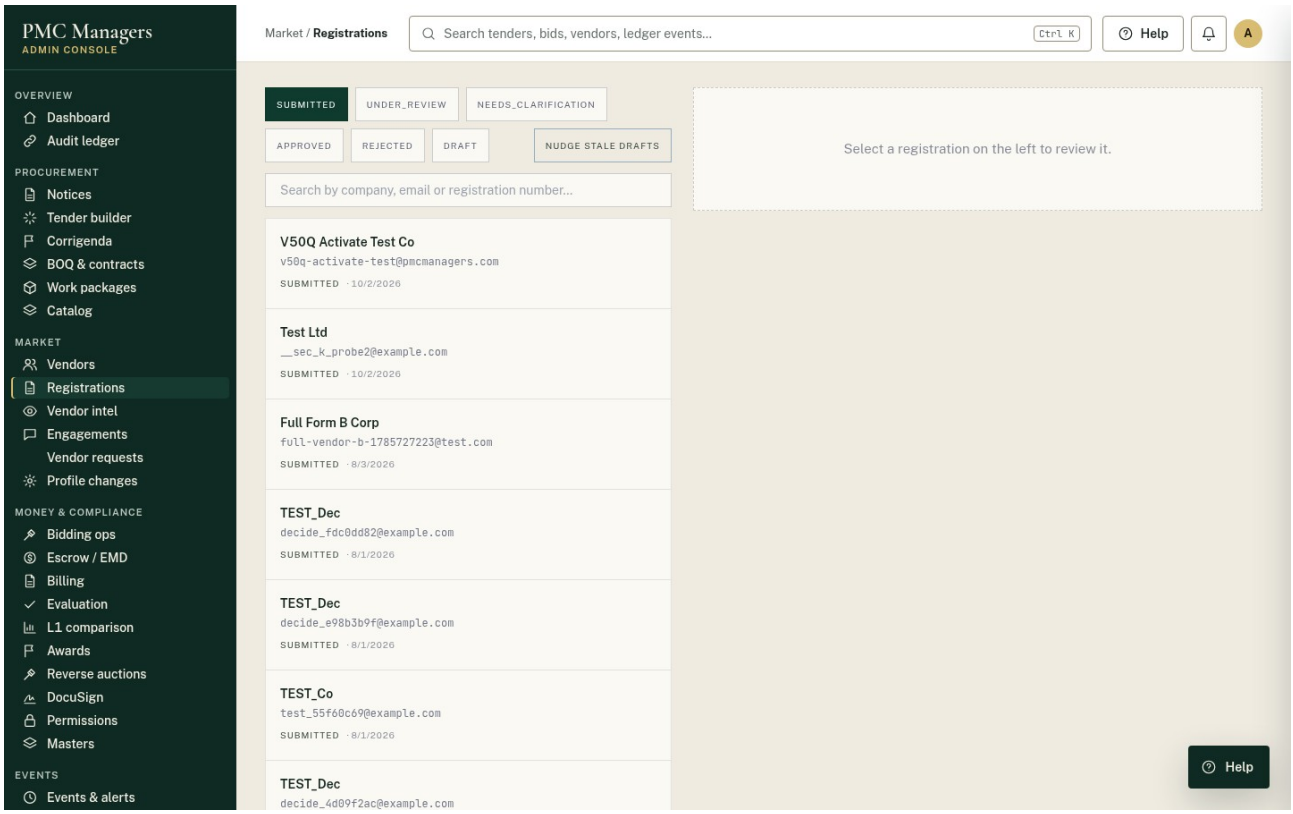

Figure 19.1 — Admin console · Registrations pipeline (captured live).

## ANATOMY · EVERY ELEMENT ON THIS SCREEN

| | |
|---|---|
| **Stage tabs** | Draft · Submitted · Approved · Rejected · Clarification-requested. |
| **Registration row** | Company · country · draft-age · reviewer note. |
| **Approve** | Marks status=approved. Vendor gets activation email + must_change_password=true. |
| **Reject** | Requires a reason ≥ 5 chars. Vendor gets a rejection email. |
| **Request clarification** | Emails the vendor a note ≥ 5 chars. Vendor uses the resume token to re-enter. |

## STEP-BY-STEP TUTORIAL

### STEP 1 · APPROVE A REGISTRATION

Click Submitted tab → pick a row → 'Approve' → confirm.

### STEP 2 · REJECT A REGISTRATION

Click Submitted tab → pick a row → 'Reject' → type reason ≥ 5 chars → Confirm.

### STEP 3 · REQUEST CLARIFICATION

'Request clarification' → type note ≥ 5 chars → Send.

## API REFERENCE

| Verb | Path | Notes |
|---|---|---|
| GET | /api/v1/registrations?status=submitted | List by status. |
| POST | /api/v1/registrations/{id}/approve | Approve. |
| POST | /api/v1/registrations/{id}/reject | Body {reason}. reason ≥ 5 chars. |
| POST | /api/v1/registrations/{id}/request-clarification | Body {note}. |

## COMMON PITFALLS

- Approve sends the activation email via Resend; missing EMAIL_KEY = no email + no error.
- Rejected drafts are purged after 90 days by a nightly job.

CHAPTER 20 · ADMIN

# Admin console · Vendors master

Audience: Ops

Approved vendors master table with Bulk Invite CSV + Add & Fill Full Form + Invite Vendor + Replace Registration Template.

| | |
|---|---|
| **URL** | /admin/e/vendors |
| **Role** | admin |
| **Admin tab** | vendors |

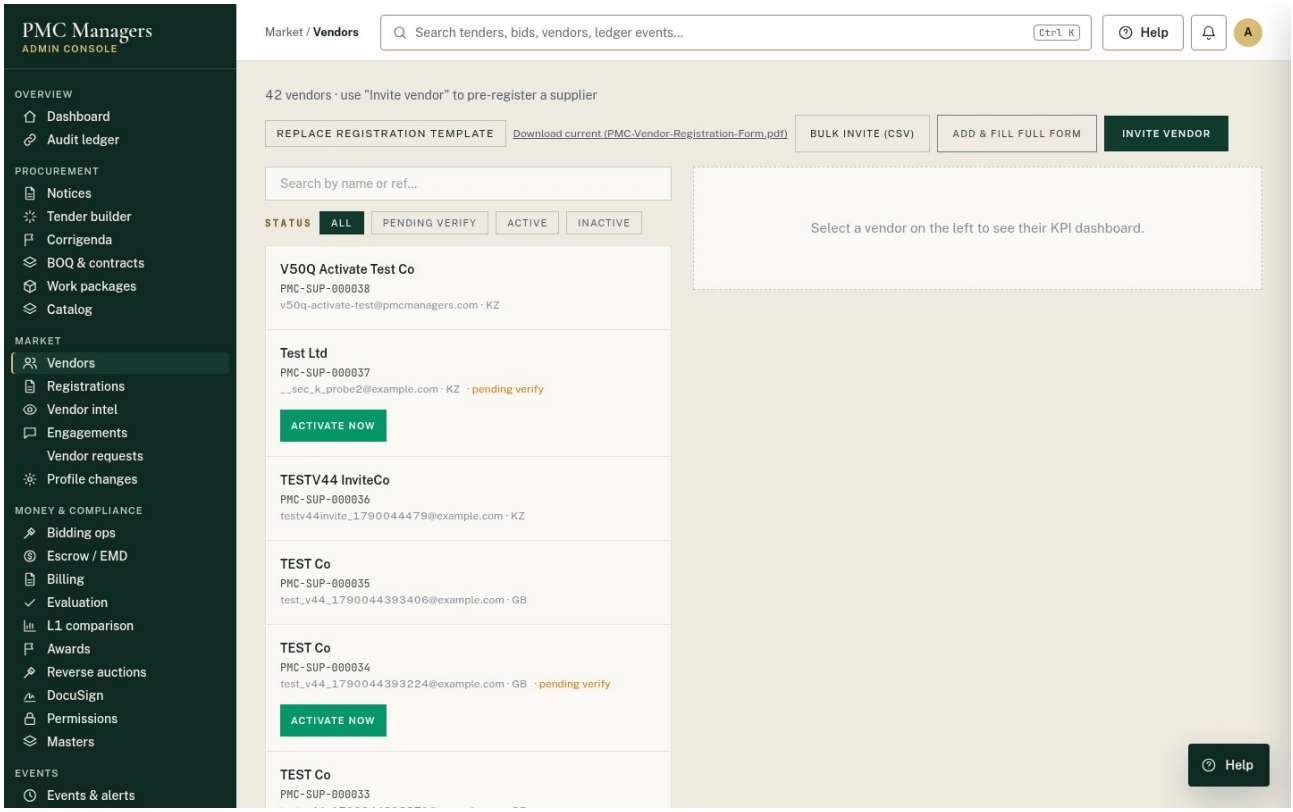

Figure 20.1 — Admin console · Vendors master (captured live).

## ANATOMY · EVERY ELEMENT ON THIS SCREEN

| | |
|---|---|
| **Replace registration template** | Upload a new PDF template used for all future registrations. |
| **Download current template** | Fetches the current PDF. |
| **Bulk invite (CSV)** | Upload a CSV of primary emails; duplicate rows return per-row 409 without aborting. |
| **Add & fill full form** | Admin-side create — for onboarding an existing partner in one shot. |
| **Invite vendor** | Send a magic-link invitation email to a single vendor. |
| **Search box** | Substring match on name + ref + email. |
| **Vendor row** | Company · vendor_ref · email · country · verify status pill. |

| | |
|---|---|
| **KPI drawer** | Right pane — pick a vendor to see award counts + on-time delivery %. |

## STEP-BY-STEP TUTORIAL

### STEP 1 · BULK-INVITE 20 SUPPLIERS

Prepare a CSV: primary_email,company_name,country. Click 'Bulk invite (CSV)' → drop file → confirm. Backend returns per-row 200/409.

### STEP 2 · VIEW KPI FOR A VENDOR

Click any row → right pane populates with awards + fulfilment + blacklist status.

### STEP 3 · REDACT A VENDOR (GDPR)

Row → drawer → GDPR Forget. Data is anonymised in-place, PII masked.

## API REFERENCE

| Verb | Path | Notes |
|---|---|---|
| `GET` | `/api/v1/vendors?limit=50` | Paginated list. |
| `GET` | `/api/v1/vendors/{vendor_ref}/kpi` | KPI dashboard. |
| `POST` | `/api/v1/vendors/bulk-invite` | CSV bulk invite. |
| `POST` | `/api/v1/vendor/gdpr-forget` | GDPR redaction (vendor-initiated) or admin route. |

## COMMON PITFALLS

- GDPR forget is IRREVERSIBLE — no undo. Always confirm the vendor_ref twice.
- Bulk invite dedupes by primary email per tenant — a vendor already registered under a different tenant is NOT a duplicate.

# Vendors · Bulk invite modal

Modal that accepts a CSV of vendor invites and returns a per-row 200/409 report.

| | |
|---|---|
| **URL** | /admin/e/vendors |
| **Role** | admin |
| **Admin tab** | vendors |

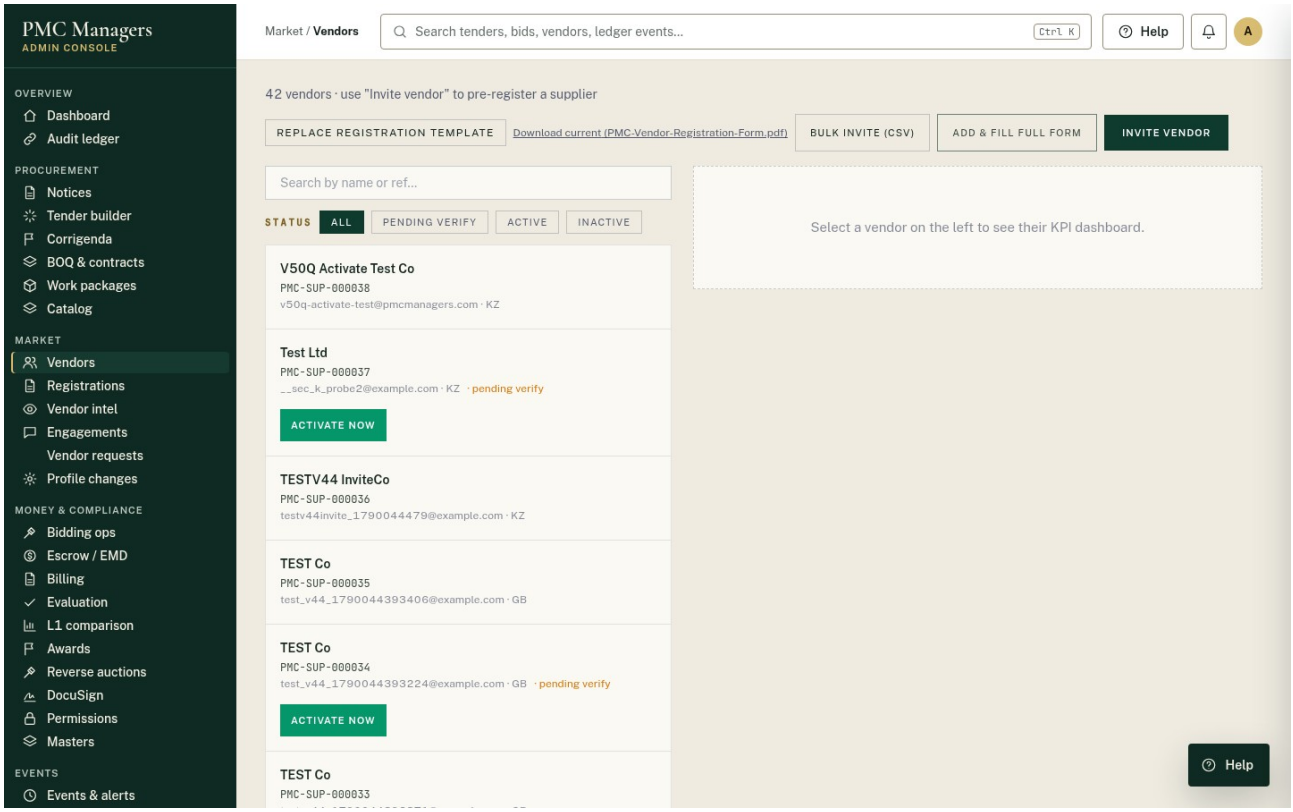

Figure 21.1 — Vendors · Bulk invite modal (captured live).

## ANATOMY · EVERY ELEMENT ON THIS SCREEN

| | |
|---|---|
| **CSV picker** | Accepts .csv up to 5 MB. |
| **Preview table** | First 20 rows shown; every row gets a green tick / red cross after Submit. |
| **Submit button** | Fires the invites in the background — you can leave the modal open. |

## API REFERENCE

| Verb | Path | Notes |
|---|---|---|
| POST | `/api/v1/vendors/bulk-invite` | Multipart form. Returns [{row, status, error?}]. |

## COMMON PITFALLS

- A single malformed row does NOT abort the batch — but the row is skipped and returned with status=422.

CHAPTER 22 · ADMIN

# Admin console · Notices

Audience: Ops · Mgmt

Notices master + filter bar. Every tender / RFP / RFQ starts and ends here.

| | |
|---|---|
| **URL** | /admin/e/notices |
| **Role** | admin |
| **Admin tab** | notices |

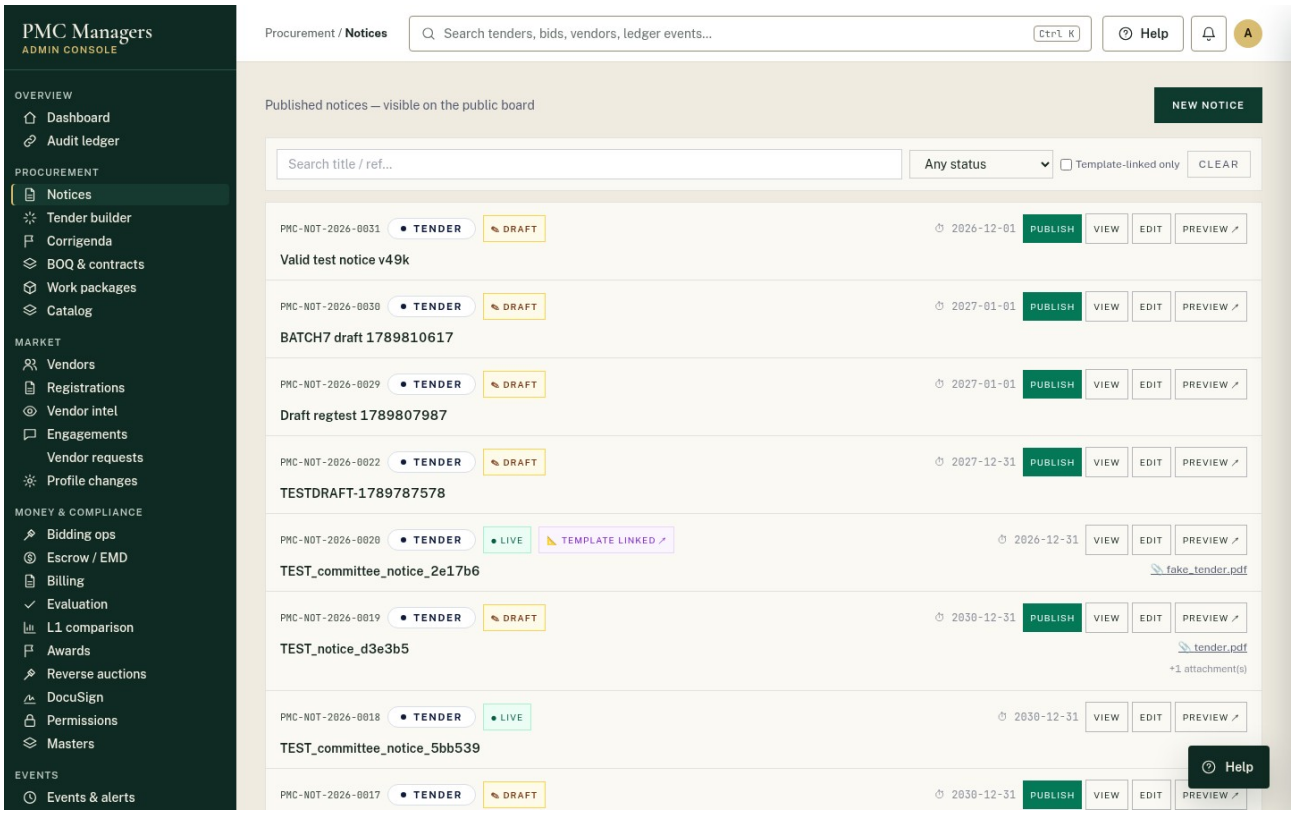

Figure 22.1 — Admin console · Notices (captured live).

## ANATOMY · EVERY ELEMENT ON THIS SCREEN

| | |
|---|---|
| **+ New notice** | Slides down the create-form. Only visible if you have 'notices.create'. |
| **Filter bar** | Search text · status pill · document-type pill · budget currency filter · template-linked toggle. |
| **Notice row** | notice_ref · title · status pill · deadline · budget · country. |
| **Bulk publish** | Multi-select rows → 'Publish selected' (Master Admin only). |

## STEP-BY-STEP TUTORIAL

### STEP 1 · SEARCH A NOTICE

Type 3+ chars in the search box → list filters live.

### STEP 2 · FILTER TO DRAFTS OLDER THAN 5 DAYS

Status → draft. Look at 'Days since created' — anything > 5d is review-worthy.

### STEP 3 · OPEN A NOTICE FOR EDITING

Click the row → drawer opens with Corrigenda tab + attachments + committee refs.

**API REFERENCE**

| Verb | Path | Notes |
|---|---|---|
| GET | /api/v1/notices?status=draft | Filter by status. |
| POST | /api/v1/notices | Create draft. |
| PUT | /api/v1/notices/{id} | Update draft. |
| POST | /api/v1/notices/{id}/publish | Master Admin only. |

**COMMON PITFALLS**

- You cannot edit a published notice — issue a Corrigendum instead.
- budget_amount validates ge=0. Negative returns 400 (Bug 4 fix).
- notice_ref is auto-generated per tenant per year — never edit it.

CHAPTER 23 · ADMIN

# Notices · Create notice form

The + New notice form. Every field on it, with validation rules.

| | |
|---|---|
| **URL** | /admin/e/notices |
| **Role** | admin |
| **Admin tab** | notices |

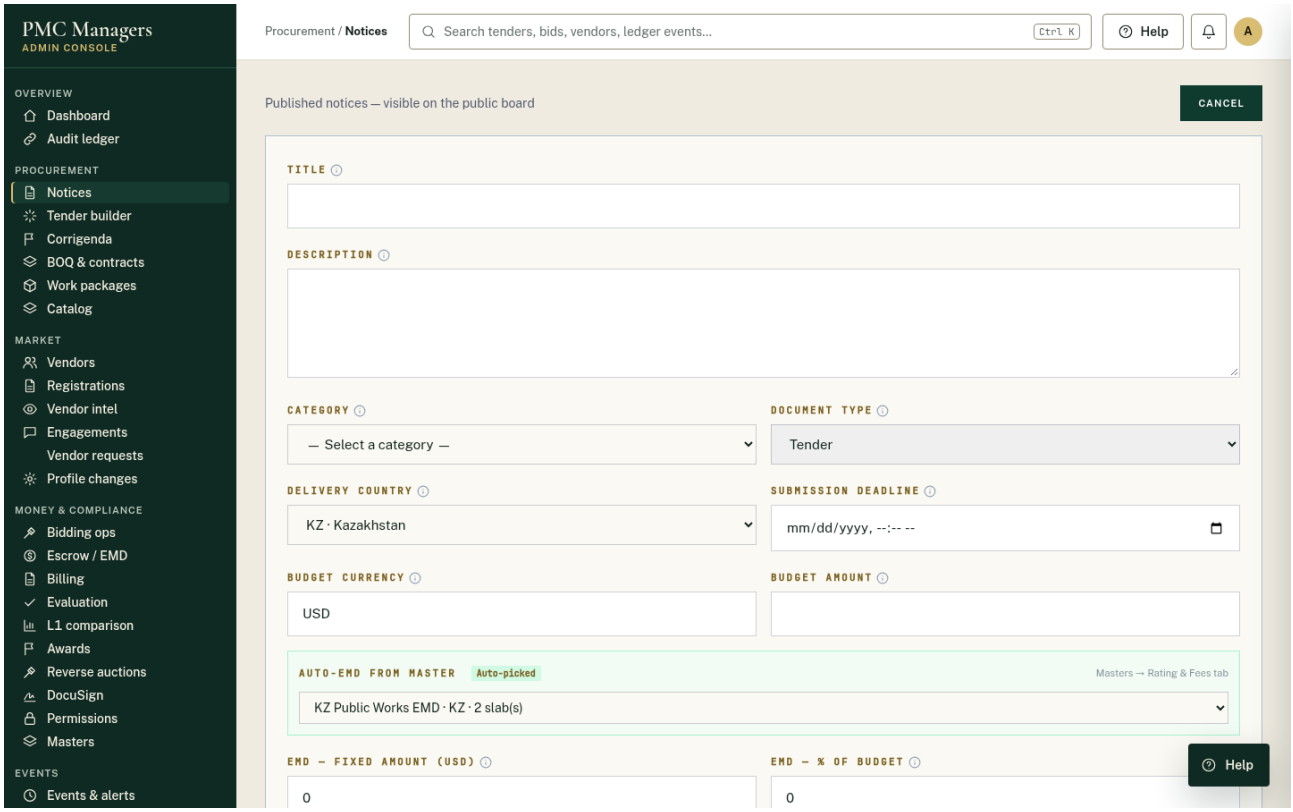

Figure 23.1 — Notices · Create notice form (captured live).

## ANATOMY · EVERY ELEMENT ON THIS SCREEN

| | |
|---|---|
| **Title** | String ≥ 5 chars. |
| **Description** | ≥ 10 chars. Supports Markdown. |
| **Category** | Free text — used for search filters. |
| **Document type** | tender / rfp / rfq. |
| **Country** | ISO-2. |
| **Submission deadline** | datetime-local — stored as UTC. |
| **Budget currency** | ISO-4217, e.g. USD, INR, KZT. |
| **Budget amount** | Number ≥ 0 (Bug 4 fix). |
| **EMD fixed / percentage** | Two mutually exclusive inputs. If percentage, base is budget_amount. |
| **Approval matrix** | Pick from Masters → Matrix. Required to publish. |
| **Tender template** | Pick from Tender Builder. Required for tender / rfp. |

| | |
|---|---|
| **Publish immediately** | Master Admin only. If checked, status becomes 'published' on save. |
| **Primary document** | PDF ≤ 10 MB. Required for tender / rfp. |
| **Attachments** | Up to 10 files ≤ 10 MB each. |
| **Create button** | POST /api/v1/notices → returns the created ref. |

## STEP-BY-STEP TUTORIAL

### STEP 1 · CREATE A DRAFT TENDER

Fill every required field → leave Publish unchecked → 'Create'.

### STEP 2 · PUBLISH IMMEDIATELY

Same form → tick 'Publish immediately' (visible only to Master Admin) → Create.

## ERROR STATES YOU MAY SEE

- 400 budget_amount < 0 · 400 description too short · 403 role can't publish · 409 duplicate template link.

CHAPTER 24 · ADMIN

# Admin console · Corrigenda

Audience: Ops · Mgmt

Formal amendments to published notices. Every change is auditable, capped at 3 withdrawals per notice.

| | |
|---|---|
| **URL** | /admin/e/corrigenda |
| **Role** | admin |
| **Admin tab** | corrigenda |

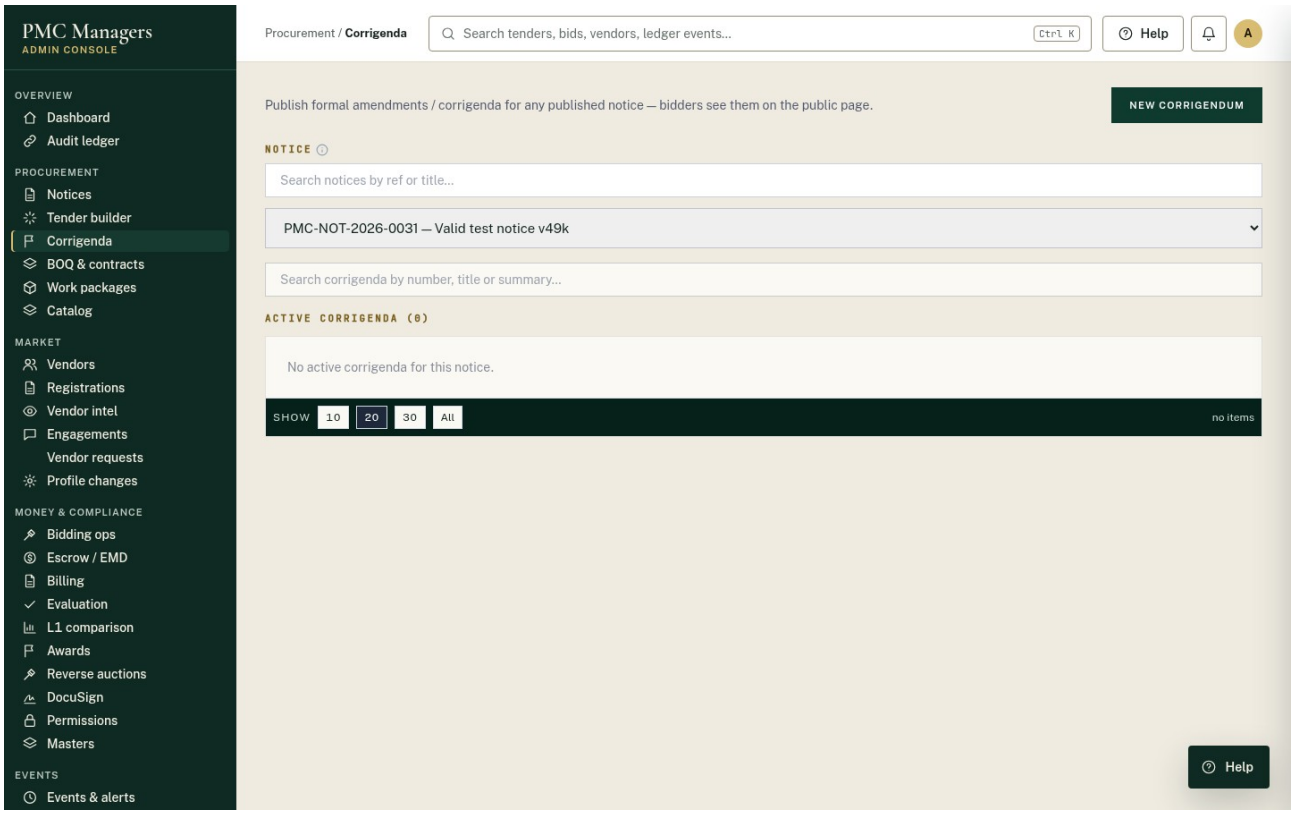

Figure 24.1 — Admin console · Corrigenda (captured live).

## ANATOMY · EVERY ELEMENT ON THIS SCREEN

| | |
|---|---|
| **+ New corrigendum** | Requires an already-published parent notice. |
| **Description** | ≥ 20 chars. Written as if a lawyer will read it. |
| **New deadline (optional)** | Extends submission_deadline. |
| **Publish** | Sends notification to all subscribed bidders + updates public notice history. |
| **Withdraw** | Reversal action; withdrawal reason ≥ 5 chars is mandatory. |

## API REFERENCE

| Verb | Path | Notes |
|---|---|---|
| POST | `/api/v1/corrigenda` | Body {notice_ref, description, new_deadline?}. |
| POST | `/api/v1/corrigenda/{id}/` | Publishes + notifies. |

| | | |
|---|---|---|
| | `publish` | |
| `POST` | `/api/v1/corrigenda/{id}/withdraw` | Body {reason}. reason ≥ 5 chars. |

## COMMON PITFALLS

- 4th corrigendum on the same notice returns 400 'withdrawal capped at 3' — pattern encourages issuing one comprehensive amendment.

CHAPTER 25 · ADMIN

# Admin console · Tender Builder

Audience: Ops · Mgmt

Template builder. Compose reusable tender / RFP / RFQ templates: sections + annexures + header form + AI drafter + version history.

| | |
|---|---|
| **URL** | /admin/e/tender-builder |
| **Role** | admin |
| **Admin tab** | tender-builder |

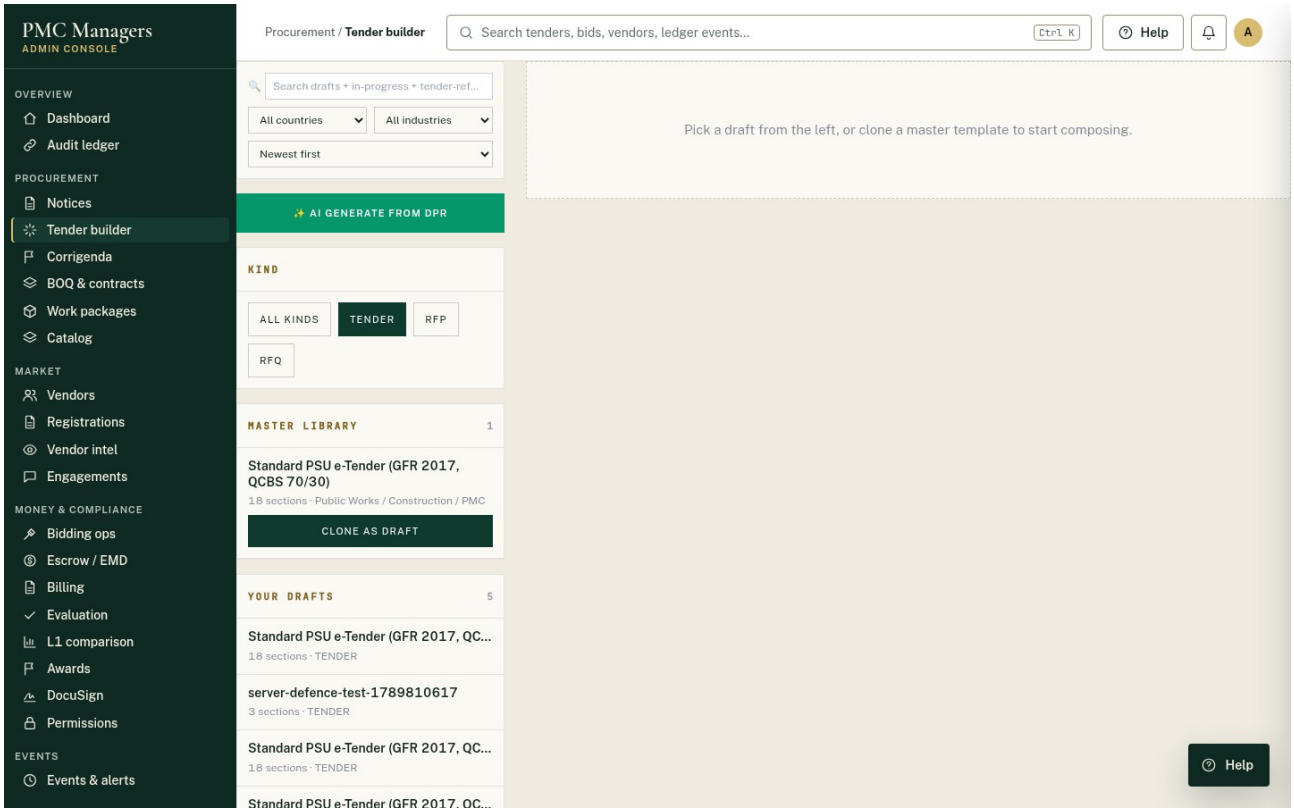

Figure 25.1 — Admin console · Tender Builder (captured live).

## ANATOMY · EVERY ELEMENT ON THIS SCREEN

| | |
|---|---|
| **Kind toggle** | Tender / RFP / RFQ. Determines the section catalog. |
| **Master Library** | Read-only reference templates (e.g. 'Standard PSU e-Tender (GFR 2017, QCBS 70/30)'). 'Clone as draft' to seed. |
| **Your drafts** | Editable drafts owned by the tenant. |
| **Name** | Human-readable template name. |
| **Save** | Persists the draft. |
| **History** | Every save is versioned; you can restore any prior version. |
| **Export PDF** | Renders the composed template to PDF for offline review. |

| | |
|---|---|
| **Language toggle** | EN / RU / KK for PDF export. |
| **Delete** | Only allowed on drafts you own. |
| **Bulk upload** | Import a .zip of section .docx files. |

## STEP-BY-STEP TUTORIAL

### STEP 1 · CLONE A MASTER TEMPLATE

Pick 'Standard PSU e-Tender' → 'Clone as draft' → new draft appears in 'Your drafts'.

### STEP 2 · ADD A SECTION

Right pane → '+ Add' → pick section type (Instructions / Eligibility / Scope / Evaluation / GCC / SCC / Annexure).

### STEP 3 · AI DRAFT A CLAUSE

Focus a section → 'AI draft' menu → pick a preset. GPT drafts the clause; you review and Save.

### STEP 4 · RESTORE AN OLD VERSION

History → pick a timestamp → 'Restore'.

## API REFERENCE

| Verb | Path | Notes |
|---|---|---|
| `GET` | `/api/v1/tender-templates?kind=tender` | List templates. |
| `POST` | `/api/v1/tender-templates` | Create. |
| `PUT` | `/api/v1/tender-templates/{id}` | Update (creates a new version). |
| `POST` | `/api/v1/tender-templates/{id}/export?lang=en` | Export PDF. |
| `POST` | `/api/v1/tender-templates/{id}/ai-draft` | GPT-5 drafting. |

## COMMON PITFALLS

- Deleting a draft that is linked to a notice returns 409 — unlink first.
- Bulk upload accepts .docx only; unsupported files are skipped with per-file 415.

CHAPTER 26 · ADMIN

# Admin console · Bidding operations

Audience: Ops · Committee

Bid pipeline + Committee UX (checkbox grid, dissolve, resend invite, assign certifier).

| | |
|---|---|
| **URL** | /admin/e/bidding |
| **Role** | admin |
| **Admin tab** | bidding |

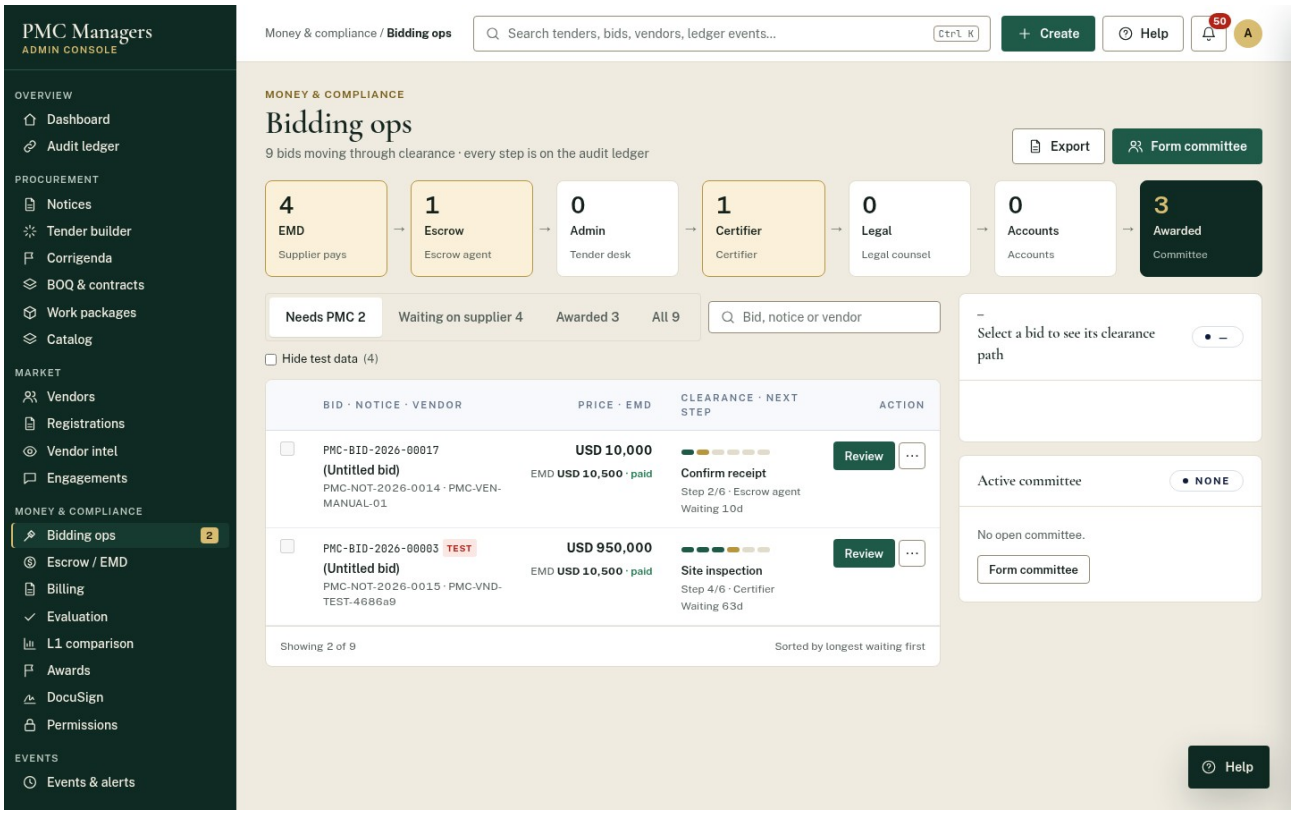

Figure 26.1 — Admin console · Bidding operations (captured live).

## ANATOMY · EVERY ELEMENT ON THIS SCREEN

| | |
|---|---|
| **Bid filter** | By status pill or by notice_ref. |
| **Bid table** | Bid ref · vendor · notice · price · pipeline stage · action buttons. |
| **+ New committee** | Opens the CommitteeForm — see 27a. |
| **Committee list** | Every existing committee for the current notice — expand to see members + status. |
| **Assign certifier** | Modal — pick a certifier user + notes. |
| **AI bid compare** | Runs GPT compare of top bids. |

## STEP-BY-STEP TUTORIAL

### STEP 1 · FILTER BIDS TO ESCROW_ACCEPTED

Change filter → only escrow_accepted bids remain visible.

### STEP 2 · TRIGGER AI COMPARE

Pick two bids → 'AI compare' → drawer with side-by-side matrix.

### STEP 3 · ASSIGN CERTIFIER FOR A BID

Row → 'Assign certifier' → pick user → notes → Confirm. Certifier gets an email.

**API REFERENCE**

| Verb | Path | Notes |
|---|---|---|
| GET | `/api/v1/bids?status=escrow_accepted` | Filter by stage. |
| POST | `/api/v1/bids/{id}/assign-certifier` | Body {certifier_id, note}. |
| POST | `/api/v1/bids/ai-compare` | Body {bid_ids:[...]}. GPT-5 compare. |

CHAPTER 27 · ADMIN

# Bidding · New committee form

Committee create form — the checkbox grid across all roles, quorum picker, chair.

| | |
|---|---|
| **URL** | /admin/e/bidding |
| **Role** | admin |
| **Admin tab** | bidding |

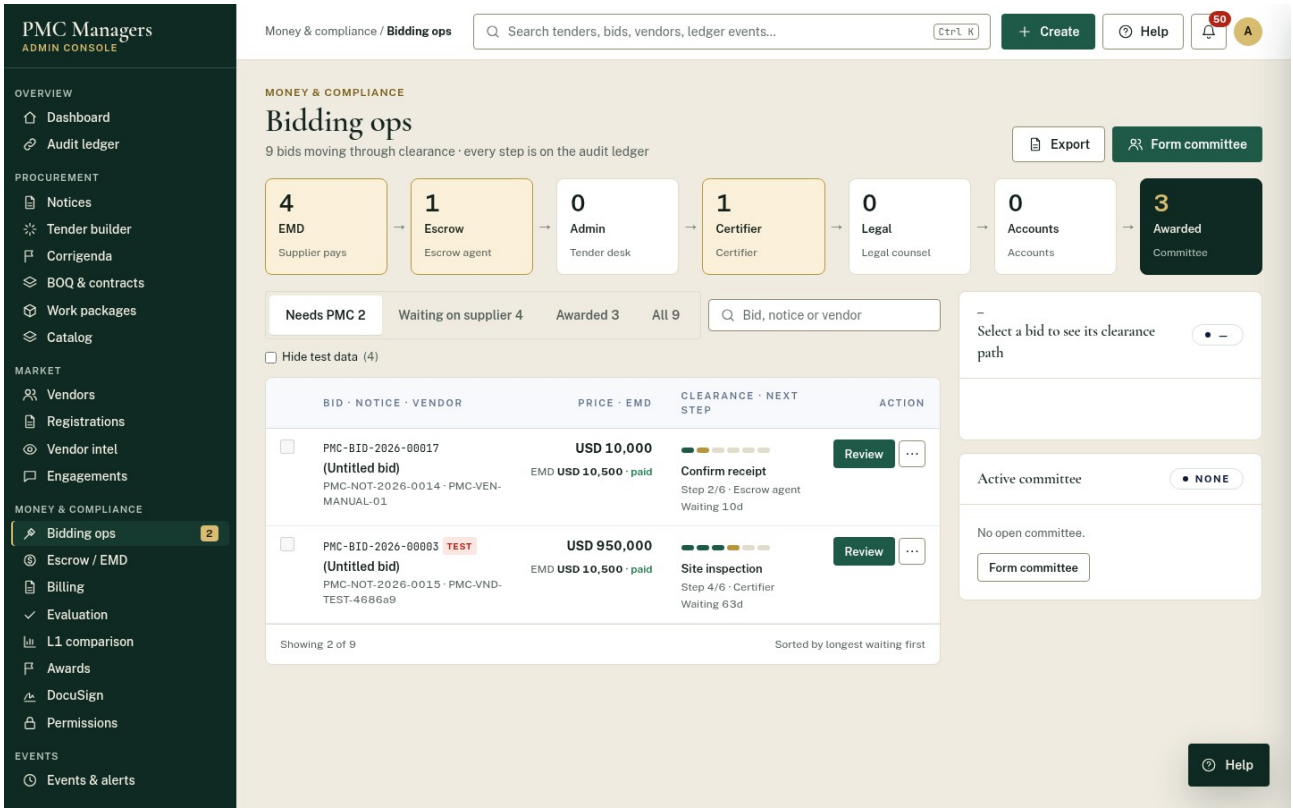

Figure 27.1 — Bidding · New committee form (captured live).

## ANATOMY · EVERY ELEMENT ON THIS SCREEN

| | |
|---|---|
| **Notice_ref** | Which notice this committee is for. |
| **Name** | Human-readable committee name. |
| **Members checkbox grid** | Every staff user × every role. Tick each cell that applies. |
| **Chair** | One member marked as chair. Chair casts the tie-breaker vote. |
| **Quorum** | Number of members required for a valid decision. Default = 3. |
| **Save** | Persists + sends invite emails to every member. |

## STEP-BY-STEP TUTORIAL

### STEP 1 · CREATE A 5-MEMBER COMMITTEE

Fill name → tick 5 members → pick a chair → quorum=3 → Save.

### STEP 2 · RESEND AN INVITE

Members list → pick a member → 'Resend invite'. Idempotent.

### STEP 3 · DISSOLVE A COMMITTEE

Committee → 'Dissolve' → mandatory reason → Confirm.

**API REFERENCE**

| Verb | Path | Notes |
|---|---|---|
| POST | `/api/v1/committee` | Create. |
| POST | `/api/v1/committee/{id}/dissolve` | Body {reason}. |
| POST | `/api/v1/committee/{id}/resend-invite/{member_id}` | Idempotent. |

**COMMON PITFALLS**

- You cannot dissolve a committee that has already voted — archive it instead.
- Committee invite emails expire after 7 days; 'Resend' generates a new token.

CHAPTER 28 · ADMIN

# Admin console · Escrow (EMD)

Audience: Ops · Escrow · Accounting

Joint-signature Earnest Money Deposit escrow — accounts + transactions with dual-officer approval.

| | |
|---|---|
| **URL** | /admin/e/escrow |
| **Role** | admin |
| **Admin tab** | escrow |

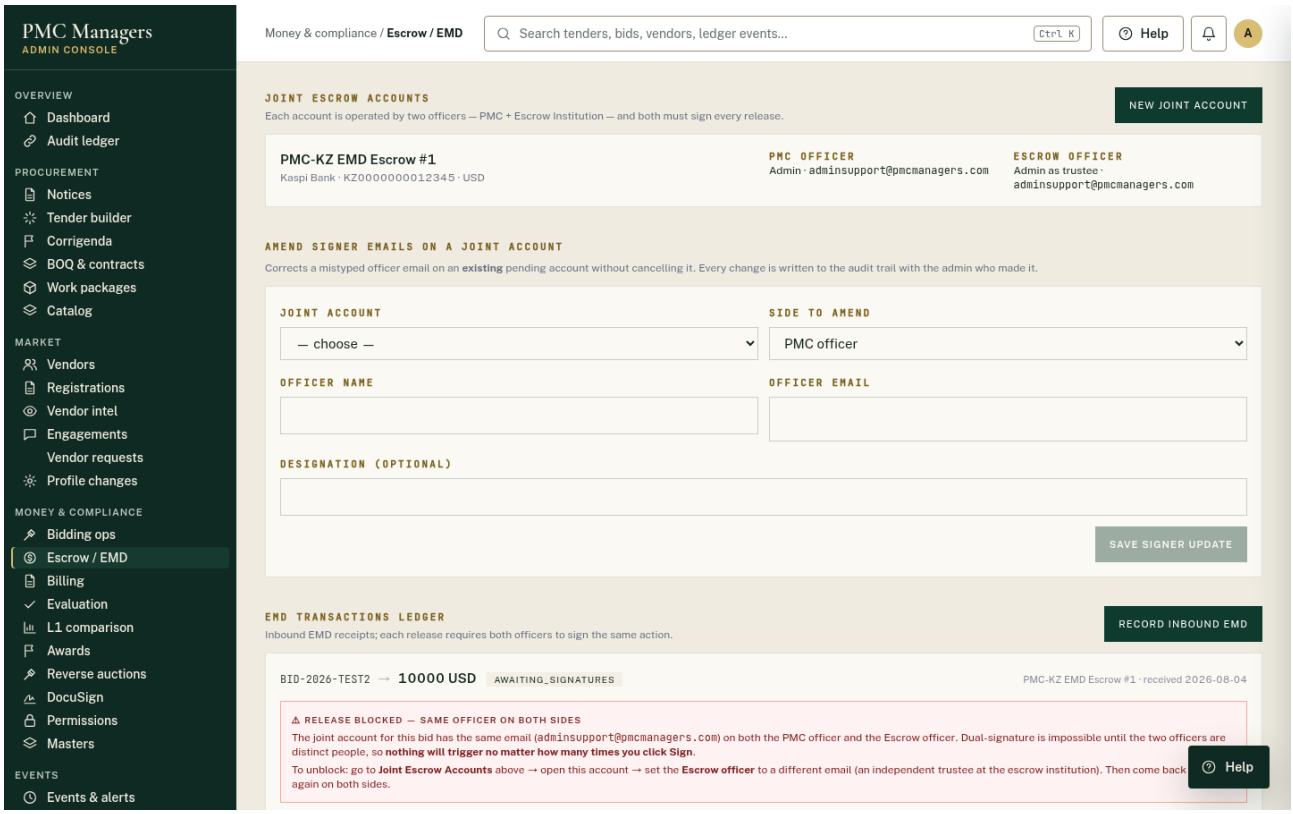

Figure 28.1 — Admin console · Escrow (EMD) (captured live).

## ANATOMY · EVERY ELEMENT ON THIS SCREEN

| | |
|---|---|
| **Accounts section** | One row per notice — balance, currency, joint officers, status. |
| **Create account** | Assigns two officers (must be different people) + currency. |
| **Transactions section** | Every deposit / release / refund with dual-signature status. |
| **Officer A / Officer B sign** | Each officer clicks 'Sign' via their own login. Money only moves when both signed. |
| **Refund** | Auto-triggered on bid rejection / notice cancellation. |

## STEP-BY-STEP TUTORIAL

### STEP 1 · CREATE AN ESCROW ACCOUNT

Escrow → Accounts → '+ New' → pick notice + Officer A + Officer B + currency → Save.

### STEP 2 · APPROVE A RELEASE

Transactions → pick pending row → Officer A signs → Officer B signs → funds move.

**API REFERENCE**

| Verb | Path | Notes |
|---|---|---|
| POST | `/api/v1/escrow/accounts` | Create joint account. |
| POST | `/api/v1/escrow/transactions` | Deposit / release / refund. |
| POST | `/api/v1/escrow/transactions/{id}/sign` | Each officer signs via own session. |

**COMMON PITFALLS**

- Officer A and Officer B cannot be the same person — 400 enforced.

CHAPTER 29 · ADMIN

# Admin console · Evaluation & scoring

Audience: Evaluators · Committee

Rubric editor + technical/commercial lock + COI declaration + award report.

| | |
|---|---|
| **URL** | /admin/e/evaluation |
| **Role** | admin |
| **Admin tab** | evaluation |

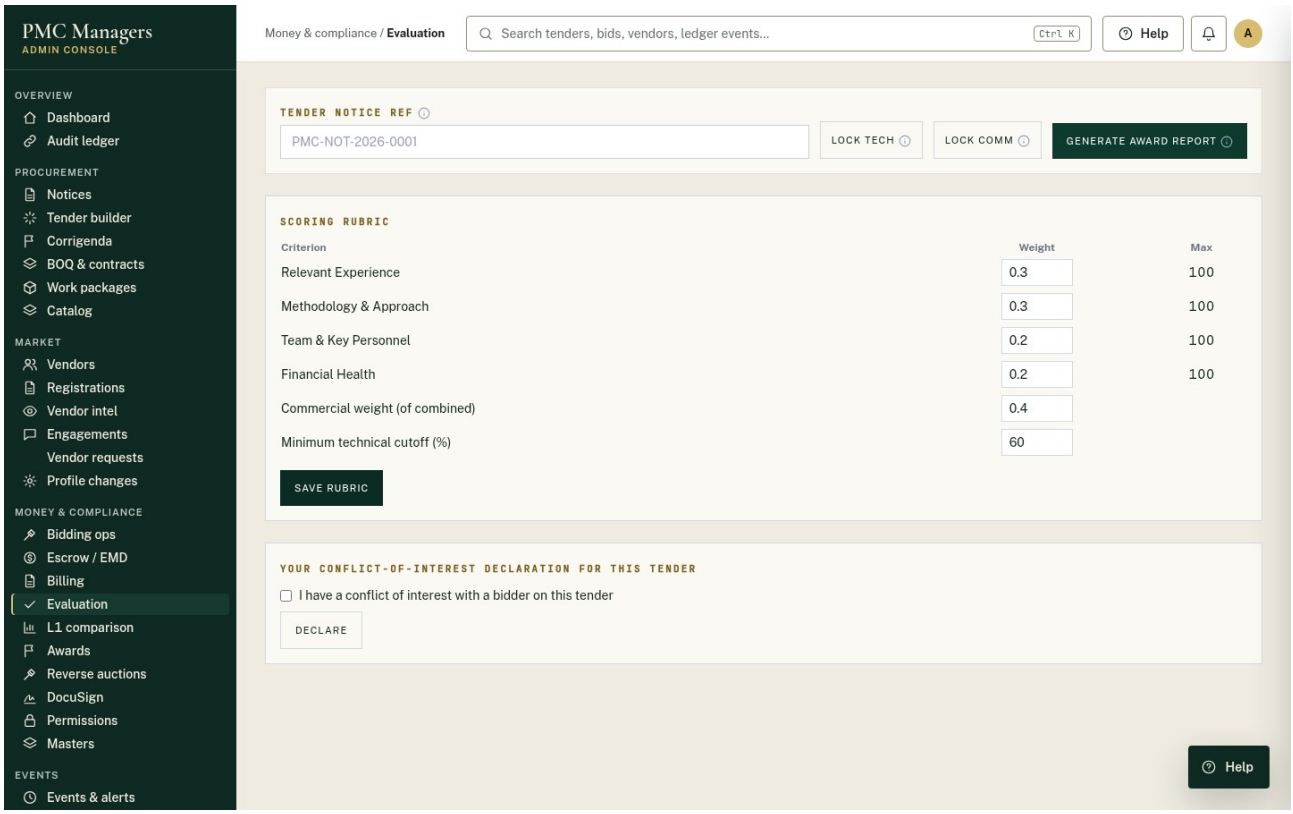

Figure 29.1 — Admin console · Evaluation & scoring (captured live).

## ANATOMY · EVERY ELEMENT ON THIS SCREEN

| | |
|---|---|
| **Notice ref input** | Which notice to evaluate. |
| **Lock technical** | Freezes technical scores — no further edits. |
| **Lock commercial** | Freezes commercial scores. |
| **Award report** | Generates the QCBS award report PDF. |
| **COI declaration** | Evaluator ticks 'has conflict?' + optional note → captured to audit. |
| **Rubric editor** | Criteria + weights per section (technical rubric). |
| **Bid score list** | Every bid × every criterion score. |

## STEP-BY-STEP TUTORIAL

### STEP 1 · SET UP A RUBRIC

Evaluation → Rubric editor → add criteria + weights (must sum to 100).

### STEP 2 · SCORE EVERY BID

Bid score list → pick bid → enter score per criterion → Save.

### STEP 3 · LOCK SCORES

'Lock technical' → confirm. Once locked no evaluator can edit.

### STEP 4 · GENERATE THE AWARD REPORT

'Award report' → generates PDF at /api/v1/evaluations/{ref}/award.

**API REFERENCE**

| Verb | Path | Notes |
|---|---|---|
| GET | /api/v1/evaluations/{notice_ref} | Rubric + scores. |
| POST | /api/v1/evaluations/{notice_ref}/lock/technical | Freeze. |
| POST | /api/v1/evaluations/{notice_ref}/lock/commercial | Freeze. |
| POST | /api/v1/evaluations/coi | Body {notice_ref, has_conflict, note?}. |
| GET | /api/v1/evaluations/{notice_ref}/award | PDF. |

**COMMON PITFALLS**

- Locking is one-way — only Master Admin can unlock via an audit-logged override.

CHAPTER 30 · ADMIN

# Admin console · Awards & POs

Audience: Ops · Accounting

Awarded bids + Purchase Order generation. Regenerate is guarded by a confirmation modal + versions all previous POs.

| | |
|---|---|
| **URL** | /admin/e/awards |
| **Role** | admin |
| **Admin tab** | awards |

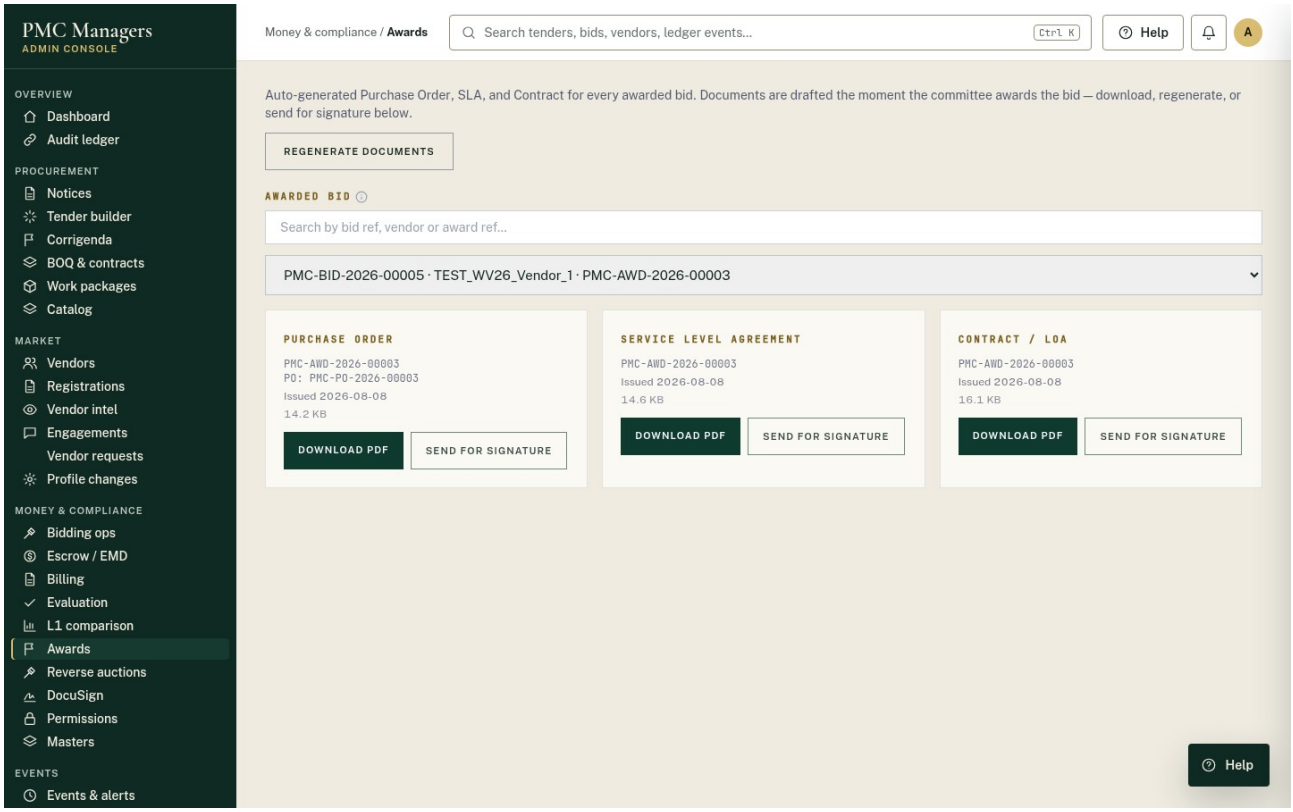

Figure 30.1 — Admin console · Awards & POs (captured live).

## ANATOMY · EVERY ELEMENT ON THIS SCREEN

| | |
|---|---|
| **Awards list** | Bid ref · vendor · award amount · PO ref · pdf link. |
| **Regenerate PO** | Reruns the PDF generator with a new version. Old PDFs are preserved. |
| **Version log** | Every generated PO version with timestamp + actor. |
| **Download PO** | Serves the latest PO PDF. |

## API REFERENCE

| Verb | Path | Notes |
|---|---|---|
| GET | `/api/v1/awards` | List. |
| POST | `/api/v1/awards/{bid_ref}/generate-po` | Generates new PO version. |
| GET | `/api/v1/awards/{bid_ref}/po?` | Fetches specific PO version. |

version=N

CHAPTER 31 · ADMIN

# Admin console · DocuSign · Envelope log

Audience: Ops · Legal

Every DocuSign envelope, its status, and the authoritative flag marking the legally-binding version.

| | |
|---|---|
| **URL** | /admin/e/docusign |
| **Role** | admin |
| **Admin tab** | docusign |

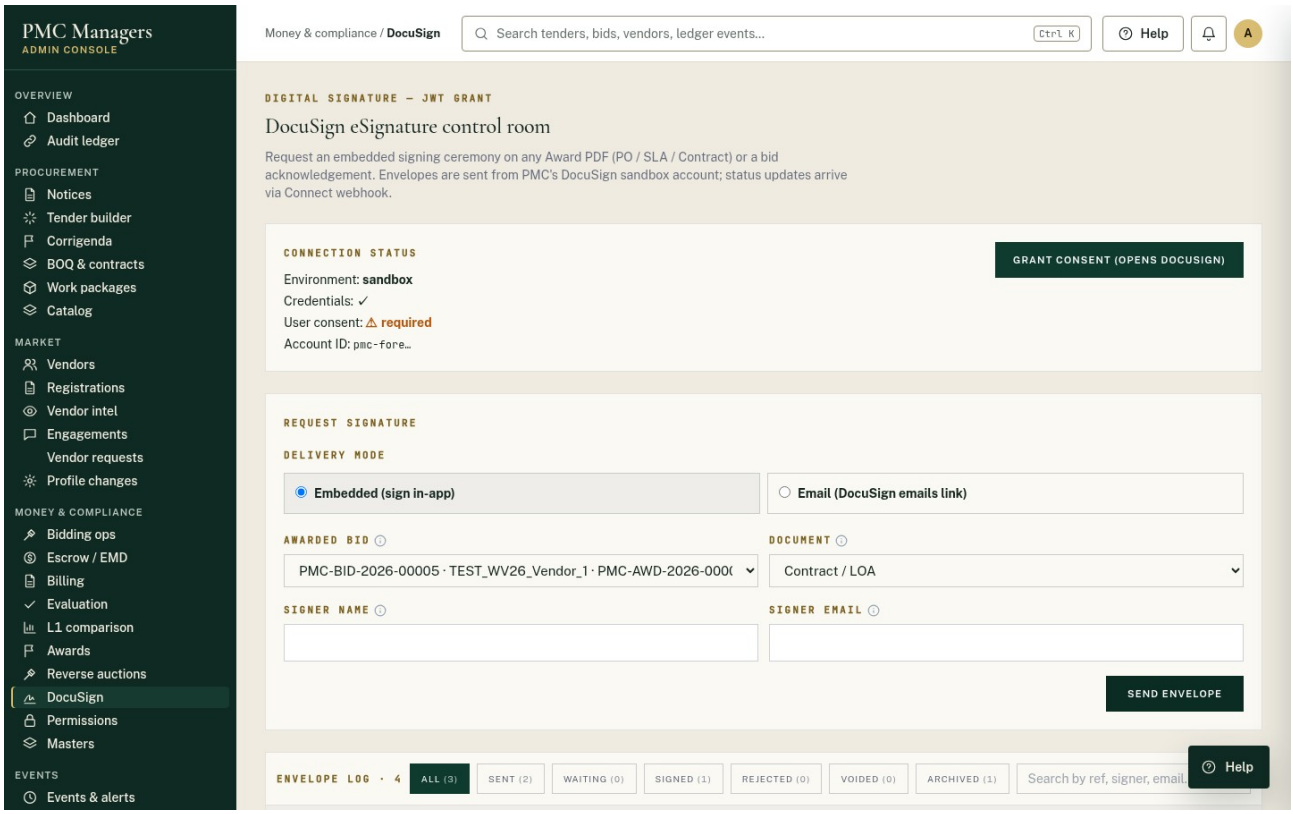

Figure 31.1 — Admin console · DocuSign · Envelope log (captured live).

## ANATOMY · EVERY ELEMENT ON THIS SCREEN

| | |
|---|---|
| **Envelope list** | envelope_id · recipient · subject · status · is_authoritative. |
| **Authoritative flag** | Only ONE envelope per contract can be authoritative — enforced with a 409 on second set. |
| **Download signed PDF** | Fetches DocuSign combined-signed PDF. |

## API REFERENCE

| Verb | Path | Notes |
|---|---|---|
| GET | `/api/v1/docusign/envelopes` | List. |
| POST | `/api/v1/envelopes/{id}/mark-authoritative` | 409 if already set on another envelope. |

## COMMON PITFALLS

- Marking authoritative twice is intentional 409 — the second call must first unmark the first.

CHAPTER 32 · ADMIN

# Admin console · Reverse auctions

Audience: Ops · Committee

Live reverse auctions — draft link hidden from public, participant validation, real-time price ticker.

| | |
|---|---|
| **URL** | /admin/e/auctions |
| **Role** | admin |
| **Admin tab** | auctions |

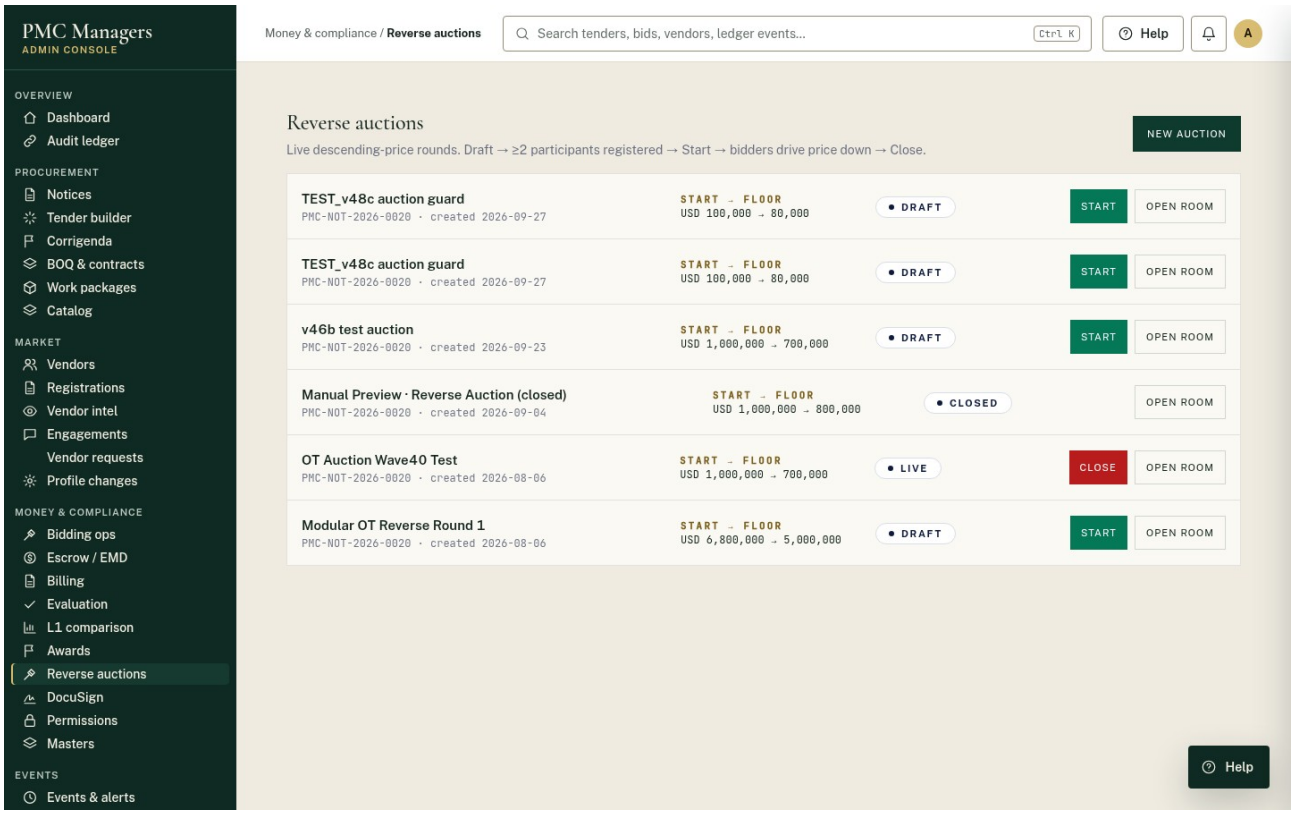

Figure 32.1 — Admin console · Reverse auctions (captured live).

## ANATOMY · EVERY ELEMENT ON THIS SCREEN

| | |
|---|---|
| **Auction list** | notice_ref · start · duration · status · participants. |
| **+ New auction** | notice_ref + start_at + duration_min + participants list. |
| **Participants** | Only bidders whose bid is escrow_accepted can be added — validated. |
| **Draft link** | Not publicly visible until status=live. |

## API REFERENCE

| Verb | Path | Notes |
|---|---|---|
| POST | `/api/v1/auctions` | Create draft. |
| POST | `/api/v1/auctions/{id}/start` | Flip to live. |
| POST | `/api/v1/auctions/{id}/bid` | Vendor-side lower-bid submission. |

CHAPTER 33 · ADMIN

# Admin console · Meetings

Audience: Ops · Committee

Zoom / internal meeting scheduling. notice_ref required unless 'Internal meeting' toggle is on.

| | |
|---|---|
| **URL** | /admin/e/engagements |
| **Role** | admin |
| **Admin tab** | meetings |

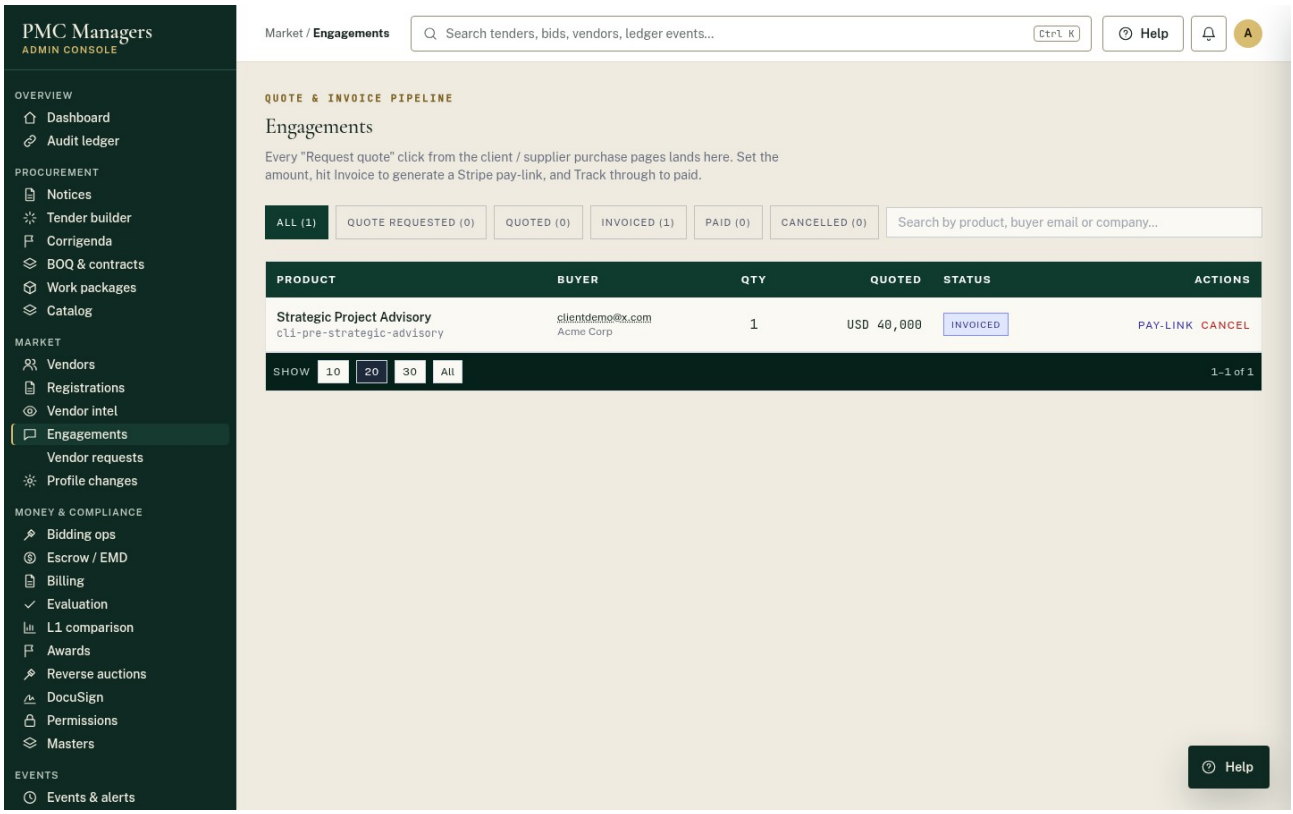

Figure 33.1 — Admin console · Meetings (captured live).

## ANATOMY · EVERY ELEMENT ON THIS SCREEN

| | |
|---|---|
| **+ New meeting** | Title · date · attendees · Zoom URL (optional) · notice_ref. |
| **Internal meeting toggle** | If ticked, notice_ref becomes optional. Used for internal ops. |
| **Attendees** | Multi-select from staff master. |
| **Zoom link** | Optional. If present, appears on the invite email. |

## API REFERENCE

| Verb | Path | Notes |
|---|---|---|
| POST | /api/v1/meetings | Create. |
| GET | /api/v1/meetings | List. |

CHAPTER 34 · ADMIN

# Admin console · L1 comparison

Audience: Evaluators · Mgmt

Lowest-compliant winner across bids. Empty-state includes 'why L1 could not be picked' reasons.

| | |
|---|---|
| **URL** | /admin/e/l1-award |
| **Role** | admin |
| **Admin tab** | l1 |

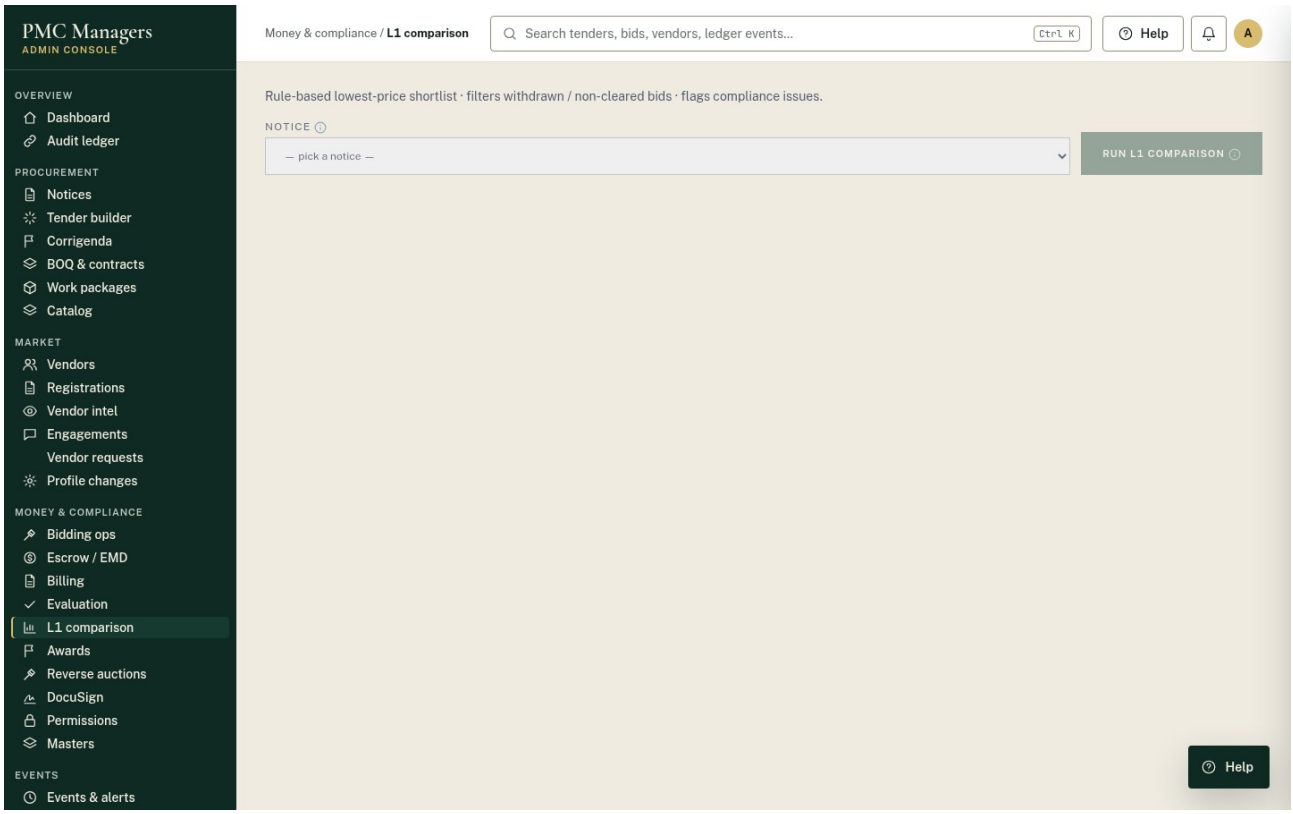

Figure 34.1 — Admin console · L1 comparison (captured live).

## ANATOMY · EVERY ELEMENT ON THIS SCREEN

| | |
|---|---|
| **Notice ref input** | Pick a notice. |
| **Comparison table** | Every bid · compliance · price · rank. |
| **Winner banner** | PMC-BID-…-#### is L1. |
| **Empty-state reasons** | e.g. 'No commercial envelope locked' or 'All bidders non-compliant on eligibility'. |

## API REFERENCE

| Verb | Path | Notes |
|---|---|---|
| GET | `/api/v1/comparison/l1/{notice_ref}` | Returns comparison + winner or empty-state reason. |

CHAPTER 35 · ADMIN

# Admin console · BOQ & contracts

Audience: Ops · Accounting

BOQ templates + Contract templates with exports + versions.

| | |
|---|---|
| **URL** | /admin/e/boq |
| **Role** | admin |
| **Admin tab** | boq |

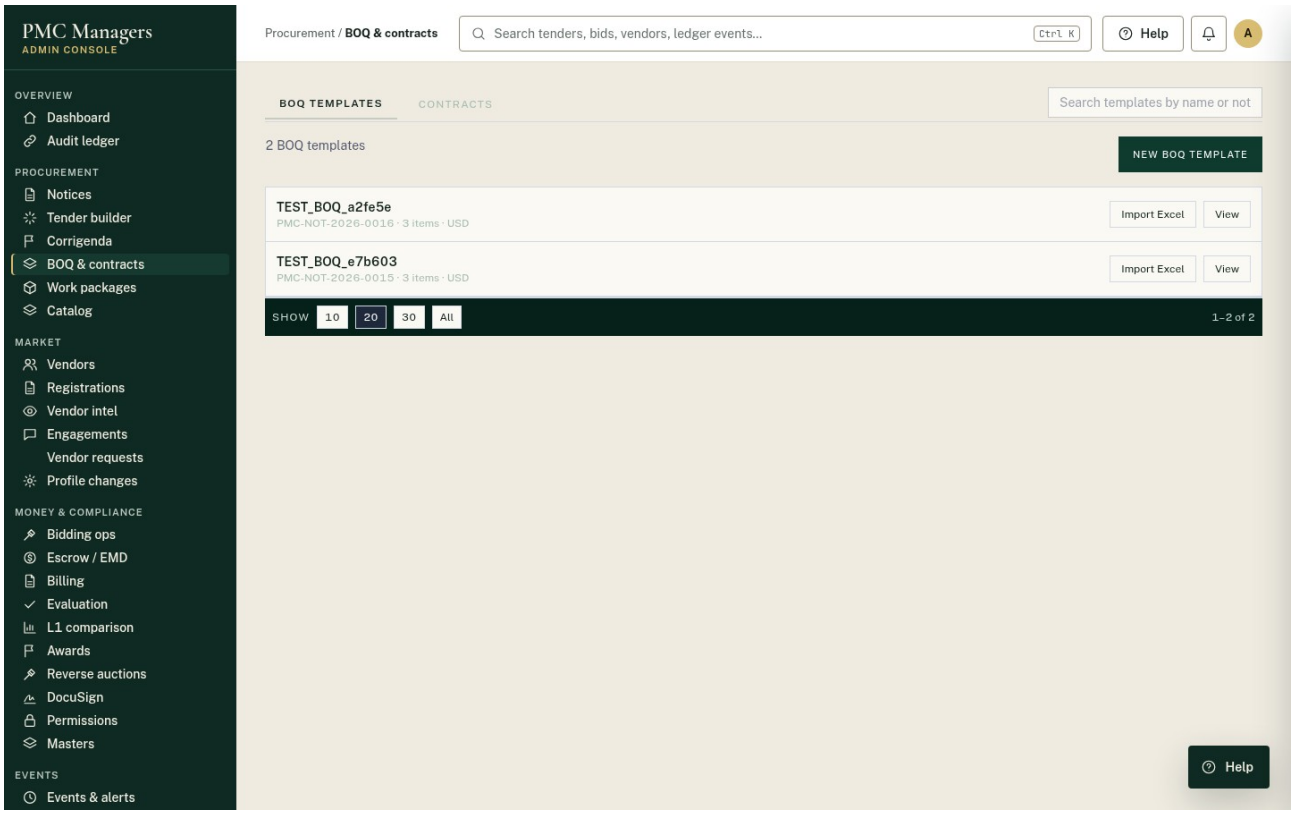

Figure 35.1 — Admin console · BOQ & contracts (captured live).

## ANATOMY · EVERY ELEMENT ON THIS SCREEN

| | |
|---|---|
| **Sub-tabs** | BOQ templates · Contracts. |
| **Template list** | name · version · updated_at. |
| **Import CSV** | Import a BOQ from a spreadsheet. |
| **Export** | PDF + XLSX export of a template. |

## API REFERENCE

| Verb | Path | Notes |
|---|---|---|
| GET | `/api/v1/boqs/templates` | List. |
| POST | `/api/v1/boqs/templates` | Create. |
| GET | `/api/v1/boqs/templates/{id}/export?fmt=xlsx` | Export. |

CHAPTER 36 · ADMIN

# BOQ · Contracts sub-tab

Contract templates — the boilerplate clauses linked to award PO generation.

| | |
|---|---|
| **URL** | /admin/e/boq |
| **Role** | admin |
| **Admin tab** | boq |

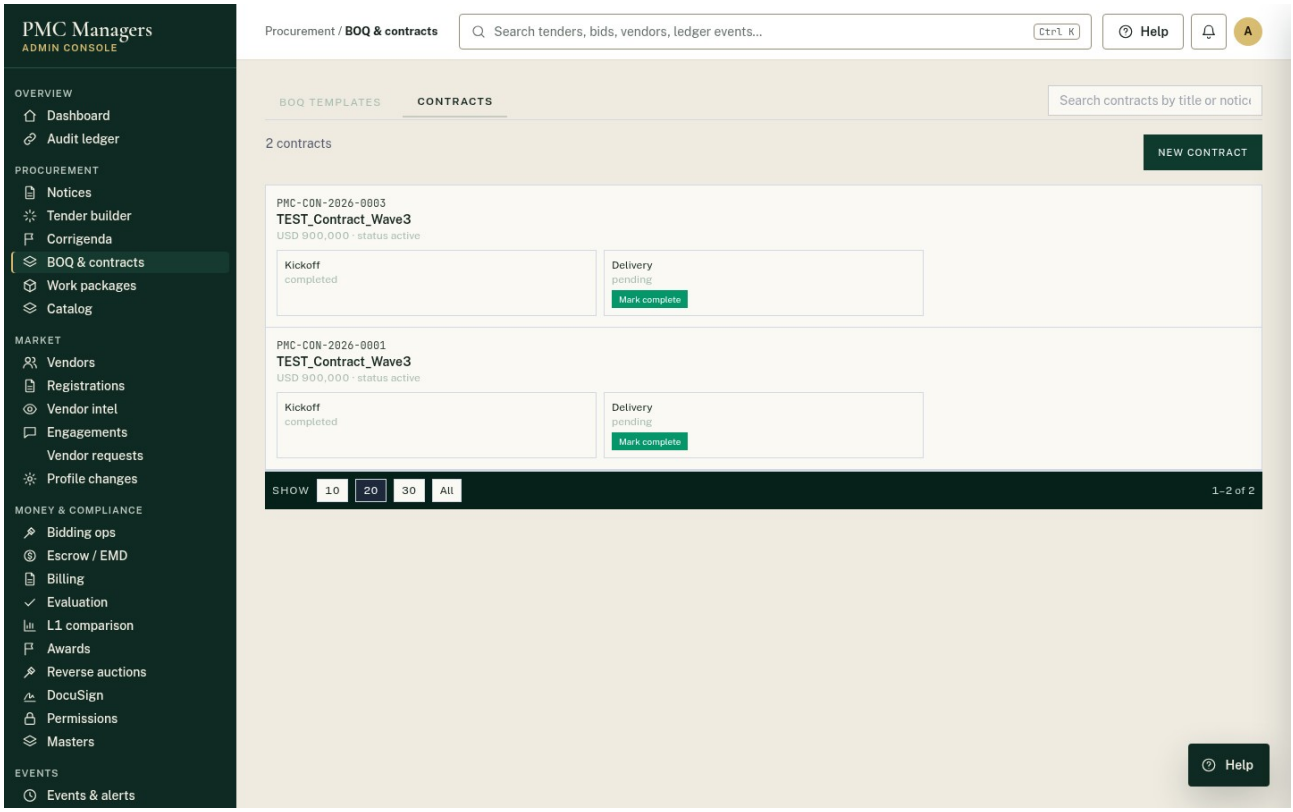

Figure 36.1 — BOQ · Contracts sub-tab (captured live).

## ANATOMY · EVERY ELEMENT ON THIS SCREEN

| | |
|---|---|
| **Contracts table** | Template name · version · category. |
| **+ New contract** | Free-text draft; export as .docx. |
| **Export DOCX** | Downloads the Word doc. |

## API REFERENCE

| Verb | Path | Notes |
|---|---|---|
| GET | /api/v1/contracts/templates | List. |
| POST | /api/v1/contracts/templates | Create. |

CHAPTER 37 · ADMIN

# Admin console · Vendor Intelligence

Audience: Ops · Mgmt

Blacklist / whitelist / grey-list registry with a KPI decorator per vendor.

| | |
|---|---|
| **URL** | /admin/e/vendor-intel |
| **Role** | admin |
| **Admin tab** | vintel |

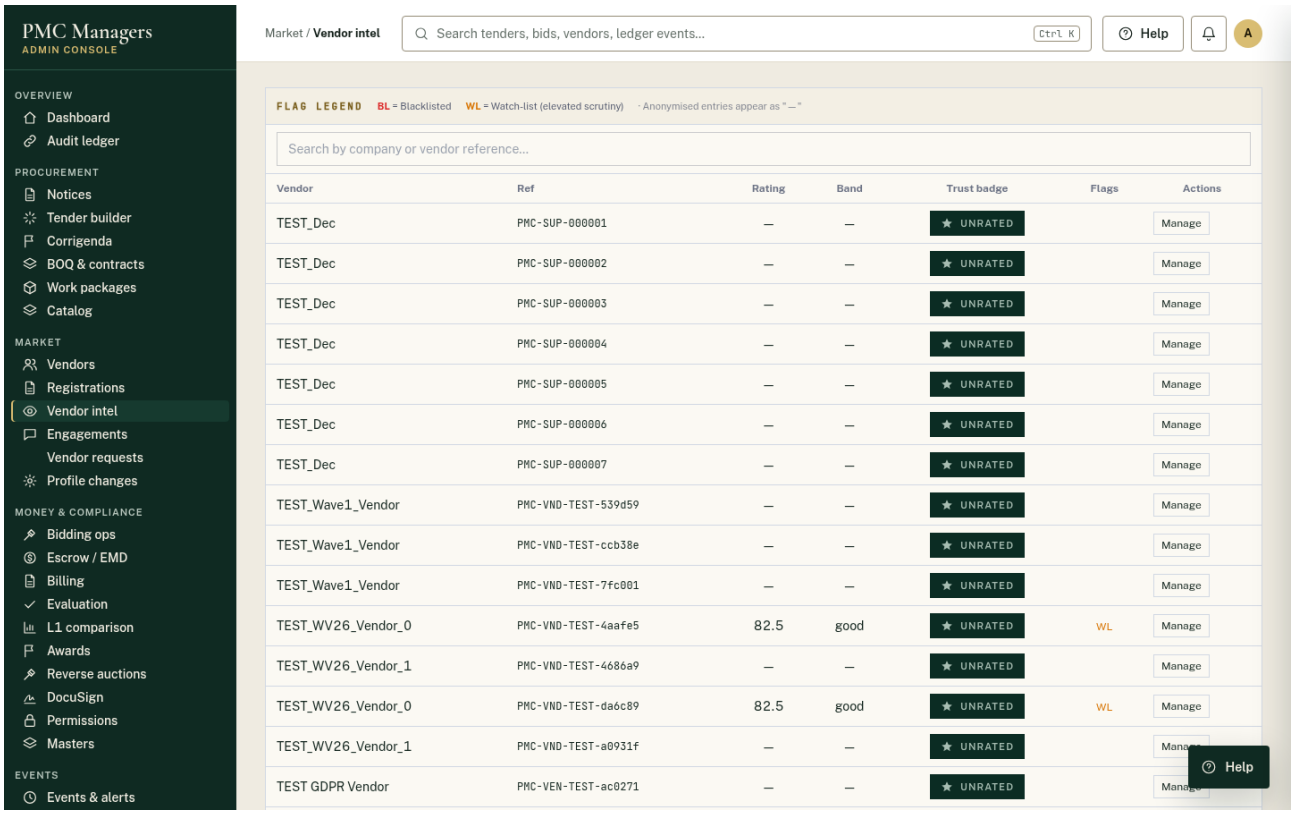

Figure 37.1 — Admin console · Vendor Intelligence (captured live).

## ANATOMY · EVERY ELEMENT ON THIS SCREEN

| | |
|---|---|
| **List tab** | BL · WL · Grey. |
| **+ Add entry** | Vendor + reason + evidence link. |
| **Legend** | BL red · WL green · Grey amber. |
| **Vendor KPI decorator** | On the vendors master, a coloured pill from Vendor Intel. |

## API REFERENCE

| Verb | Path | Notes |
|---|---|---|
| GET | `/api/v1/vendor-intel` | List. |
| POST | `/api/v1/vendor-intel` | Create entry. |

CHAPTER 38 · ADMIN

# Vendors · Status filter (V-02 fix)

Status filter dropdown lets ops jump straight to Pending-verify / Active / Inactive vendor cohorts.

| | |
|---|---|
| **URL** | /admin/e/vendors |
| **Role** | admin |
| **Admin tab** | vendors |

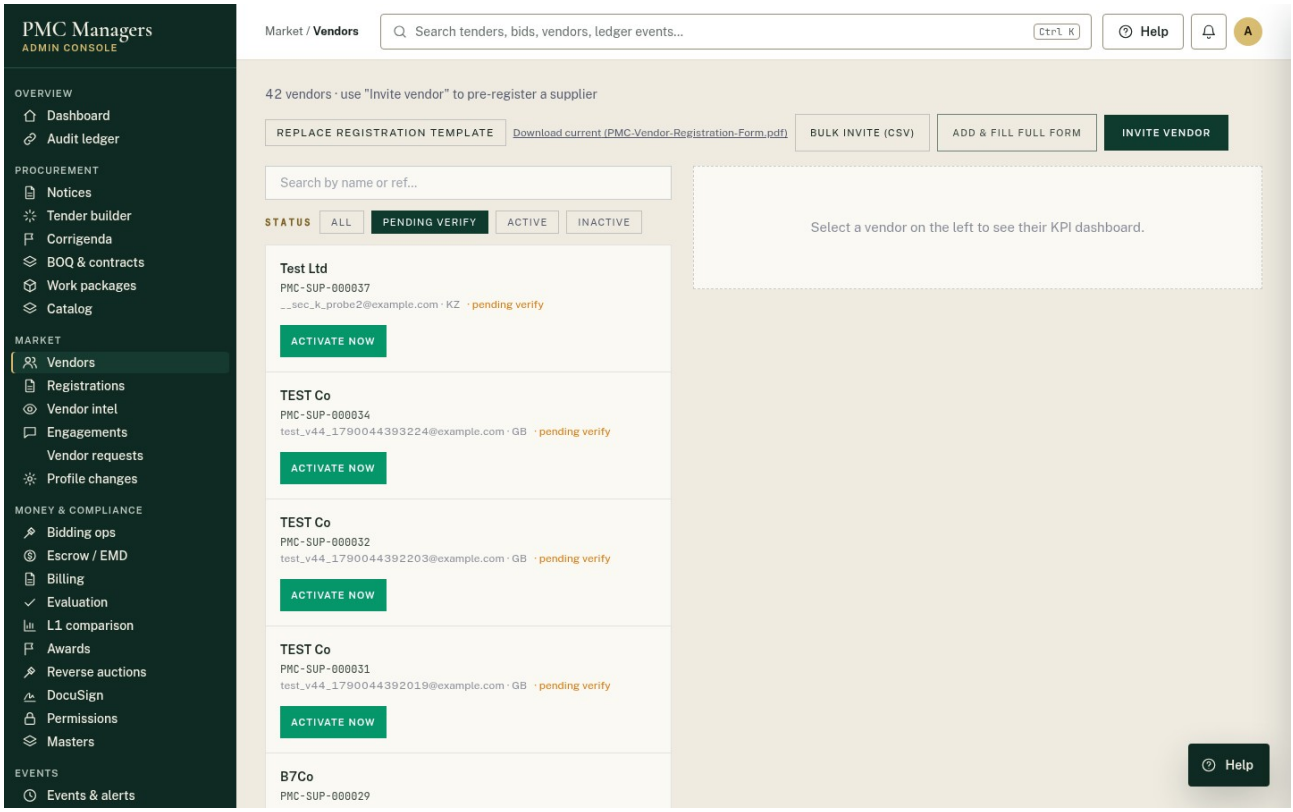

Figure 38.1 — Vendors · Status filter (V-02 fix) (captured live).

## ANATOMY · EVERY ELEMENT ON THIS SCREEN

| | |
|---|---|
| **All** | Every vendor. |
| **Pending verify** | email_verified=false — the onboarding gap. |
| **Active** | email_verified=true AND is_active=true. |
| **Inactive** | is_active=false — GDPR-redacted or deactivated. |

CHAPTER 39 · ADMIN

# Tender Builder · ALL KINDS view (T-01 fix)

Combined view showing tenders + RFPs + RFQs together. Useful for the master library operator.

| | |
|---|---|
| **URL** | /admin/e/tender-builder |
| **Role** | admin |
| **Admin tab** | tender-builder |

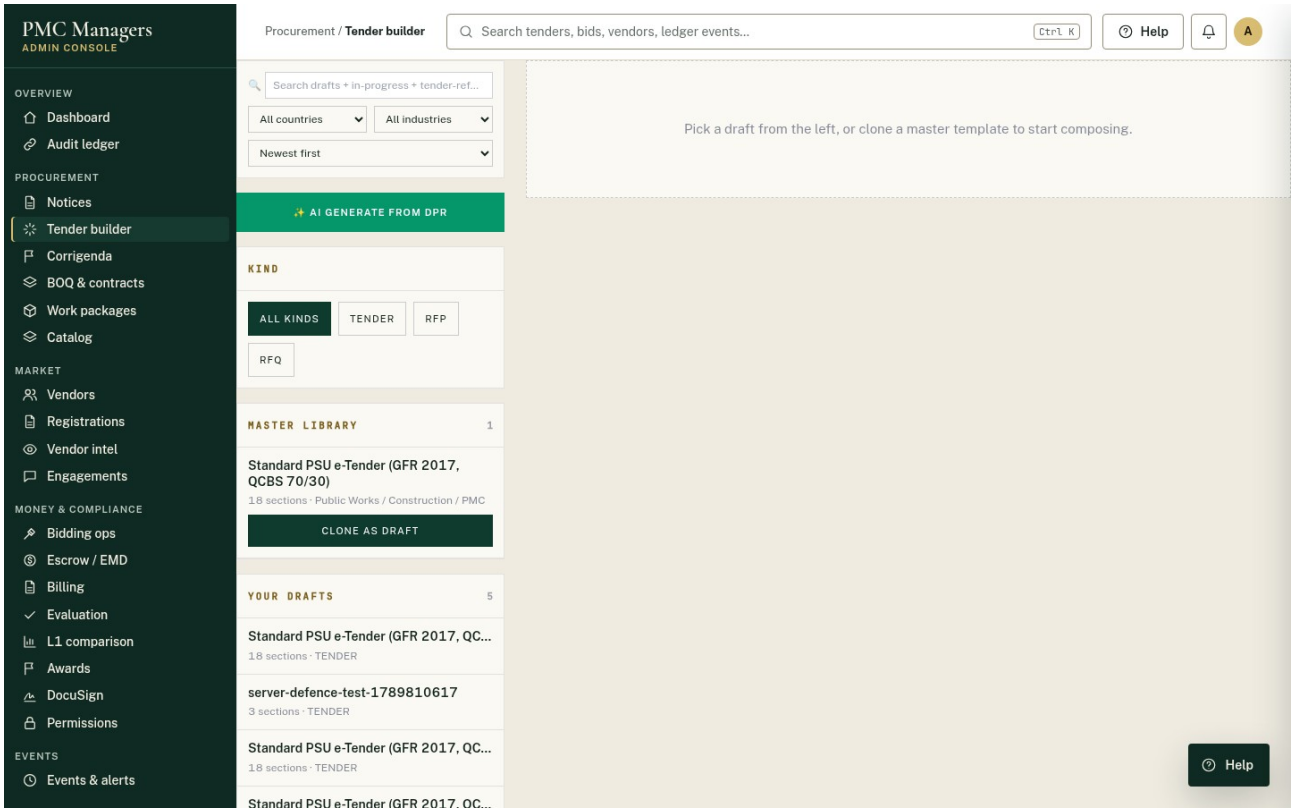

Figure 39.1 — Tender Builder · ALL KINDS view (T-01 fix) (captured live).

## ANATOMY · EVERY ELEMENT ON THIS SCREEN

| | |
|---|---|
| **ALL KINDS pill** | Toggles the sidebar to show every template regardless of kind. |

CHAPTER 40 · ADMIN

# Escrow · Reconciliation ledger vs bank (E-03 fix)

Compares internal ledger balances against last-reported bank statements per joint account. Highlights deltas so operators can chase the escrow institution.

| | |
|---|---|
| **URL** | /admin/e/escrow |
| **Role** | admin |
| **Admin tab** | escrow |

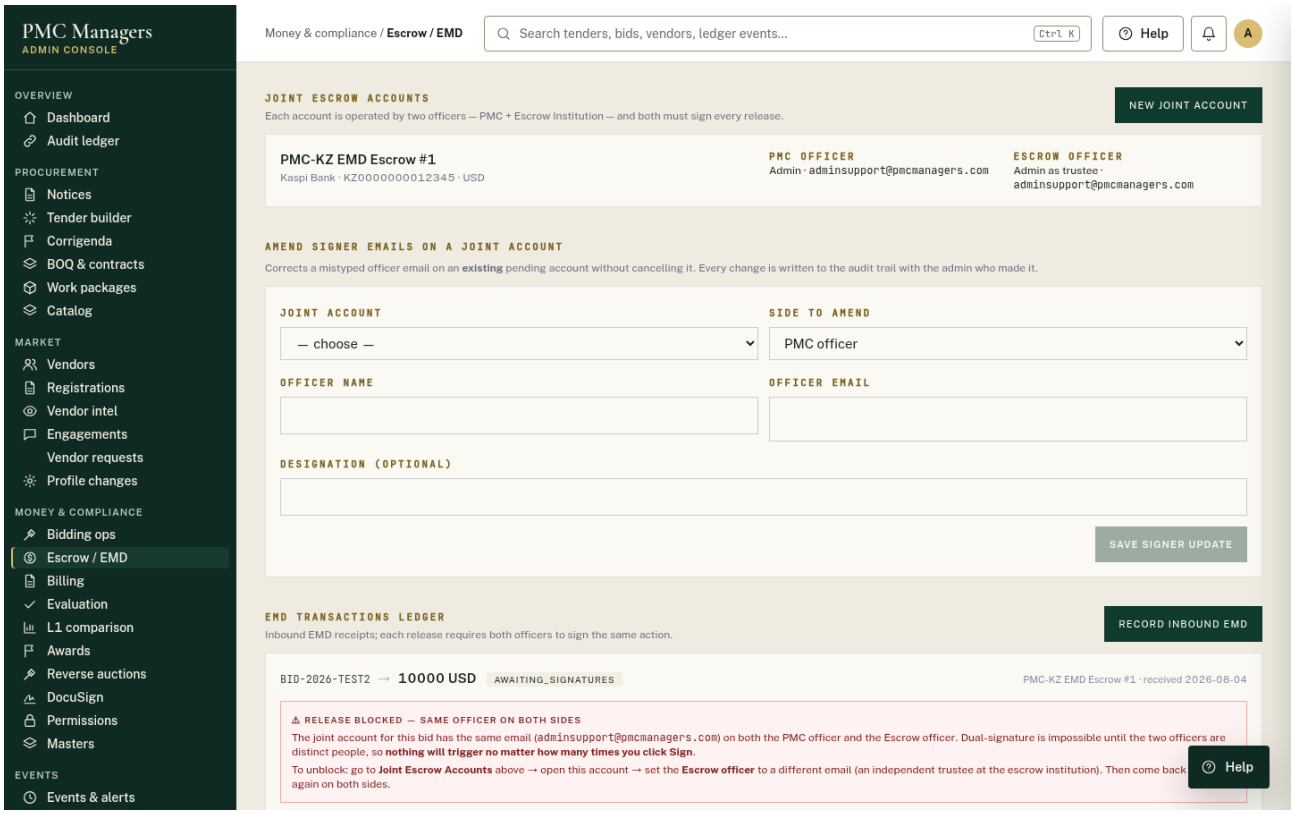

Figure 40.1 — Escrow · Reconciliation ledger vs bank (E-03 fix) (captured live).

## ANATOMY · EVERY ELEMENT ON THIS SCREEN

| | |
|---|---|
| **Row** | Account · currency · ledger balance · bank balance · delta · status pill. |
| **Reconciled pill** | Green — ledger and bank match to the cent. |
| **Delta pill** | Amber — a leg was not confirmed by the escrow institution yet. |
| **Pending bank feed** | Grey — no bank_balance received; reconcile manually. |

# Reverse auctions · Post-auction summary (RA-01 fix)

'View summary' button on any closed auction expands a summary panel: starting/floor/winning prices + savings percentage + winner + timing.

| | |
|---|---|
| **URL** | /admin/e/auctions |
| **Role** | admin |
| **Admin tab** | auctions |

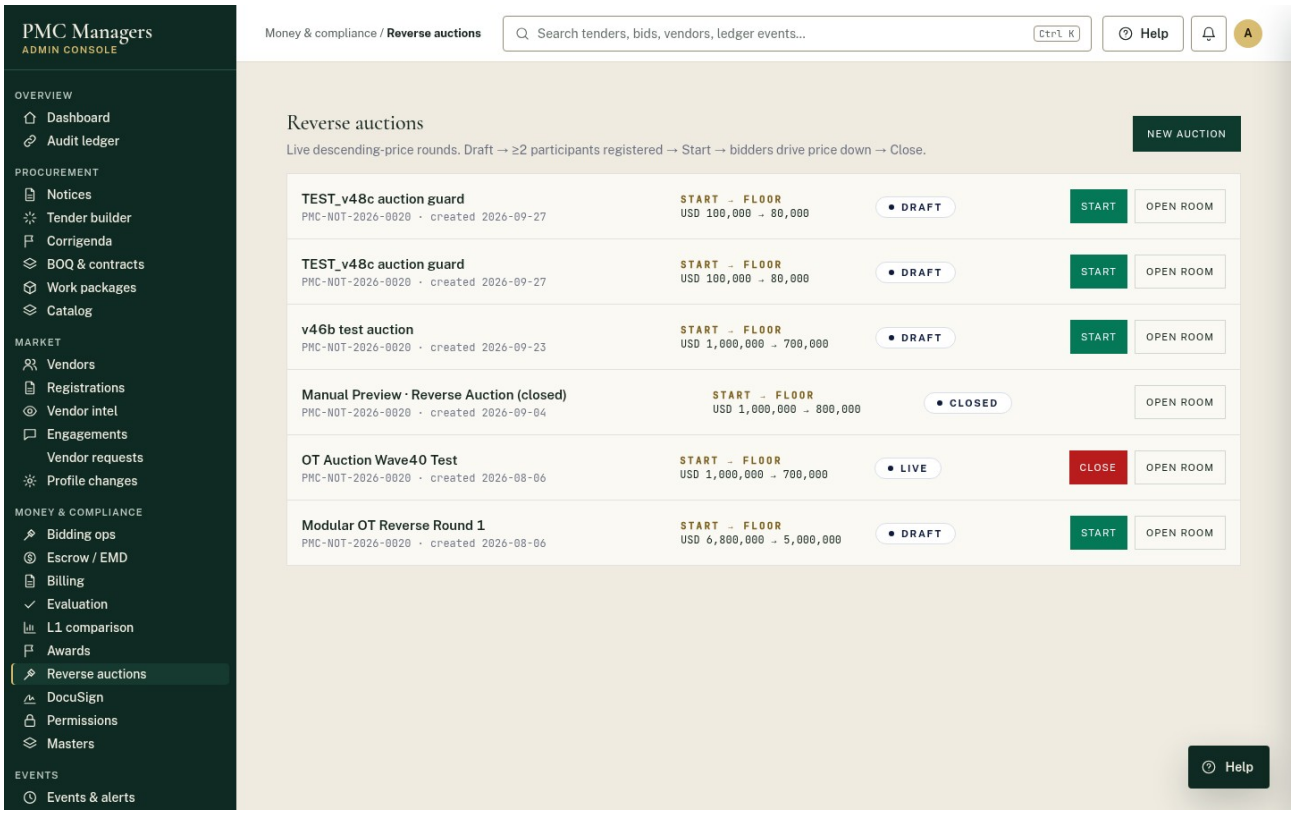

Figure 41.1 — Reverse auctions · Post-auction summary (RA-01 fix) (captured live).

## ANATOMY · EVERY ELEMENT ON THIS SCREEN

| | |
|---|---|
| **Starting / Floor** | Configured at draft time. |
| **Winning bid** | The final downward-bid price the auction closed at. |
| **Savings vs start** | (starting – winning) / starting × 100. |
| **Timing** | Duration, anti-snipe, closed timestamp. |

CHAPTER 42 · ADMIN

# Audit · Filter by actor / type / date (AU-01 fix)

Filter bar over the audit ledger — narrow to a single actor, event type, or date range.

| | |
|---|---|
| **URL** | /admin/e/audit |
| **Role** | admin |
| **Admin tab** | audit |

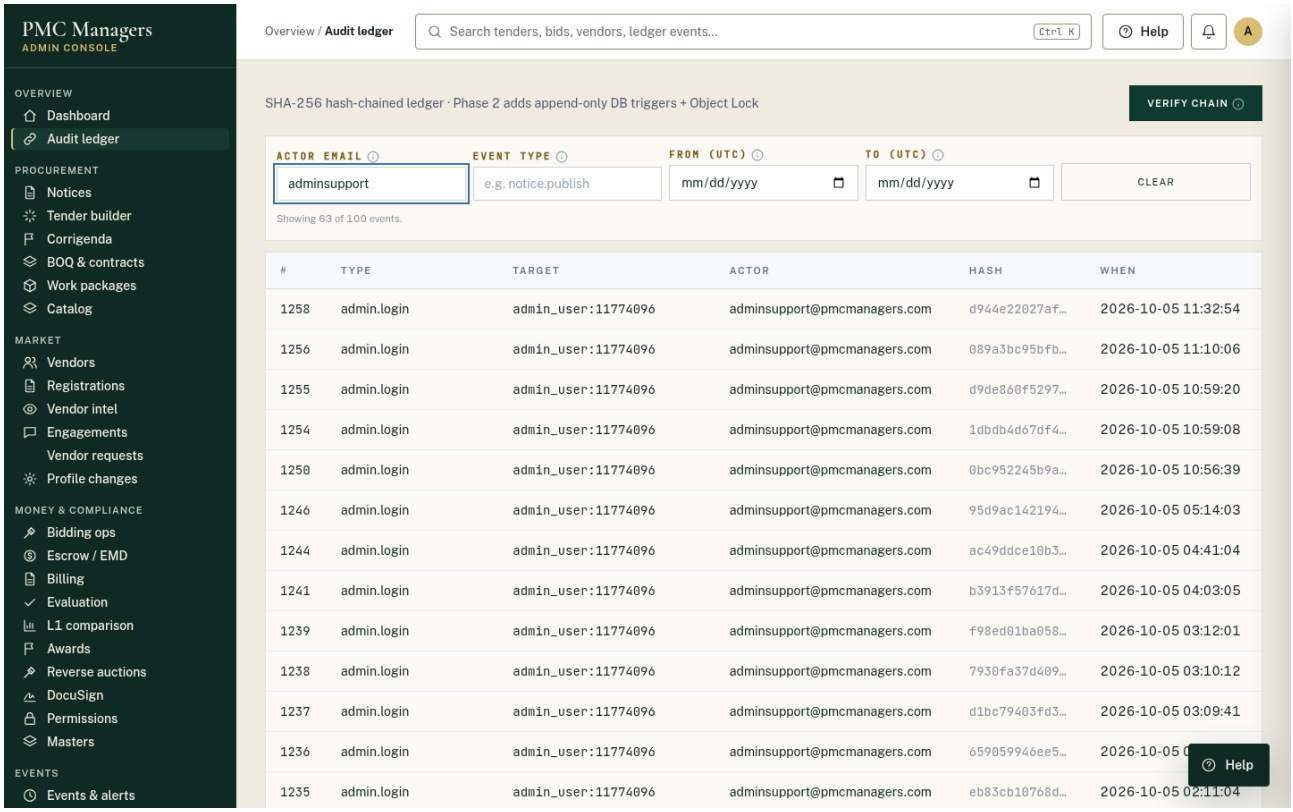

Figure 42.1 — Audit · Filter by actor / type / date (AU-01 fix) (captured live).

## ANATOMY · EVERY ELEMENT ON THIS SCREEN

| | |
|---|---|
| **Actor email** | Substring match on actor_email. |
| **Event type** | Substring match on event_type (e.g. 'notice.publish'). |
| **From / To (UTC)** | Date range filter. |
| **Clear** | Resets all four filters. |

CHAPTER 43 · ADMIN

# Engagements · Buyer jump-link (EN-03 fix)

Every buyer email in the engagement table is a jump-link that opens the Vendors tab pre-filtered by that email.

| | |
|---|---|
| **URL** | /admin/e/engagements |
| **Role** | admin |
| **Admin tab** | engagements |

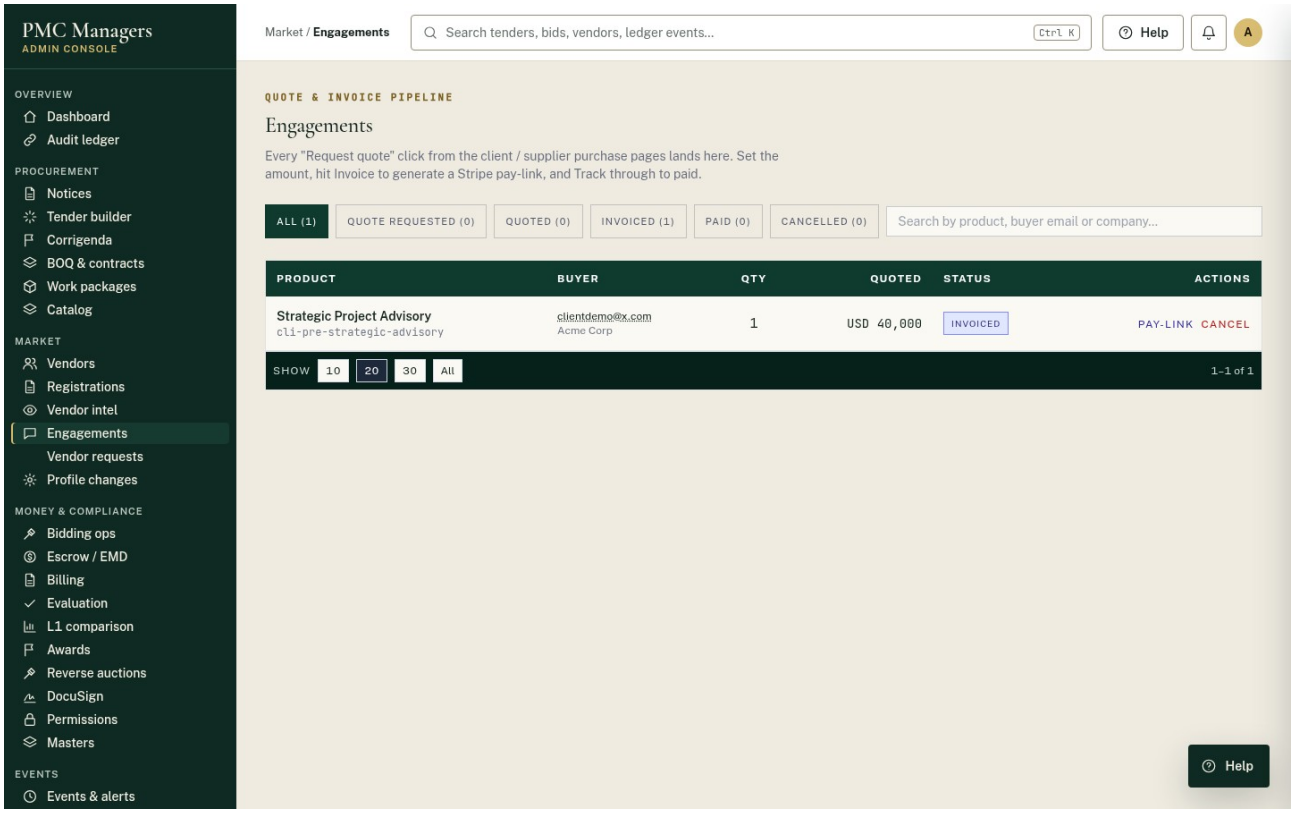

Figure 43.1 — Engagements · Buyer jump-link (EN-03 fix) (captured live).

## ANATOMY · EVERY ELEMENT ON THIS SCREEN

| | |
|---|---|
| **Buyer email** | Dotted-underline link → /admin?tab=vendors&search=<email>. |

CHAPTER 44 · ADMIN

# Admin console · Masters · Staff

Audience: Mgmt

Staff master — seed reviewers, escrow agents, certifiers, legal, accounting, committee, auditor.

| | |
|---|---|
| **URL** | /admin/e/masters |
| **Role** | admin |
| **Admin tab** | masters |

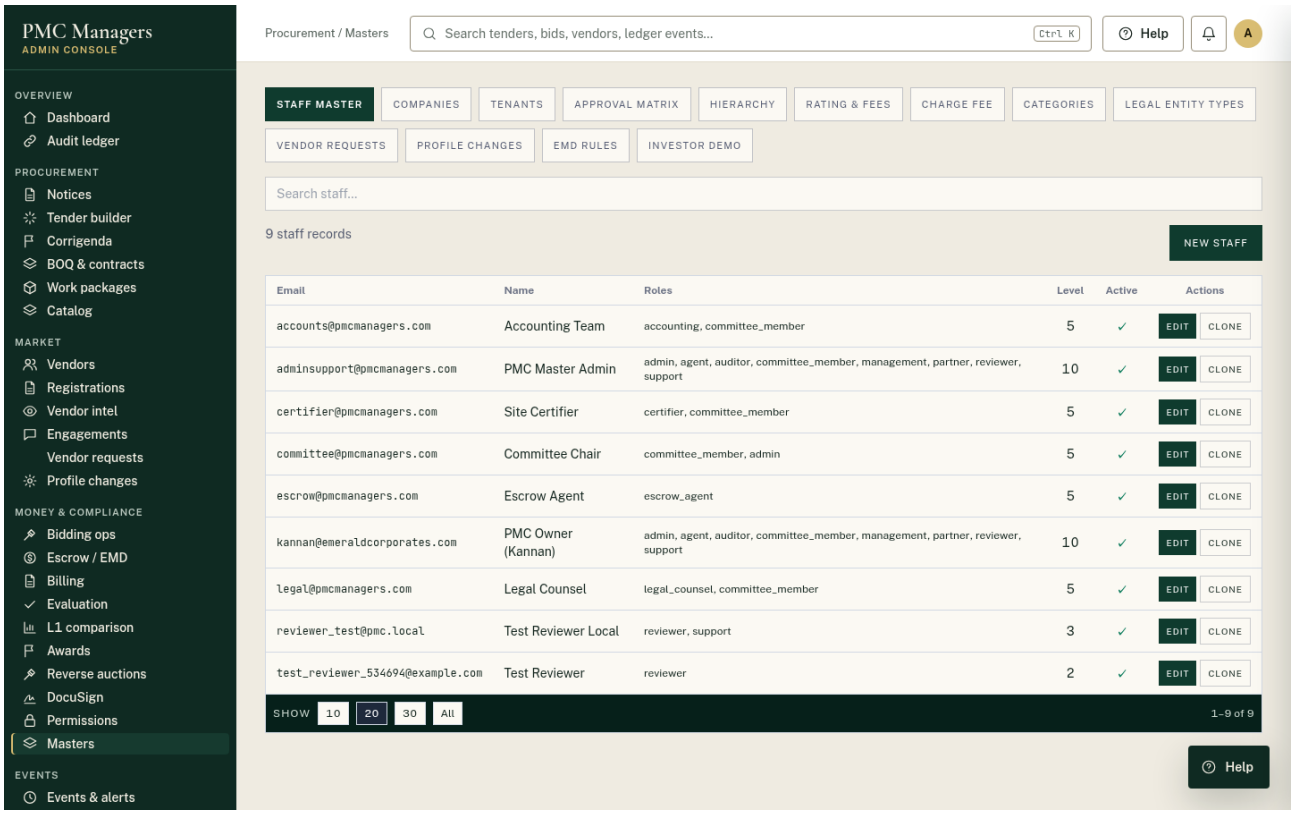

Figure 44.1 — Admin console · Masters · Staff (captured live).

## ANATOMY · EVERY ELEMENT ON THIS SCREEN

| | |
|---|---|
| **Sub-tabs** | Staff master · Companies · Tenants · Approval matrix · Hierarchy. |
| **Staff row** | Name · email · role(s) · designation · active toggle. |
| **+ New staff** | email + role + designation + temp password. |
| **Reset password** | Sends a recover-token email to the staff member. |

## API REFERENCE

| Verb | Path | Notes |
|---|---|---|
| GET | `/api/v1/masters/staff` | List. |
| POST | `/api/v1/masters/staff` | Create. |
| POST | `/api/v1/masters/staff/{id}/reset-password` | Email a reset link. |

CHAPTER 45 · ADMIN

# Masters · Companies

Tenant-scoped company catalog — internal companies (departments, subsidiaries) that own contracts.

| | |
|---|---|
| **URL** | /admin/e/masters |
| **Role** | admin |
| **Admin tab** | masters |

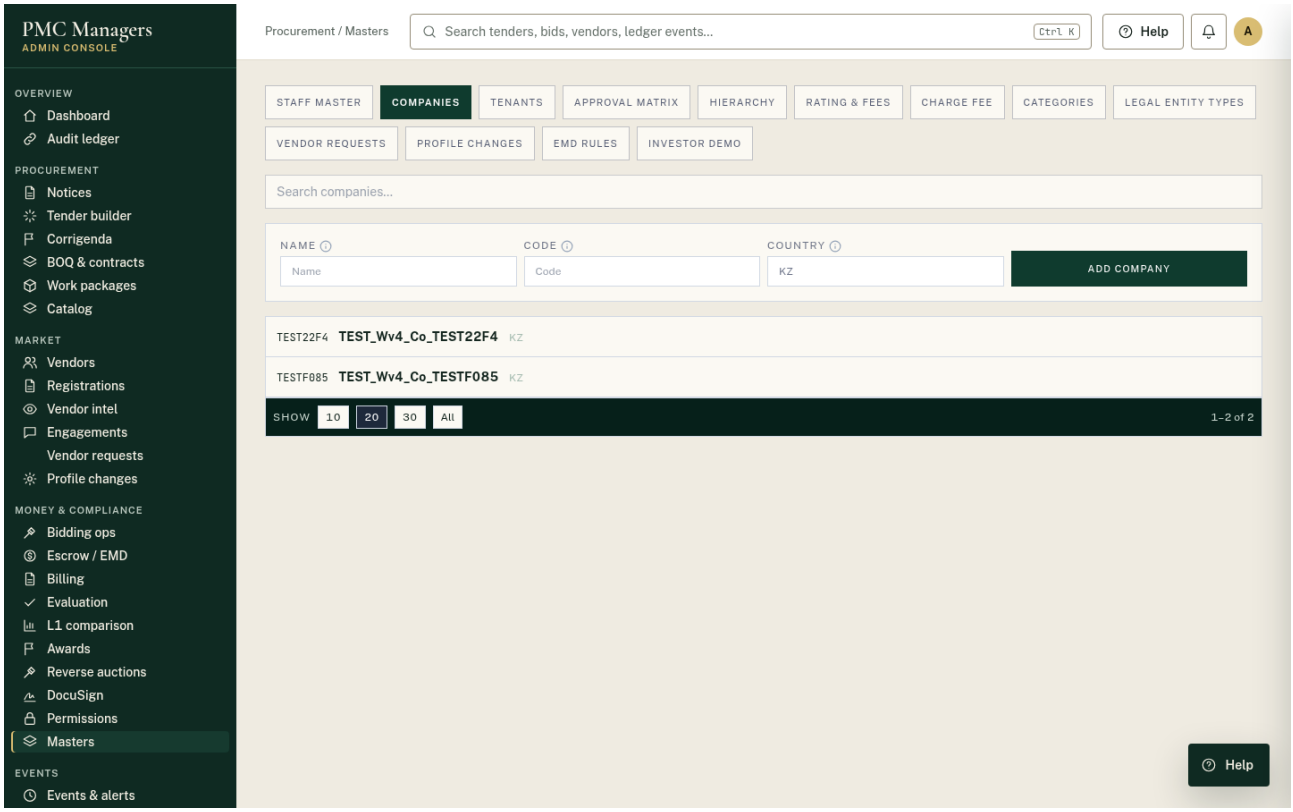

Figure 45.1 — Masters · Companies (captured live).

## ANATOMY · EVERY ELEMENT ON THIS SCREEN

| | |
|---|---|
| **Company name** | Legal name. |
| **Company code** | Short code, e.g. PMC-INF. |
| **+ Create** | Adds a row. |

CHAPTER 46 · ADMIN

# Masters · Approval matrix

The dynamic approval matrix editor. Each row is a step (role + action + SLA hours).

| | |
|---|---|
| **URL** | /admin/e/masters |
| **Role** | admin |
| **Admin tab** | masters |

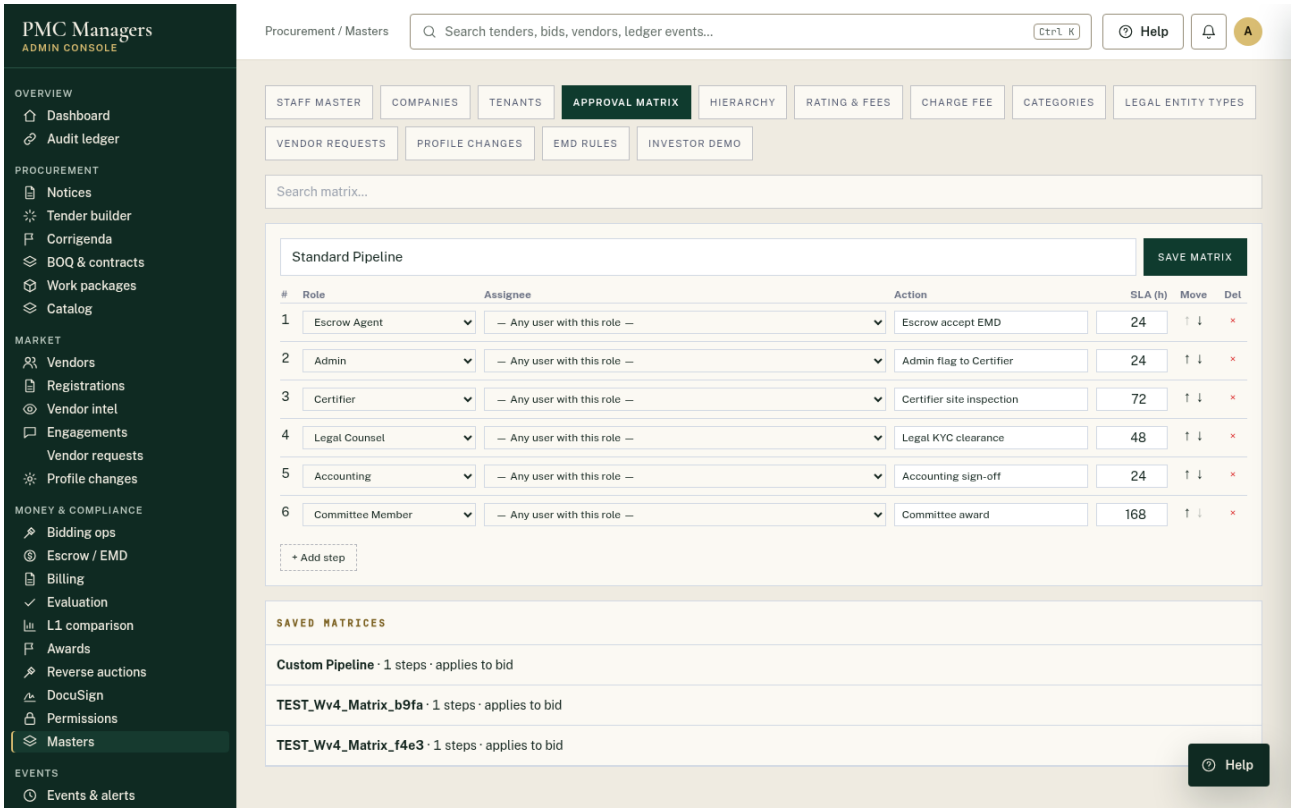

Figure 46.1 — Masters · Approval matrix (captured live).

## ANATOMY · EVERY ELEMENT ON THIS SCREEN

| | |
|---|---|
| **Matrix name** | Pipeline name (e.g. Standard, Fast-track). |
| **Row** | # · Role picker · Action text · SLA hours · move up/down · delete. |
| **+ Add step** | Appends a new row. |
| **Save matrix** | Persists ordering + steps. |
| **Saved matrices** | List of all matrices with steps × applies-to. |

## STEP-BY-STEP TUTORIAL

### STEP 1 · BUILD A 6-STEP PIPELINE

Escrow accept EMD → Admin flag → Certifier site inspection → Legal KYC → Accounting sign-off → Committee award. SLAs typically 24 / 24 / 72 / 48 / 24 / 168 h.

### STEP 2 · REORDER STEPS

Use the up/down arrows in the Move column.

### STEP 3 · APPLY TO A NOTICE

In Notice → 'Approval matrix' → pick the matrix from this list.

| API REFERENCE | | |
|---|---|---|
| **Verb** | **Path** | **Notes** |
| `GET` | `/api/v1/masters/matrices` | List. |
| `PUT` | `/api/v1/masters/matrices/{id}` | Save. |

CHAPTER 47 · ADMIN

# Masters · Hierarchy

Level 0..3 hierarchy — the enforcement backbone of G2 access control.

| | |
|---|---|
| **URL** | /admin/e/masters |
| **Role** | admin |
| **Admin tab** | masters |

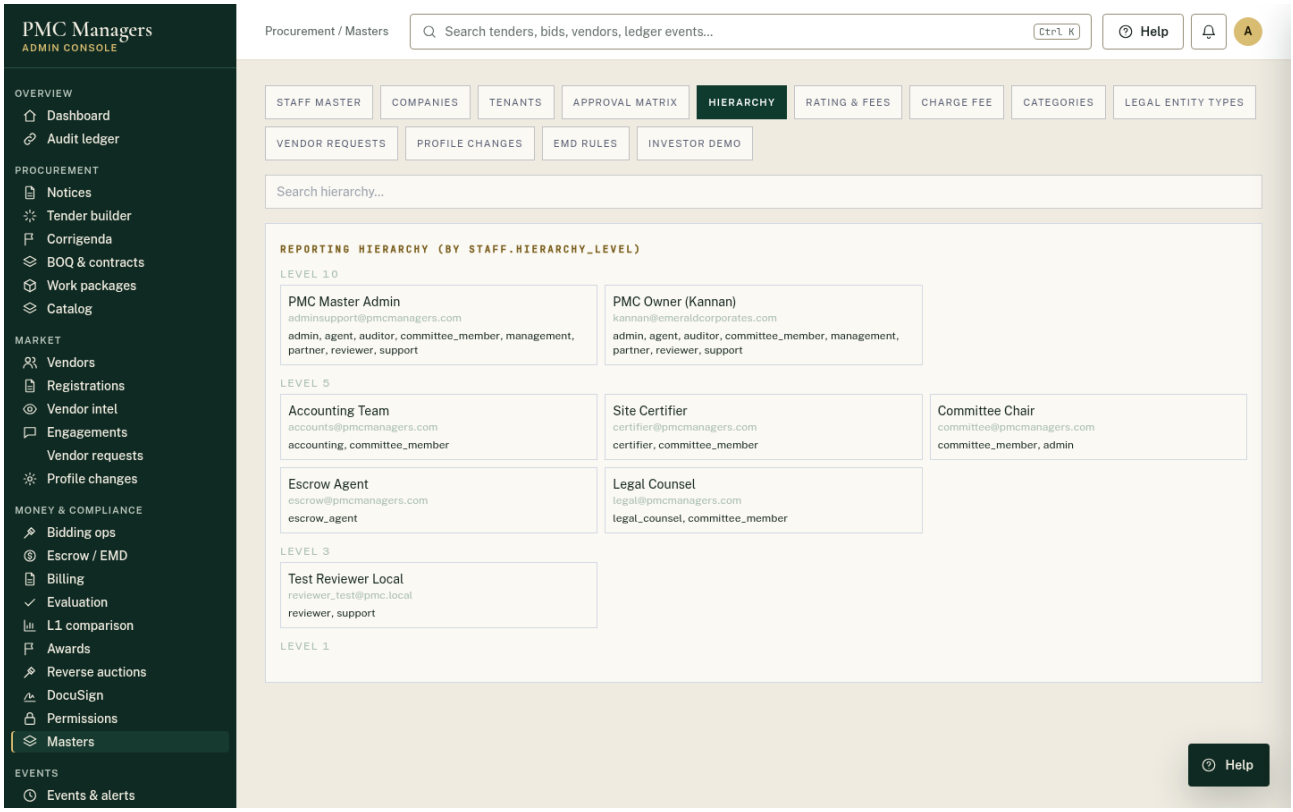

Figure 47.1 — Masters · Hierarchy (captured live).

## ANATOMY · EVERY ELEMENT ON THIS SCREEN

| | |
|---|---|
| **Level 0 · Admin** | Full access — publish, approve, override. |
| **Level 1 · Reviewer** | Draft + approve up to threshold; cannot publish. |
| **Level 2 · Committee / Staff** | Scoped action (certify, escrow-sign, evaluate). |
| **Level 3 · Support / Auditor** | Read-only — no writes ever. |

CHAPTER 48 · ADMIN

# Masters · Tenants

Multi-tenant registry. Every tenant has a code + name + kind + theme.

| | |
|---|---|
| **URL** | /admin/e/masters |
| **Role** | admin |
| **Admin tab** | masters |

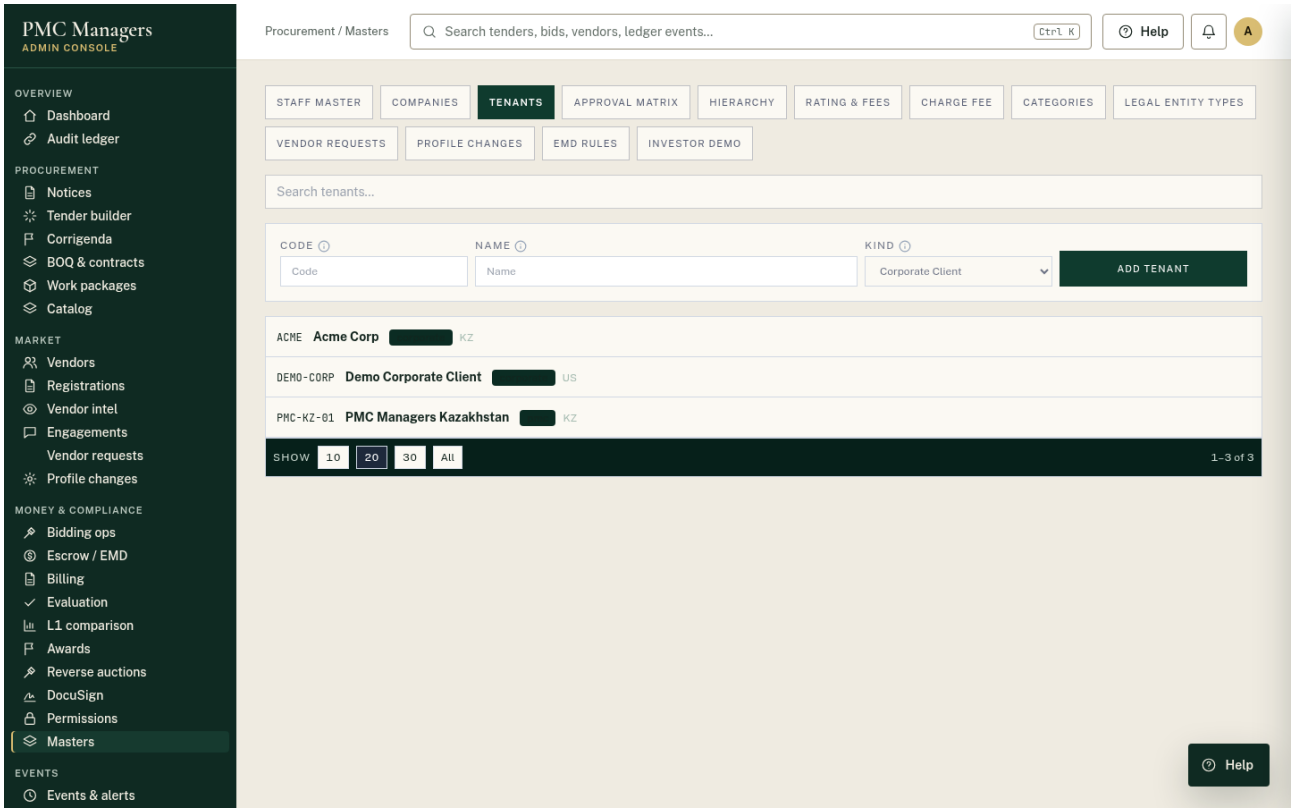

Figure 48.1 — Masters · Tenants (captured live).

## ANATOMY · EVERY ELEMENT ON THIS SCREEN

| | |
|---|---|
| **Code** | Short code (e.g. PMC, GOV-KZ, BUYR-01). |
| **Name** | Portal display name. |
| **Kind** | buyer · agency · government · council. |
| **+ Create** | Provisions a new tenant. Also seeds a default admin. |

# Masters · Staff · Clone role (MP-01 fix)

Every staff row has a 'Clone role' button that copies the roles + hierarchy level into the New-staff form.

| | |
|---|---|
| **URL** | /admin/e/masters |
| **Role** | admin |
| **Admin tab** | masters |

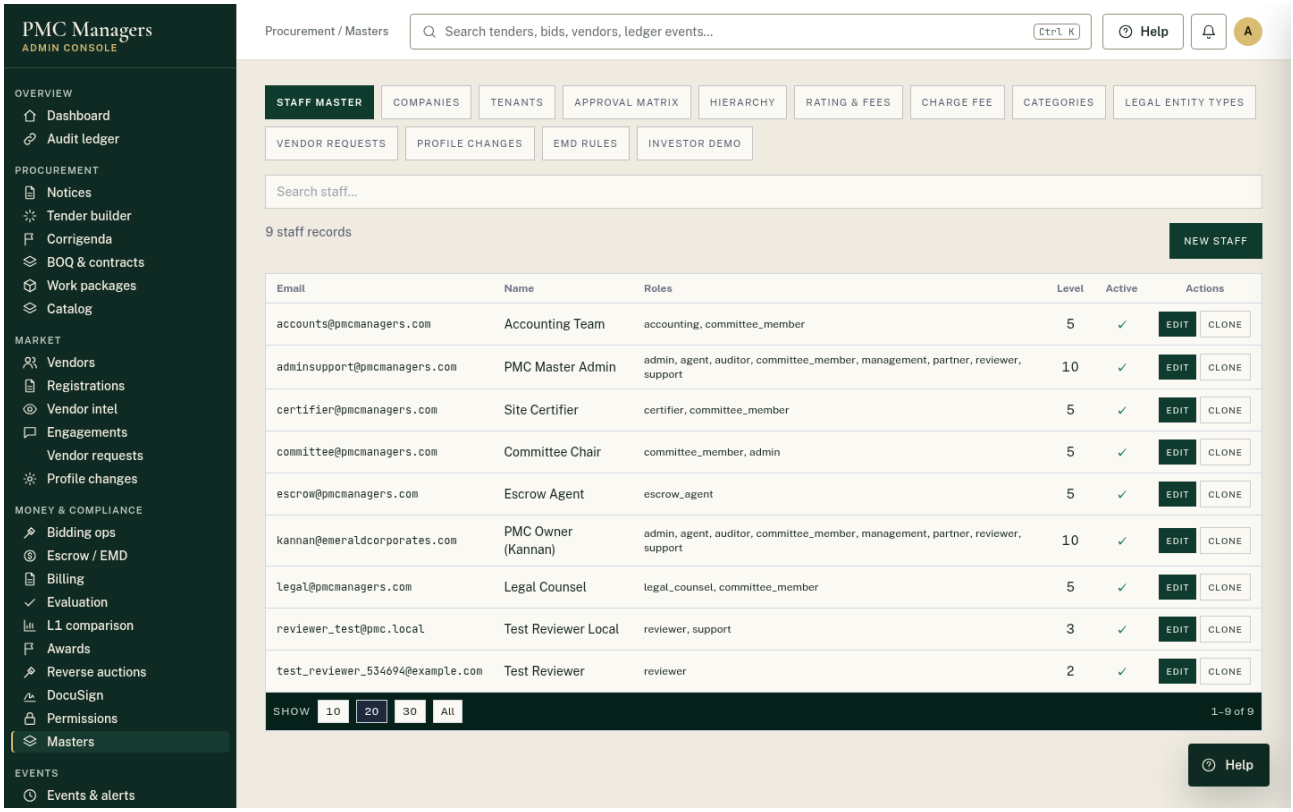

Figure 49.1 — Masters · Staff · Clone role (MP-01 fix) (captured live).

## ANATOMY · EVERY ELEMENT ON THIS SCREEN

| | |
|---|---|
| **Clone role button** | Copies roles + hierarchy_level of the source row into the new-staff form (email + name + password blank for the operator to fill). |

CHAPTER 50 · ADMIN

# Admin console · Permissions matrix (G2)

Audience: Mgmt · Ops

Effective role permissions — the merged view of Permissions Matrix + Hierarchy Level.

| | |
|---|---|
| **URL** | /admin/e/permissions |
| **Role** | admin |
| **Admin tab** | permissions |

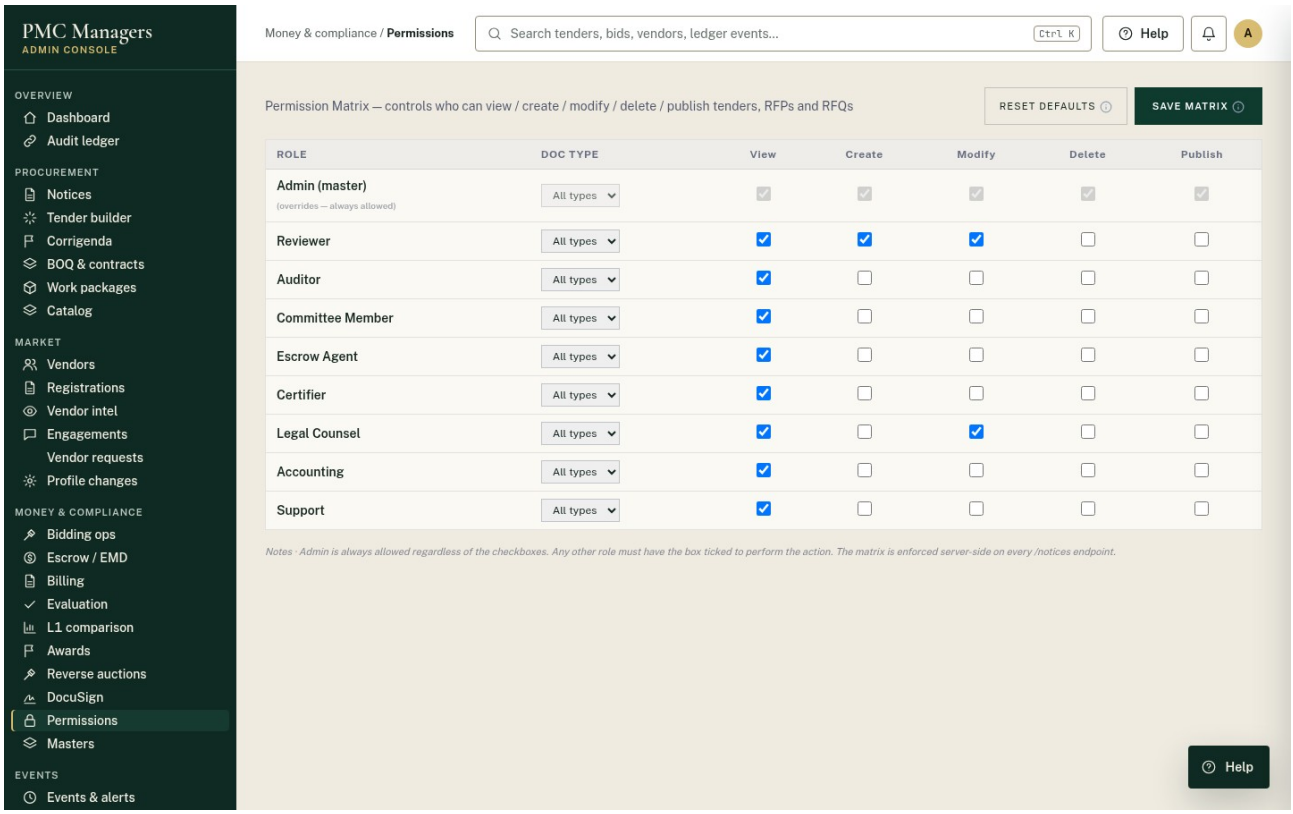

Figure 50.1 — Admin console · Permissions matrix (G2) (captured live).

## ANATOMY · EVERY ELEMENT ON THIS SCREEN

| | |
|---|---|
| **Role picker** | Pick a role to inspect its effective permissions. |
| **Tab × Action grid** | Every tab × every action (view / create / edit / publish / approve / delete). |
| **Green tick** | Allowed. |
| **Grey cross** | Not allowed. |
| **Hierarchy chip** | Displays the current Level for the picked role. |

## API REFERENCE

| Verb | Path | Notes |
|---|---|---|
| GET | `/api/v1/permissions/tabs/{role}` | Tabs allowed. |
| GET | `/api/v1/permissions/` | G2 merged view. |

| | | |
|---|---|---|
| | `effective/{role}` | |
| `PUT` | `/api/v1/permissions/tabs/{role}` | Save grid. |

## COMMON PITFALLS

- Editing this grid affects live sessions — users see the new permissions on next request (no re-login needed).

CHAPTER 51 · ADMIN

# Admin console · Package tracker

Audience: Ops

Kanban of packages by stage. Drag a card between columns to move it forward.

| | |
|---|---|
| **URL** | /admin/e/work-packages |
| **Role** | admin |
| **Admin tab** | packages |

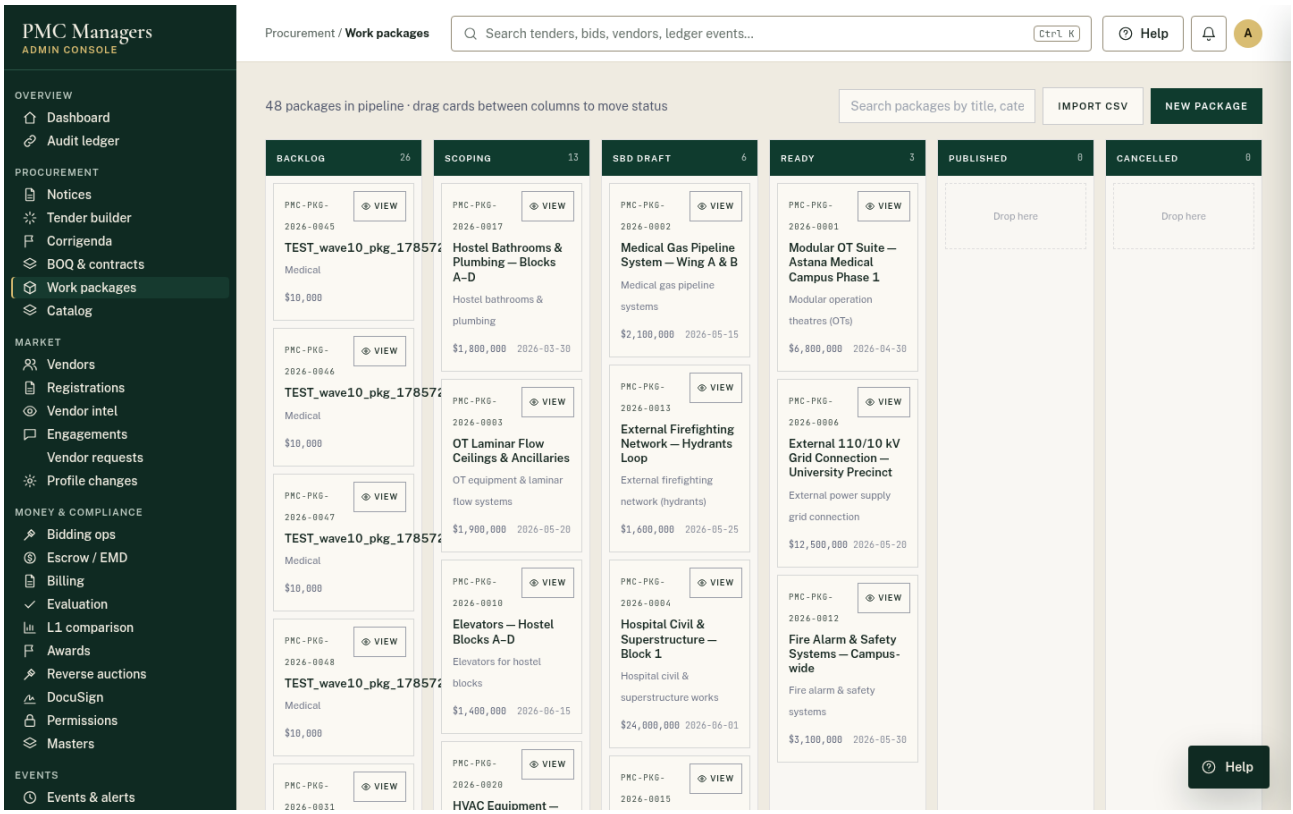

Figure 51.1 — Admin console · Package tracker (captured live).

## ANATOMY · EVERY ELEMENT ON THIS SCREEN

| | |
|---|---|
| **Columns** | Backlog · In progress · Review · Blocked · Done. |
| **Card** | Package title · owner · SLA countdown · linked notice_ref. |
| **+ New package** | Modal — title, owner, notice_ref, target date. |
| **Card drawer** | Click any card → drawer with sub-tasks + timeline + audit log. |

## API REFERENCE

| Verb | Path | Notes |
|---|---|---|
| GET | `/api/v1/packages` | List. |
| POST | `/api/v1/packages/{id}/move` | Drag-drop persistence. |

CHAPTER 52 · ADMIN

# Admin console · Audit log

Audience: Auditor · Mgmt

Every substantive action across the portal — actor · tenant · IP · user-agent · timestamp.

| | |
|---|---|
| **URL** | /admin/e/audit |
| **Role** | admin |
| **Admin tab** | audit |

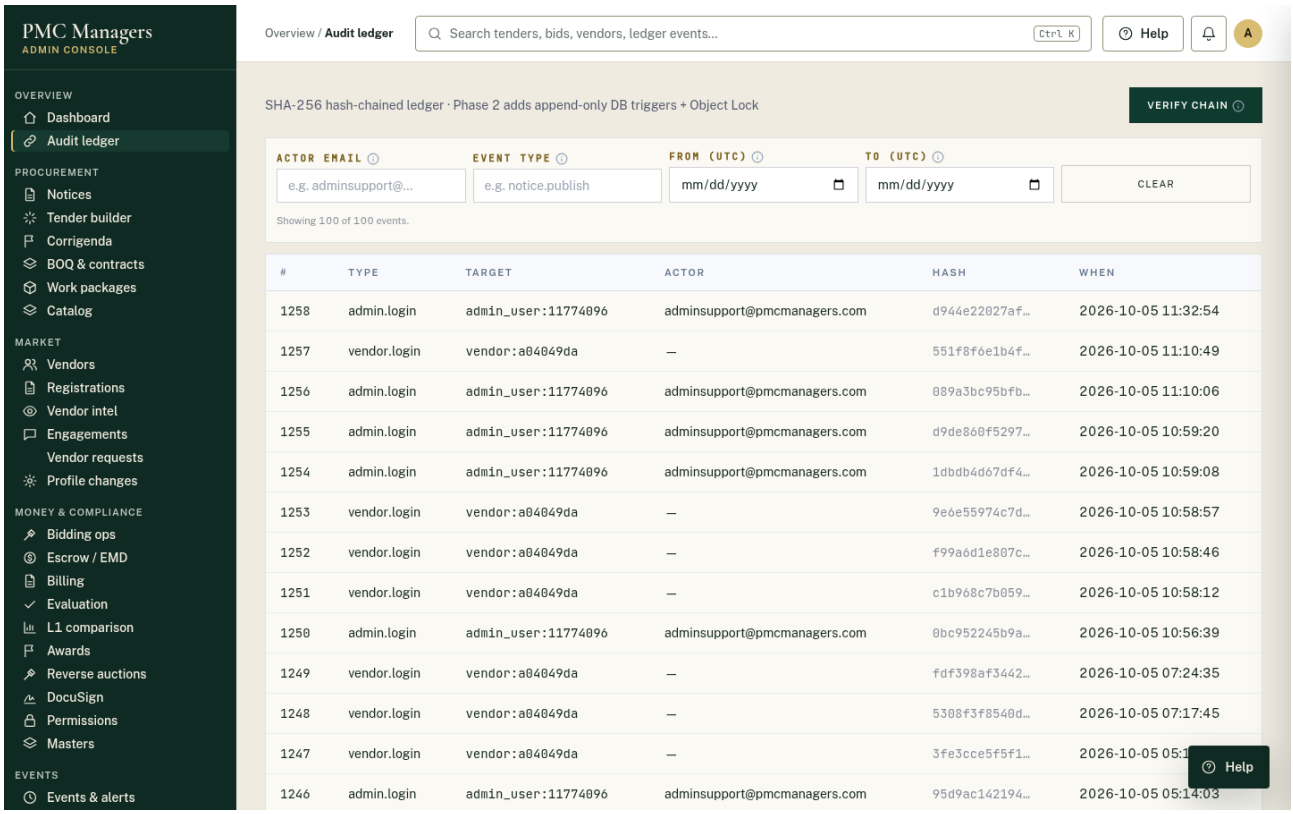

Figure 52.1 — Admin console · Audit log (captured live).

## ANATOMY · EVERY ELEMENT ON THIS SCREEN

| | |
|---|---|
| **Filter bar** | By actor · action type · entity · date range. |
| **Row** | Timestamp · actor · action · entity_ref · detail JSON. |
| **Export CSV** | Full range export. |

## API REFERENCE

| Verb | Path | Notes |
|---|---|---|
| GET | `/api/v1/audit?limit=100` | Paginated audit trail. |
| GET | `/api/v1/audit/export?fmt=csv` | CSV. |

CHAPTER 53 · ADMIN

# Admin console · Product catalog

Audience: Ops · Sales

Product / service SKU master used by the Engagements pipeline.

| | |
|---|---|
| **URL** | /admin/e/catalog |
| **Role** | admin |
| **Admin tab** | catalog |

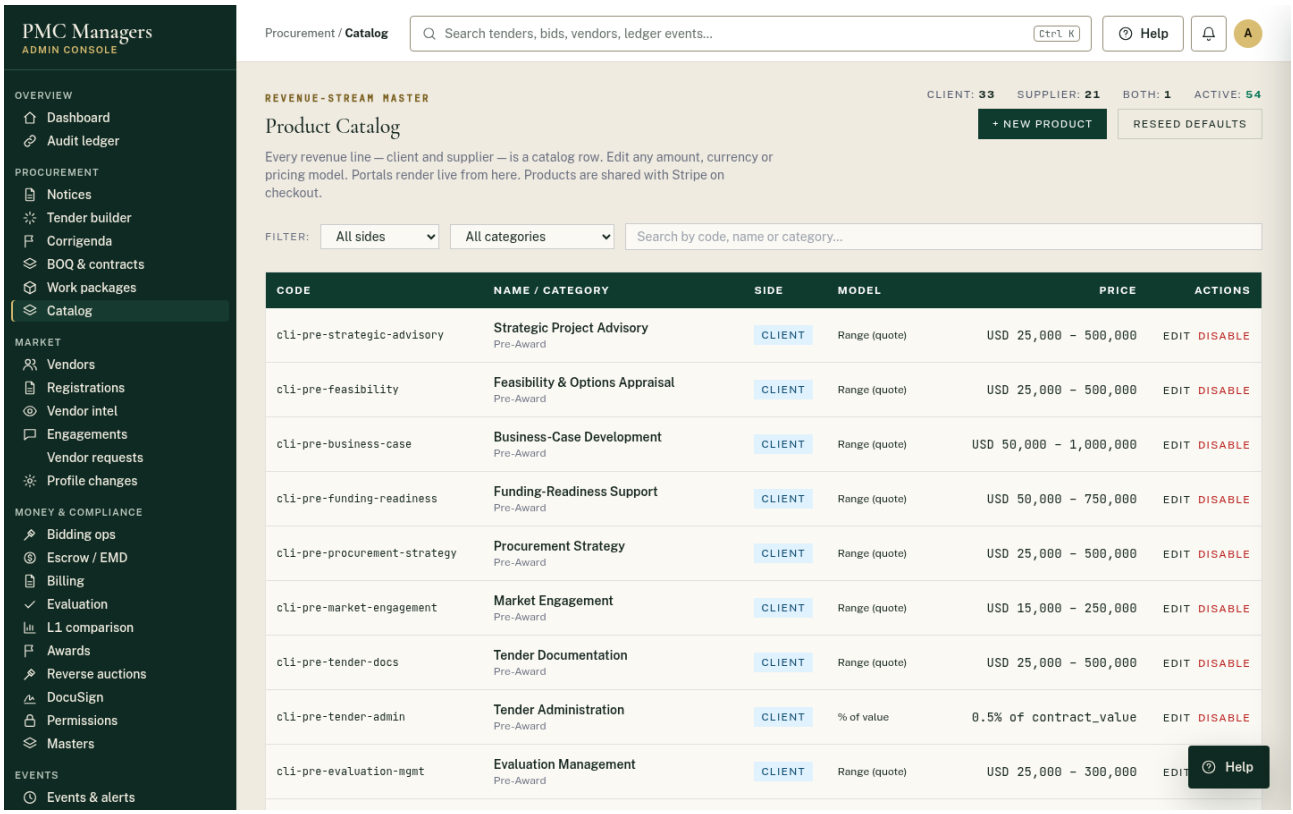

Figure 53.1 — Admin console · Product catalog (captured live).

## ANATOMY · EVERY ELEMENT ON THIS SCREEN

| | |
|---|---|
| **SKU row** | code · name · price · currency · active toggle. |
| **+ New SKU** | code + name + price + currency. |
| **Price-change history** | Every price update audit-logged with actor. |

## API REFERENCE

| Verb | Path | Notes |
|---|---|---|
| GET | `/api/v1/products` | List. |
| POST | `/api/v1/products` | Create. |

CHAPTER 54 · ADMIN

# Admin console · Engagements (quotes pipeline)

Audience: Sales · Ops

Quote requests → engagements. Aging buckets + cancel-with-reason.

| | |
|---|---|
| **URL** | /admin/e/engagements |
| **Role** | admin |
| **Admin tab** | engagements |

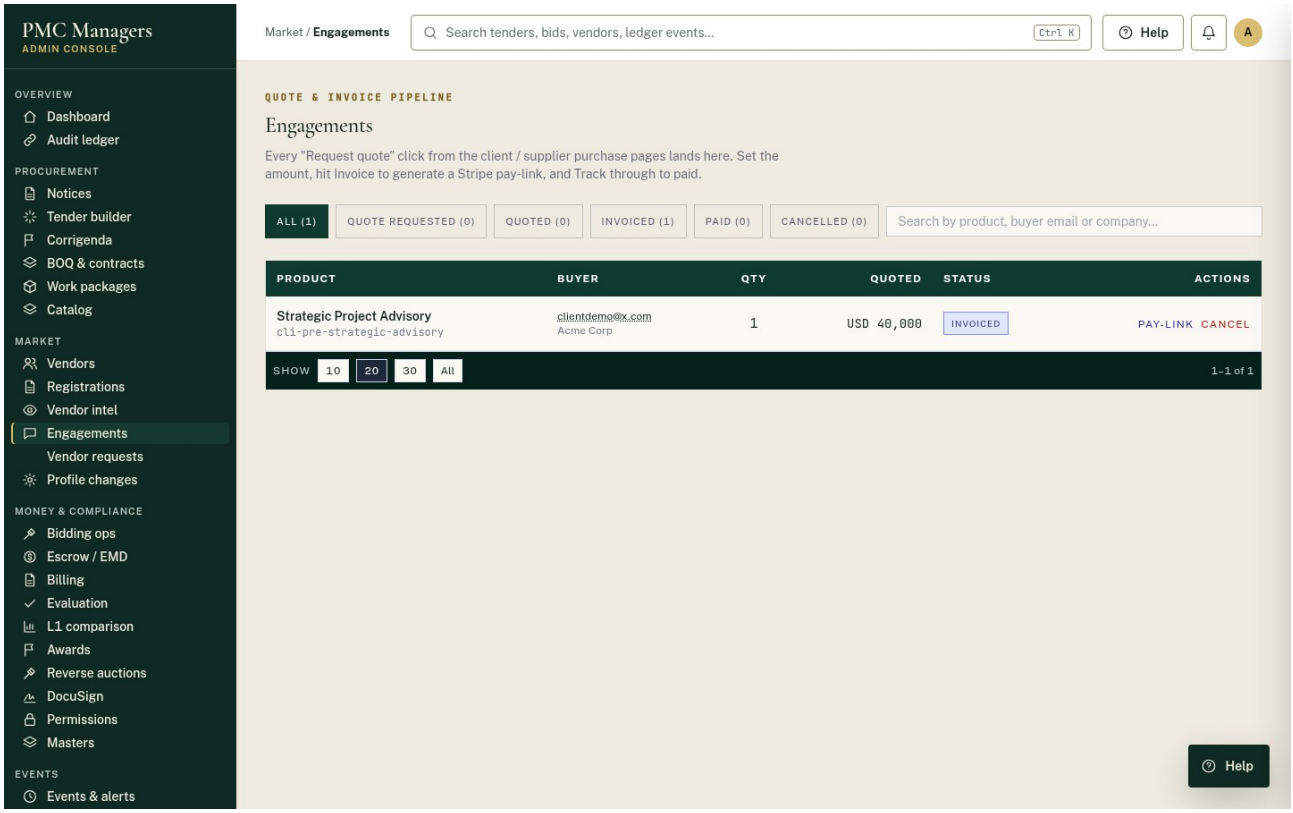

Figure 54.1 — Admin console · Engagements (quotes pipeline) (captured live).

## ANATOMY · EVERY ELEMENT ON THIS SCREEN

| | |
|---|---|
| **Stage tabs** | Quote requested · Sent · Accepted · Cancelled. |
| **Aging bucket** | 0-7d · 8-14d · 15-30d · 30+d. |
| **Cancel** | Requires reason ≥ 5 chars. |
| **Buyer row** | Buyer name — click to jump to Vendors (Bug EN-03). |

## API REFERENCE

| Verb | Path | Notes |
|---|---|---|
| GET | `/api/v1/engagements` | List. |
| POST | `/api/v1/engagements/{id}/cancel` | Body {reason}. |

CHAPTER 55 · ADMIN

# Admin console · Reports · Asked-vs-delivered

Audience: Mgmt

Asked-vs-delivered dashboard + printable flowcharts.

| | |
|---|---|
| **URL** | /admin/e/stakeholder-reports |
| **Role** | admin |
| **Admin tab** | reports |

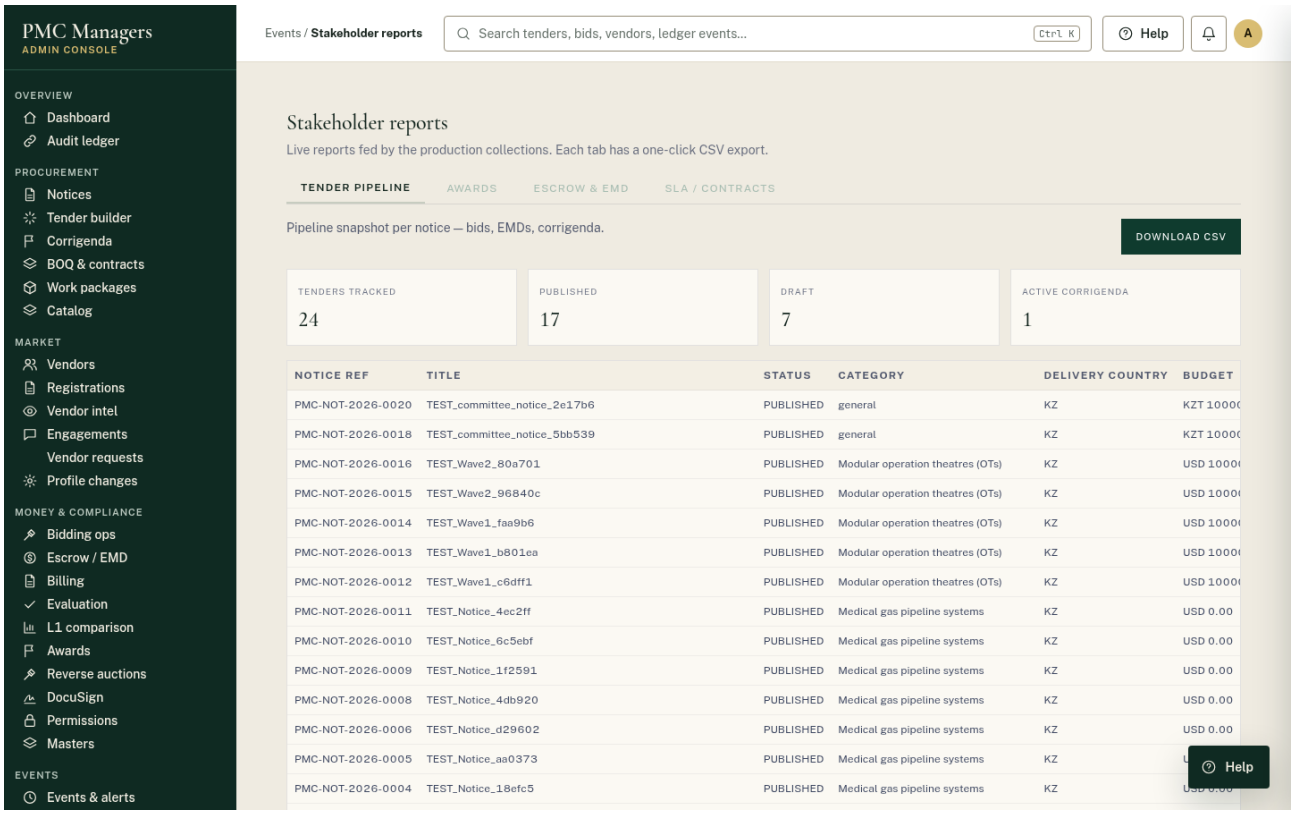

Figure 55.1 — Admin console · Reports · Asked-vs-delivered (captured live).

## ANATOMY · EVERY ELEMENT ON THIS SCREEN

| | |
|---|---|
| **Report picker** | Asked-vs-delivered · Flowcharts · Timesheet. |
| **Chart** | Bar/line with a legend + tooltip. |
| **Print** | Renders a print-optimised layout. |

## API REFERENCE

| Verb | Path | Notes |
|---|---|---|
| GET | `/api/v1/reports/asked-vs-delivered` | JSON. |

CHAPTER 56 · VENDOR

# Vendor portal · Dashboard

Audience: Vendor

Vendor home — Open tenders (browse + bid) · My bids · Signatures.

| | |
|---|---|
| **URL** | /vendor |
| **Role** | vendor |

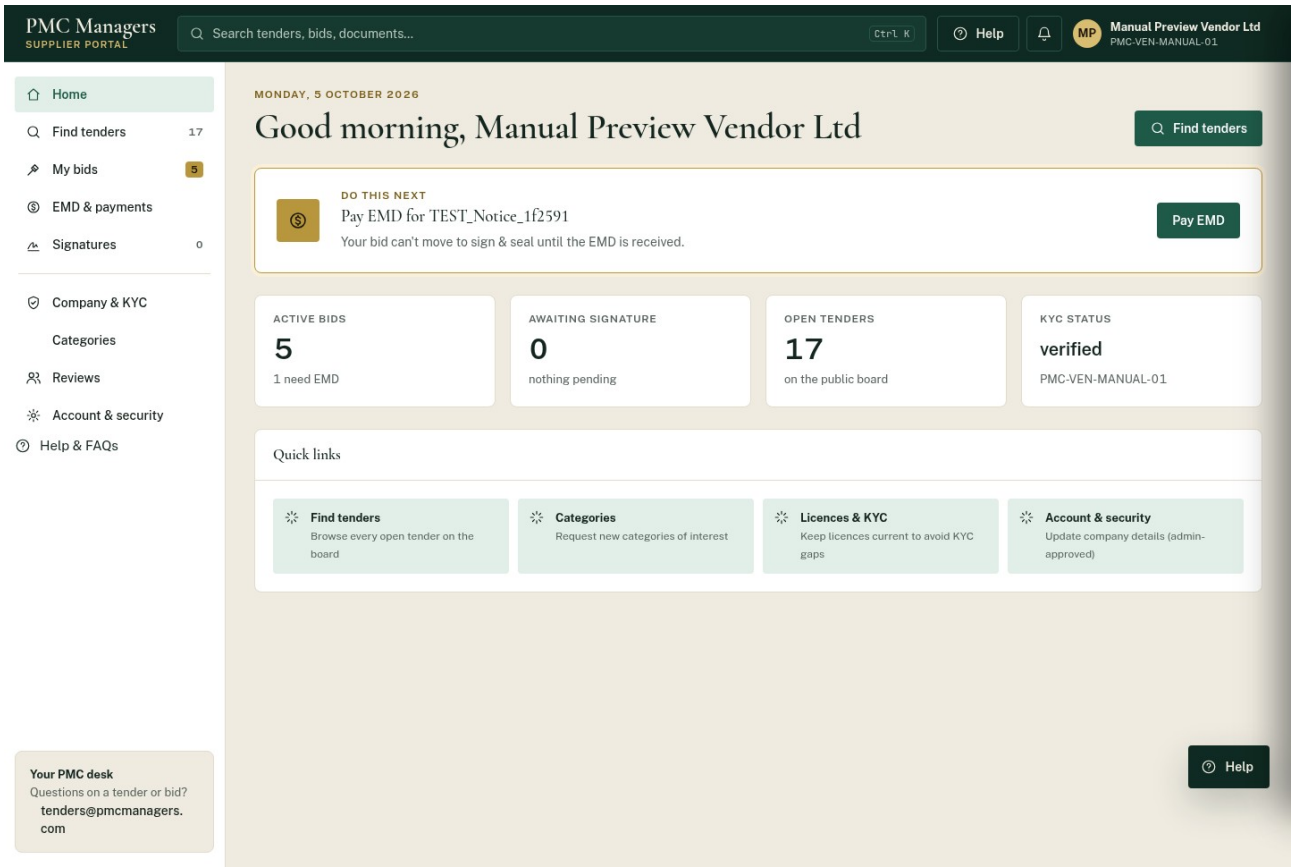

Figure 56.1 — Vendor portal · Dashboard (captured live).

## ANATOMY · EVERY ELEMENT ON THIS SCREEN

| | |
|---|---|
| **Top-bar chip** | Your vendor_ref + avatar. |
| **Open tenders tab** | Every published notice with a 'Submit bid' CTA. |
| **My bids tab** | Every bid you've submitted with its stage + AI compare status. |
| **Signatures tab** | Every DocuSign envelope you need to counter-sign. |
| **Delete my data** | GDPR forget — anonymises your account in-place. |
| **Sign out** | Clears the vendor cookie. |

## STEP-BY-STEP TUTORIAL

### STEP 1 · BROWSE OPEN TENDERS

Open tenders tab → click 'Submit bid' on any card → land on /vendor/bid/new/:ref.

### STEP 2 · SEE A BID'S STAGE

My bids tab → each row shows the pipeline stage (emd_pending, escrow_accepted, admin_flagged, awarded…).

### STEP 3 · COUNTER-SIGN AN ENVELOPE

Signatures tab → click a pending row → land on the DocuSign hosted page.

| API REFERENCE | | |
|---|---|---|
| **Verb** | **Path** | **Notes** |
| `GET` | `/api/v1/vendor/auth/me` | Current vendor identity. |
| `GET` | `/api/v1/notices?public=1` | Open tenders list. |
| `GET` | `/api/v1/bids/mine` | Vendor's own bids. |

CHAPTER 57 · VENDOR

# Vendor · Change password

Audience: Vendor

Rotate the vendor password. Same rules as admin (12 / 1U / 1D / 1S).

| | |
|---|---|
| **URL** | /vendor/change-password |
| **Role** | vendor |

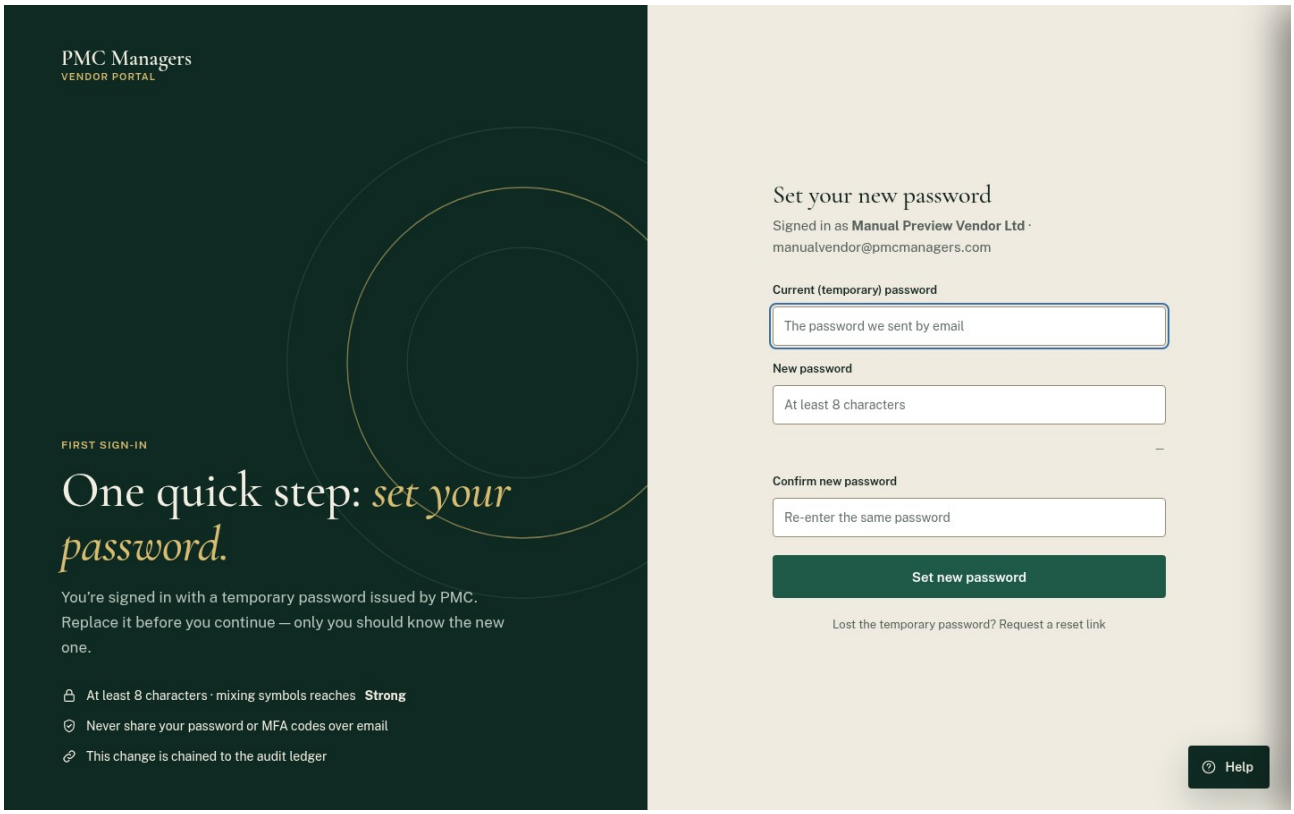

Figure 57.1 — Vendor · Change password (captured live).

## ANATOMY · EVERY ELEMENT ON THIS SCREEN

| | |
|---|---|
| **Current password** | Required. |
| **New password** | ≥ 12 chars, 1 upper, 1 digit, 1 symbol. |
| **Save** | POST /api/v1/vendor/auth/change-password. |

## API REFERENCE

| Verb | Path | Notes |
|---|---|---|
| POST | `/api/v1/vendor/auth/change-password` | Body {current_password, new_password}. |

## COMMON PITFALLS

- If must_change_password is true, no other route works until this succeeds.

CHAPTER 58 · VENDOR

# Vendor · Purchase services

Audience: Vendor

Buy add-on services (KYC upgrade, priority support). Stripe checkout.

| | |
|---|---|
| **URL** | /vendor/services |
| **Role** | vendor |

SUPPLIER PROGRAMME · TENDER-STAGE · POST-AWARD · SUPPLIER SUCCESS

# Supplier services & subscriptions

FILTER: ALL (21) | AWARD & MOBILISATION (1) | COST RECOVERY (1) | POST-AWARD (13) | SUPPLIER SUCCESS (3) | TENDER-STAGE (3)

TENDER-STAGE — SUP-TENDER-TRAINING
### Supplier Training (per delegate)
Tender workshops and procurement education.
*Optional unless critical for participation. Typical £500-£3,000.*
£1,500 PER DELEGATE — SUBSCRIBE

TENDER-STAGE — SUP-TENDER-EOP-CERT
### EOP Certification
Certified supplier programme for the Emergent Operating Platform.
*Optional but may be mandatory for specific roles. Typical £250-£2,000.*
£1,000 ONE-OFF — SUBSCRIBE

TENDER-STAGE — SUP-TENDER-INTEGRATION
### Optional Integration (API)
Optional inbound API/EOP integration setup.
*Optional. Priced against complexity.*
£2,500 – £25,000 QUOTED — REQUEST QUOTE

AWARD & MOBILISATION — SUP-TENDER-PROJECT-SETUP
### Project-Specific Setup & Mobilisation
Configuration/mobilisation of the supplier under an awarded contract (ERP integration up to £100k, EDI up to £50k).
*For awarded contracts.*
£10,000 – £100,000 QUOTED — REQUEST QUOTE

POST-AWARD — SUP-POST-PREMIUM-DASHBOARDS
### Premium Dashboards
Executive-grade dashboards over the supplier's own delivery data.
*Typical £250-£1,000/month.*
£600 PER MONTH — SUBSCRIBE

POST-AWARD — SUP-POST-PERF-ANALYTICS
### Performance Analytics
Deep analytics on delivery performance and trends.
*Typical £500-£2,500/month.*
£1,500 PER MONTH — SUBSCRIBE

Help

POST-AWARD — SUP-POST-CONTRACT-ARCHIVE
### Contract Archive
Long-term contract and evidence archive.
*Typical £100-£1,000/month.*
£500 PER MONTH — SUBSCRIBE

POST-AWARD — SUP-POST-PORTFOLIO-REPORTING
### Portfolio Reporting
Cross-contract portfolio reporting for suppliers with multiple projects.
*Typical £250-£3,000/month.*
£1,500 PER MONTH — SUBSCRIBE

POST-AWARD — SUP-POST-EXEC-REPORTING
### Executive Reporting
Board-ready reporting pack for supplier executives.
*Typical £1,000-£5,000/month.*
£3,000 PER MONTH — SUBSCRIBE

POST-AWARD — SUP-POST-ADDITIONAL-USERS
### Additional Users (seat)
Additional named user seats on the supplier workspace.
*Typical £20-£100 per user per month.*
£60 PER USER / MO — SUBSCRIBE

POST-AWARD — SUP-POST-DELIVERY-PERF
### Delivery Performance Reporting
Delivery performance reporting against contract KPIs.
*Typical £250-£1,500/month.*
£800 PER MONTH — SUBSCRIBE

POST-AWARD — SUP-POST-QUALITY-METRICS
### Quality Metrics
Quality metric collection and reporting.
*Typical £250-£1,500/month.*
£800 PER MONTH — SUBSCRIBE

POST-AWARD — SUP-POST-PROGRAMME-COMPLIANCE
### Programme Compliance
Programme-level compliance tracking and reporting.
*Typical £500-£2,500/month.*
£1,500 PER MONTH — SUBSCRIBE

POST-AWARD — SUP-POST-SAFETY
### Safety Performance Reporting
HSE / safety performance reporting.
*Typical £250-£1,500/month.*
£800 PER MONTH — SUBSCRIBE

POST-AWARD — SUP-POST-ESG
### ESG Reporting
ESG/sustainability reporting pack.
*Typical £250-£2,500/month.*
£1,500 PER MONTH — SUBSCRIBE

POST-AWARD — SUP-POST-PAYMENT-HISTORY
### Payment History Reporting

POST-AWARD — SUP-POST-KPI-TREND
### KPI Trend Analysis

SUPPLIER SUCCESS · SME — SUP-SUCCESS-SME
### Supplier Success — SME

Figure 58.1 — Vendor · Purchase services (captured live).

| ANATOMY · EVERY ELEMENT ON THIS SCREEN | |
|---|---|
| **Service cards** | Each add-on — name · price · benefits. |
| **Buy button** | Fires Stripe checkout session. |
| **Currency selector** | USD · INR · KZT. |

| API REFERENCE | | |
|---|---|---|
| **Verb** | **Path** | **Notes** |
| POST | `/api/v1/billing/checkout` | Creates Stripe session, returns URL. |

CHAPTER 59 · VENDOR

# Vendor · Sandbox checkout

Audience: Vendor · QA

Test payment page (sandbox mode) — used when Stripe is not configured.

| | |
|---|---|
| **URL** | /vendor/payment/sandbox |
| **Role** | vendor |

Figure 59.1 — Vendor · Sandbox checkout (captured live).

## ANATOMY · EVERY ELEMENT ON THIS SCREEN

| | |
|---|---|
| **Simulate success** | Redirects to /vendor/payment/success. |
| **Simulate cancel** | Redirects to /vendor/payment/cancel. |

CHAPTER 60 · VENDOR

# Vendor · Payment success

Audience: Vendor

Post-payment confirmation and receipt link.

| | |
|---|---|
| **URL** | /vendor/payment/success |
| **Role** | vendor |

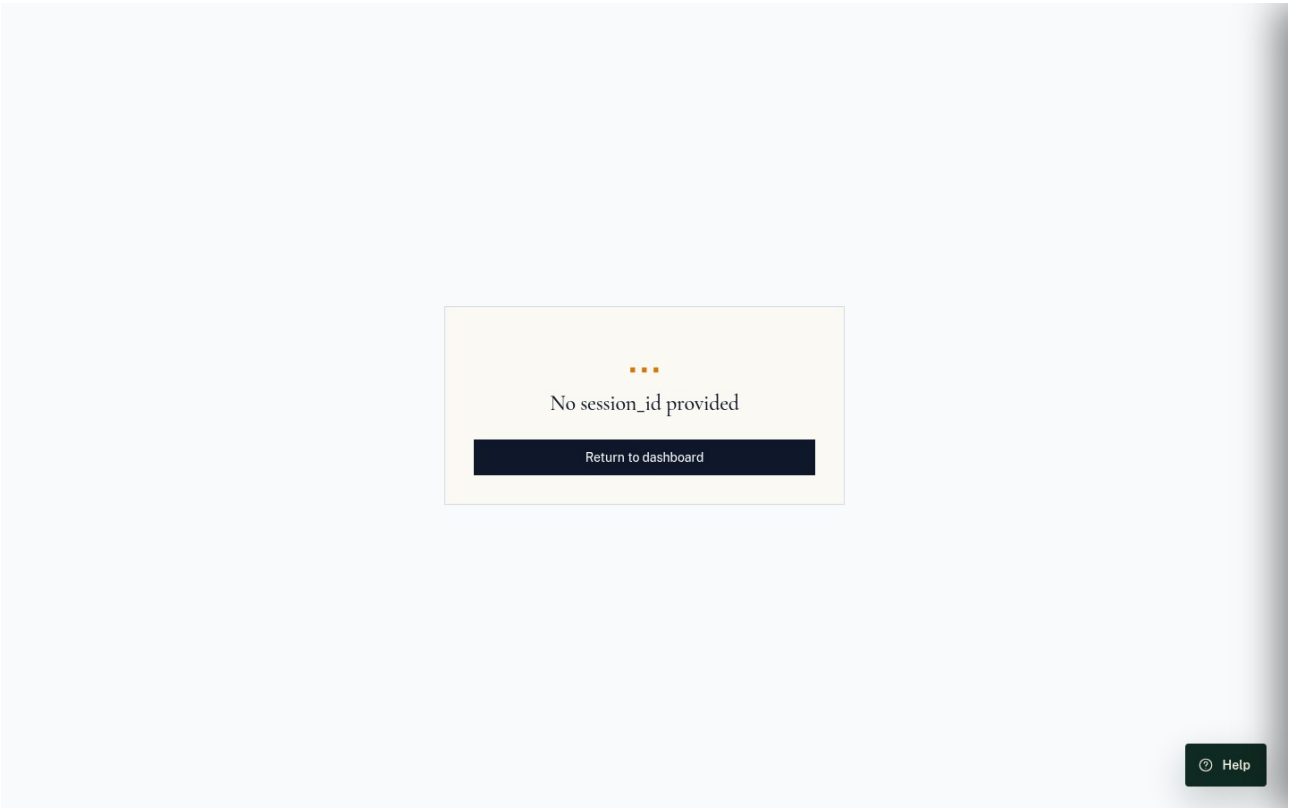

Figure 60.1 — Vendor · Payment success (captured live).

| ANATOMY · EVERY ELEMENT ON THIS SCREEN | |
|---|---|
| **Receipt link** | Fetches the Stripe/sandbox receipt PDF. |
| **Back to dashboard** | Return to /vendor. |

CHAPTER 61 · VENDOR

# Vendor · Payment cancelled

Audience: Vendor

Cancellation notice with a retry CTA.

| | |
|---|---|
| **URL** | /vendor/payment/cancel |
| **Role** | vendor |

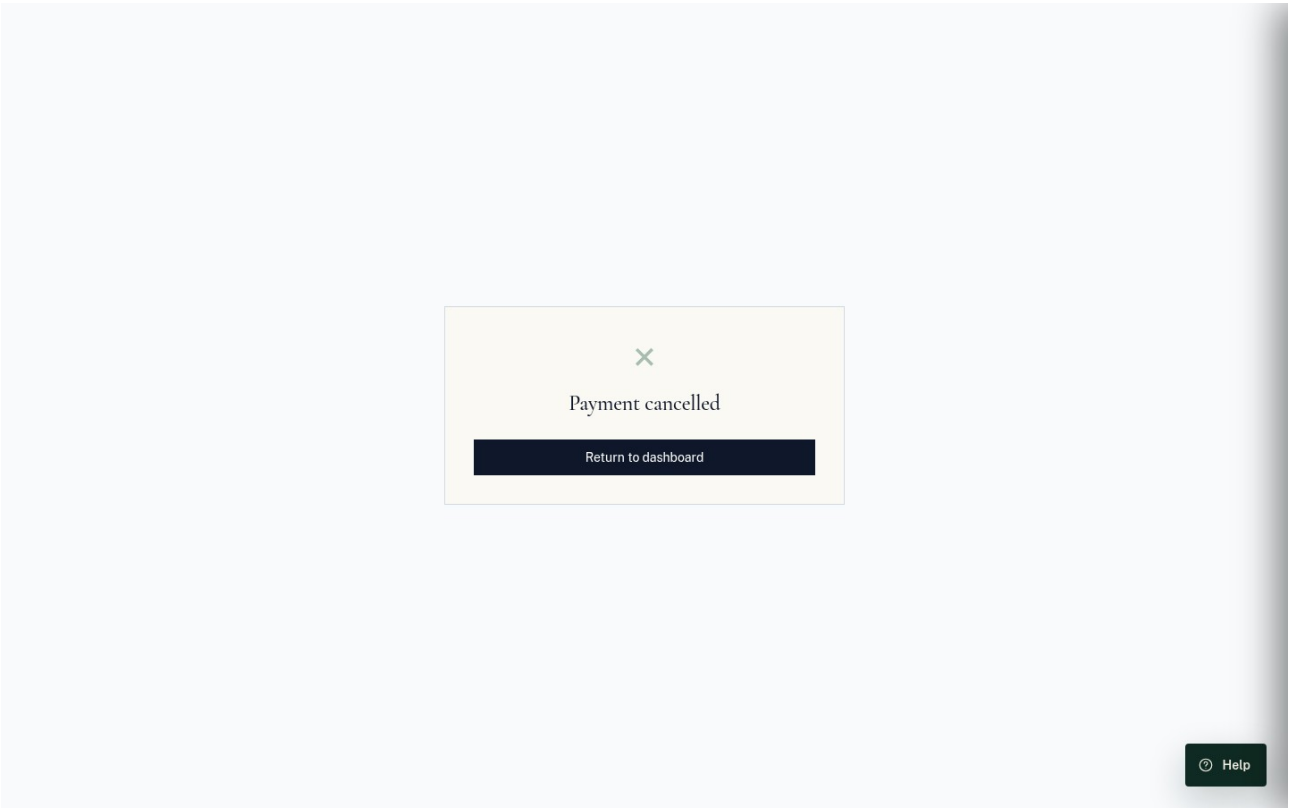

Figure 61.1 — Vendor · Payment cancelled (captured live).

## ANATOMY · EVERY ELEMENT ON THIS SCREEN

| | |
|---|---|
| **Retry payment** | Bounces to /vendor/services. |
| **Contact support** | Opens the help form. |

CHAPTER 62 · VENDOR

# Vendor · Submit a bid

Audience: Vendor

Bid submission form scoped to a single published notice. Captures technical + commercial envelopes and triggers Stripe checkout for the EMD.

| | |
|---|---|
| **URL** | /vendor/bid/new/PMC-NOT-2026-0020 |
| **Role** | vendor |

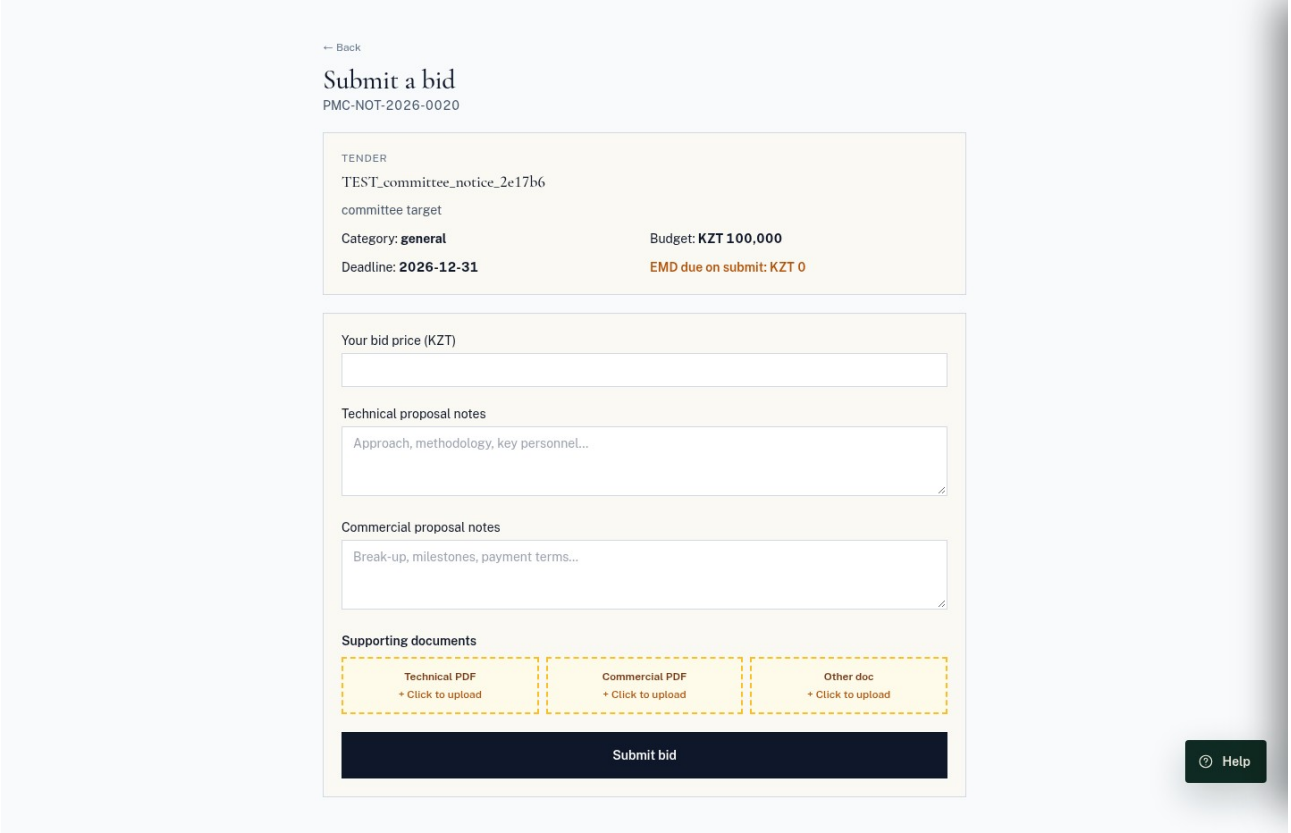

Figure 62.1 — Vendor · Submit a bid (captured live).

| ANATOMY · EVERY ELEMENT ON THIS SCREEN | |
|---|---|
| **Notice header** | notice_ref · title · deadline countdown. |
| **Technical envelope** | Upload each required document (from the linked Tender Builder template). |
| **Commercial envelope** | BOQ line-items or a lump-sum price + currency. |
| **EMD payment** | Fires Stripe checkout with the EMD amount configured on the notice. |
| **Submit bid** | Persists the bid + starts the pipeline at emd_pending. |

**API REFERENCE**

| Verb | Path | Notes |
|---|---|---|
| POST | /api/v1/bids | Body {notice_ref, price, currency, docs:[…]}. |

| | | |
|---|---|---|
| POST | /api/v1/payments/emd-checkout | Creates Stripe session for the EMD. |

## COMMON PITFALLS

- Bid cannot be submitted after the notice submission_deadline — deadline is enforced server-side.

CHAPTER 63 · VENDOR

# Vendor · Reverse auction room

Audience: Vendor

Live bidding room for a reverse auction. Real-time price ticker + downward-bid + anti-snipe extensions.

| | |
|---|---|
| **URL** | /vendor/auction/RA-MANUAL-0875 |
| **Role** | vendor |

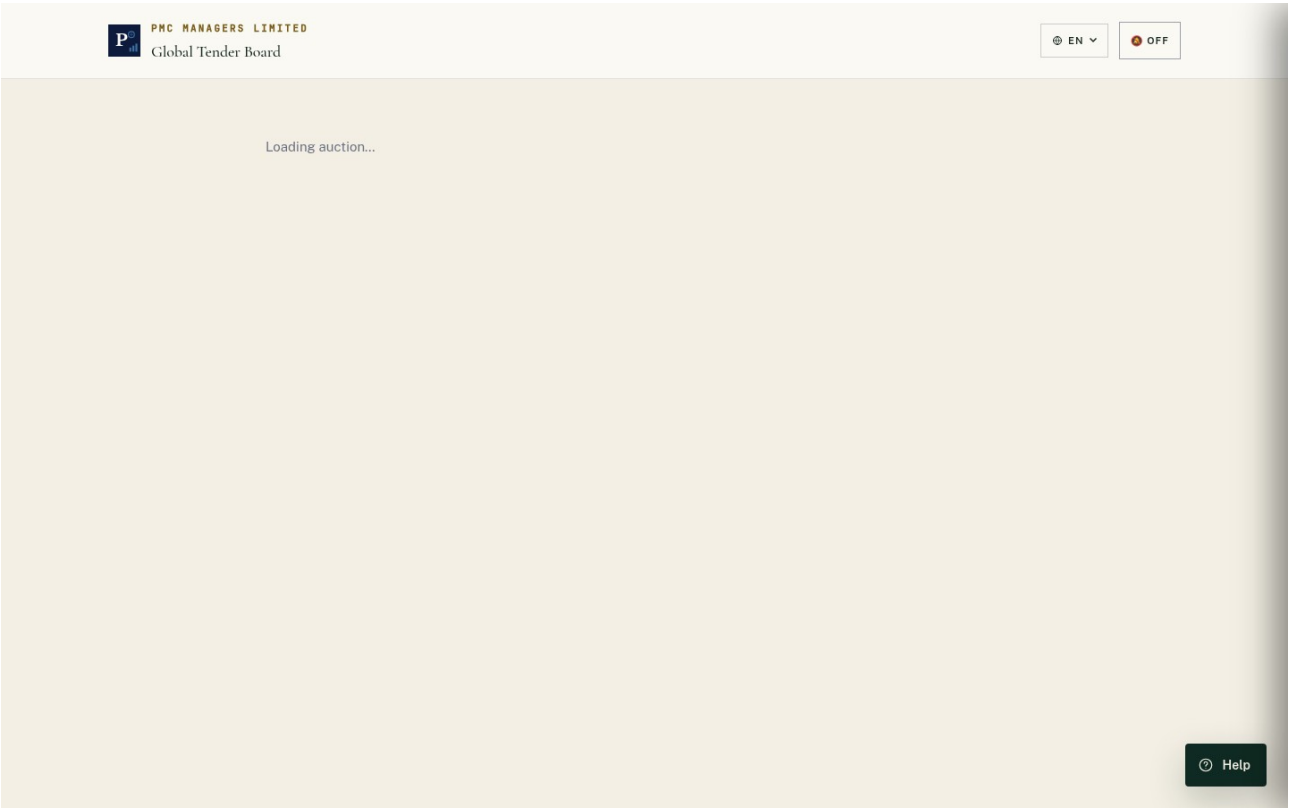

Figure 63.1 — Vendor · Reverse auction room (captured live).

| ANATOMY · EVERY ELEMENT ON THIS SCREEN | |
|---|---|
| **Current lowest** | Live lowest bid from any participant, updated via WebSocket. |
| **Time remaining** | Countdown to close. Anti-snipe extends by N seconds on last-second bid. |
| **Bid input** | Enter next price ≤ current – min_decrement. |
| **Autobid** | Set a floor + step to auto-bid until floor is reached. |

**API REFERENCE**

| Verb | Path | Notes |
|---|---|---|
| GET | `/api/v1/reverse-auctions/{aid}/state` | Current state (public). |
| POST | `/api/v1/reverse-auctions/{aid}/bid` | Submit a manual bid. |
| POST | `/api/v1/reverse-auctions/` | Configure autobid. |

{aid}/autobid

CHAPTER 64 · STAFF

# Staff portal · Dashboard

Audience: Staff

Role-scoped task inbox. Escrow agents see pending signatures; certifiers see site-inspection tasks; legal sees KYC reviews; accounting sees sign-offs.

| | |
|---|---|
| **URL** | /staff |
| **Role** | staff |

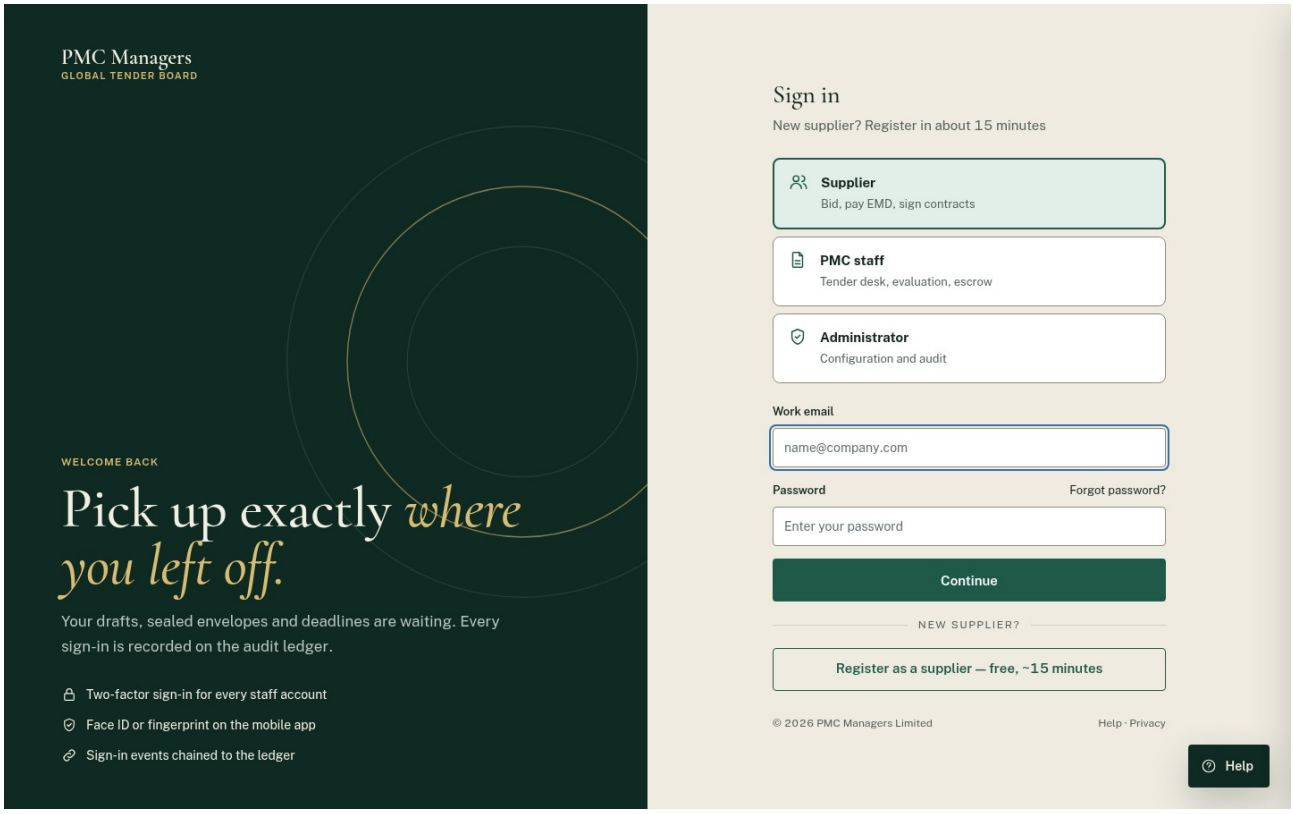

Figure 64.1 — Staff portal · Dashboard (captured live).

| ANATOMY · EVERY ELEMENT ON THIS SCREEN | |
|---|---|
| **Task list** | Task type · notice_ref · SLA countdown · CTA. |
| **Filters** | By role (if multi-role) + by status. |

**API REFERENCE**

| Verb | Path | Notes |
|---|---|---|
| GET | `/api/v1/tasks?assignee=me` | Assigned tasks for the current staff user. |

APPENDIX

# Troubleshooting cookbook

The most common 'stuck' moments and how to unblock them.

### I GET 'INVALID CREDENTIALS'

Copy-paste the password from your email; it is case-sensitive. If it still fails, use 'Forgot password' on the login card. Token TTL is 30 min. If your account is locked, wait 15 min or ask admin to unlock in Masters → Staff.

### THE PAGE IS BLANK

Hard-refresh (Ctrl+F5 / Cmd+Shift+R). If still blank, open browser dev-tools Console. A 401 error means your session expired — sign in again. A 500 error means the server had a problem — file a Help request with the request-id shown in the toast.

### A TAB IS GREYED OUT / SAYS 'ACCESS DENIED'

Your role is not in the Permissions Matrix for that tab. Ask admin to open Masters → Permissions Matrix and tick the (role, tab) intersection. Or verify Hierarchy Level — Level 3 is read-only.

### I CAN'T PUBLISH A NOTICE

Only Master Admin (Level 0) can publish. Sub-admins/reviewers must submit for approval; the publish checkbox is grey for them. Also: a notice cannot publish if a required Tender Builder template is missing an approval stamp.

### A FILE UPLOAD FAILS

Max 10 MB per file. Accepted: PDF / DOCX / XLSX / PNG / JPG. If the file is under 10 MB and still fails, the tenant may lack S3 credentials — check with admin.

### THE PUBLIC NOTICE BOARD IS EMPTY

Only status=published notices are shown publicly. Drafts + closed + withdrawn are hidden. Confirm the notice was published (Notices tab → Status pill).

### EMAILS AREN'T ARRIVING

Every outbound email goes through Resend. If the tenant has no EMAIL_KEY, no email is sent (no error either). Verify the tenant → Masters → Tenants → key status.

APPENDIX

# Version history

| | |
|---|---|
| **v5.0 · October 05, 2026** | Pilot-testing edition. Three admin panels intentionally hidden from the UI during external QA (backend routes intact). All external references purged. Base URL updated to www.pmcmanagers.com throughout. Ready for investor review. |
| **v4.0 · September 04, 2026** | Bug-fix showcase edition. Added chapters for V-02 vendor status filter, N-02 template jump-link, T-01 Tender Builder ALL KINDS view, E-03 Escrow reconciliation, RA-01 post-auction summary, MP-01 Masters clone role, AU-01 Audit filter bar, EN-03 Engagements buyer jump. Registration wizard sections A–E, vendor bid submit, reverse-auction room, meeting room and escrow-officer magic-link pages captured live via seeded runtime tokens. 71 screens total. |
| **v3.0 · September 04, 2026** | Novice-grade rewrite. Every screen captured full-page. Glossary + acronym index + Day-1 quickstart added. Sub-tabs for masters/boq/evaluation/tender-builder walked separately. Vendor + staff portals captured post-login. |
| **v2.0 · September 04, 2026** | Deep-dive edition. 16 core modules + 12 non-core stubs. First inclusion of API tables per screen. |
| **v1.x · August 2026** | Ops handbooks (Trainee v1/v3.1/v3.2). Screenshot manual v1. |

APPENDIX

# Support & escalation

For portal issues, open a Help request from any authenticated screen (Help → New request) — the request ID is stamped in the toast and mailed to support. For urgent outages, escalate to the on-call ops manager via the phone tree published in Masters → Staff.
